AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE REPUBLIC OF CHINA UNDER SECTION 3 (c) OF THE LEND-LEASE ACT

As parties signatory to the United Nations Declaration of January 1, 1942, the Governments of the United States of America and the Republic of China have pledged themselves to employ their full resources, military and economic, against those nations with which they are at war. 55 Stat. 1600.

The Government of the United States of America and the Government of the Republic of China in further implementation of their Mutual Aid Agreement of June 2, 1942, desire to insure the continuing provision of defense articles, services and information for the Chinese armed forces, including equipment and training, during the period of reoccupation by the Republic of China of its areas occupied by the forces of Japan and of the disarmament and repatriation of Japanese forces remaining on Chinese territory, and during the period of occupation of Japan by the forces of the Republic of China, the United States of America and their allies. 56 Stat. 1494.

Wherefore, the Government of the United States of America and the Government of the Republic of China agree as follows:

ARTICLE I

All aid undertaken to be provided by the Government of the United States of America under this Agreement shall be made available under the authority and subject to the terms and conditions of the Act of March 11, 1941, as amended, and any appropriation acts thereunder. Authority for aid. 55 Stat. 31. 22 U. S. C. §§ 411-419.

ARTICLE II

The Government of the United States of America will continue after June 30, 1946 to supply the Government of the Republic of China with such defense articles, defense services and defense information as the President of the United States of America shall authorize to be supplied Supply of defense articles, etc., to China.

(a) for the purpose of the reoccupation of China and the disarmament and repatriation of Japanese troops during a period of time ending on or before October 31, 1946, and in an amount not exceeding $25,000,000 in terms of cost incurred by the Government of the United States of America,

(b) for the purposes of the occupation of Japan for the period of such occupation, but in no event after June 30, 1949, and in an amount determined by the Senior United States Commander in Japan to be necessary to supplement the articles, services and information available to the Chinese forces from the resources of the Republic of China, and

(c) for the purposes of training, in the United States and elsewhere, of members of the Chinese armed forces, including the so-called air, naval, ground and medical training programs, during the period of time required for the completion of such training but in no event after December 31, 1947, and in an amount not exceeding $15,000,000 in terms of cost incurred by the Government of the United States of America,

subject to the provisions of Article III hereof.

ARTICLE III

Price. The appropriate price to be charged the Government of the Republic of China, as determined by the Government of the United States of America, for articles, services and information furnished to the Government of the Republic of China under Article II hereof shall be paid by the Government of the Republic of China to the Government of the United States of America upon presentation of bills therefor.

ARTICLE IV

Transfers. Transfers made under the authority of this Agreement shall in all respects be subject to the terms of Articles III and IV of the Agreement of June 2, 1942 between the Government of the United States and the Government of the Republic of China.

ARTICLE V

Nothing in this Agreement shall modify or otherwise affect the final determination, under the Act of March 11, 1941, as amended, and the Mutual Aid Agreement between the two Governments of June 2, 1942, of the terms and conditions upon which the Republic of China has received aid except for the articles and services made available under the provisions of this Agreement.

The American Legation to the Hungarian Ministry for Foreign Affairs

LEGATION OF THE
UNITED STATES OF AMERICA

No. 221

Interment of American military personnel.

The American Legation presents its compliments to the Ministry for Foreign Affairs and has the honor to submit for the consideration of the Hungarian Government the text of a bi-lateral agreement which the United States Government desires to conclude with the Hungarian Government concerning the interment of American military personnel in Hungary.

"The following shall govern relative to the disposal of the remains of deceased persons who were citizens of the United States and/or who served or who accompanied the armed forces of the United States and are now buried in Hungary or any possession or territory now or hereafter subject to the control of the Hungarian Government.

U. S. rights, etc.

"1. The United States, through its duly designated representatives, shall have the following rights, privileges and prerogatives:

Temporary cemeteries.

"A. The Government of the United States shall have the right to establish and maintain such temporary cemeteries as are necessary for the burial of deceased persons subject to its control and to make exhumations therefrom for repatriation or concentration into other cemeteries abroad, and may move bodies from other countries into and/or through Hungary and its territories and possessions for interment and/or transhipment.

Exemption from national laws relating to permits for disinterment, etc.

"B. The Government of the United States shall be exempt from all national, local, or other laws and/or regulations relating to the permits for disinterments; sanitation, upon an assurance that such work will be conducted in a manner not detrimental to public health; and from the payment of any duties, taxes, or fees of any kind required for the burial, disinterment for reburial or movement of bodies or the maintenance of graves.

Free entrance and exit, etc.
Post, p. 3900.

"C. The Government of the United States shall have the right of free entrance and exit for all personnel, supplies, transportation (air, mail, animal, motor, and water) serving or belonging to the United States and the use of air fields, port facilities, warehousing, living quarters, office space, rail and water transportation and the right to

Employment of labor.

employ labor in Hungary, its territories and possessions, essential to the accomplishment of its mission upon payment of just compensation therefor.

"D. The Government of the United States shall have the unrestricted right of search for the remains of members of its armed forces, and/or its citizens. Search for remains.

"E. The Government of the United States shall have the unrestricted right to examine and copy all records, military or civilian, which may be of assistance in locating the graves, or identifying the remains of its deceased military or civilian personnel. *Post*, p. 3900.

"F. The Government of the United States shall have the right to question and examine citizens of Hungary and to take affidavits in furtherance of its search for, and identification of remains of members of its armed forces, and/or its citizens. *Post*, p. 3900.

"2. The Government of Hungary will render all possible assistance in locating and securing the effects of deceased military and civilian personnel of the United States, and upon demand and the furnishing of a proper receipt will turn over to representatives of the United States all effects so located and secured. Assistance from Hungarian Government.

"3. If in the future the Government of the United States wishes to establish permanent cemeteries or erect memorials in Hungary, the Hungarian Government will exercise its power of eminent domain to acquire title to such sites and grant to the United States the right to use therein in perpetuity upon payment by the United States of just compensation therefor. Any sites acquired including improvements thereto and buildings constructed thereon shall be exempt from any and all form of taxation, direct or indirect. The provisions of paragraphs 1–A, B, and C will apply in the construction and maintenance of such permanent cemeteries and memorials as may be desired."

The above proposed agreement in effect confirms an understanding between the United States Military Mission and the former Mayor of Budapest, Mr. Vas Zoltan. The Legation understands that in accordance with this agreement, the city of Budapest on September 14, 1945, issued Decree No. 179,880/1945 X establishing a temporary cemetery for American military personnel and that two letters signed by Mr. Vas dated September 7, 1945 (reference no. 179,249) and September 14, 1945 (reference no. 179,880) implemented this decree by assigning property and by directing the carrying out of arrangements for improvements and buildings. Budapest decree of Sept. 14, 1945.

The United States Government desires to emphasize that in proposing this bi-lateral agreement it is not its intention to make a permanent arrangement for the establishment of a military cemetery but only to assure the right of temporary burial.

The Legation would appreciate the courtesy of the Ministry for Foreign Affairs in advising it whether the agreement set out above is acceptable to the Hungarian Government and, if so, will be glad to receive as urgently as may be possible the confirmation of the Ministry

to that effect so that the agreement represented by the present exchange of notes may be considered as being in force.

The Hungarian Ministry for Foreign Affairs to the American Legation

Hungarian Ministry for Foreign Affairs.

VERBAL NOTE.

The Hungarian Ministry for Foreign Affairs presents its compliments to the Legation of the United States of America and, with reference to the Legation's Note N° 221 of June 18th, 1946, concerning the conclusion of a bi-lateral agreement between the Hungarian Government and the United States Government on the interment of American military personnel in Hungary, has the honor to inform the hon. Legation that the Hungarian Government is ready to conclude a bi-lateral agreement with the United States Government by way of an exchange of Notes.

Ante, p. 3898.

As to Art. 1 points A and B of the projected agreement /mentioned in the Legation's Note/ they are acceptable for the Hungarian Government without any objection. As to Point C of Art. 1 the Hungarian Government has the honor to remark that actually the right of free entrance to and exit from Hungary depends on the permission of the Allied Control Commission in Hungary even for citizens of the United Nations. This restriction also concerns the entrance and exit of supplies and transportations of any kind /air, mail, animal, motor and water/. It must be mentioned here that Hungarian air-ports are not all under the control of the Hungarian Government. The use of Hungarian air-ports shall be in any case subjected to the respect of the agreement with the Hungarian Russian Civilian Air-Transport Company.

Ante, p. 3898.

Point D is acceptable for the Hungarian Government.

Ante, p. 3899.

As to point E, the Hungarian Governement has the honor to object that this point cannot be interpreted in the sense that the authorities of the United States shall have the *unrestricted* right to examine the Hungarian Archives. This point should be changed to the effect that the Hungarian authorities shall be obliged to submit to the American authorities for official use and copying all records which may be of assistance in locating graves, or identifying the remains of deceased American military or civilian personnel.

Ante, p. 3899.

Point F of the projected agreement /right to question and examine citizens of Hungary and to take affidavits in furtherance of its search for and identification of remains of members of its armed forces, and for its citizens/ could be accepted with the restriction that declarations to be made under oath by Hungarian citizens can be carried out only by way of the competent Hungarian Tribunals of 1st instance/Justices

of Peace/ and therefore American authorities shall be obliged to address themselves to the competent Hungarian Tribunal /forum loci/.

In case the Government of the United States of America would be inclined to accept the above-mentioned restrictions the projected bilateral agreement could come into force on the day when the Hungarian Government will be informed of the acceptance of the said restrictions.

The American Legation to the Hungarian Ministry for Foreign Affairs

LEGATION OF THE
No. 294 UNITED STATES OF AMERICA

The Legation of the United States presents its compliments to the Hungarian Ministry for Foreign Affairs and has the honor to refer to the Ministry's note no. 103.606/–10a–1946 concerning the conclusion of the bi-lateral agreement between the Hungarian Government and the United States Government on the interment of American military personnel in Hungary.

Ante, p. 3899.

The United States Government accepts the modifications of Article I, Sections E and F as proposed in the Ministry's note under reference. Accordingly the agreement as proposed in the Legation's note no. 221 of June 18, 1946 and as modified in the Ministry's note under reference is considered to be in effect from this date.

U. S. acceptance of modifications.

Agreement between the United States of America and Ecuador respecting a cooperative educational program in Ecuador, extending and modifying an agreement of January 22, 1945. Effected by exchange of notes signed at Quito October 2 and November 14, 1947; effective from January 22, 1948.

The American Chargé d'Affaires ad interim to the Ecuadoran Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 325

Quito, October 2, 1947

EXCELLENCY:

I have the honor to refer to the exchange of notes between His Excellency Sr. Dr. Camilo Ponce Enriquez, Minister for Foreign Affairs of the Government of Ecuador, and The Honorable Robert McGregor Scotten, Ambassador of the United States to the Government of Ecuador, on January 22, 1945, concerning the establishment of a cooperative education program in Ecuador. It will be recalled that my Government agreed to send a small staff of experts and technicians to Ecuador to cooperate with officials of the Ecuadoran Government and, particularly, with the Minister of Public Education, in a specific program for the improvement of public education in Ecuador in accordance with a detailed agreement to be worked out between the Ministry of Public Education and the Inter-American Educational Foundation, Inc.

61 Stat., Pt. 3, p. 3257.

Following the exchange of the above communications, details with regard to the execution of the program were agreed to by the Minister of Public Education and the President of the Inter-American Educational Foundation, Inc. In accordance with this agreement there was established within the Ministry of Public Education the Servicio Cooperativo Interamericano de Educacion through which the cooperative program has been administered.

In accordance with recent legislation passed by the Congress of the United States of America, all of the property, assets, functions, personnel, liabilities and restrictions of the Inter-American Educational Foundation, Inc., have been transferred to and assumed by The Institute of Inter-American Affairs, the now corporate instrumentality of the United States Government created by such legislative action.

Additional funds.

I have now been informed by the Department of State in Washington that additional funds amounting to $7,168 U.S. currency have been made available by The Institute of Inter-American Affairs for the continuation of the joint education program in Ecuador to be expended over a period to be mutually agreed upon by the appropriate officials of the Ecuadoran Government and a representative of The

Institute of Inter-American Affairs. It has been suggested that the extension of the program cover the period from the expiration date of the present agreement, which is January 22, 1948, through June 30, 1948. It is proposed that the entire additional contribution of $7,168 U. S. currency, to be made available by the Institute in connection with the continuation of the program, shall be retained by the Institute for payment directly or on account of salaries and other expenses of members of the Institute field staff who are maintained by the Institute in Ecuador. It is also understood that your Government would contribute to the Servicio for expenditure by that entity not less than the equivalent in sucres of $7,000 U.S. currency, computed at the rate of exchange of 13.4 sucres to the dollar in addition to amounts already required under the present agreement to be contributed to the program by your Government.

If Your Excellency agrees that the proposed arrangement as outlined above is acceptable to your Government, I would appreciate receiving an expression of Your Excellency's opinion and agreement thereto as soon as may be possible in order that the technical details of the program may be worked out by the Ministry of Public Education and The Institute of Inter-American Affairs.

Should Your Excellency advise me that the proposed arrangement is acceptable it would be possible to proceed with the signing of the extension agreement in the name of the Institute immediately, inasmuch as Dr. Pedro Osuna, Special Representative Education Division, The Institute of Inter-American Affairs, in Ecuador, has been authorized to sign on behalf of the Institute.

A copy of a suggested extension agreement is attached hereto for reference to the appropriate interested authorities.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

GEO. P. SHAW
Chargé d'Affaires, a.i.

His Excellency
Dr. JOSÉ VICENTE TRUJILLO,
Minister for Foreign Affairs,
Quito.

Post, p. 3912.

EXTENSION AGREEMENT

The Republic of Ecuador (hereinafter referred to as the "Republic"), represented by the Minister of Public Education (hereinafter referred to as the "Minister"), and The Institute of Inter-American Affairs (hereinafter referred to as the "Institute"), a corporate instrumentality of the Government of the United States of America and successor to the Inter-American Educational Foundation, Inc., (hereinafter referred to as the "Foundation"), represented by its Special Representative, Education Division, Dr. Pedro Osuna (hereinafter referred to as the "Special Representative"), have agreed to extend and modify, in the manner hereinafter set forth, the Agreement executed by the Republic and the Foundation on January 22, 1945, (hereinafter referred to as the "Agreement"), providing for a cooperative education program in Ecuador.

61 Stat., Pt. 3, p. 3257.

CLAUSE I

The said cooperative education program is hereby extended for an additional period of approximately six months from the twenty-second day of January 1948 through the thirtieth day of June 1948.

CLAUSE II

The said cooperative education program shall continue to include:

a. Furnishing by the Institute of a small field staff of education specialists for service in Ecuador in carrying out the cooperative education program.

b. Grants to permit Ecuadoran educators to go to the United States for specialized training, to lecture, to teach and to interchange ideas and experiences with United States educators.

c. Exploration and survey in Ecuador of local needs and resources for carrying out educational projects at the primary and secondary school levels and in teacher education.

d. Development, adaptation, and exchange of suitable teaching materials for teachers at the primary, secondary and teacher education levels.

e. Local projects needed to implement the program in Ecuador.

The cooperative program of education shall continue to be limited to relatively few projects, each of which is of special interest to the Government of Ecuador, in order that definite results may be obtained and that such results will be indicative of the cooperation existing between the Government of Ecuador and the Government of the United States in the important field of public education.

The Ministry of Education considers the solution of the following problems as being particularly important:

a. The training of school administrators (school directors, school inspectors, provincial directors of education, etc.)

b. The orientation of technical and vocational schools, both urban and rural, at the elementary and secondary level.

c. Orientation of schools of teacher education.
d. Orientation of pre-school education.

CLAUSE III

The field staff of the Institute shall be under the direction of the Special Representative who shall be the representative of the Institute in connection with the program to be carried on in accordance with this Extension Agreement. The Special Representative and other members of the Institute field staff shall be acceptable to the Minister of Public Education.

CLAUSE IV

The special technical service created in the Ministry of Public Education in Ecuador, pursuant to the Agreement, under the name of "Servicio Cooperativo Interamericano de Educación", (hereinafter called the "Servicio"), shall act as an intermediary between the Government of Ecuador and the Institute, and shall continue to carry out the cooperative education program. The Special Representative of the Institute shall be the Director of the Servicio.

CLAUSE V

The cooperative education program shall continue to consist of individual projects. The kind of work and the specific projects to be undertaken in the execution of this Extension Agreement and the allocation of funds therefor shall be agreed upon in writing by the Minister and the Special Representative, and shall be carried out by the Director of the Servicio in conformity with policies prescribed jointly by the Minister and the Special Representative. The Ecuadoran educators to be sent to the United States and the terms of their scholarships or grants shall be mutually agreed upon in writing by the Minister and the Special Representative.

CLAUSE VI

The Institute shall determine and pay the salaries and other expenses payable directly to, or on account of, members of the Institute field staff in an amount not to exceed Seven Thousand One Hundred Sixty-eight Dollars ($7,168) U.S. currency, which shall be in addition to the Seventy Thousand Dollars ($70,000) allocated for such purpose in Paragraph Five (5) of the Agreement and which Seven Thousand One Hundred Sixty-eight Dollars ($7,168) shall be retained in the United States by the Institute, making a total of Seventy-seven Thousand One Hundred Sixty-eight Dollars ($77,168) which has been allocated by the Foundation and the Institute for such purposes and shall also be in addition to the Thirty Thousand Dollars ($30,000) which the Foundation agreed to deposit to the account of the Servicio pursuant to the said Paragraph Five (5) of the Agreement, making a total aggregate amount of One Hundred Seven Thousand One Hundred Sixty-eight Dollars ($107,168) allocated by the Foundation and the Institute for the cooperative education program.

The Republic shall deposit in the Banco Central del Ecuador in Quito (or in any other bank which shall be mutually agreed upon by the Minister and the Special Representative) to the account of the Servicio the sum of_____ Sucres (S/.), being the equivalent of not less than Seven Thousand Dollars ($7,000) U.S. currency, at the rate of exchange of 13.4 sucres per dollar. The deposit required to be made by the Republic hereby shall be made during the month of February 1948, and the said deposit shall be in addition to the Republic's regular budget for education and in addition to the total amount specified in the Agreement to be deposited by the Republic to the account of the Servicio.

CLAUSE VII

Any of the funds introduced into Ecuador by the Institute for the purpose of the cooperative education program shall be exempt from taxes, service charges, investment or deposit requirements, and other currency controls, and shall be converted into sucres at a rate of exchange not less than 13.4 per dollar. Similarly, where it is necessary to convert sucres into dollars for the financing of scholarships or grants or other expenditures in the United States, the sucres shall be converted into dollars at a rate of exchange of not more than 13.5 sucres per dollar.

CLAUSE VIII

Any funds heretofore withheld by the Foundation pursuant to agreement between the Minister and the Special Representative of the Foundation for the purchase of materials and supplies and other disbursements in the United States of America relating to the execution of the cooperative education program and not expended or obligated therefor shall be deposited in the Servicio bank account at any time upon the mutual agreement of the Minister and the Special Representative.

CLAUSE IX

All contracts necessary to carry out the terms of the projects mutually agreed to as herein provided shall be made in the name of the Servicio and shall be signed by the Director of the Servicio. Personnel to be paid out of program funds deposited in Ecuador shall be selected by the Director of the Servicio, subject to the approval of the Minister. The general policies and procedures for the execution of the program and for the disbursement and accounting of funds, for the purchase, use, inventory, control and disposition of property, and any other administrative matters, shall be determined or established by mutual agreement between the Minister and the Special Representative. No disbursement from the said Servicio bank account may be made without the signed authorization of the Director of the Servicio or his delegate and of the Minister or his delegate. Checks for an amount of more than Three Thousand Sucres (S/. 3,000) also shall bear both signatures. The books and records of the Servicio relating to the said cooperative education program shall be open at all times for inspection by representatives of the Republic and of the Institute,

and the Director of the Servicio shall render financial reports to the Republic and to the Institute at such intervals as may be agreed upon between the Minister and the Special Representative.

CLAUSE X

The Institute shall use its best efforts to obtain such assistance and cooperation of other agencies, both public and private, in the United States, as may be appropriate for the execution of the said cooperative education program. The Republic, in addition to its cash contribution as provided herein, shall (a) appoint specialists, in agreement with the Director of the Servicio, to collaborate with the field staff of the Institute; (b) make available office space, furnishings and such other facilities, materials, equipment and supplies as it may conveniently provide for the said program; and (c) lend the general assistance thereto of the other departments of the Republic.

CLAUSE XI

The funds payable by the Institute under the Agreement of this Extension Agreement, or paid by the parties hereto into the said Servicio bank account, shall continue to be available for the said cooperative education program during the existence of this Extension Agreement, without regard to annual periods or fiscal years.

In the event that the Institute deems that the funds or any portion thereof which it has set aside for the payment of salaries and other expenses directly payable to, or on account of, members of the field staff, as provided in Clause VI hereof, will be more than is needed for that purpose, or for any other purpose of the Institute, the Institute will thereupon advise the Republic of the surplus which it can accordingly make available for projects and such additional sum shall be paid into the Servicio bank account or be otherwise disposed of pursuant to this Agreement.

The Minister and the Special Representative of the Institute shall determine by mutual agreement the disposition of any unobligated funds and of any other personal property remaining in the control of the Servicio upon the termination of this Extension Agreement.

CLAUSE XII

All employees of the Institute who are citizens of the United States of America and are engaged in carrying out the objectives of the cooperative education program shall be exempt from all income taxes and social security taxes with respect to income on which they are obligated to pay income or social security taxes to the Government of the United States of America and from property taxes on personal property intended for their own use. The employees who are members of the field staff of the Institute and members of their families who reside with them in Ecuador shall also be exempt from payment of customs and import duties on their personal effects and equipment and supplies for their own use and from investment and deposit requirements and from costs of foreign exchange conversions on funds brought into Ecuador for their normal living expenses.

CLAUSE XIII

All rights and privileges which are enjoyed by governmental and official divisions or agencies of the Republic shall accrue to the Servicio. Such rights and privileges shall include, for example, free postal, telegraph, and telephone service, special government rates from transportation companies and also freedom and immunity from excise, stamp, property, income and all other taxes, as well as from consular charges and customs duties upon imports for the use of the Servicio in the cooperative education program. The Institute shall enjoy the same rights and exemptions with respect to its acts and property relating to the cooperative education program.

CLAUSE XIV

All materials, equipment, and supplies purchased with funds of the Servicio shall become and remain the property of the Republic and shall be devoted to the program.

CLAUSE XV

Any rights, powers, or duties conferred by this Extension Agreement upon either the Minister, the Special Representative, or the Director of the Servicio, may be delegated by the recipient thereof to representatives in writing, provided that such representatives are satisfactory to the other parties. Regardless of the naming of said representatives, the Minister and the Special Representative shall have the right to refer any matter directly to one another for discussion and decision.

CLAUSE XVI

The Executive Power of the Republic will take the necessary steps to obtain the legislation, decrees, orders or resolutions necessary to carry out the terms of this Extension Agreement.

CLAUSE XVII

This Extension Agreement supersedes the Agreement in all respects whatsoever and shall become effective as soon as diplomatic notes confirming and accepting this Extension Agreement have been exchanged between the Ministry of Foreign Affairs of the Government of Ecuador and the Embassy of the United States of America to Ecuador, or upon the date of execution hereof in the event that diplomatic notes approving the extension of the cooperative education program as herein provided have heretofore been exchanged.

IN WITNESS WHEREOF, the parties hereto have caused this Extension Agreement to be executed by their duly authorized representatives, in duplicate, in the English and Spanish languages, at Quito, Ecuador, this day of , 194 .

QUITO, *a 14 Nov. 1947*

SEÑOR EMBAJADOR:

Tengo a honra referirme, una vez más, a la atenta comunicación de Vuestra Excelencia número 325, de 2 de octubre último, y a la mía de respuesta número 231–DDP, de 18 del mismo mes, sobre la extensión del Convenio para el funcionamiento del Servicio Cooperativo Interamericano de Educación en el Ecuador, por el período comprendido entre el 22 de enero y el 30 de junio de 1948.

2. De acuerdo con lo que me permití expresar en el párrafo 5 de mi nota que menciono, y en vista de la contestación dada por el Ministerio de Educación Pública a mi consulta al respecto, me honro en manifestar hoy a Vuestra Excelencia que mi Gobierno aprecia la importancia y utilidad de las labores a cargo del Servicio Cooperativo de Educación y considera indispensable que lleguen a terminarse; por lo que conviene y acepta complacido la propuesta formulada por Vuestra Excelencia en la estimable comunicación que cito, o sea en la extensión del programa que desarrolla en el país el Servicio Cooperativo Interamericano de Educación, desde el 22 de enero hasta el 30 de junio de 1948, con sujeción a cuanto se estipula en el proyecto del respectivo convenio, anexo a la nota de Vuestra Excelencia número 325, de 2 de octubre de 1947, el mismo que ha sido discutido y convenido previamente entre el Ministerio de Educación Pública y el Señor Doctor Pedro Osuna, Representante Especial en el Ecuador de la División Educativa del Instituto de Asuntos Interamericanos.

3. Con el objeto de hacer efectiva esta extensión de dicho programa hasta la fecha mencionada en el párrafo anterior, el Ministerio de Educación Pública hará constar en su presupuesto para el año de 1948 la partida necesaria a tal objeto; esto es, el equivalente en sucres de siete mil dólares norteamericanos (US$ 7.000,oo), computados a un tipo de cambio de trece sucres, cuarenta centavos de sucre por dólar (S/. 13.40), cantidad que, sumada a los siete mil ciento sesenta y ocho dólares norteamericanos (US$ 7.168,oo) de que dispone el Instituto, cubrirá la función económica del Servicio Cooperativo de Educación en el Ecuador, hasta el 30 de junio de 1948.

4. Por lo tanto, me es grato comunicar a Vuestra Excelencia que el Ministerio de Educación Pública está dispuesto a suscribir el correspondiente Convenio de extensión del Servicio Cooperativo de Educación Pública en el Ecuador, con el Señor Representante de la División Educativa del Instituto de Asuntos Interamericanos de conformidad con el texto sugerido por Vuestra Excelencia y cuanto ha sido acordado en las conversaciones a que aludo, sostenidas entre los competentes funcionarios.

Válgome de esta grata oportunidad, para reiterar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración.

Por el Ministro, el Subsecretario ad-interim

Dr. Luis Coloma Silva.

DIPLOMATIC DEPARTMENT No. 265–DDP.

QUITO, *November 14, 1947*

MR. AMBASSADOR:

I have the honor to refer once more to Your Excellency's courteous communication No. 325 of October 2 last and to my communication No. 231–DDP [1] in reply, dated the 18th of the same month, regarding the extension of the Agreement for the functioning of the Servicio Cooperativo Interamericano de Educación in Ecuador for the period between January 22 and June 30, 1948.

2. In accordance with what I took the liberty of stating in paragraph 5 of my aforesaid note, and in view of the reply of the Ministry of Public Education to my inquiry in the matter, I have the honor to inform Your Excellency today that my Government appreciates the importance and usefulness of the work being done by the Servicio Cooperativo de Educación and considers it essential that it be carried through to its conclusion. Therefore, it agrees to and accepts with pleasure the proposal formulated by Your Excellency in the valued communication to which I refer, namely, to extension from January 22 to June 30, 1948, of the program which the Servicio Cooperativo Interamericano de Educación is carrying out in this country; subject to the provisions of the draft agreement thereunto appertaining, enclosed with Your Excellency's note No. 325 of October 2, 1947, the same that was previously discussed and agreed to by the Ministry of Public Education and Dr. Pedro Osuna, Special Representative in Ecuador of the Education Division of the Institute of Inter-American Affairs.

3. For the purpose of making this extension of the said program effective until the date mentioned in the preceding paragraph, the Ministry of Public Education will include in its budget for the year 1948 the item necessary for that purpose; that is to say, the equivalent

[1] [Not printed.]

in sucres of Seven Thousand Dollars ($7,000.00 U.S. currency), computed at the rate of exchange of thirteen sucres, forty centavos (S/.13.40) per dollar, which amount, added to the Seven Thousand One Hundred and Sixty-eight Dollars ($7,168.00 U.S. currency) that the Institute has at its disposal, will cover the financial requirements of the Servicio Cooperativo de Educación in Ecuador until June 30, 1948.

4. I therefore take pleasure in informing Your Excellency that the Ministry of Public Education is prepared to sign the Agreement in question for extension of the Servicio Cooperativo de Educación Pública in Ecuador with the Representative of the Education Division of the Institute of Inter-American Affairs, in conformity with the text proposed by Your Excellency and with what was agreed upon in the aforesaid conversations that took place between the competent officials.

I avail myself of this welcome opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

For the Minister:
LUIS COLOMA SILVA
Dr. LUIS COLOMA SILVA.
Under Secretary ad interim.

His Excellency
JOHN F. SIMMONS,
Ambassador Extraordinary and Plenipotentiary of the United States of America.

EXTENSION AGREEMENT

The Republic of Ecuador (hereinafter referred to as the "Republic"), represented by the Minister of Public Education (hereinafter referred to as the "Minister"), and The Institute of Inter-American Affairs (hereinafter referred to as the "Institute"), a corporate instrumentality of the Government of the United States of America and successor to the Inter-American Educational Foundation, Inc., (hereinafter referred to as the "Foundation"), represented by its Special Representative, Education Division, Dr. Pedro Osuna (hereinafter referred to as the "Special Representative"), have agreed to extend and modify, in the manner hereinafter set forth, the Agreement executed by the Republic and the Foundation on January 22, 1945, (hereinafter referred to as the "Agreement"), providing for a cooperative education program in Ecuador.

61 Stat., Pt. 3, p. 3257.

CLAUSE I

Period of extension.

The said cooperative education program is hereby extended for an additional period of approximately six months from the twenty-second day of January 1948 through the thirtieth day of June 1948.

CLAUSE II

The said cooperative education program shall continue to include:

a. Furnishing by the Institute of a small field staff of education specialists for service in Ecuador in carrying out the cooperative education program.

b. Grants to permit Ecuadoran educators to go to the United States for specialized training, to lecture, to teach and to interchange ideas and experiences with United States educators.

c. Exploration and survey in Ecuador of local needs and resources for carrying out educational projects at the primary and secondary school levels and in teacher education.

d. Development, adaptation, and exchange of suitable teaching materials for teachers at the primary, secondary and teacher education levels.

e. Local projects needed to implement the program in Ecuador.

The cooperative program of education shall continue to be limited to relatively few projects, each of which is of special interest to the Government of Ecuador, in order that definite results may be obtained and that such results will be indicative of the cooperation existing between the Government of Ecuador and the Government of the United States in the important field of public education.

The Ministry of Education considers the solution of the following problems as being particularly important:

a. The training of school administrators (school directors, school inspectors, provincial directors of education, etc.)

b. The orientation of technical and vocational schools, both urban and rural, at the elementary and secondary level.

c. Orientation of schools of teacher education.
d. Orientation of preschool education.

CLAUSE III

Field staff.

The field staff of the Institute shall be under the direction of the Special Representative who shall be the representative of the Institute in connection with the program to be carried on in accordance with this Extension Agreement. The Special Representative and other members of the Institute field staff shall be acceptable to the Minister of Public Education.

CLAUSE IV

Servicio.

Director.

The special technical service created in the Ministry of Public Education in Ecuador, pursuant to the Agreement, under the name of "Servicio Cooperativo Interamericano de Educación", (hereinafter called the "Servicio"), shall act as an intermediary between the Government of Ecuador and the Institute, and shall continue to carry out the cooperative education program. The Special Representative of the Institute shall be the Director of the Servicio.

CLAUSE V

Projects.

The cooperative education program shall continue to consist of individual projects. The kind of work and the specific projects to be undertaken in the execution of this Extension Agreement and the allocation of funds therefor shall be agreed upon in writing by the Minister and the Special Representative, and shall be carried out by the Director of the Servicio in conformity with policies prescribed jointly by the Minister and the Special Representative. The Ecuadoran educators to be sent to the United States and the terms of their scholarships or grants shall be mutually agreed upon in writing by the Minister and the Special Representative.

CLAUSE VI

Payment of salaries and expenses of field staff.

Deposits.

The Institute shall determine and pay the salaries and other expenses payable directly to, or on account of, members of the Institute field staff in an amount not to exceed Seven Thousand One Hundred Sixty-eight Dollars ($7,168) U. S. currency, which shall be in addition to the Seventy Thousand Dollars ($70,000) allocated for such purpose in Paragraph Five (5) of the Agreement and which Seven Thousand One Hundred Sixty-eight Dollars ($7,168) shall be retained in the United States by the Institute, making a total of Seventy-seven Thousand One Hundred Sixty-eight Dollars ($77,168) which has been allocated by the Foundation and the Institute for such purposes and shall also be in addition to the Thirty Thousand Dollars ($30,000) which the Foundation agreed to deposit to the account of the Servicio pursuant to the said Paragraph Five (5) of the Agreement, making a total aggregate amount of One Hundred Seven Thousand One Hundred Sixty-eight Dollars ($107,168) allocated by the Foundation and the Institute for the cooperative education program.

The Republic shall deposit in the Banco Central del Ecuador in Quito (or in any other bank which shall be mutually agreed upon by the Minister and the Special Representative) to the account of the Servicio the sum of Ninety-six Thousand Fifty-one Sucres (S/.96,051), being the equivalent of not less than Seven Thousand Dollars ($7,000) U. S. currency, at the rate of exchange of 13.4 sucres per dollar. The deposit required to be made by the Republic hereby shall be made during the month of February 1948, and the said deposit shall be in addition to the Republic's regular budget for education and in addition to the total amount specified in the Agreement to be deposited by the Republic to the account of the Servicio.

CLAUSE VII

Exemption of funds from taxes, etc.

Any of the funds introduced into Ecuador by the Institute for the purpose of the cooperative education program shall be exempt from taxes, service charges, investment or deposit requirements, and other currency controls, and shall be converted into sucres at a rate of exchange not less than 13.4 per dollar. Similarly, where it is necessary to convert sucres into dollars for the financing of scholarships or grants or other expenditures in the United States, the sucres shall be converted into dollars at a rate of exchange of not more than 13.5 sucres per dollar.

Conversion of currency.

CLAUSE VIII

Deposit of withheld funds.

Any funds heretofore withheld by the Foundation pursuant to agreement between the Minister and the Special Representative of the Foundation for the purchase of materials and supplies and other disbursements in the United States of America relating to the execution of the cooperative education program and not expended or obligated therefor shall be deposited in the Servicio bank account at any time upon the mutual agreement of the Minister and the Special Representative.

CLAUSE IX

General policies and procedures.

All contracts necessary to carry out the terms of the projects mutually agreed to as herein provided shall be made in the name of the Servicio and shall be signed by the Director of the Servicio. Personnel to be paid out of program funds deposited in Ecuador shall be selected by the Director of the Servicio, subject to the approval of the Minister. The general policies and procedures for the execution of the program and for the disbursement and accounting of funds, for the purchase, use, inventory, control and disposition of property, and any other administrative matters, shall be determined or established by mutual agreement between the Minister and the Special Representative. No disbursement from the said Servicio bank account may be made without the signed authorization of the Director of the Servicio or his delegate and of the Minister or his delegate. Checks for an amount of more than Three Thousand Sucres (S/.3,000) also shall bear both signatures. The books and

records of the Servicio relating to the said cooperative education program shall be open at all times for inspection by representatives of the Republic and of the Institute, and the Director of the Servicio shall render financial reports to the Republic and to the Institute at such intervals as may be agreed upon between the Minister and the Special Representative.

CLAUSE X

Additional assistance.

The Institute shall use its best efforts to obtain such assistance and cooperation of other agencies, both public and private, in the United States, as may be appropriate for the execution of the said cooperative education program. The Republic, in addition to its cash contribution as provided herein, shall (a) appoint specialists, in agreement with the Director of the Servicio, to collaborate with the field staff of the Institute; (b) make available office space, furnishings and such other facilities, materials, equipment and supplies as it may conveniently provide for the said program; and (c) lend the general assistance thereto of the other departments of the Republic.

CLAUSE XI

Availability of funds.

The funds payable by the Institute under the Agreement or this Extension Agreement, or paid by the parties hereto into the said Servicio bank account, shall continue to be available for the said cooperative education program during the existence of this Extension Agreement, without regard to annual periods or fiscal years.

Surplus funds.

In the event that the Institute deems that the funds or any portion thereof which it has set aside for the payment of salaries and other expenses directly payable to, or on account of, members of the field staff, as provided in Clause VI hereof, will be more than is needed for that purpose, or for any other purpose of the Institute, the Institute will thereupon advise the Republic of the surplus which it can accordingly make available for projects and such additional sum shall be paid into the Servicio bank account or be otherwise disposed of pursuant to this Agreement.

Ante, p. 3913.

The Minister and the Special Representative of the Institute shall determine by mutual agreement the disposition of any unobligated funds and of any other personal property remaining in the control of the Servicio upon the termination of this Extension Agreement.

CLAUSE XII

Exemption of employees from taxation.

All employees of the Institute who are citizens of the United States of America and are engaged in carrying out the objectives of the cooperative education program shall be exempt from all income taxes and social security taxes with respect to income on which they are obligated to pay income or social security taxes to the Government of the United States of America and from property taxes on personal property intended for their own use. The employees who are members of the field staff of the Institute and members of their families

who reside with them in Ecuador shall also be exempt from payment of customs and import duties on their personal effects and equipment and supplies for their own use and from investment and deposit requirements and from costs of foreign exchange conversions on funds brought into Ecuador for their normal living expenses.

CLAUSE XIII

Rights and privileges.

All rights and privileges which are enjoyed by governmental and official divisions or agencies of the Republic shall accrue to the Servicio. Such rights and privileges shall include, for example, free postal, telegraph, and telephone service, special government rates from transportation companies and also freedom and immunity from excise, stamp, property, income and all other taxes, as well as from consular charges and customs duties upon imports for the use of the Servicio in the cooperative education program. The Institute shall enjoy the same rights and exemptions with respect to its acts and property relating to the cooperative education program.

CLAUSE XIV

Ownership of equipment.

All materials, equipment, and supplies purchased with funds of the Servicio shall become and remain the property of the Republic and shall be devoted to the program.

CLAUSE XV

Delegation of power, etc.

Any rights, powers, or duties conferred by this Extension Agreement upon either the Minister, the Special Representative, or the Director of the Servicio, may be delegated by the recipient thereof to representatives in writing, provided that such representatives are satisfactory to the other parties. Regardless of the naming of said representatives, the Minister and the Special Representative shall have the right to refer any matter directly to one another for discussion and decision.

CLAUSE XVI

Legislation.

The Executive Power of the Republic will take the necessary steps to obtain the legislation, decrees, orders or resolutions necessary to carry out the terms of this Extension Agreement.

CLAUSE XVII

Effective date.

This Extension Agreement supersedes the Agreement in all respects whatsoever and shall become effective as soon as diplomatic notes confirming and accepting this Extension Agreement have been exchanged between the Ministry of Foreign Affairs of the Government of Ecuador and the Embassy of the United States of America to Ecuador, or upon the date of execution hereof in the event that diplomatic notes approving the extension of the cooperative education program as herein provided have heretofore been exchanged.

IN WITNESS WHEREOF, the parties hereto have caused this Extension Agreement to be executed by their duly authorized representatives,

in duplicate, in the English and Spanish languages, at Quito, Ecuador, this 11 Nov. 1947 day of 1947.

FOR THE GOVERNMENT OF ECUADOR

Dr. José Miguel García Moreno
Minister of Public Education

FOR THE INSTITUTE OF INTER-AMERICAN AFFAIRS

Pedro Osuna
Special Representative
Education Division

CONVENIO DE PRORROGA

La República del Ecuador (que en adelante se llamará la "República"), representada por el Ministro de Educación Pública (que en adelante se llamará el "Ministro"), y The Institute of Inter-American Affairs (que en adelante se llamará el "Instituto"), una Corporación y una Agencia del Gobierno de los Estados Unidos de América, sucesor de la Inter-American Educational Foundation, Inc., (que en adelante se llamará la "Fundación"), por intermedio de su Representante Especial de la División de Educación, Dr. Pedro Osuna (que en adelante se llamará el "Representante Especial"), han acordado prorrogar y modificar, en la manera expuesta a continuación, el Convenio celebrado por la República y la Fundación el día 22 de Enero de 1945 (que en adelante se llamará el "Convenio"), estableciendo un programa cooperativo de educación en el Ecuador.

CLAUSULA I

Por medio del presente convenio el aludido programa cooperativo de educación queda prorrogado, por un período adicional de aproximadamente seis meses, que se iniciará el vigésimo segundo día del mes de Enero de 1948 y que terminará el trigésimo día del mes de Junio de 1948.

CLAUSULA II

El mencionado programa cooperativo de educación habrá de continuar incluyendo:

a. Suministro, por parte del Instituto, de un pequeño cuerpo de especialistas en educación que trabajen en el Ecuador en la realización del programa educacional cooperativo;

b. Subvenciones, para que educadores ecuatorianos puedan viajar a los Estados Unidos de América, con el objeto de que adquieran entrenamiento especializado, para dictar conferencias, enseñar e intercambiar ideas y experiencias con los educadores estadounidenses;

c. La investigación y estudio de las necesidades locales en el Ecuador y de los recursos con que cuenta para llevar a cabo proyectos educacionales en el campo de la enseñanza primaria y secundaria, y en el del perfeccionamiento del profesorado;

d. Desarrollo, adaptación e intercambio de materiales de enseñanza apropiados para los maestros en la enseñanza primaria, y secundaria y en la preparación del profesorado;

e. Proyectos locales necesarios para la realización del programa en el Ecuador.

El programa cooperativo educacional habrá de continuar siendo limitado a pocos proyectos, cada uno de los cuales será de interés especial para el Gobierno del Ecuador, a fin de poder lograr resultados definitivos y de que tales resultados demuestren la cooperación existente entre el Gobierno del Ecuador y el Gobierno de los Estados Unidos, en el importante campo de la Educación Pública.

El Ministerio de Educación considera especialmente importante la solución de los siguientes problemas:

a. La capacitación de administradores escolares (directores de escuelas, inspectores escolares, directores provinciales de educación, etc.);

b. La orientación de las escuelas técnicas y profesionales de tipo secundario y primario, urbanas y rurales;

c. La orientación de los Institutos Normales;

d. La orientación de la educación pre-escolar.

CLAUSULA III

El cuerpo de especialistas del "Instituto" (Field Staff) estará bajo la dirección del Representante Especial, quién será el Representante del "Instituto" en relación con el programa a llevarse a cabo de conformidad con este Convenio de Prórroga. El Representante Especial y los demás miembros del Cuerpo de especialistas del "Instituto" deberán ser aprobados por el Ministro de Educación Pública, para el ejercicio de sus funciones.

CLAUSULA IV

El servicio técnico especial, establecido en el Ministerio de Educación Pública del Ecuador, de conformidad con el "Convenio", bajo el nombre de "Servicio Cooperativo Interamericano de Educación", (que en adelante se llamará el "Servicio"), actuará como intermediario entre el Gobierno del Ecuador y el Instituto, y continuará llevando a cabo el programa cooperativo de educación. El Representante Especial del Instituto actuará como Director del "Servicio".

CLAUSULA V

El programa cooperativo educacional seguirá comprendiendo proyectos individuales. La clase de actividades, los proyectos específicos a efectuarse en la ejecución de este Convenio de Prórroga, y la asignación de fondos para los mismos, serán acordados, por escrito, entre el Ministro y el Representante Especial, y serán ejecutados por el Director del Servicio de conformidad con las normas establecidas conjuntamente por el Ministro y el Representante Especial. Los educadores ecuatorianos a enviarse a los Estados Unidos, y las condiciones de sus becas o subvenciones, serán mutuamente acordados, por escrito, entre el Ministro y el Representante Especial.

CLAUSULA VI

El "Instituto" determinará y pagará, ya sea directamente o acreditándolos a las cuentas personales de los miembros del Cuerpo de especialistas del Instituto, los sueldos y otros gastos que les correspondiera, en una suma que no excederá de siete mil ciento sesenta y ocho dólares U. S. ($7,168), además de los setenta mil dólares ($70,000), asignados para tal propósito, en el párrafo (5°) quinto del "Convenio". Estos siete mil ciento sesenta y ocho dólares ($7.168) serán retenidos en los Estados Unidos, por el "Instituto", con los que se elevarán a setenta y siete mil ciento sesenta y ocho dólares

($77.168), los fondos asignados por la "Fundación" y el "Instituto" para estos propósitos, aparte, también, de los treinta mil dólares ($30.000) que la "Fundación" acordó depositar en la cuenta del "Servicio", de conformidad con el mencionado párrafo quinto (5°) del "Convenio", subiendo de esta manera a la cantidad de ciento siete mil ciento sesenta y ocho dólares ($107.168), la contribución total de la "Fundación" y del "Instituto", para el programa cooperativo educacional.

La República del Ecuador depositará en el Banco Central del Ecuador en Quito (o en cualquier otro banco que sea mutuamente acordado entre el Ministro y el Representante Especial), en la cuenta del Servicio, la suma de noventa y seis mil cincuenta y un sucres (S/.96.051), o sea el equivalente de no menos de siete mil dólares ($7.000) U.S., al tipo de cambio de 13.4 sucres por dólar. El deposito requerido de parte de la República se hará durante el mes de Febrero de 1948, y constituirá una adición al presupuesto regular de la República para fines de educación y aparte de la cantidad total, especificada en el Convenio y a ser depositada por la República, en la cuenta del Servicio.

CLAUSULA VII

Todos los fondos que sean introducidos al Ecuador por el Instituto para fines del programa educacional cooperativo, deberán estar excentos de impuestos, recargos por servicio, requerimientos de inversión o depósito y otros controles de cambio, y serán convertidos en sucres a un tipo de cambio de no menos de 13.4 sucres por dólar. Asimismo, y cuando sea necesario convertir sucres a dólares para el financiamiento de becas y subvenciones, y otros gastos en los Estados Unidos, los sucres serán convertidos a dólares a un tipo de cambio de no más de 13.5 sucres por dólar.

CLAUSULA VIII

Los fondos hasta aquí retenidos por la Fundación, de conformidad con lo convenido entre el Ministro y el Representante Especial de la Fundación, para la compra de materiales y equipos, y otros desembolsos en los Estados Unidos de América, relacionados con la ejecución del programa cooperativo educacional, y que no hubieren sido gastados u obligados en estos objetos, se depositarán en la cuenta bancaria del Servicio en cualquier momento, cuando el Ministro y el Representante Especial así lo convengan.

CLAUSULA IX

Todos los contratos necesarios para llevar a cabo los términos de los proyectos mutuamente acordados de conformidad con este acuerdo, serán celebrados a nombre del Servicio y serán firmados por el Director del Servicio. El personal que fuere remunerado con fondos del programa depositados en el Ecuador, será seleccionado por el Director del Servicio, y estará sujeto a la aprobación del Ministro. Las normas generales y procedimientos para la ejecución del programa y para el desembolso y contabilidad de los fondos, para la compra, uso, inven-

tario, control y disposición de bienes y cualesquier otros asuntos administrativos, serán determinados o establecidos por mutuo acuerdo entre el Ministro y el Representante Especial. No se hará ningún desembolso de la mencionada cuenta bancaria del Servicio, sin la autorización firmada por el Director del Servicio o de su delegado, y del Ministro o de su delegado. Los cheques que pasen de tres mil sucres (S/.3.000) también deberán llevar ambas firmas. Los libros y datos del Servicio relacionados con el programa cooperativo de educación estarán en todo tiempo disponibles para su inspección por parte de representantes de la República y del Instituto, y el Director del Servicio rendirá informes financieros a la República y al Instituto, con los intervalos que sean acordados entre el Ministro y el Representante Especial.

CLAUSULA X

El Instituto hará lo posible para conseguir, en los Estados Unidos, la ayuda y cooperación de otras entidades, tanto públicas como privadas, que sean apropiadas para la ejecución del aludido programa cooperativo de educación. La República, además de su contribución en efectivo aquí estipulada, (a) nombrará de acuerdo con el Director del Servicio, especialistas para que colaboren con el Cuerpo de especialistas del Instituto; (b) suministrará locales para oficinas, así como muebles o cualesquiera otras facilidades semejantes, materiales, equipos y suministros que pueda convenientemente aportar para el mencionado programa; (c) conseguirá la ayuda general de las demás entidades oficiales de la República.

CLAUSULA XI

Los fondos a pagarse por el Instituto según el Convenio o según este Convenio de Prórroga, o los pagados ya por las partes suscriptoras del presente, y depositados en la cuenta bancaria del Servicio, seguirán siendo disponibles para dicho programa cooperativo de educación, durante la vigencia de este Convenio de Prórroga, sin tomar en cuenta para este propósito, períodos anuales o años fiscales.

En el caso de que el Instituto estime que los fondos, segregados para sueldos y otros gastos a pagarse directamente a los miembros del Cuerpo de especialistas, o a depositarse en sus respectivas cuentas, de conformidad con la claúsula VI del presente convenio, se hallan en exceso de los necesarios para este fin o para cualquier otro propósito del Instituto, informará éste a la República del sobrante que, por consiguiente, podrá invertirse en la ejecución de los proyectos. Tal cantidad adicional se depositará en la cuenta bancaria del Servicio, o se dispondrá de ella de otra manera, de conformidad con este Convenio.

El Ministro y el Representante Especial del Instituto determinarán, por mutuo acuerdo, la disposición de cualesquiera fondos no comprometidos y de cualesquiera otros bienes que queden bajo el control del Servicio, al vencimiento de este Convenio de Prórroga.

CLAUSULA XII

Todos los empleados del Instituto que sean ciudadanos de los Estados Unidos de América y contratados para llevar a cabo los fines del

programa cooperativo de educación, estarán excentos del pago de impuestos a la renta e impuestos de seguro social, referentes a rentas sobre las cuales se hallan en el caso de pagar impuestos a la renta o de seguro social al Gobierno de los Estados Unidos de América, como también se hallarán excentos del pago de impuestos sobre propiedades o bienes personales destinados a su propio uso. Los empleados que sean miembros del Cuerpo de especialistas del Instituto, asi como los miembros de sus familias que con éllos residan en el Ecuador, estarán excentos del pago de impuestos aduaneros y derechos consulares en la importación de sus efectos personales y de equipos y suministros para su propio uso, y se hallarán asímismo exceptuados de requisitos de inversión y requerimientos de depósito, y de pagos de impuestos, tasas, recargos, etc. etc., y en el canje o cambio de moneda extranjera traída por ellos al Ecuador para los gastos normales de vida.

CLAUSULA XIII

El Servicio gozará de todos los derechos y excenciones conferidos a departamentos o entidades gubernamentales y oficiales de la República. Tales derechos y excenciones incluirán, por ejemplo, los de franquicia postal, telegráfica y telefónica; tarifas gubernamentales especiales para compañías de transportes, y comprenderán también excenciones e inmunidades de impuestos sobre consumos, timbres, bienes, renta y otros, así como de derechos consulares e impuestos aduaneros sobre importaciones destinadas para el uso del Servicio en el programa cooperativo de educación. El Instituto gozará de los mismos derechos y excensiones que el Servicio, con respecto a sus actos y propiedades relacionados con el programa cooperativo de educación.

CLAUSULA XIV

Todo material, equipo y suministros comprados con fondos del Servicio, pasarán a ser de propiedad de la República, y serán dedicados al programa.

CLAUSULA XV

Cualquier derecho, facultad o deber, conferidos por este convenio de Prórroga al Ministro, al Representante Especial o al Director del Servicio, podrán ser delegados por escrito, por cada uno de estos funcionarios, en favor de distintas personas o representantes, siempre y cuando dichos representantes sean aceptables a las otras partes. No obstante la existencia de tales delegaciones, el Ministro y el Representante Especial podrán tratar cualquier asunto directamente, entre éllos, y resolverlo.

CLAUSULA XVI

El Poder Ejecutivo de la República dará los pasos necesarios para que se expidan la legislación, los decretos, órdenes y resoluciones que sean necesarios para el cumplimiento de las estipulaciones de este Convenio de Prórroga.

CLAUSULA XVII

Este Convenio de Prórroga reemplaza al Convenio en todos sus aspectos, y entrará en vigencia con el cambio de notas diplomáticas entre el Ministerio de Relaciones Exteriores del Gobierno del Ecuador, y la Embajada de los Estados Unidos de América en el Ecuador, que confirmen y acepten el presente Convenio de Prórroga, o en la fecha de la ejecución del mismo, en el caso de que las referidas notas diplomáticas aprobando la prórroga del programa cooperativo de educación, de acuerdo con las estipulaciones contenidas en el presente convenio, hayan sido ya cruzadas.

EN FE DE LO CUAL, las partes suscriptoras del presente han formulado este Convenio de Prórroga para que sea ejecutado por sus representantes debidamente autorizados, en duplicado, en los idiomas Inglés y Español, en Quito, Ecuador, a 11 Nov. 1947

Agreement and exchanges of notes between the United States of America and the Netherlands respecting a mutual aid settlement; signed at Washington May 28, 1947, entered into force May 28, 1947. Agreement between the United States of America and the Netherlands Indies; signed at Washington May 28, 1947, entered into force May 28, 1947. And memorandum of arrangement between the United States of America, the United Kingdom of Great Britain and Northern Ireland, and the Netherlands; signed at Washington May 28, 1947, entered into force May 28, 1947.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE KINGDOM OF THE NETHERLANDS REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS PROPERTY, MILITARY RELIEF, AND CLAIMS

The Government of the United States of America (hereinafter referred to as the United States Government) and the Government of the Kingdom of the Netherlands (hereinafter referred to as the Netherlands Government), comprising the Kingdom in Europe, the Netherlands Indies and the Territories of Surinam and Curaçao, have reached an understanding regarding a settlement for lend-lease and reciprocal aid, for certain surplus property, for the Netherlands Government's obligation to the United States Government for civilian supplies furnished as military relief in the Netherlands and in the Netherlands Indies, and for other financial claims of each Government against the other arising out of the conduct of the war. This settlement is complete and final, and both Governments agree that, except as herein specifically provided, no further benefits will be sought by either Government as consideration for the foregoing. In arriving at this understanding, both Governments have recognized the benefits accruing to each from their contributions to the defeat of their common enemies, and have adhered to and hereby reaffirm their adherence to the principles expressed in Article VII of the Preliminary Agreement on Principles Applying to Mutual Aid in the Prosecution of the War Against Aggression, signed on July 8, 1942.

56 Stat. 1558.

1. Amount Due

As used in this Agreement the "total principal amount" due from the Netherlands Government to the United States Government is the sum of:

A. $67,500,000, which is agreed by the two Governments to be the net amount due from the Netherlands Government to the United States Government with respect to lend-lease, reciprocal aid, civilian supplies furnished as military relief in the Netherlands (Plan A) and in the Netherlands Indies, certain aircraft heretofore sold by

the United States Government to the Netherlands Government, certain claims between the two Governments settled by this Agreement, and guilders in the accounts of finance officers of the United States armed forces, and

B. The amount due to the United States Government from the Netherlands Government under the $30,000,000 line of credit (referred to in paragraph 5 of this Agreement) for the purchase of surplus property.

Post, p. 3929.

The terms of payment of the total principal amount are set forth in paragraph 6 of this Agreement.

2. Military Relief and Related Operations

In view of the benefits accruing to the two Governments from their contributions to the common war effort and in view of the payment specified in sub-paragraph 1A of this Agreement and of the other provisions of this Agreement:

A. The obligation of the Netherlands Government for the United States Government's share of the combined bills for civilian supplies furnished as military relief in the Netherlands (Plan A) is considered settled. The Netherlands Government recognizes that the settlement hereby made with the United States Government in no way impairs the obligation of the Netherlands Government to the United Kingdom and Canadian Governments for their shares of the combined claim for Plan A.

B. The United States Government's share of guilder proceeds from the sale of Allied publications distributed in the Netherlands in connection with military operations reverts to the Netherlands Government.

3. Intergovernmental Claims

A. The following financial claims between the two Governments will be settled and paid in dollars in accordance with procedures already established:

(1) Claims of the United States Government for the cost of lend-lease supplies and services transferred to the Netherlands Government by the United States Government on cash reimbursement terms not subsequently converted to other terms, and claims of the Netherlands Government for the excess of the amounts deposited by it with the United States Government under cash reimbursement lend-lease requisitions (including requisitions subsequently converted wholly or partly to other terms) over the cost of supplies and services transferred thereunder to the Netherlands Government on cash reimbursement terms not subsequently converted to other terms.

(2) Balance owing to the Netherlands Government under the portion of the agreement described in the Memorandum signed on May 30, 1942 by representatives of the United States Department of State and Office of Lend-Lease Administration

whereby the United States Government took over the war material in the United States procured by, or at that time under contracts in the United States let by, the Netherlands Government.

(3) Claims covered by the "Memorandum Concerning Disposition of and Payment for Cargoes Carried on Twelve Dutch Ships Diverted to Australia", dated December 20, 1944, and claims covered by the "Memorandum Concerning Disposition of and Payment for Certain Aircraft and Gun Parts Shipped to Australia by Netherlands Purchasing Commission", dated December 20, 1944.

(4) Claims of either Government against the other arising under the terms of the Netherlands-American Charter Plan dated March 6, 1942.

(5) Claims of either Government against the other arising under the "bareboat out-time charter back" chartering arrangements, including claims of the Netherlands Government against the United States Government as war or marine risk insurer or assumer by reason of (a) any loss or damage to the chartered vessel or (b) any claims against the chartered vessel other than (i) those waived or assumed under this Agreement, (ii) those waived or assumed by a third government or UNRRA under any present or future agreement with the United States Government, and (iii) those subject to the practice of the United States Government regarding interdepartmental waiver of claims.

(6) The claim of the Netherlands Government for repayment of the net balance of guilders advanced by it to the United States War Shipping Administration.

(7) The claim of the Netherlands Government for the repayment of the payment previously made to the United States Government under the "Agreement between the United States of America and the Kingdom of the Netherlands under Section 3 (c) of the Lend-Lease Act", signed on April 30, 1945.

59 Stat. 1627.

Cost of supplies and services transferred to Netherlands Government.

B. To avoid the necessity of making adjustments hereafter in certain accounts and to facilitate the determination of certain amounts payable under sub-paragraph 3A of this Agreement, the two Governments agree upon $17,820,000 as the cost of supplies and services transferred to the Netherlands Government through the agency of the United States War and Navy Departments, on cash reimbursement terms not subsequently converted to straight lend-lease terms, under lend-lease requisitions which, when filed by the Netherlands Government, called for direct cash reimbursement, but not including lend-lease requisitions filed directly with the United States Navy Department. This sum of $17,820,000, heretofore paid by the Netherlands Government, includes an allowance for charges not yet reported and is not subject to adjustment. Such allowance will be disregarded in determining claims under subparagraph 3A (3) of this Agreement.

C. The two Governments have agreed upon arrangements and procedures with respect to payment for articles and services procured in the Kingdom of the Netherlands for the United States armed forces and certain aircraft procured by the United States armed forces in the United States from the Netherlands Government and with respect to the return to the Netherlands Government of guilders held by the United States armed forces.

D. The claims between the two Governments listed in Appendix 1 hereto are among those settled by this Agreement and appropriate allowances have been made therefor in computing the net amount due from the Netherlands Government to the United States Government under sub-paragraph 1A of this Agreement. *Post*, p. 3934.

E. The following arrangements are agreed on with respect to the time during which the large U. S. 7 (c) ships and the small U. S. 7 (c) ships (as defined in Appendix 1 hereto), as the case may be, were severally operated by the Netherlands Government for the United States Government during the 7 (c) period (as defined in Appendix 1 hereto): Ships.

(1) The United States Government will bear the cost of all services and supplies, not hitherto paid for by the Netherlands Government, furnished by the United States Government to the Netherlands Government for the large U. S. 7 (c) ships and the small U. S. 7 (c) ships during such time.

(2) The Netherlands Government will retain all earnings, if any, arising from the commercial carriage of passengers and cargo on the large U. S. 7 (c) ships and the small U. S. 7 (c) ships during such time.

(3) The Netherlands Government will process all claims against the United States Government, or respecting which the ultimate liability is that of the United States Government, arising from the commercial carriage of passengers and cargo on the large U. S. 7 (c) ships and the small U. S. 7 (c) ships during such time, and will discharge the liability of the United States Government with respect thereto, except to the extent that third Governments have already undertaken to do so without being reimbursed in cash.

F. As further specified in Appendix 2 hereto, each Government waives all its claims against the other which arose out of requisitioning for use in the war program of property of the claimant Government and, except as provided in sub-paragraph 3A (5) of this Agreement, all its claims against the other, and all its claims respecting which the ultimate liability is that of the other, which arose out of maritime incidents occurring on or after May 10, 1940 and prior to July 1, 1946. Waiver of claims. *Post*, p. 3937.

G. Each Government waives all other financial claims against the other Government not otherwise dealt with in this Agreement which

(a) have arisen or may hereafter arise out of lend-lease or reciprocal aid, or

(b) otherwise arose out of incidents occurring on or after May 10, 1940 and prior to July 1, 1946 connected with or incidental to the conduct of the war,

except

(1) claims arising out of established arrangements where liability has heretofore been acknowledged and the method of computation agreed;

(2) claims arising out of retransfers, consented to by the United States Government after December 31, 1946, of lend-lease articles by a third government to the Netherlands Government; and

(3) claims presented in accordance with the practice whereby one government espouses a claim of one of its nationals and submits it through diplomatic channels to another government.

4. Private Claims

A. The Netherlands Government will process the claims described in the following sub-paragraphs (1) to (4) and will discharge the liability with respect thereto of the United States Government and of the individuals, firms and corporations against whom such claims are asserted as there described, except to the extent that third governments have already undertaken to do so without being reimbursed in cash, namely:

(1) Claims against the United States Government, or respecting which the ultimate liability is that of the United States Government, arising from maritime incidents (including those specified in Appendix 2 hereto) occurring on or after May 10, 1940 and prior to July 1, 1946, asserted or about to be asserted in courts of the Kingdom of the Netherlands, or asserted anywhere by individuals, firms and corporations, subjects of the Kingdom of the Netherlands at the time of the event giving rise to the claim, but not including claims of Netherlands subjects based upon service as seamen. In addition, as part of the general settlement, the Netherlands Government, without giving rise to any financial obligation on the part of the United States Government, will, at the request of the United States Government, take such steps as may be necessary, including the assumption of financial responsibility, to release vessels and cargoes belonging to the United States Government from legal actions brought to enforce any such claims.

(2) Claims of individuals, firms and corporations, domiciled in territory of the Kingdom of the Netherlands at any time between May 10, 1940, and September 2, 1945 (except individuals who are exclusively United States nationals) against the United States Government, its contractors or subcontractors, for royalties under contracts for the use of inventions, patented or unpatented, or for infringement of patent

rights, in connection with war production carried on or contracted for prior to September 2, 1945 by the United States Government, its contractors or sub-contractors.

(3) Claims, whether contractual or non-contractual, against the United States Government and against members of its armed forces and civilian personnel attached thereto arising out of acts or omissions in territory of the Kingdom of the Netherlands of members of such armed forces or such civilian personnel, both line-of-duty and non-line-of-duty, occurring on or after May 10, 1940 and prior to September 2, 1945 in the case of contracts, and occurring on or after May 10, 1940 and prior to July 1, 1946 in the case of other acts or omissions.

(4) Claims of individuals, firms and corporations, subjects of the Kingdom of the Netherlands at the time of the event giving rise to the claim, against the United States Government arising out of the requisitioning (as specified in Appendix 2 hereto) for use in the war program of property located in the United States in which the claimant asserts an interest.

Post, p. 3937.

B. An appropriate allowance for the undertaking of the Netherlands Government in sub-paragraph 4A of this Agreement has been made in computing the net amount of $67,500,000 due from the Netherlands Government to the United States Government under sub-paragraph 1A of this Agreement.

Ante, p. 3924.

5. Surplus Property

A. The two Governments agree that their rights and obligations in connection with the line of credit for the purchase of surplus property heretofore granted by the United States Government in the amount of $30,000,000 (originally $20,000,000) shall be as stated in this Agreement; and the letters dated May 14, 1946 and December 9, 1946, from the United States Central Field Commissioner for Europe, Office of the Foreign Liquidation Commissioner, to the Netherlands Treasurer General, accepted by the Netherlands Government, establishing the line of credit, and subsequent communications relating thereto, are superseded by this Agreement. Like provision regarding the rights and obligations under the line of credit for the purchase of surplus property heretofore granted by the United States Government to the Netherlands Indies Government in the amount of $100,000,000 is made in a separate agreement signed concurrently herewith by the United States Government and the Netherlands Indies Government.

B. The terms of payment of the amount due under the $30,000,000 line of credit shall be as stated in paragraph 6 of this Agreement. This change from the original terms of payment, and the like change regarding the $100,000,000 line of credit made in the separate agreement signed concurrently herewith by the United States Government and the Netherlands Indies Government, have been consented to by the United States Government as part of the general settlement herein made.

C. The $30,000,000 line of credit is for use in purchasing prior to January 1, 1948 United States surplus property, wherever situated, made available by the Office of the Foreign Liquidation Commissioner.

D. Charges heretofore made against the $30,000,000 line of credit shall continue to be charges against it as from the respective dates of the charges, but, with respect to the accrual of interest, shall be subject to the provisions of sub-paragraph 6C of this Agreement. The bulk sales of surplus property in the Territories of Curaçao and Surinam shall be charges against the $30,000,000 line of credit.

E. Procedural arrangements heretofore made in connection with the $30,000,000 line of credit shall continue in force until changed.

6. Terms of Payment

A. The Netherlands Government undertakes that, as and when the amounts payable by the United States Government under sub-paragraph 3A of this Agreement are paid, it will pay equivalent amounts in dollars to the United States Government up to a total of $19,500,000, in partial payment of the total principal amount due from it to the United States Government.

Ante, p. 3925.

B. The remainder of the total principal amount due from the Netherlands Government to the United States Government will be paid by the Netherlands Government to the United States Government in dollars in thirty annual instalments, which shall become payable on July 1 of each year beginning July 1, 1951. The first instalment shall be equal to one-thirtieth of the unpaid portion as of July 1, 1951 of the total principal amount. Each subsequent instalment shall be equal to so much of the unpaid portion (as of the date of the instalment) of the total principal amount as has not previously become payable, divided by the number of instalments that have not previously become payable.

C. Interest will be paid to the United States Government by the Netherlands Government in dollars at the fixed rate of two percent per annum on $50,000,000 (which is agreed to be the net sum of such of the charges constituting the total principal amount as are attributable to the period before July 1, 1946) for the period from July 1, 1946 through June 30, 1947, and, accruing from July 1, 1947, on the unpaid remainder of the total principal amount. With respect, however, to charges made under the $30,000,000 line of credit, interest shall accrue from the first day of July next following the date on which each charge is made. With respect to the amount of any reduction in the total principal amount under the terms of sub-paragraph 6D and paragraph 7 of this Agreement interest for the period from the preceding July 1 shall be charged only to the date of such reduction. Interest shall be payable annually on July 1 of each year beginning July 1, 1947.

D. The Netherlands Government may at any time or times make payments to the United States Government under this Agreement of amounts not then payable or larger than are then payable. Any such payments will be credited first to past due interest, if any, and then to past due instalments, if any, and then to the unpaid remainder of the total principal amount.

E. If by agreement of both Governments it is determined that because of extraordinary and adverse economic conditions arising during the course of payment, any of the periodic payments of interest, of principal, of interest and principal, or of any part thereof would not be to the common advantage of both Governments, payment may be postponed on such terms and conditions as may be agreed. Postponement of payment.

7. Provision of Netherlands Currency and of Property

A. The Netherlands Government, when requested by the United States Government, will make available at any time or times, by payment to the United States Government or to such persons or organizations as the United States Government may designate, Netherlands currency in any amount (computed as provided in sub-paragraph 7E of this Agreement) not in excess of the then unpaid portion of the total principal amount plus past due interest, for:

(1) The payment of any or all of the ordinary governmental expenditures in the Kingdom of the Netherlands (other than the Netherlands Indies) of the United States Government or any department or agency thereof;

(2) The acquisition of real property, improvements thereon or furnishings therefor, agreed upon by the two Governments; and

(3) The payment of the cost of educational programs agreed upon by the two Governments.

B. In case the United States Government wishes to acquire any property (located in the Kingdom of the Netherlands, other than the Netherlands Indies), real or personal, tangible or intangible (other than for export except by mutual agreement), or to improve or furnish any property so located in which it has an interest, the Netherlands Government will at any time or times, as requested by the United States Government, enter into negotiations, and use its best efforts consistent with its public policy, to reach an agreement with the United States Government whereby there will be delivered to the United States Government the properties, improvements or furnishings which the United States Government desires or which the representatives of the United States Government have selected. Representatives of the United States Government may at their discretion conduct discussions directly with owners of property or with contractors for improvements or furnishings as to fair terms and prices prior to the delivery of

such property or improvements or furnishings to the United States Government.

C. The United States Government declares that it is now its intention to request that Netherlands currency be made available for agreed educational programs under sub-paragraph 7A of this Agreement to the value of $5,000,000 and that it is now its intention to request that Netherlands currency be made available for, or that there be delivered, real property, improvements and furnishings, or both, under sub-paragraphs 7A and 7B of this Agreement to the value of $8,700,000. This statement of intention does not prevent the United States Government from later proposing different amounts from these in these connections. The foregoing amounts are inclusive of amounts heretofore requested under corresponding arrangements hitherto existing under the $30,000,000 line of credit.

D. The dollar equivalent (computed in accordance with sub-paragraph 7E of this Agreement) of any Netherlands currency made available and of the Netherlands currency value of any properties, improvements and furnishings delivered under this paragraph 7 or under corresponding arrangements hitherto existing under the $30,000,000 line of credit shall be credited first to interest, if any, and then to instalments, if any, past due to the United States Government under this Agreement and then to the unpaid remainder of the total principal amount due under this Agreement.

E. Any Netherlands currency made available and the Netherlands currency value of any properties, improvements and furnishings delivered under this paragraph 7 or under corresponding arrangements hitherto existing under the $30,000,000 line of credit will be valued at the par value between such currency and dollars established in conformity with procedures of the International Monetary Fund, or, if no such par value exists, at the rate most favorable to the United States Government used by the Netherlands Government in any official transaction at the time of the request by the United States Government that such currency be made available or that such properties, improvements or furnishings be delivered.

8. Silver

Nothing in this Agreement affects the obligation of the Netherlands Government in connection with silver transferred to it by the United States Government under lend-lease.

9. Transfer of Title

A. Except as provided in sub-paragraphs 9B and 9C of this Agreement, the United States Government and the Netherlands Government receive full title, without qualification as to disposition or use, to all articles now held by them respectively which were supplied under lend-lease or reciprocal aid, but including retransferred lend-lease articles only to the extent that consent to the

retransfer was given by the United States Government before January 1, 1947.

B. Each Government reserves the right of recapture of any arms, ammunition and implements of war (as defined in Appendix 2 hereto) which were supplied under lend-lease or reciprocal aid and are held by the other Government on the date on which notice requesting return is communicated to the other Government (excepting, however, those supplied under lend-lease on cash reimbursement terms not subsequently converted to straight lend-lease terms); but each Government has indicated that it does not intend to exercise generally its right of recapture of such articles. Disposals of such articles in or for use in third countries will be made only with the consent of the supplying Government and with payment to the supplying Government of any proceeds of such disposals. Each Government agrees that all such articles held by it will be used only for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations. *Post*, p. 3937. 59 Stat. 1031.

C. To the extent required by United States law, naval and merchant vessels which were made available to the Netherlands Government under lend-lease will be returned to the United States Government.

10. Miscellaneous Provisions

A. References in this Agreement to articles supplied under lend-lease, and to lend-lease transfers, include lend-lease articles transferred by the United States Government to a third government and retransferred by the third government to the Netherlands Government.

B. To the extent that the provisions of this Agreement are inconsistent with those contained in any previous agreement, the provisions of this Agreement shall prevail.

C. Nothing in this Agreement affects the obligation of the Netherlands Government under Article IV of the Preliminary Agreement of July 8, 1942, relating to patents. 56 Stat. 1555.

D. The two Governments agree to conclude such specific agreements as may be necessary to implement this general understanding.

E. This Agreement will be effective upon signature. Effective date.

DONE at Washington, in duplicate, this twenty-eighth day of May, 1947.

APPENDIX 1

CERTAIN CLAIMS BETWEEN THE TWO GOVERNMENTS SETTLED BY THIS AGREEMENT

Ante, p. 3927.

As stated in sub-paragraph 3D of this Agreement, the claims between the two Governments listed in this Appendix are among those settled by this Agreement and appropriate allowances have been made therefor in computing the net amount due from the Netherlands Government to the United States Government under sub-paragraph 1A of this Agreement.

Ante, p. 3924.

I. CLAIMS OF THE NETHERLANDS GOVERNMENT

U. S. 7 (c) ships.

Post, p. 3937.

As used in this Agreement the term "large U. S. 7 (c) ships" means the ships listed in Schedule 1 hereto attached, and the term "small U. S. 7 (c) ships" means the ships listed in Schedule 2 hereto attached. All these ships were originally among those chartered by the British Minister of War Transport from the Netherlands Government pursuant to the "Memorandum of Arrangement Regarding Netherland East Indies Shipping. 5th June 1942." and allocated to the United States Government. They were the ships later removed from that arrangement, with the concurrence of the United Kingdom Government, by an exchange of notes between the Netherlands Embassy at Washington and the United States Department of State dated June 6, 1945 and July 31, 1945, and they were severally operated by the Netherlands Government for the United States Government in conformity with that exchange of notes for the whole of the 7 (c) period (as defined below) or from the beginning of the 7 (c) period until they were allocated during the 7 (c) period to the United Kingdom Government. The designation "7 (c)" derives from the application to these ships of paragraph 7 (c) (second sentence) of the Agreement on Principles Having Reference to the Co-ordinated Control of Merchant Shipping, signed in London on August 5, 1944.

"7 (c) period."

The term "7 (c) period" means, as used in this Agreement in respect of the large U. S. 7 (c) ships and the small U. S. 7 (c) ships, the period from midnight May 23, 1945 until the date of redelivery in each case to the Netherlands Government, or until March 2, 1946, whichever was the earlier.

"June 5 Memorandum."

As used in this Agreement the term "June 5 Memorandum" means the above mentioned Memorandum of June 5, 1942.

A. The following claims of the Netherlands Government against the United States Government in connection with the large U. S. 7 (c) ships are among those settled by this Agreement:

1. Services and supplies for the large U. S. 7 (c) ships during the 7 (c) period.

2. (a) Reconditioning and reconversion of the ships listed in Part A of Schedule 1 hereto attached, and (b) reconversion, as distinguished from reconditioning, of the ships listed in Part B of Schedule 1 hereto attached.

(i) The contribution of the United States Government toward vessel expenses during the respective periods of reconditioning/reconversion, forming part of the allowance for the claims set forth in clauses 2 (a) and 2 (b) immediately above, has been computed on the basic bareboat rate under the June 5 Memorandum and respective time estimates for reconditioning/reconversion provided by the Netherlands Government.

(ii) The allowance made by the United States Government for the replacement of furniture has been computed on the basis of the articles named in the respective off-survey reports, and on the basis of the cost of procurement and installation of the furniture at the respective ports of reconversion.

(iii) The allowance made by the United States Government in respect of reconversion has been made, inter alia, on the basis of removing and making good in the way thereof fittings added during the conversion of the ships, and takes account of an allowance made by the Netherlands Government to the United States Government for equipment of the United States Government left aboard. Such equipment becomes the property of the Netherlands Government.

(iv) The allowance made by the United States Government with respect to reconditioning includes war risk insurance damage to the ships listed in Part A of Schedule 1 hereto attached, in so far as such damage was incurred during the 7 (c) period.

3. Costs of medical departments maintained by the Netherlands Government in the United States with respect to the large U. S. 7 (c) ships during the 7 (c) period.

4. Services as Accounting Line (agency services) for the large U. S. 7 (c) ships with respect to the 7 (c) period.

B. The following claims of the Netherlands Government against the United States Government in connection with the small U. S. 7 (c) ships are among those settled by this Agreement:

1. Services and supplies for the small U. S. 7 (c) ships while they were severally operated by the Netherlands Government for the United States Government during the 7 (c) period.

2. Reconversion and reconditioning of the small U. S. 7 (c) ships. The claim put forward by the Netherlands Government and the allowance therefor made by the United States Government have been restricted to expenses of reconversion and reconditioning attributable to the use of the ships by the United States Government during the 7 (c) period and have been computed on a pro-rata basis on figures submitted by the Netherlands Government

covering the over-all reconversion/reconditioning expenses arising from the date of delivery of the vessels under their basic charterparties in 1942. This claim is without prejudice to claims for additional reconversion/reconditioning expenses under the basic charterparties.

3. Services as Accounting Line (agency services) for the small U. S. 7 (c) ships with respect to the period while they were severally operated by the Netherlands Government for the United States Government during the 7 (c) period.

Shipping claims.

C. The following further shipping claims of the Netherlands Government against the United States Government are among those settled by this Agreement:

1. A portion of the costs (not paid by the United States Navy) of arming certain Netherlands ships chartered pursuant to the June 5 Memorandum and allocated to the United States Government.

2. 80%, payable in dollars, of the hire increase on ships chartered pursuant to the June 5 Memorandum (the hire increase being one shilling per deadweight ton per month from July 1, 1944 until redelivery and (due to the waiver of off-hire insurance) sixpence per deadweight ton per month from July 1, 1944 to December 31, 1944). The allowance made by the United States Government in respect of this claim is accepted by the Netherlands Government in satisfaction of its claim under the June 5 Memorandum for 80%, payable in dollars, of such hire increase.

3. Dollar expenditures for free Netherlands ships in United States ports between August 21, 1941 and September 30, 1945 of a type eligible for lend-lease.

4. Charter hire in the amount of $180,000 under "bareboat out-time charter back" chartering arrangements (claim withdrawn in consideration of the withdrawal by the United States Government of its claim for reduction of charter hire under such arrangements).

II. CLAIMS OF THE UNITED STATES GOVERNMENT

A. The following claims of the United States Government against the Netherlands Government are among those settled by this Agreement:

1. Equipment of the United States Government left aboard the large U. S. 7(c) ships, as stated in sub-paragraph IA2(iii) of this Appendix.

2. Dollar amounts due for retroactive reverse lend-lease under the exchange of letters between E. C. Zimmerman, Chairman of the Netherlands Purchasing Commission, and Charles Denby, Special Assistant for Reciprocal Aid, Foreign Economic Administration, dated September 20 and 26, 1944.

MEANING OF CERTAIN TERMS

1. Maritime incidents. The term "maritime incidents" as used in sub-paragraphs 3F and 4A (1) of this Agreement includes damages to shore structures, aids to navigation, and port installations, fixed or moveable, arising out of marine operations.

Ante, pp. 3927, 3928.

2. Requisitioning. As applied to action by the United States Government the term "requisitioning", as used in sub-paragraphs 3F and 4A (4) of this Agreement, means requisitioning and taking over under the Act of Congress of October 10, 1940, 54 Statutes at Large 1090, and amendments thereto, or under the Act of Congress of October 16, 1941, 55 Statutes at Large 742, and amendments thereto, as the case may be.

3. Corporations. The term "corporations", as used in the first sentence of paragraph 4 of this Agreement, includes public bodies of United States nationality of whatever character, and, as used in sub-paragraphs 4A (1), (2) and (4) of this Agreement, includes public bodies of Netherlands nationality of whatever character.

4. Arms, Ammunition and Implements of War. As used in paragraph 9 of this Agreement the term "arms, ammunition and implements of war" means supplies of the types listed in Proclamation number 2717 of the President of the United States, dated February 14, 1947, 12 Federal Register 1127.

Ante, p. 3932.

An Officer of the Department of State to the Netherlands Minister

DEPARTMENT OF STATE
WASHINGTON
May 28 1947

MY DEAR MR. DAUBANTON:

In connection with the overall settlement of lend-lease and other war accounts between our two Governments certain cash reimbursement lend-lease requisitions heretofore filed by your Government with this Government have been converted in specified amounts, aggregating $7,510,785.09, to credit terms.

In accordance with our understanding, the amount so converted has been included in the computation of the net amount of $67,500,000 due from your Government to this Government under sub-paragraph 1A of the settlement agreement signed today, and payment of the amount converted will therefore be upon the terms set forth in that agreement.

Ante, p. 3924.

As a result of these actions the amount of $7,510,785.09 is now refundable to your Government from the amount deposited by your Government under these requisitions. Refund will be made promptly under sub-paragraph 3A (1) of today's agreement.

Ante, p. 3925.

Sincerely yours,

NORMAN T. NESS

HA-5336 MAY 28, 1947

SIR:

I have the honor to refer to the Agreement for the settlement of lend-lease and other war accounts signed concurrently herewith by the Government of the Kingdom of the Netherlands, which comprises the Kingdom in Europe, the Netherlands Indies and the Territories of Surinam and Curaçao, and by the United States Government, and have the honor to confirm that the terms of that Agreement have received the concurrence of the Government of the Netherlands Indies, and of the Territorial Governments of Curaçao and Surinam, in so far as these terms relate to these Governments by implication or by direct reference in the text.

Ante, p. 3924.

With particular reference to paragraph 3, sub-paragraphs F and G, of the Agreement, I am authorized to confirm that the intergovernmental waiver of claims (with the exceptions thereto) is understood to apply as well to obligations and claims between your Government and the Government of the Netherlands Indies, and the Territorial Governments of Surinam and Curaçao, respectively.

Ante, p. 3927.

Accept, Sir, the renewed assurances of my highest consideration.

DEPARTMENT OF STATE
WASHINGTON
May 28, 1947

EXCELLENCY:

I have the honor to refer to your note to me of today in which you refer to the Agreement signed concurrently herewith by the Government of the Kingdom of the Netherlands and by the United States Government for the settlement of lend-lease and other war accounts.

Ante, p. 3924.

I note your confirmation that the terms of the Agreement have received the concurrence of the Government of the Netherlands Indies, and of the Territorial Governments of Surinam and Curacao, in so far as these terms relate to these Governments by implication or by direct reference in the text.

With particular reference to paragraph 3, sub-paragraphs F and G, of the Agreement, I am glad to confirm that my Government shares

the understanding that the intergovernmental waiver of claims (with the exceptions thereto) applies as well to obligations and claims between my Government and the Government of the Netherlands Indies, and the Territorial Governments of Surinam and Curacao, respectively.

Accept, Excellency, the renewed assurances of my highest consideration.

G C MARSHALL

His Excellency

NETHERLANDS EMBASSY

HA-5337 MAY 28, 1947

MY DEAR MR. SECRETARY:

In accordance with arrangements made in 1945, the Netherlands Government advanced to the United States War Shipping Administration a total amount of 5,250,000 Netherlands guilders. These guilders were used by the War Shipping Administration to cover ship disbursements and other expenses in the Netherlands both before and after VJ-Day up to November, 1946.

The Netherlands Government has agreed that the principle of reciprocal aid shall be applied to the period up to November 1, 1945 (VJ-Day + 60) and in the course of the negotiations between representatives of our Governments on the over-all settlement of lend-lease, the United States Maritime Commission, as successor to the War Shipping Administration, has stated a figure of 1,393,438 Netherlands guilders as having been spent during that period, for the type of expenditure eligible for reverse lend-lease under a broad interpretation of the general principle of reciprocal aid.

It has been agreeable to the Netherlands Government to accept that statement without further proof or investigation. Accordingly the remaining United States obligation is now agreed to be 3,856,562 Netherlands guilders (5,250,000 minus 1,393,438), which will be paid by the United States Maritime Commission to the Netherlands Ministry of Finance before July 1, 1947.

For this repayment the Maritime Commission may first use the Netherlands guilders remaining in the two War Shipping Administration accounts with the Nederlandsche Bank; the then remaining obligation will be paid in United States dollars computed at the rate of $0.376,953 to the guilder.

If the foregoing is in accordance with your understanding this letter and your reply to that effect will constitute an agreed interpretation of sub-paragraph 3A (6) of today's Agreement between our *Ante*, p. 3936.

MY DEAR MR. AMBASSADOR:

I have your letter of today with regard to the obligations of my Government arising from the advance of a total amount of 5,250,000 Netherlands guilders by your Government to the United States War Shipping Administration.

I am glad to confirm that your letter is in accordance with the understanding of my Government. Your letter and this reply will therefore constitute an agreed interpretation of sub-paragraph 3A (6) of today's Agreement between our two Governments regarding settlement for lend-lease and other war accounts.

MY DEAR MR. SECRETARY:

With reference to the Agreement for the settlement of lend-lease and other war accounts signed today between our Governments I am glad to confirm that, under the arrangements and procedures referred to in sub-paragraph 3 C of that Agreement, the following claims of the Government of the Kingdom of the Netherlands against the United States War and Navy Departments are settled by the mutual undertakings in that Agreement:

Ante, p. 3927.

A. Claims totalling $3,682,274.60:

1. Claims in the amount of $564,612.84 for certain articles and services supplied to the United States Armed Forces in the Netherlands from September 2, 1945 to March 31, 1946.

2. Claims in the amount of $882,661.76 for all articles and services supplied to the United States Armed Forces in the Territories of Surinam and Curaçao from September 2, 1945 to August 31, 1946 ($862,128.59 claimed from the United States Army and $20,533.17 from the United States Navy).

3. Claims in the amount of $1,500,000 for those articles (such as coal, wood and cement) which were supplied to the United States Armed Forces in the Netherlands under reciprocal aid procedures before September 2, 1945 and subsequently determined to be ineligible for reciprocal aid on the grounds that they were in very scarce supply and essential to the Netherlands economy and had to be replaced from abroad.

4. Claims in the amount of $735,000 for airplanes (Beechcraft) originally bought and paid for by the Netherlands Government and turned over to the United States Army on the termination of the Netherlands Flying School at Jackson, Mississippi.

B. All other claims for articles and services supplied to the United States Armed Forces in the Netherlands from September 2, 1945 to March 31, 1946.

I should appreciate your advising me whether the foregoing is in accordance with your understanding.

Sincerely yours,

A. LOUDON

MY DEAR MR. AMBASSADOR:

I have your letter of today listing certain claims of the Government of the Kingdom of the Netherlands against the United States War and Navy Departments and stating that those claims are settled by the mutual undertakings in the Agreement for the settlement of lend-lease and other war accounts signed today between our two Governments. I am glad to confirm that your letter is in accordance with the understanding of my Government.

His Excellency
Dr. A. LOUDON,

DEPARTMENT OF STATE
WASHINGTON
May 28, 1947

MY DEAR MR. AMBASSADOR:

In connection with the Agreement signed today between our Governments for the settlement of lend-lease and other war accounts, and your letter to me of today acknowledging settlement, among others, of certain claims of your Government against the United States War and Navy Departments amounting to $3,682,274.60, I wish to advise you that the total number of Netherlands guilders in accounts of finance officers of the United States armed forces to be turned over to the Netherlands Government pursuant to the arrangements and procedures referred to in sub-paragraph 3C of the above mentioned Agreement is 61,390,703. This amount will be turned over to the Netherlands Government as soon as the Netherlands Government has made the payment of $19,500,000 referred to in sub-paragraph 6A of the Agreement and executes appropriate documents in form acceptable to the War Department.

Ante, p. 3924.

Ante, p. 3927.

Ante, p. 3930.

An additional amount of 31,552 guilders now in accounts of finance officers of the United States Army is shown by United States Army records to have been captured from the enemy. This amount will be turned over to the Netherlands Government unconditionally. If further examination of United States Army records should hereafter reveal that any portion of the above mentioned amount of 61,390,703 guilders was captured from the enemy, the War Department will promptly pay to the Netherlands Government its dollar equivalent, computed at the rate of $0.377415 per guilder. If other captured guilders are found among other guilder holdings of the United States Army, such captured guilders will be turned over to the Netherlands Government unconditionally. The United States Army, by arrangement with representatives of the Netherlands Government, will render any assistance agreed to be necessary to discover such items.

It is my understanding that the Netherlands Government agrees, upon request, to convert into dollars, at the rate specified above, guilders tendered by the United States Army up to an aggregate dollar value of $100,000 over and above the 61,390,703 guilders above referred to and in addition to guilders acquired by the United States Army through official government channels. No request for conversion of guilders in excess of such $100,000 will be made by or on behalf of the United States Army other than in respect to guilders acquired by the United States Army through official Netherlands Government channels.

It is further my understanding that this Agreement settles any claims that the Netherlands Government may have for guilder advances made to the United States armed forces in the Territories of Surinam and Curacao prior to September 1, 1946 and in the Netherlands in Europe prior to the date of this Agreement.

I should appreciate your advising me whether the foregoing is in accordance with your understanding.

DEAR MR. DAUBANTON:

In connection with the Agreement signed today between our Governments for the settlement of lend-lease and other war accounts and recent conversations between representatives of our Governments in that connection, I am glad to confirm that, upon presentation of appropriate documents in form acceptable to the United States Army, articles and services procured by the United States Army in the Netherlands and received after March 31, 1946 will be paid for in dollars by the United States Army in the European Theater and articles and services procured by the United States Army in the Territories of Surinam and Curacao and received after August 31,

Ante, p. 3924.

1946 will be paid for by the United States Army in local currency presently held or to be acquired with United States dollars.

It is understood that the liability of the United States Army to the Netherlands Government, including liability to the Governments of Surinam and Curacao, for procurement by the United States Army of articles and services received before the above mentioned dates is settled by that Agreement, which settles also other claims against the War Department as stated in that Agreement.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE GOVERNMENT OF THE NETHERLANDS INDIES REGARDING A LINE OF CREDIT FOR THE PURCHASE OF UNITED STATES SURPLUS PROPERTY

1. General Terms

A. The United States Government and the Netherlands Indies Government agree that their rights and obligations in connection with the line of credit for the purchase of surplus property heretofore granted by the United States Government to the Netherlands Indies Government in the amount of $100,000,000 shall be as stated in this Agreement. The agreement of July 11, 1946 between the two Governments, establishing such line of credit, is superseded by this Agreement.

B. The amount of the line of credit is $100,000,000.

C. The terms of payment of the amount due under the line of credit shall be as stated in paragraph 2 of this Agreement. This change from the original terms of payment has been consented to by the United States Government as part of the general settlement of lend-lease and other war accounts signed concurrently herewith by the United States Government and the Government of the Kingdom of the Netherlands.

D. The line of credit is for use in purchasing prior to January 1, 1948 United States surplus property, wherever situated, made available by the Office of the Foreign Liquidation Commissioner.

E. Charges heretofore made against the line of credit shall continue to be charges against it as from the respective dates of the charges, but no interest will be payable for the period before July 1, 1946 and interest will accrue thereafter as provided in sub-paragraph 2B of this Agreement.

F. Procedural arrangements heretofore made in connection with the line of credit shall continue in force until changed.

2. Terms of Payment

A. The amount due under the line of credit will be paid by the Netherlands Indies Government to the United States Government in dollars in thirty annual instalments, which shall become payable on July 1 of each year beginning July 1, 1951. The first instalment shall be equal to one-thirtieth of the amount due as of July 1, 1951. Each subsequent instalment shall be equal to so much of the amount due (as of the date of the instalment) as has not previously become payable, divided by the number of instalments that have not previously become payable.

B. Interest on the amount due will be paid to the United States Government by the Netherlands Indies Government in dollars at the fixed rate of two percent per annum on July 1 of each year beginning July 1, 1947, accruing from the previous July 1 on the amount due on such previous July 1. With respect to the amount of any reduction in the amount due under the authority of sub-paragraph 2C and paragraph 3 of this Agreement interest for the period from the preceding July 1 shall be charged only to the date of such reduction.

C. The Netherlands Indies Government may at any time or times make payments to the United States Government under this Agreement of amounts not then payable or larger than are then payable. Any such payment will be credited first to past due interest, if any, and then to past due instalments, if any, and then to the amount due at the time of such payment.

D. If by agreement of both Governments it is determined that because of extraordinary and adverse economic conditions arising during the course of payment, any of the periodic payments of interest, of principal, of interest and principal, or of any part thereof would not be to the common advantage of both Governments, payment may be postponed on such terms and conditions as may be agreed.

3. Provision of Netherlands Indies Currency and of Property

A. The Netherlands Indies Government, when requested by the United States Government, will make available at any time or times, by payment to the United States Government or to such persons or organizations as the United States Government may designate, Netherlands Indies currency in any amount (computed as provided in sub-paragraph 3E of this Agreement) not in excess of the amount due as of such time plus past due interest, for:

(1) The payment of any or all of the ordinary governmental expenditures in the Netherlands Indies of the United States Government or any department or agency thereof;

(2) The acquisition of real property, improvements thereon or furnishings therefor, agreed upon by the two Governments; and

(3) The payment of the cost of educational programs agreed upon by the two Governments.

B. In case the United States Government wishes to acquire any property located in the Netherlands Indies, real or personal, tangible or intangible (other than for export except by mutual agreement), or to improve or furnish any property so located in which it has an interest, the Netherlands Indies Government will at any time or times, as requested by the United States Government, enter into negotiations, and use its best efforts consistent with its public policy, to reach an agreement with the United States Government whereby there will be delivered to the United States Government the properties, improvements or furnishings which the United States Government desires or which the representatives of the United States Govern-

ment have selected. Representatives of the United States Government may at their discretion conduct discussions directly with owners of property or with contractors for improvements or furnishings as to fair terms and prices prior to the delivery of such property, improvements or furnishings to the United States Government.

C. The United States Government declares that it is now its intention to request that Netherlands Indies currency be made available for agreed educational programs under sub-paragraph 3A of this Agreement to the value of $7,000,000 and that it is now its intention to request that Netherlands Indies currency be made available for, or that there be delivered, real property, improvements and furnishings, or both, under sub-paragraphs 3A and 3B of this Agreement to the value of $1,300,000. This statement of intention does not prevent the United States Government from later proposing different amounts from these in these connections. The foregoing amounts are inclusive of amounts heretofore requested under corresponding arrangements hitherto existing under the line of credit.

D. The dollar equivalent (computed in accordance with sub-paragraph 3E of this Agreement) of any Netherlands Indies currency made available and of the Netherlands Indies currency value of any properties, improvements and furnishings delivered under this paragraph 3 or under corresponding arrangements hitherto existing under the line of credit shall be credited first to interest, if any, and then to instalments, if any, past due under this Agreement and then to the amount then due under this Agreement.

E. Any Netherlands Indies currency made available and the Netherlands Indies currency value of any properties, improvements and furnishings delivered under this paragraph 3 or under corresponding arrangements hitherto existing under the line of credit will be valued at the par value between such currency and dollars established in conformity with procedures of the International Monetary Fund, or, if no such par value exists, at the rate most favorable to the United States Government used by the Netherlands Indies Government in any official transaction at the time of the request by the United States Government that such currency be made available or that such properties, improvements or furnishings be delivered.

MEMORANDUM OF ARRANGEMENT BETWEEN THE UNITED STATES OF AMERICA, THE UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND AND THE KINGDOM OF THE NETHERLANDS

Memorandum of Arrangement between the Government of the United States of America (hereinafter referred to as the United States Government), of the one part, the Government of the United Kingdom of Great Britain and Northern Ireland (hereinafter referred to as the United Kingdom Government), represented by the Minister of Transport, of the second part, and the Government of the Kingdom of the Netherlands (hereinafter referred to as the Netherlands Government), of the third part.

1. As used in this Memorandum:

A. The term "June 5 Memorandum" means the "Memorandum of Arrangement Regarding Netherland East Indies Shipping. 5th June, 1942.", and the amendments thereto, between the United Kingdom Government and the Netherlands Government. "June 5 Memorandum."

B. The term "Dollar Agreement" means the "Memorandum of Agreement for Payment of Hire on Netherlands Vessels Chartered to the British Minister of War Transport under the Memorandum of June 5th, 1942, as amended", dated as of June 5, 1942, between the United States Government and the United Kingdom Government. "Dollar Agreement."

C. The term "7 (c) ships" means the ships listed in Annex A hereto. "7 (c) ships."

D. The term "7 (c) period" means, in the case of each 7 (c) ship, the period commencing the date, on or about May 23, 1945, on which the ship became subject either to the exchange of notes between the Netherlands Embassy at Washington and the United States Department of State, dated June 6, 1945 and July 31, 1945, or to the exchange of notes between the Netherlands Embassy at London and the British Foreign Office, dated June 9, 1945 and August 11, 1945, and ending on the date of redelivery to the Netherlands Government or March 2, 1946, whichever was the earlier. "7 (c) period."

2. The three Governments have discussed certain claims regarding dollar overpayments of charter hire by the United Kingdom Government to the Netherlands Government under the June 5 Memorandum, corresponding overpayments by the United States Government to the United Kingdom Government under the Dollar Agreement, and adjustments of charter hire under the June 5 Memorandum. Annexes A, B, C, D, and E hereto are copies of letters exchanged between the

three Governments in these connections. This Memorandum is executed to carry out the intentions expressed by the three Governments in those letters.

Waiver of claims.

3. The United States Government hereby waives all its claims against the United Kingdom Government respecting overpayments by the United States Government to the United Kingdom Government under the Dollar Agreement arising from the removal of the 7 (c) ships during the 7 (c) period from the operation of the June 5 Memorandum.

4. The United Kingdom Government hereby waives all its claims against the Netherlands Government respecting dollar overpayments of charter hire by the United Kingdom Government to the Netherlands Government under the June 5 Memorandum arising from the removal of the 7 (c) ships during the 7 (c) period from the operation of the June 5 Memorandum.

5. The Netherlands Government hereby waives all its claims against the United Kingdom Government for the dollar portion of any outstanding or further adjustments in charter hire with respect to the ships named in the June 5 Memorandum.

ANNEX A

DEPARTMENT OF STATE
WASHINGTON

MAY 23, 1947

MY DEAR MR. CROSS:

This is to confirm the conversations between representatives of the British Embassy and the State Department with regard to overpayment of charter hire on the ships named in the ensuing list. These ships, hereinafter referred to as the 7 (c) ships, became known by that designation in 1945 from the application to them of Article 7 (c) (second sentence) of the Agreement on Principles Having Reference to the Continuation of Coordinated Control of Merchant Shipping, dated August 5, 1944. They are the following:

Overpayment of charter hire.

BLINJOE	KOTA BAROE	TASMAN
BLOEMFONTEIN	KOTA INTEN	TEGELBERG
BOISSEVAIN	MAETSUYCKER	THEDENS
BONTEKOE	MELCHIOR TREUB	TJISADANE
BOSCHFONTEIN	NOORDAM	TJITJALENGKA
BOTH	OPHIR	TOBA
BRASTAGI	PAHUD	VALENTIJN
GENERAAL MICHIELS	POELAU LAUT	VAN DEN BOSCH
GENERAAL VERSPYCK	RUYS	VAN DER LIJN
JAPARA	SLOTERDIJK	VAN HEUTSZ
KHOEN HOEA	SOMMELSDIJK	VAN OUTHOORN
KLIPFONTEIN	SWARTENHONDT	VAN SPILBERGEN
KOTA AGOENG	TABINTA	WELTEVREDEN

The circumstances of the overpayment of charter hire on these ships were as follows:

Pursuant to the "Memorandum of Arrangement Regarding Netherland East Indies Shipping. 5th June 1942." (known as the June 5 Memorandum), signed on behalf of the Netherlands Government and the British Minister of War Transport, the Netherlands Government chartered certain ships to the United Kingdom Government, with the provision that 80 percent of the stipulated charter hire should be paid by the United Kingdom Government to the Netherlands Government in dollars. The 7 (c) ships were a part of the ships so chartered. By a collateral agreement (known as the Dollar Agreement), dated as of June 5, 1942, between the United Kingdom Government and this Government, this Government undertook to pay to the United Kingdom Government the amount of dollars required for the payment of the dollar charter hire due from the United Kingdom Government to the Netherlands Government under the June 5 Memorandum. Pursuant to these agreements dollar charter hire was paid by the United Kingdom Government to the Netherlands Government, and the United States Government reimbursed the United Kingdom Government in dollars for the dollar charter hire so paid. These arrangements applied not only to those of the chartered ships that were allocated to the United States Government but also to those which continued in service with the British Ministry of War Transport within the framework of the United Maritime Authority.

In 1945, more than three years after the effective date of these arrangements, the 7 (c) ships were retroactively removed from them. The change was made by an exchange of notes between the Netherlands Embassy at London and the Foreign Office, dated June 9, 1945 and August 11, 1945, and by an exchange of notes between the

Netherlands Embassy at Washington and the State Department, dated June 6, 1945 and July 31, 1945.

Under the new arrangement the 7 (c) ships were made available by the Netherlands Government at a nominal charter hire to either the United Kingdom Government or the United States Government. This arrangement was retroactive to specific dates on or about May 23, 1945, and from those dates, therefore, the United Kingdom Government had no obligation, with respect to these ships, to pay the charter hire stipulated in the June 5 Memorandum.

Nevertheless, between the specific dates on or about May 23, 1945 and the establishment of the new arrangement, and for a short time thereafter while negotiations were being conducted, the administrative machinery for the payment of charter hire under the June 5 Memorandum continued to function as before, with the result that, in addition to payments owing with respect to ships remaining under the June 5 Memorandum, overpayments of dollar charter hire for the period ending August 31, 1945 in the amount of $1,487,056.95 (as shown by the statement certified by the Ministry of Transport dated October 25, 1946) were made by the United Kingdom Government to the Netherlands Government with respect to the 7 (c) ships and this same amount of dollars was paid under the Dollar Agreement by the United States Government to the United Kingdom Government with respect to the 7 (c) ships.

These overpayments became in due course the subject of discussion among the three Governments concerned, and it has been understood that the United Kingdom Government would ask for repayment by the Netherlands Government of the amount overpaid by the United Kingdom Government to the Netherlands Government, and the United Kingdom Government would in turn repay to the United States Government the amount overpaid by the United States Government to the United Kingdom Government. We understand that the United Kingdom Government has in fact asked the Netherlands Government for the repayment expected from the Netherlands Government.

As you know from discussions which we have had with you of matters of common concern to the three Governments, the United States Government and the Netherlands Government are now negotiating an overall settlement of lend-lease and other war accounts. Because of undertakings which the Netherlands Government is prepared to give to the United States Government as part of this settlement, the United States Government desires to submit to your Government the following proposals with respect to the overpayment of charter hire arising by reason of the removal of the 7 (c) ships from the operation of the June 5 Memorandum during the 7 (c) period (which in each case commenced on a specific date on or about May 23, 1945 and ended on the date of redelivery to the Netherlands Government or March 2, 1946, whichever was the earlier):

(1) The United States Government will waive all its claims against the United Kingdom Government for overpayments so arising under the Dollar Agreement.

(2) The United Kingdom Government will waive all its claims against the Netherlands Government for dollar overpayments of charter hire so arising under the June 5 Memorandum.

If this course is acceptable to your Government, we shall be glad to arrange with you for the necessary waivers, to be delivered concurrently with the signing of the overall lend-lease settlement with the Netherlands Government.

MY DEAR MR. DAUBANTON:

This is in reply to your letter of May 23rd, 1947, addressed to Mr. Ness and to me with regard to a proposed waiver by the Netherlands Government of its claim for the dollar portion of any outstanding or further adjustments in charter hire with respect to the ships named in the memorandum of June 5th, 1942, to which you refer. As you know, the necessary arrangements in this connection are now being made by representatives of your Embassy, the State Department and the British Embassy.

Sincerely yours,

F. V. CROSS

Agreement between the United States of America and Canada respecting cooperation in the reconversion of industry in the transition from war to peace, continuing the principles of the Hyde Park Declaration of April 20, 1941. Effected by exchange of notes signed at Ottawa May 7 and 15, 1945; entered into force May 15, 1945.

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 320

SIR:

Hyde Park Declaration.
Continuation of general principles.

Under the Hyde Park Declaration of April 20, 1941, [1] measures were taken to make the most prompt and effective utilization of the productive facilities of the United States and Canada for wartime purposes. As the period of reconversion approaches, the Government of the United States has given consideration to the continuance of cooperative measures. It believes that these measures apply as a matter of course to the Pacific War and it has noted that the Declaration itself contains no termination date, specific or implied. Accordingly, under the instructions of my Government, I have the honor to propose that the general principles of the Hyde Park Declaration be continued on a fully reciprocal basis for the remainder of the war and that the same spirit of cooperation between the two countries should characterize their treatment of reconversion and other problems of mutual concern as the transition to peacetime economy progresses.

Reconversion of industry.

Consequent upon the degree of integration resulting from our wartime measures of cooperation in the economic field, numerous specific problems will arise from time to time. One such problem to which urgent attention is being given is the reconversion of industry to the maximum extent compatible with vigorous prosecution of the war against Japan. The problem is particularly urgent from the viewpoint of the United States because the Hyde Park Declaration was implemented in large part by the equal application to Canada of domestic procedures in respect of priorities and allocations.

Priorities.

It is evident that during this initial phase of reconversion, priorities administered by the respective control agencies of the two governments are of the utmost importance to industries seeking to prepare for normal trading conditions. In response to informal inquiries received from Canadian officials in Washington and on condition of reciprocity, particularly where Canada is a principal supplier of materials needed for reconversion and civilian production, the Government of the United States would be prepared to implement the follow-

[1] [*Department of State Bulletin*, Apr. 26, 1941, p. 494.]

ing principles as regards requirements which Canadian industry may desire to fulfil in this country for reconversion purposes:

1. The application of the priorities powers towards Canadian requirements should be as closely parallel to the application of the same powers toward domestic requirements as is practicable.
2. Canada should, in general, be given priorities assistance only of a character and to an extent parallel to priorities assistance given similar requirements in the United States, including any machinery needed for immediate reconversion. To the extent, however, that components could be obtained by Canada without benefit of priorities assistance, no objection could be made to more rapid reconversion activities in Canada.
3. Assistance should be given to Canadian companies through their priorities officer to grant automatic AA–4 priorities and firm CMP allotments to manufacturing concerns producing less than $50,000 of product per quarter, similar to such assistance granted domestic small firms. Similarly, the rating privileges of Pri. Reg. 24 and L–41, as they may be amended, should be available to Canadian applicants.
4. It is recognized that complete parallelism of revocation and relaxation of orders between the United States and Canada is not possible because of the differences in the situations in the two nations. However, an effort should be made, in conjunction with the Canadian authorities, to reach the greatest parallelism possible. If it should become necessary for Canada to relax their orders more rapidly than the United States, in no case should priorities assistance be given to a Canadian manufacturer to make civilian goods which are prohibited in this country by War Production Board order.

While the problem of reconversion of industry is the first of the problems which my Government believes it mutually desirable to consider under the principles of the Hyde Park Declaration, other problems will shortly arise. The Canadian Ambassador's note, no. 156,[1] of April 30 to the Secretary of State regarding the disposal of surplus war-like stores arising from orders placed by either government in the other country may, when the dimensions of the subject become more clearly defined, provide an instance in which my Government will seek the favorable consideration of your Government under the Hyde Park principles. Other questions will inevitably arise in connection with the relaxation of wartime controls affecting trade, such as the War Exchange Tax and procedures applicable to exports to the other American republics.

In his statement on the initial period of reconstruction presented to Parliament by the Minister of Reconstruction last month, the Minister referred to the great wartime increase in the output and exchange of goods which was dependent on close collaboration among the Governments of the British Commonwealth and of the United States. He

[1] [Not printed.]

stated that postwar collaboration along equally bold and imaginative lines was essential in the interest of expanded world trade. At Washington on March 13, 1945, a similar statement was made by Prime Minister King and by the late President Roosevelt in regard to the problems of international economic and trading policy.

In view of the high degree of economic interdependence of the Canadian and American economies, the Government of the United States desires to assure the Government of Canada that it will consider and deal with the problems of the transition from war to peace in the spirit of the Hyde Park Declaration which gave rise to such successful cooperation for war purposes. My Government would greatly appreciate a similar assurance on the part of the Canadian Government, together with an expression of its views on the principles which the United States Government would be willing to apply in the initial problem of the reconversion of industry.

Accept, Sir, the renewed assurances of my highest consideration.

RAY ATHERTON

The Right Honorable
The Acting Secretary of State
for External Affairs,
Ottawa.

The Acting Secretary of State for External Affairs to the American Ambassador

DEPARTMENT OF
EXTERNAL AFFAIRS

No. 48

OTTAWA, *May 15, 1945.*

EXCELLENCY:

The Government of Canada welcomes the assurance of the Government of the United States, contained in your note No. 320 of May 7th, that it will consider and deal with the problems of the transition from war to peace in the spirit of the Hyde Park Declaration which gave rise to such successful co-operation for war purposes.

The Canadian Government agrees that post-war collaboration along bold and imaginative lines is essential in the interests of expanded world trade.

The Government of Canada on its part desires to assure the Government of the United States that the same spirit of co-operation, which was manifested in the Hyde Park Declaration, will characterize the Canadian Government's consideration and treatment of the problems of the period of transition which are of mutual concern.

The principles which the Government of the United States would be willing to apply on condition of reciprocity in the initial problem of the reconversion of industry are acceptable to the Canadian Government. The Canadian Government believes indeed that the principles proposed will minimize for both Governments the difficulties of reconversion.

The Canadian Government assumes that "the condition of reciprocity" implies a continued adherence to the principle of reciprocity followed throughout the war when both Governments have made allowance for the difference in the conditions existing and in the methods of control adopted in the two countries.

Accept, Excellency, the renewed assurances of my highest consideration.

BROOKE CLAXTON
Acting Secretary of State
for External Affairs.

His Excellency
The Honourable RAY ATHERTON,
Ambassador of the United States of America,

Agreements and supplementary exchanges of notes between the United States of America and Italy respecting financial and economic relations. Signed at Washington August 14, 1947; entered into force August 14, 1947.

MEMORANDUM OF UNDERSTANDING

Between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters.

Mutual renunciation of claims.

As an integral part of the measures which are now being taken to restore normal financial and economic relations between our countries, and as a step toward the economic stability of Italy, the Government of the United States of America and the Government of Italy have reached an understanding providing for mutual renunciation of claims and for related agreements, as follows:

ARTICLE I

RENUNCIATION OF CLAIMS BY ITALY OR ITALIAN NATIONALS

61 Stat., Pt. 2, p. 1401.

1. (a) In reaffirmation of and connection with Article 76 of the Treaty of Peace with Italy, dated at Paris February 10, 1947, the Government of Italy waives all claims of Italy of any description, arising directly out of the war or out of actions taken because of the existence of a state of war in Europe after September 1, 1939, against United States nationals or the Government of the United States of America, any of its agencies, or contractors or sub-contractors of, or licensees from the Government of the United States of America or its agencies.

(b) The Government of Italy further discharges and agrees to save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any such claims of Italian nationals.

2. (a) The Government of Italy waives any claims of Italy against the Government of the United States of America, its agencies or United States nationals arising out of actions with respect to ships under Italian registry and flag, including ships in which there is an Italian interest, between September 1, 1939 and the coming into force of the present Memorandum of Understanding, including claims with respect to the use of Italian ships for civilian or other passenger carriage.

(b) The Government of Italy further discharges and agrees to save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any such claims of Italian nationals.

3. The Government of Italy waives any claims of Italy against the Government of the United States of America, its officers or agencies arising out of the maintenance of camps in Italy for displaced persons and for all costs incurred in caring for displaced persons in Italy, including but not limited to claims for reimbursement of the United States share of lira funds advanced to the Allied Financial Agency for the purposes specified in this paragraph. Displaced persons.

4. (a) The Government of Italy discharges and agrees to save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any claims:

(i) of Italian nationals, whether or not asserted in the courts of any country, respecting which the ultimate liability is that of the Government of the United States of America, and arising out of maritime incidents, occurring between September 1, 1939 and the coming into force of the present Memorandum of Understanding, excluding incidents involving ships engaged in purely commercial activities; or Maritime incidents.

(ii) of Italian nationals or persons domiciled or resident in Italy against the Government of the United States of America, its contractors and sub-contractors, or licensees therefrom, for royalties ultimately paid or payable by the United States of America, or for use of inventions, patented or unpatented, or for infringement of patent rights, arising out of any use of patents or inventions by the Government of the United States of America or such contractors, sub-contractors or licensees, in connection with the wartime activities of the United States of America or programs connected therewith. Royalties for use of inventions, etc.

(b) The Government of Italy further waives any such claims of Italy.

5. (a) The Government of Italy discharges and agrees to save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any claims of Italian nationals, or non-Italian nationals, residing in or transiting Italy, whether or not asserted in the courts of any country, respecting which the ultimate liability is that of the Government of the United States of America and arising out of acts or ommission, both line of duty and non-line of duty, of military and civilian employees of the armed forces of the United States of America, occurring between September 1, 1939 and the coming into force of the present Memorandum of Understanding. Liability arising out of acts or omission of employees of U. S. armed forces.

(b) The Government of Italy further waives any such claims of Italy.

(c) The Government of Italy further agrees to process and to assume full responsibility for the settlement and discharge of any such claims.

Seizure and disclosure of technology.

6. (a) The Government of Italy discharges and agrees to save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any claims of Italian nationals against the Government of the United States of America, its agencies, or persons acting under its direction, arising out of the seizure and disclosure of technology, whether patented or not, under programs of the Government of the United States of America for the acquisition and disclosure of such technology in connection with wartime operations and any claim against any person based upon use of information so disclosed.

(b) The Government of Italy further waives any such claims of Italy.

61 Stat., Pt. 2, p. 1396.

7. (a) The obligation to return Italian goods under Article 73(2) of the Treaty of Peace is understood to be an obligation only to return such goods in the condition in which they exist at the time of return.

(b) (i) Except as specified in Article 73(2) of the Treaty of Peace, no claim shall be asserted by Italy against the Government of the United States of America or its agencies, or against duly authorized United States nationals, arising out of or in connection with procurement or requisition of supplies, services or facilities in Italy by the military forces or civil agencies of the United States of America prior to the effective date of the said Treaty.

(ii) The Government of Italy further agrees to process and to assume full responsibility for the settlement and discharge of any such claims of Italian nationals.

8. With respect to any of the waivers included in the present Article, the Government of Italy reaffirms its obligations to make equitable compensation in lira to the extent set out by the terms of Article 76(2) of the Treaty of Peace.

61 Stat., Pt. 2, p. 1402.

ARTICLE II

RENUNCIATION OF CLAIMS BY THE GOVERNMENT OF THE UNITED STATES OF AMERICA

9. The Government of the United States of America, recognizing the contribution of Italy towards the winning of the war by Italian action since October 13, 1943, and recognizing the conditions and terms of the Treaty of Peace with Italy and of various clauses of this financial agreement, agrees to renounce and waive claims of the Government of the United States of America or its agencies arising out of the following connections:

61 Stat., Pt. 2, p. 1245.

(a) Civilian supplies furnished, prior to the effective date of this Memorandum of Understanding, under the military relief program;

(b) Dollars transferred or to be transferred to Italy, equivalent to the net lira expenditures of the United States armed forces in Italy; and

(c) Supplies procured with funds appropriated for the purposes of the Lend-Lease Act and transferred to Italy through the agency of the United States Department of War. 55 Stat. 31. 22 U. S. C. §§ 411-419.

10. The Government of the United States of America waives such claims as it may have for the payment of salary to Italian officer prisoners of war, made consistent with the convention relating to the treatment of prisoners of war, signed at Geneva on July 27, 1929. Italian prisoners of war. 47 Stat. 2021.

11. (a) The Government of the United States of America agrees to continue to honor in lira, at the prevailing rate of exchange applicable to the Government of the United States of America expenditures in Italy at the time of payment, and in accordance with procedures established by the United States military authorities, all valid evidences of obligations made out by the Government of the United States of America or its agencies and in its name or the name of any of its agencies to former Italian prisoners of war and surrendered Italian personnel, both officer and enlisted, it being understood that the two Governments may enter into a subsequent understanding with reference to the procedures which may be utilized by the Government of the United States of America to meet these obligations.

(b) The Government of Italy further agrees to undertake that all payments which have been made by it to former Italian prisoners of war and surrendered personnel prior to the effective date of this agreement in lira at less than the prevailing rate of exchange applicable to the Government of the United States of America expenditures in Italy at the time of payment, shall be adjusted to such then prevailing rate of exchange.

12. The Government of the United States of America waives all costs, including maintenance costs, incurred in the repatriation of Italian prisoners of war to the assembly point on Italian territory. For the purposes of this Memorandum of Understanding the assembly point on Italian territory shall be considered the first point of arrival of Italian prisoners of war on Italian territory.

13. The Government of the United States of America waives any claims it or its agencies or officers may have with respect to advances made by it toward the financing of Italian Partisans. The Government of the United States of America, in further recognition of the renunciation of claims by the Government of Italy, and with particular reference to paragraph 2(a) above, waives all claims it may have against the Government of Italy resulting from advances made by it toward the maintenance of Italian diplomatic missions, and also Italian shipping and crews in neutral ports. Italian Partisans, etc. *Ante*, p. 3962.

14. (a) The Government of the United States of America waives any claims it or its agencies or officers may have with respect to any transfer made directly by the armed forces of the United States of America, their agencies, or officers of supplies and materials from military stocks to the Government of Italy, to the Italian armed forces or their agencies or officers.

(b) The Government of the United States of America, with reference to 14 (a) above, reserves the right of recapture of any arms, U. S. right of recapture of arms, etc.

ammunition and implements of war (of the types listed in Proclamation No. 2717 of the President of the United States of America, dated February 14, 1947), which may have been transferred by the armed forces of the United States of America, its agencies or officers, and are held by the Government of Italy, its agencies or officers, on the date on which notice requesting return is communicated to the Government of Italy, but the Government of the United States of America has indicated that it does not intend to exercise generally its right of recapture of such articles. Disposal of such articles by the Government of Italy in or for use in other countries will be made only with the consent of the Government of the United States of America and with payment to the Government of the United States of America of any proceeds of such disposals. The Government of Italy agrees that all such articles held by it will be used only for purposes compatible with the principles of international security and welfare set forth in the Charter of the United Nations.

61 Stat., Pt. 2, p. 1051.

Surplus property.

15. Nothing contained herein shall be construed to affect in any manner obligations assumed by Italy or the United States of America pursuant to settlements between Italy and the United States of America involving disposal of surplus property.

ARTICLE III

PROPERTY OF NATIONALS OF THE UNITED STATES OF AMERICA

16. (a) The Government of Italy will expedite in any manner necessary arrangements now being undertaken, or those necessary to be undertaken, for the desequestration of and release of any unusual controls over the property or interests in property in Italy of nationals of the United States of America, including the cancellations of any controls, contracts, including contracts for the sale of capital assets or a part thereof, agreements or arrangements undertaken during the period of control in accordance with the request, or at the direction of the Government of Italy, its agencies or officials, which are not deemed to have been in the best interest of such property or interests. The Government of Italy further agrees that with respect to the application of Paragraph 4 (a) and 4 (d) of Article 78 of the Treaty of Peace to cases which fall within the terms of this provision, as well as to all cases to which Paragraph 4 (a) and 4 (d) of Article 78 apply, the requirement "for the restoration to complete good order" shall be followed in all cases where there has been (1) deterioration of the physical property while under Italian control, and (2) where the physical property has suffered non-substantial damage as a result of acts of war. In all other cases the requirement to compensate in lira to the extent of "two-thirds of the sum necessary" shall apply, provided that the Government of Italy may, with respect to any case, apply the requirement "for the restoration to complete good order."

61 Stat., Pt. 2, pp. 1404, 1405.

(b) The Government of Italy agrees that with respect to the property or interests in property of United States nationals which property or interests are not covered by section (a) above, it will ac-

cord such property or interests treatment identical with that provided in section (a) above.

(c) The Government of Italy shall, with reference to paragraphs (a) and (b) above, apply Paragraph 4 (b) of Article 78 of the Treaty of Peace. 61 Stat., Pt. 2, p. 1404.

(d) Compensation paid in accordance with terms of this section shall be free of levies, taxes, or other charges and shall be freely usable in Italy but shall be subject to the foreign exchange control regulations which may be in force in Italy from time to time.

ARTICLE IV

PREWAR CLAIMS OF THE GOVERNMENT OF THE UNITED STATES OF AMERICA OR OF UNITED STATES NATIONALS

17. (a) The Government of Italy, recognizing the existence of legitimate claims of the Government of the United States of America or of United States nationals against the Government of Italy or Italian nationals arising out of contracts or other obligations incurred prior to December 8, 1941, agrees that it will make every effort to settle at an early a date as possible, and to facilitate to the extent possible the payment of the debts or other claims referred to hereinabove.

(b) With respect to lira payments made under Italian law to Italian government agencies in purported discharge of debts in non-lira currencies owed by Italian nationals to nationals of the United States of America, the Government of Italy fully recognizes the existence of legitimate claims of the Government of the United States of America or United States nationals in these cases. The Government of Italy further agrees that within six months from the date of the signing of this Memorandum of Understanding it will either assume the obligation to make payment of such debts in foreign exchange to the extent that lira payments were made to the Government of Italy in the manner referred to above, or it will provide that the Italian debtor shall be held directly responsible for the payment of such debts. In either event, the Government of Italy agrees that it will make available the foreign exchange necessary for the discharge of such debts at the earliest date permitted by the Italian foreign exchange position. It is understood that the provisions of this section do not prejudice any settlement between the Government of Italy and the Italian debtors with respect to such lira payments.

ARTICLE V

DEFINITIONS

"Nationals." 18. For the purposes of this Memorandum of Understanding, the term "nationals" means individuals who are nationals of the United States of America, or of Italy, or corporations or associations organized under the laws of the United States of America or Italy, at the time of the coming into force of this Memorandum of Understanding, provided, that under Article III above, nationals of the United States of

America shall, for purposes of receiving compensation, also have held this status either at the time at which their property was damaged or on September 3, 1943, the date of the Armistice with Italy.

ARTICLE VI

CLAUSES OF THE TREATY OF PEACE

19. It is agreed that any of the clauses of the Treaty of Peace, dated at Paris February 10, 1947, to which this Memorandum of Understanding may refer, shall be considered as constituting an integral part of this Memorandum of Understanding, as between the Governments of the United States of America and Italy.

61 Stat., Pt. 2, p. 1245.

ARTICLE VII

EFFECTIVE DATE

20. This Memorandum of Understanding shall enter into force upon the day it is signed.

Valid languages.

Done at Washington in duplicate, in the English and Italian languages, both of which shall have equal validity, this 14th day of August, 1947.

MEMORANDUM D'INTESA

tra il Governo degli Stati Uniti d'America e il Governo Italiano, concernente il regolamento di determinati "claims" del tempo di guerra e di questioni connesse.

Come parte integrale dei provvedimenti che si vengono ora adottando per ristabilire normali rapporti finanziari ed economici fra i nostri Paesi, e come un passo verso la stabilita' economica dell'Italia, il Governo italiano e il Governo degli Stati Uniti d'America hanno concordato il seguente memorandum d'intesa, in cui si dispone per una rinuncia reciproca ai "claims" e per gli accordi relativi.

ARTICOLO I

Rinuncia ai "claims" da parte dell'Italia o di cittadini italiani.

1. (a) A conferma ed in relazione con l'articolo #76 del Trattato di Pace con l'Italia, in data 10 febbraio 1947, il Governo italiano rinuncia ad ogni "claim" di qualsiasi natura dell'Italia, che possa sorgere direttamente dal fatto della guerra o dai provvedimenti adottati a seguito di uno stato di guerra esistente in Europa, dopo il I settembre 1939, nei confronti del Governo degli Stati Uniti d'America, di qualsiasi dei suoi organi, o di qualsiasi dei suoi cittadini, o di appaltatori o sub-appaltatori, o di licenziatari del Governo degli Stati Uniti d'America o dei suoi organi.

(b) Il Governo italiano inoltre esonera ed accetta di ritenere indenne il Governo degli Stati Uniti d'America da qualsiasi responsabilita' in ordine all'accertamento, al regolamento ed al soddisfacimento di qualsiasi dei predetti "claims" di cittadini Italiani.

2. (a) Il Governo italiano rinuncia a qualsiasi "claim" dell'Italia nei confronti degli Stati Uniti d'America, dei suoi organi e cittadini, che sorga da azioni concernenti navi sotto registro e bandiera italiani, comprese le navi nelle quali vi sia un interesse italiano, fra il I settembre 1939 e l'entrata in vigore del presente memorandum d'intesa, inclusi i "claims" relativi all'uso di navi italiane per il trasporto di passeggeri civili e altri passeggeri.

(b) Il Governo italiano inoltre esonera ed accetta di ritenere indenne il Governo degli Stati Uniti d'America da qualsiasi responsabilita' per l'accertamento, il regolamento e il soddisfacimento di qualsiasi dei predetti "claims" di cittadini italiani.

3. Il Governo italiano rinuncia a tutti i "claims" dell'Italia, nei confronti del Governo degli Stati Uniti d'America, di suoi funzionari o organi, sorgenti dal mantenimento dei campi per i profughi in Italia, e per tutte le spese sostenute per l'assistenza dei profughi in Italia, comprendenti ma non limitantisi ai "claims" relativi al rimborso della quota afferente agli Stati Uniti d'America dei fondi in lire anticipati all'AFA ("Allied Financial Agency") per gli scopi specificati in questo paragrafo.

4. (a) Il Governo italiano esonera ed accetta di ritenere indenne il Governo degli Stati Uniti d'America da qualsiasi responsabilita' per l'accertamento, il regolamento e il soddisfacimento di tutti i "claims":

(i) di cittadini italiani anche se riconosciuti in giudizio in qualsiasi Paese, per i quali la responsabilita' definitiva e' del Governo degli Stati Uniti d'America, e derivanti da incidenti marittimi verificatisi tra il I settembre 1939 e l'entrata in vigore del presente memorandum d'intesa, esclusi gli incidenti concernenti navi impegnate in attivita' puramente commerciali; oppure

(ii) di cittadini italiani o persone domiciliate o residenti in Italia, nei confronti del Governo degli Stati Uniti d'America, di suoi appaltatori e sub-appaltatori, o di licenziatari per canoni pagati o pagabili in definitiva dagli Stati Uniti d'America o per l'uso d'invenzioni, brevettate o no, o per violazione dei diritti di brevetto, sorgenti da qualsiasi uso di brevetti o di invenzioni da parte del Governo degli Stati Uniti d'America o dei predetti appaltatori, subappaltatori o licenziatari, in connessione alle attivita' degli Stati Uniti del tempo di guerra o ai programmi ad esse collegate.

(b) Il Governo italiano rinuncia altresi' a qualsiasi di tali "claims" da parte dell' Italia.

5. (a) Il Governo italiano esonera ed accetta di ritenere indenne il Governo degli Stati Uniti d'America da qualsiasi responsabilita' per l'accertamento, il regolamento e il soddisfacimento di tutti i "claims" di cittadini italiani e di cittadini non-italiani, residenti o in transito in Italia, riconosciuti o meno da tribunali di qualsiasi Paese, rispetto ai quali la responsabilita' definitiva e' del Governo degli Stati Uniti d'America, e derivanti da atti o omissioni, sia in servizio che fuori servizio, di dipendenti militari e civili delle forze armate statunitensi verificatisi fra il I settembre 1939 e l'entrata in vigore del presente memorandum d'intesa.

(b) Il Governo italiano rinuncia altresi' a qualsiasi di tali "claims" da parte dell' Italia.

(c) Il Governo italiano concorda inoltre di accertare e di assumere piena responsabilita' per il regolamento e la sistemazione di tutti i predetti "claims".

6. (a) Il Governo italiano esonera ed accetta di ritenere indenne il Governo degli Stati Uniti d'America da qualsiasi responsabilita' per l'accertamento, il regolamento e il soddisfacimento di qualsiasi "claim" di cittadini italiani nei confronti del Governo degli Stati Uniti d'America, di suoi organi o di persone operanti ai suoi ordini derivante dal sequestro e dalla divulgazione di ritrovati tecnici, brevettati o no, conformemente ai programmi del Governo degli Stati Uniti d'America per l'acquisto e la divulgazione di tali ritrovati tecnici in relazione alle operazioni del tempo di guerra e di qualsiasi "claim" nei confronti di qualsiasi persona, formato sull'uso di informazioni cosi' divulgate.

(b) Il Governo italiano rinuncia altresi' a qualsiasi di tali "claims" da parte dell' Italia.

7. (a) L'obbligo di restituire i beni italiani a norma dell'articolo 73 (2) del Trattato di Pace, viene inteso come obbligazione di restituire soltanto tali beni nelle condizioni in cui si trovano al momento della restituzione.

(b) (i) eccetto quanto specificato nell'articolo 73 (2) del Trattato di Pace, nessun "claim" verra' presentato dall'Italia nei confronti del Governo degli Stati Uniti d'America, di suoi organi e di suoi cittadini debitamente autorizzati, che derivi o sia connesso al reperimento o alla requisizione di rifornimenti, servizi e agevolazioni in Italia da parte delle forze armate o degli organi civili degli Stati Uniti d'America, anteriormente alla data di entrata in vigore del predetto Trattato.

(ii) Il Governo italiano concorda altresi' di accertare e di assumere piena responsabilita' per il regolamento e la sistemazione di qualsiasi di tali "claims" di cittadini italiani.

8. Riguardo a qualsiasi delle rinuncie comprese in questo articolo, il Governo italiano riafferma il suo obbligo di corrispondere equa indennita' in lire nei termini stabiliti dall'art. #76 (2) del Trattato di Pace.

ARTICOLO II

Rinuncia ai "claims" da parte del Governo degli Stati Uniti d'America.

9. Il Governo degli Stati Uniti d'America riconoscendo il contributo dell'Italia alla vittoria nella guerra, rappresentato dall'azione italiana a partire dal 13 ottobre 1943, e riconoscendo le condizioni ed i termini del Trattato di Pace con l'Italia e di varie clausole di questo accordo finanziario, concorda di rinunciare ai "claims" del Governo degli Stati Uniti d'America e dei suoi organi sorgenti dai seguenti rapporti:

(a) "Civilian supplies" forniti anteriormente alla data di entrata in vigore di questo memorandum d'intesa, a norma del programma militare di soccorso;

(b) Dollari trasferiti o da trasferire all'Italia, equivalenti alla spesa netta in lire delle forze armate statunitensi in Italia; e

(c) Rifornimenti disposti con i fondi stanziati per gli scopi previsti dal "lend-lease act" e trasferiti in Italia per il tramite di organi del Ministero della Guerra degli Stati Uniti d'America.

10. Il Governo degli Stati Uniti d'America rinuncia a quei "claims" che gli possano derivare dal pagamento di stipendi a ufficiali italiani, prigionieri di guerra, effettuato a norma della convenzione di Ginevra del 29 luglio 1929 relativa al trattamento dei prigionieri di guerra.

11. Il Governo degli Stati Uniti d'America concorda di continuare a far fronte in lire al tasso di cambio applicabile alle spese in Italia del Governo degli Stati Uniti d'America, in vigore al momento del pagamento e secondo le procedure stabilite delle Autorita' militari degli Stati Uniti d'America, a tutte le valide documentazioni di impegni emesse dal Governo degli Stati Uniti di America o dai suoi organi o in suo nome o in nome dei suoi organi nei riguardi dei prigionieri di

guerra italiani e di personale arresosi italiano, sia ufficiali che truppa, restando convenuto che i due Governi potranno concludere una successiva intesa con riferimento alle procedure che potranno essere seguite dal Governo degli Stati Uniti d'America per far fronte a tali impegni.

(b) Il Governo italiano ulteriormente conviene di impegnarsi a che tutti i pagamenti in lire che sono stati da esso effettuati a exprigionieri di guerra italiani e a personale arresosi italiano prima della data effettiva del presente accordo, per un controvalore inferiore al tasso di cambio applicabile alle spese in Italia del Governo degli Stati Uniti d'America in vigore al momento del pagamento, vengano adeguati a tale tasso di cambio in vigore al predetto momento.

12. Il Governo degli Stati Uniti d'America rinuncia a tutte le spese, comprese quelle di mantenimento, sostenute per il rimpatrio dei prigionieri di guerra italiani fino ai punti di concentramento nel territorio italiano. Ai fini di questo accordo, per punto di concentramento sara' considerato il primo punto di arrivo dei prigionieri di guerra nel territorio italiano.

13. Il Governo degli Stati Uniti d'America rinuncia a qualsiasi "claim" che esso o i suoi organi o i suoi funzionari possano avere in dipendenza di anticipazioni da esso effettuate per il finanziamento dei partigiani italiani. Il Governo degli Stati Uniti d'America, in ulteriore riconoscimento della rinuncia ai "claims" da parte del Governo italiano, o con particolare riferimento al paragrafo 2 (a) di cui sopra, rinuncia a tutti i "claims" che esso possa avere nei confronti del Governo italiano in dipendenza di anticipazioni fatte da esso medesimo per il mantenimento di missioni diplomatiche italiane, nonche' di navi ed equipaggi italiani in porti neutrali.

14. (a) Il Governo degli Stati Uniti d'America rinuncia a qualsiasi "claim" che esso o i suoi organi o i suoi funzionari possano avere in dipendenza di qualsiasi cessione effettuata direttamente dalle forze armate degli Stati Uniti d'America, da loro organi o funzionari, di rifornimenti e materiali prelevati dalle scorte militari, a favore del Governo italiano, delle forze armate italiane o di loro organi o funzionari.

(b) Il Governo degli Stati Uniti d'America, con riferimento al paragrafo 14 (a) di cui sopra, si riserva il diritto di recuperare armi, munizioni e strumenti di guerra (dei tipi elencati nella Proclamazione No. 2717 del Presidente degli Stati Uniti d'America in data 14 febbraio 1947), che possano essere stati ceduti dalle forze armate o da organi degli Stati Uniti d'America, e che siano detenuti dal Governo italiano, da organi o funzionari di questi, alla data in cui venga comunicata al Governo italiano la richiesta di restituzione; il Governo degli Stati Uniti d'America, ha fatto peraltro presente che in linea di massima non intende esercitare il suo diritto di recupero dei materiali predetti. La cessione dei materiali stessi da parte del Governo italiano ad altri Paesi o la concessione in uso in altri Paesi potra' essere fatta solamente

con il consenso del Governo degli Stati Uniti d'America e dietro versamento al Governo degli Stati Uniti d'America di qualsiasi ricavo di tali cessioni. Il Governo italiano concorda che tutti i detti materiali detenuti da esso verranno impiegati soltanto per finalita' compatibili con i principi della sicurezza e del benessere internazionali espressi nella Carta delle Nazioni Unite.

15. Nulla di quanto e' qui contenuto dovra' essere interpretato in modo da modificare in qualsiasi maniera gli obblighi assunti dall'Italia o dagli Stati Uniti d'America, in conformita' al regolamento fra l'Italia e gli Stati Uniti d'America della cessione dei beni "surplus".

ARTICOLO III

Beni di cittadini degli Stati Uniti di America.

16. (a) Il Governo italiano sollecitera' in tutti i modi i provvedimenti ora in corso di adozione, o quelli che occorra adottare, per il dissequestro e per la revoca di ogni controllo straordinario sui beni o sugli interessi di cittadini degli Stati Uniti d'America in beni in Italia, compresa la cancellazione di qualsiasi controllo, contratto, inclusi contratti per la vendita di attivita' o di una parte di esse, accordo o intesa, disposti durante il periodo del controllo, dietro richiesta o per disposizione del Governo italiano, dei suoi organi o funzionari, i quali (provvedimenti) si ritenga non siano stati nel migliore interesse di tali beni o interessi. Il Governo italiano concorda inoltre che riguardo all'applicazione del paragrafo 4 (a) e 4 (d) dell'articolo #78 del Trattato di Pace ai casi che ricadono sotto questa disposizione, nonche' a tutti i casi a cui si applicano le disposizioni dei paragrafi 4 (a) e 4 (d) dell'articolo #78, la prescrizione "per la rimessa in ottimo stato" dovra' essere applicata in tutti i casi in cui vi e' stata (1) deteriorazione dei beni fisici durante il controllo italiano, e (2) nei casi in cui i beni fisici hanno sofferto danni non sostanziali come conseguenza di atti di guerra. In tutti gli altri casi dovra' essere applicata la prescrizione di compensare in lire alla concorrenza dei "due terzi della somma necessaria", salva la facolta' per il Governo italiano, rispetto ad ogni caso, di applicare la prescrizione "per la rimessa in ottimo stato".

(b) Il Governo italiano concorda che rispetto ai beni o agli interessi in beni di cittadini degli Stati Uniti i cui beni o interessi non siano compresi nella precedente sezione (a), accordera' a tali beni o interessi l'identico trattamento previsto nella precedente sezione (a).

(c) In riferimento ai precedenti paragrafi (a)–(b), il Governo italiano applichera' il paragrafo 4 (b) dell'articolo #78 del Trattato di Pace.

(d) Il compenso pagato a norma del disposto di questa sezione sara' esente da imposta, tasse, od altri oneri e sara' liberamente utilizzabile in Italia, ma sara' soggetto alle norme di controllo valutario che al momento saranno in vigore in Italia.

ARTICOLO IV

"claims" prebellici del Governo degli Stati Uniti d'America o di cittadini degli Stati Uniti d'America.

17. (a) Il Governo italiano, riconoscendo l'esistenza di legittimi "claims" del Governo degli Stati Uniti d'America o dei suoi cittadini nei confronti del Governo italiano o dei suoi cittadini, derivanti da contratti o altre obbligazioni anteriori all'8 dicembre 1941, concorda che fara' ogni sforzo per regolare al piu' presto possibile e per facilitare nella misura possibile il pagamento dei debiti o degli altri "claims" a cui sopra ci si riferisce.

(b) Rispetto ai pagamenti in lire fatti a norma della legge italiana, a organi del Governo italiano, con l'intendimento di scaricare i debiti in valute diversi dalla lira dovuti da cittadini italiani a cittadini degli Stati Uniti d'America, il Governo italiano riconosce pienamente l'esistenza di legittimi "claims" del Governo degli Stati Uniti d'America o dei suoi cittadini in questi casi. Il Governo italiano concorda inoltre che entro sei mesi dalla data della firma di questo memorandum d'intesa esso: o assumera' l'obbligo di effettuare il pagamento di tali debiti in valuta estera fino alla concorrenza dei pagamenti in lire effettuati al Governo italiano nel modo anzidetto, oppure prendera' disposizioni perche' il debitore italiano sia tenuto direttamente responsabile per il pagamento di tali debiti. Nell'uno e nell'altro caso il Governo italiano concorda che rendera' disponibile la valuta estera necessaria per lo scarico di tali debiti al piu' presto possibile compatibilmente con la posizione valutaria dell'Italia. Resta inteso che le disposizioni di questa sezione non pregiudicano alcun regolamento fra il Governo italiano e i debitori italiani rispetto a tali pagamenti in lire.

ARTICOLO V

DEFINIZIONI

18. Ai fini del presente memorandum d'intesa, l'espressione "cittadini" (nationals) si applica alle persone fisiche che siano cittadini degli Stati Uniti d'America o dell'Italia, e alle Societa' o Associazioni costituite secondo le leggi degli Stati Uniti d'America o dell'Italia, alla data dell'entrata in vigore del memorandum d'intesa, fermo restando che rispetto al precedente articolo III, i cittadini degli Stati Uniti d'America dovranno, al fine di ricevere il compenso, aver posseduto questo status o all'epoca in cui i loro beni furono danneggiati, oppure al 3 settembre 1943, data dell'armistizio con l'Italia.

ARTICOLO VI

Clausole del Trattato di Pace.

19. E' inteso che qualsiasi delle clausole del Trattato di Pace con l'Italia in data 10 febbraio 1947, alle quali questo memorandum d'intesa si riferisca, sara' considerata come parte integrante di questo memorandum, per cio' che concerne i rapporti fra i Governi degli Stati Uniti d'America e d'Italia.

ARTICOLO VII

Data effettiva.

20. Le disposizioni di questo memorandum d'intesa entreranno in vigore immediatamente all'atto della firma.

Il presente documento viene redatto in Washington in due testi rispettivamente in lingua inglese ed in lingua italiana, aventi ambedue eguale valore, alla data del 14 agosto 1947.

U. S. military cemeteries in Italy. *Ante*, p. 3962.

With respect to the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters", I am authorized, on behalf of the Government of Italy, to make known to you the intentions of the Government of Italy with respect to United States military cemeteries in Italy.

The Government of Italy is deeply aware of the fact that the existence of these cemeteries is the result of the valiant and heroic sacrifices made by nationals of the United States of America in the cause of peace and justice for my country, as well as for their country. My Government is also deeply aware of the fact that for years to come the members of the families and relatives of those United States nationals who are buried in United States military cemeteries in Italy will wish to visit their graves. The Government of Italy, therefore, in recognition of the circumstances which led to the establishment of these cemeteries and in full appreciation of their symbolic significance, offers to undertake to maintain in good order and in perpetuum all United States military cemeteries in Italy.

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

I have the honor to acknowledge receipt of your note of this date in the following terms:

[Text same as in preceding note.]

The Government of the United States of America not only values the offer of the Government of Italy to maintain in good order and in perpetuum all United States military cemeteries in Italy, but also the motives which prompted that offer.

It is, therefore, with a deep sense of appreciation that I accept, on behalf of my Government, the offer of the Government of Italy to undertake to maintain in good order and in perpetuum all United States military cemeteries in Italy.

Accept, Sir, the renewed assurances of my highest consideration.

AUGUST 14, 1947

SIR:

With reference to the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters", I have the honor to inform you of my Government's undertakings as set forth below with respect to the assistance to be given to nationals of the United States of America with respect to their properties in Italy. This assistance is directed particularly to the implementation of Article 78 of the Treaty of Peace with Italy and to Article III, paragraph 16, of the above Memorandum of Understanding.

Ante, p. 3962.

61 Stat., Pt. 2, p. 1403.
Ante, p. 3966.

The Government of Italy shall, as soon as possible, designate an Italian governmental agency having authority to receive and determine claims of nationals of the United States of America with respect to their properties in Italy, and to effect the restoration of such properties, or pay compensation, or both, as provided in Article 78 of the Treaty of Peace with Italy, and in accordance with the terms of Article III, paragraph 16, of the Memorandum of Understanding.

61 Stat., Pt. 2, p. 1403.
Ante, p. 3966.

With a view to rendering appropriate assistance to nationals of the United States of America having claims falling within the scope of this agreement, and also to any representative who may be designated by the Government of the United States of America to assist such nationals in the preparation and establishment of their claims, the Government of Italy further will, upon request and without charge, furnish copies of pertinent evidence and records in Italy, and will also, upon request and without charge make available to the designated representative of the United States of America funds in lira to the extent necessary to defray the local expenses in Italy, including subsistence, of such representative and his assistants, and also to pay compensation to Italian personnel designated in Italy

by such representative, it being understood that such expenses will be kept to a minimum.

Accept, Sir, the renewed assurances of my highest consideration.

Reference is made to Article III, paragraph 16, of the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters", signed this date.

Property in Italy of American oil companies.
61 Stat., Pt. 2, p. 1403.

One of the more troublesome problems which has arisen in connection with Article 78 of the Treaty of Peace has been concerned with the property in Italy of American oil companies. The principal difficulty which has been encountered in returning such properties to the rightful owners has been the question of the employment rights which accrued during the period of control of the American oil companies by the Government of Italy.

I am authorized by my Government to advise you of the following agreement on the question of employment rights which has been reached between the Government of Italy and representatives of the oil companies:

1. The Anglo-American companies (which had originally requested the Government of Italy to consider as broken the continuity of employment for the employees on their pay rolls at the moment of liquidation of the companies) have now in principle agreed to re-engage 95% of the personnel. The Azienda Generale Italiana Petroli on its side shall, in full agreement with the Italian Treasury, pay the indemnities for the period running from the date of the liquidation to the date of re-employment. The implementation of this formula can be expected to take place in the very near future.

2. An agreement has been reached on the partitioning of the market between the foreign companies on the one side and Azienda Generale Italiana Petroli on the other side. This agreement has involved considerable sacrifice on the part of Azienda Generale Italiana Petroli.

3. Insofar as the war damages suffered by the American companies are concerned, the duty of the Government of Italy derives from Article 78 of the Treaty of Peace, and the policy applied will be in accordance with Article III, paragraph 16, of the above referred to Memorandum of Understanding.

61 Stat., Pt. 2, p. 1403.
Ante, p. 3966.

It is also understood that the properties and all assets will be returned, including, of course, the employee compensation funds which were on hand at the date of liquidation and which represent the funds available for persons still employed by the companies.

This agreement was made known to the representatives of the American oil companies in the United States of America concerned with this problem, as well as to officials of your Department, all of whom signified their approval.

I can, therefore, confirm to you that the Government of Italy accepts all the above engagements and will implement them at the earliest possible date.

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

Italian dollar bonds. *Ante*, p. 3962.

With reference to Article 4 of the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters", signed this date, I am pleased to be able to advise you on behalf of the Government of Italy that a plan has been prepared for adjusting the unrepatriated bonds of the Italian dollar issue, service on which has been suspended since 1940.

The proposed plan, which has been approved in principle by the Foreign Bond Holders Protective Council, Inc., will embrace all publicly held dollar bonds comprising three groups: first, bonds of the Kingdom of Italy; second, bonds of the Cities of Rome and Milan, bonds of the Italian Credit Consortium for Public Works, and bonds of the Mortgage Bank of the Venetian Provinces; and third, bonds of

the Italian Credit Institute for Public Utility Enterprises and of eleven public utility corporations.

New bonds will be issued in an amount equal to the principal of the old bonds plus all arrears thereof at the former rates to January 1, 1947. The new bonds to be issued in exchange for the Kingdom of Italy bonds will be issued by the Republic, while those issued in exchange of the old bonds in the second and third groups will be bonds of the Consortium and the Institute respectively, in each case guaranteed as to principal and interest by the Republic.

The new bonds in all three groups are expected to bear interest at 1% for 1947, 1948 and 1949; 2% for 1950 and 1951; and 3% beginning 1952. The first installment of interest on the new bonds will be paid in cash at the time of exchange. Commencing in January 1952 the three issues of bonds will be entitled to a cumulative sinking fund of 1% per annum for 1952 to 1956 inclusive and 2% per annum beginning in 1957.

It is expected that the full details of the plan will be made public and the offer to the old bond holders will be made in the near future, as soon as the necessary registration under the Security Act of 1933 and other arrangements are completed. There is enclosed herewith for your information additional details concerning the proposed plan.

Accept, Sir, the renewed assurances of my highest consideration.

Enclosure:
Italian Dollar Bond Tabulation.

The Honorable
ROBERT A. LOVETT,
Acting Secretary of State.

ITALIAN DOLLAR BONDS

There are presently outstanding approximately $108,000,000 of nonrepatriated Italian dollar bonds on which service was suspended on June 10, 1940, and it is the desire of the Government of Italy to make an adjustment with respect thereto.

These obligations fall into three categories: first, bonds issued by the Government of Italy; second, bonds issued by the Cities of Rome and Milan and by the Italian Credit Consortium for Public Works, and the Mortgage Bank of the Venetian Provinces; and third, various corporate obligations. In connection with formulating an adjustment of Italian dollar bonds, it has been considered advisable to issue three types of obligations – one a direct obligation of the Government of Italy, to be issued in exchange for bonds falling within the first category and the other two being obligations of semi-governmental agencies, guaranteed as to principal and interest by the Government of Italy, to be issued in exchange for bonds falling within the second and third categories.

95347°—50—PT. IV——41

I. Bonds of the Kingdom of Italy:

The issue of the above obligor to be considered in the following:

Issue	Maturity	Interest Dates
Kingdom of Italy	7s, 1951	J & D 1

II. Bonds of the Cities of Rome and Milan, the Italian Credit Consortium for Public Works and the Mortgage Bank of the Venetian Provinces:

Issue	Maturity	Interest Dates
City of Milan	6½s, 1952	A & O 1
City of Rome	6½s, 1952	A & O 1
Consortium for Public Works	7s, 1947	M & S 1
Mortgage Bank of the Venetian Provinces	7s, 1952	A & O 1

III. Corporate Obligations:

The Corporate obligations outstanding are twelve issues of dollar bonds, 8 of which represent, directly or indirectly, obligations of utility companies and 4 of industrial companies. These obligations are the following:

Issue	Maturity	Interest Dates
Italian Public Utility Credit Institute	7s, 1952	J & J 1
Adriatic Electrict Co.	7s, 1952	A & O 1
Piedmont Hydro-Electric Co.	6½s, 1960	A & O 1
Lombard Electrict Co.	7s, 1952	J & D 1
Isarco Hydro-Electric Co.	7s, 1952	M & N 1
Meridionale Electric Co.	7s, 1957	A & O 1
United Electric Service Co.	7s, 1956	J & D 1
Terni Industrial and Electric Co.	6½s, 1953	F & A 1
Isotta Fraschini Automobile Factory	7s, 1942	J & D 1
Ercole Marelli Electric Manufacturing Co.	6½s, 1953	M & N 1
Ernesto Breda Co.	7s, 1954	F & A 1
*Crespi Cotton Works	7s, 1952	M & N 1

*The lira bonds of Crespi Cotton Works, Ltd. (now Italian Textile Establishment (Milan) were originally sold in the U. S. with provision for payment in dollars at a rate of not less than 3.64 cents to the lira.

Adjustment plan.

In order to effect an adjustment with the holders of such obligations, the following plan is proposed:

1. (a) The Government of Italy will offer a like principal amount of its 3% 30 year External Sinking Fund Bonds in exchange for the outstanding principal amount of the obligations of the Kingdom of Italy.

(b) The Italian Credit Consortium for Public Works, one of the present obligors and a semi-governmental agency, will offer (pursuant to authority granted by the Government of Italy) its bonds in exchange for the outstanding principal amount of the obligations of the Cities of Rome and Milan, the Italian Credit Consortium for Public Works and the Mortgage Bank of the Venetian Provinces. The entire debt service on such bonds will be guaranteed by the Government of Italy.

(c) The Italian Public Utility Credit Institute, one of the present obligors and a semi-governmental agency, will offer (pursuant to authority granted by the Government of Italy) its bonds in exchange for the outstanding principal amount of the twelve corporate issues.

The entire debt service on such bonds will be guaranteed by the Government of Italy.

2. Semi-annual interest payments on the three issues of bonds will accrue from January 1, 1947. Interest will be paid in 1947, 1948 and 1949 at the rate of 1% per annum; in 1950 and 1951 at the rate of 2% per annum; and in 1952 and subsequent years at the rate of 3% per annum. Upon exchange of old bonds for new bonds, a cash payment will be made for interest accrued from January 1, 1947 to July 1, 1947, at the rate of 1% per annum.

3. Interest in arrears on the various bond issues will be computed at the rates stated in the bonds from the date of the last coupon payment to January 1, 1947 and additional (a) Government of Italy Bonds, or (b) Italian Credit Consortium for Public Works Bonds, or (c) Italian Public Utility Credit Institute Bonds, as the case may be, will be issued in settlement thereof, except that no bonds will be issued in principal amounts of less than $100. Any balance which may be due on account of accrued interest over and above a multiple of $100 will be discharged by an equal face amount of non-interest bearing scrip exchangeable for Government of Italy bonds or Italian Credit Consortium for Public Works bonds or Italian Public Utility Credit Institute bonds, as the case may be, in aggregate amounts of $100 or any multiple thereof.

4. Commencing January 1, 1952, the three issues of bonds will be entitled to a cumulative sinking fund, calculated on the nominal amount of bonds to be outstanding initially, at the following rates:

1952 to 1956 inclusive	1% per annum
1957 and subsequent years	2% per annum

such sinking fund to be applied semi-annually to the purchase of bonds at or below par or to the extent not so obtainable in redemption at par of bonds to be selected by drawings.

5. The Government of Italy is prepared to agree to set aside monthly in a segregated account with the Bank of Italy foreign exchange equivalent to ⅙ of the semi-annual service requirement for the three issues of bonds.

* * *

The respective approximate principal amount of the three proposed 3% thirty year bonds to be outstanding (including bonds issued in settlement of all arrears of interest to January 1, 1947) are shown in the attached tabulation, which also sets forth a schedule of the relative interest and amortization payments.

Bonds of General Italian Edison Electric Company.

No provision is being made at this time for the outstanding bonds of the General Italian Edison Electric Company, all of which bonds are owned by the International Power Securities Corporation, because of negotiations presently being conducted by General Italian Edison Electric Company with the International Power Securities Corporation looking toward the exchange of such bonds for stocks of the General Italian Edison Electric Company.

DEPARTMENT OF STATE
WASHINGTON
August 14, 1947

SIR:

I have the honor to acknowledge receipt of your note of this date in the following terms: *Ante*, p. 3980.

[Text same as in preceding note.]

The plan proposed by you with respect to the unrepatriated bonds of the Italian dollar issues, service on which has been suspended since 1940, satisfactorily complies with the obligations undertaken by the Government of Italy in paragraph 17 of Article IV of the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding settlement of certain wartime claims and related matters". *Ante*, p. 3967.

Accept, Sir, the renewed assurances of my highest consideration.

ROBERT A LOVETT
Acting Secretary of State

The Honorable
IVAN MATTEO LOMBARDO,
Chief of the Italian Economic and Financial Delegation.

MEMORANDUM OF UNDERSTANDING

Between the Government of the United States of America and the Government of Italy regarding Italian assets in the United States of America and certain claims of United States nationals.

Italian property in U. S.

Discussions have taken place with representatives of the Government of Italy on the question of disposition of Italian property in the United States of America. These discussions have grown out of the terms of the Treaty of Peace with Italy dated at Paris February 10, 1947, particularly Article 79 thereof; and out of the financial and other relations between the United States of America and Italy during the period since the Italian Armistice. As a further step toward the bettering of relations between Italy and the United States of America, the Government of the United States of America has felt it desirable, subject to appropriate governmental action, to renounce certain of the rights granted to it under the terms of the Treaty of Peace, and to return and unblock property in the United States of America which has been vested or blocked by the Government of the United States of America by reason of an interest of Italy or Italian nationals. The Government of Italy, on the other hand, has recognized that in justice it should provide funds to be utilized by the Government of the United States of America in application to claims of United States nationals arising out of the war with Italy.

61 Stat., Pt. 2, p. 1406.

The Government of the United States of America and the Government of Italy have, therefore, reached an understanding, as follows:

ARTICLE I

1. The Government of the United States of America, referring to Article 79 of the Treaty of Peace with Italy, dated at Paris February 10, 1947, nevertheless agrees, within the limits provided by law:

61 Stat., Pt. 2, p. 1406.

(a) to take the necessary steps to effect the return of property and interests vested in or transferred to any officer or agency of the Government of the United States of America under the Trading with the Enemy Act, as amended, which were owned by the Government of Italy or Italian nationals immediately prior to such vesting or transfer, or the net proceeds of such property or interest; provided, however, that such return shall be subject to the conditions and exceptions set forth in Annex I, which constitutes an integral part of this Memorandum of Understanding;

40 Stat. 411. 50 U. S. C. app. §§ 1–38.

Post, p. 3991.

Release of blocked property.

(b) to take the necessary steps to effect the release by the United States authorities of blocked property and interests in the United States of America of Italy or Italian nationals. Such release shall be effected in accordance with conditions stated in a letter of assurances, dated today, and addressed by the Italian authorities to

the Secretary of the Treasury of the United States of America, it being understood that the unblocking procedure will actually be put into effect not later than one month from the date of this Memorandum of Understanding;

(c) to take the necessary steps to return, in their condition at the time of return, to the Government of Italy all vessels which were under Italian registry and flag on September 1, 1939, which were thereafter acquired by the Government of the United States of America either by purchase or by forfeiture and which are now owned by the Government of the United States of America; provided, that in the event forfeiture proceedings against any of the vessels are dismissed, the Government of Italy agrees to discharge and save harmless the Government of the United States of America from any responsibility and liability for the processing, settlement and satisfaction of any claims against such vessels; and

Return of vessels, etc.

(d) to take the necessary steps, subject to all terms and conditions of authorizing legislation, to transfer to the Government of Italy surplus liberty ships of the Government of the United States of America, to be operated by Italy for commercial uses, of a total tonnage approximately equal to the total tonnage of vessels which were under Italian registry and flag on September 1, 1939, and were subsequently seized in United States ports and thereafter lost while being employed in the United States war effort, provided that the selection of such surplus ships shall be by the Government of the United States of America, after consultation with the Government of Italy, and provided further that the ships shall be transferred on an as is where is basis.

2. The release or return of property and interests under the present Article shall not prevent the assertion of rights or claims to, against or with respect to such property and interests or the proceeds thereof; nor (in accordance with Article 76 of the Treaty of Peace signed at Paris) shall this Memorandum of Understanding or its execution in any way give rise to any cause of action or claim against the Government of the United States of America, or any officer or agency thereof.

61 Stat., Pt. 2, p. 1401.

3. (a) The provisions of this Article shall in no manner impose any obligation upon the Government of the United States of America to return any royalty or other compensation or right to receive a royalty or other compensation to the Government of Italy or any Italian national arising out of the use prior to December 31, 1945 of any invention, patent or patent right in the United States held by the Government of Italy or Italian nationals, or subject to return to the Government of Italy or Italian nationals pursuant to this Memorandum of Understanding.

Royalties for use of inventions, etc.

(b) The Government of Italy recognizes that the Government of the United States of America, its agencies or United States nationals, have no responsibility for the processing, settlement or satisfaction of any claims of Italian nationals falling under the terms of this paragraph and agrees, consistent with Paragraph 3 of Article 79 of the Treaty of Peace, to compensate Italian nationals for any duly established claims falling under the terms of this Article.

61 Stat., Pt. 2, p. 1407.

(c) Except as set forth in this Memorandum of Understanding or in Annex I hereto, industrial property released or returned by the Government of the United States of America pursuant to paragraph 1 of the present Article shall be subject only to such restrictions as may otherwise be generally applicable to industrial property in the United States of America held by foreign countries or nationals of such countries.

ARTICLE II

Italian payment.

4. The Government of Italy agrees to pay and deposit with the Government of the United States of America on or before December 31, 1947 the sum of $5,000,000 (five million dollars) in currency of the United States of America, this sum to be utilized, in such manner as the Government of the United States of America may deem appropriate, in application to the claims of United States nationals arising out of the war with Italy and not otherwise provided for.

ARTICLE III

DEFINITIONS

"Italian nationals."

5. For the purposes of this Memorandum of Understanding, the term "Italian nationals" means individuals who are nationals of Italy or corporations or associations organized under the laws of Italy, at the time of the coming into force of this Memorandum of Understanding.

ARTICLE IV

CLAUSES OF THE TREATY OF PEACE

61 Stat., Pt. 2, p. 1245.

6. It is agreed that any of the clauses of the Treaty of Peace, dated at Paris February 10, 1947, to which this Memorandum of Understanding and the Annex hereto may refer, shall be considered as constituting an integral part of this Memorandum of Understanding and the Annex hereto, as between the Governments of the United States of America and Italy.

ARTICLE V

EFFECTIVE DATE

7. This Memorandum of Understanding shall enter into force upon the day it is signed.

Valid languages.

Done at Washington in duplicate, in the English and Italian languages, both of which shall have equal validity, this 14th day of August, 1947.

FOR THE GOVERNMENT OF THE UNITED STATES OF AMERICA:
ROBERT A LOVETT

FOR THE GOVERNMENT OF ITALY:
LOMBARDO

ANNEX I

The Government of the United States of America intends to effect returns, pursuant to Article I, paragraph 1 (a) of this Memorandum of Understanding, by appropriate legislation permitting returns of vested property to the Government of Italy and subjects or citizens of Italy and corporations or associations organized under the laws of Italy upon the terms and conditions generally applicable to return of such property to others eligible for return pursuant to Section 32 of the Trading with the Enemy Act, as amended.

Ante, p. 3988.

60 Stat. 50.
50 U. S. C. app. §§ 32, 619.

It is understood that while the Government of the United States of America will seek to eliminate Italian nationality as a disqualification from eligibility for return pursuant to Section 32 (a) of the Trading with the Enemy Act, as amended,

(a) The Government of the United States of America does not intend to assume any obligation to make returns to any of the following:

Nonassumption by U. S. of obligation to make returns in certain cases.

(1) The Italian Fascist Party, any organization closely affiliated therewith (other than the Government of Italy) or any person who was a member of such party or organization at any time after September 8, 1943; or

(2) Any person, firm or organization convicted of violation of any of the statutes set forth in Section 34 (a) of the Trading with the Enemy Act, as amended; or

60 Stat. 925.
50 U. S. C. app. §§ 34, 620.

(3) Any person, firm or organization convicted of war crimes or of having collaborated with an enemy country after September 8, 1943; or

(4) Any person, firm or organization indicted or officially charged with war crimes or with having collaborated with an enemy country after September 8, 1943, until such person, firm or organization has been officially acquitted or cleared of such indictment or charge; or

(5) A corporation or association organized under the laws of any country other than Italy or Trieste; or

(6) Any individual who was at any time after December 7, 1941, a citizen or subject of a nation other than Italy with which the United States of America has at any time since December 7, 1941, been at war; or

(7) Any individual voluntarily resident at any time since December 7, 1941, within the territory of any nation other than Italy with which the United States of America has at any time since December 7, 1941, been at war;

Ultimate disposition of certain property.

(b) Ultimate disposition of property falling under the terms of section (a), paragraphs (1)–(7) above is reserved for future decision by the Government of the United States of America, after consultation between the Governments of Italy and the United States of America;

(c) The Government of the United States of America does not intend to make returns in any case in which it deems that return would be contrary to its interests in respect of national security or antitrust or fiscal policy; and

(d) The Government of the United States of America does not intend to assume any obligation to make returns of any property which was used pursuant to an arrangement to cloak or to conceal any property or interest within the United States of America of any person ineligible to receive a return under Section 32 (a) (2) of the Trading with the Enemy Act, as amended.

60 Stat. 51.
50 U. S. C. app. §§32, 619.

Literary, artistic or industrial property.

It is further understood that in the case of any literary, artistic or industrial property to be returned, the property shall remain subject to all licenses and agreements for licenses which were granted or entered into by the United States of America with respect to it and which were in effect immediately prior to return; and any rights of the Government of the United States of America to revoke any such license or agreement for license shall not be included within the return.

MEMORANDUM D'INTESA

tra il Governo degli Stati Uniti d'America ed il Governo italiano relativamente ai beni italiani negli Stati Uniti d'America ed a taluni "claims" dei cittadini degli Stati Uniti d'America.

Hanno avuto luogo con i rappresentanti del Governo italiano discussioni sulla questione della destinazione dei beni italiani negli Stati Uniti d'America. Queste discussioni hanno avuto origine dalle disposizioni del Trattato di Pace con l'Italia, in data 10 febbraio 1947 ed in particolare dall'articolo #79 di tale documento, e dall'esame delle relazioni finanziarie e generali tra gli Stati Uniti d'America e l'Italia durante il periodo posteriore all'Armistizio con la Italia. Come un ulteriore passo verso il miglioramento delle relazioni tra la Italia e gli Stati Uniti d'America, il Governo degli Stati Uniti d'America ha ritenuto desiderabile, sotto riserva dei provvedimenti governativi appropriati, di rinunziare a taluni dei diritti assicurati ad esso dalle clausole del Trattato di Pace, e di restituire e sbloccare i beni negli Stati Uniti d'America che siano stati sottoposti a sequestro ("vested") o siano stati bloccati dal Governo degli Stati Uniti d'America in ragione di un interesse dell'Italia o di cittadini italiani. Il Governo italiano, d'altra parte, ha riconosciuto rispondente a giustizia di dover fornire i fondi che devono essere utilizzati da parte del Governo degli Stati Uniti d'America in soddisfacimento di "claims" dei cittadini degli Stati Uniti d'America sorti dalla guerra con l'Italia.

Pertanto e' stato concordato tra il Governo degli Stati Uniti d'America ed il Governo italiano il seguente memorandum d'intesa.

ARTICOLO I

1. Il Governo degli Stati Uniti d'America, in relazione e nonostante l'articolo #79 del Trattato di Pace con l'Italia, in data 10 febbraio 1947, conviene, nei limiti fissati dalla legge:

(a) di adottare le misure necessarie per effettuare la restituzione dei beni e degli interessi posti sotto sequestro ("vested") o trasferiti a qualsiasi funzionario o organo del Governo degli Stati Uniti d'America in base al "Trading with the Enemy Act" cosi' come emendato, appartenenti all'Italia o a cittadini italiani nel periodo immediatamente precedente tale sequestro o trasferimento, ovvero di restituire il ricavo netto di tali beni o interessi; purche', tuttavia, tale restituzione sia subordinata alle condizioni e alle eccezioni enunciate nell'Annesso I, che costituisce una parte integrante di questo memorandum d'intesa;

(b) di adottare le misure necessarie per procedere al rilascio, da parte delle Autorita' degli Stati Uniti d'America dei beni e degli interessi, bloccati negli Stati Uniti d'America, dell'Italia o dei cittadini italiani. Tale rilascio dovra' essere effettuato in conformita' alle condizioni stabilite in una lettera di assicurazione in data odierna indirizzata dalle Autorita' italiane al Segretario del Tesoro degli Stati Uniti d'America, essendo inteso che la procedura di sblocco sara' effettivamente messa in atto non piu' tardi di un mese dalla data del presente memorandum d'intesa;

(c) di adottare le misure necessarie per restituire al Governo italiano, nello stato in cui si trovano al momento della restituzione tutte le navi sotto registro e bandiera italiani al I settembre 1939 che furono successivamente acquisite dal Governo degli Stati Uniti d'America sia mediante compera, sia mediante confisca e che siano attualmente in possesso del Governo degli Stati Uniti d'America purche' nel caso in cui le cause di confisca contro una qualsiasi delle navi venissero abbandonate, il Governo italiano convenga di esonerare e ritenere indenne il Governo degli Stati Uniti d'America, da qualsiasi responsabilita' in ordine all'accertamento, al regolamento e al soddisfacimento di qualsiasi "claim" contro tali navi;

(d) di adottare le misure necessarie, subordinatamente a ogni termine e condizione contenuta nelle disposizioni di legge relative, per trasferire al Governo italiano navi Liberty "surplus" del Governo degli Stati Uniti d'America, da usarsi dall'Italia per usi commerciali, per un tonnellaggio complessivo approssimativamente uguale al tonnellaggio complessivo delle navi sotto registro e bandiera italiani al I settembre 1939, e che furono successivamente sequestrate nei porti degli Stati Uniti d'America e poi perdute mentre erano impiegate nello sforzo bellico degli Stati Uniti d'America, purche' la scelta di tali navi "surplus" venga effettuata da parte del Governo degli Stati Uniti d'America, dopo consultazione con il Governo italiano e purche' inoltre tali navi vengano trasferite sulla base "dove si trovano e nello stato in cui si trovano".

2. Il rilascio o la restituzione dei beni e degli interessi disposti dal presente articolo non potranno impedire di far valere in giudizio i diritti o i "claims" circa, contro, o relativamente, tali beni e interessi o i loro ricavati, ne' il presente memorandum d'intesa o la sua esecuzione potranno in qualsiasi modo (in conformita' dell'articolo #76 del Trattato di Pace firmato a Parigi) dare origine a qualsiasi giudizio o "claim" contro gli Stati Uniti d'America o loro funzionari o organi.

3. (a) Le disposizioni di questo articolo non potranno in alcun modo imporre al Governo degli Stati Uniti d'America l'obbligo di restituire i canoni o altri compensi o diritti a ricevere canoni o altri compensi dovuti al Governo italiano o a cittadini italiani per uso anteriore al 31 dicembre 1945, di invenzioni, brevetti o diritti di brevetto posseduti negli Stati Uniti d'America dal Governo italiano o da cittadini italiani o soggetti a restituzione al Governo italiano o a cittadini italiani in base al presente memorandum d'intesa;

(b) Il Governo italiano riconosce che il Governo degli Stati Uniti di America ed i loro organi o cittadini, non hanno responsabilita' ai fini dell'accertamento, della sistemazione o del regolamento dei "claims" di cittadini italiani che cadono sotto le disposizioni del presente paragrafo e conviene, in conformita' al paragrafo 3 dell'articolo 79 del Trattato di Pace, d'indennizzare i cittadini italiani per i "claims" dovutamente fondati che cadono sotto le disposizioni del presente articolo.

(c) Salvo quanto disposto nel presente memorandum d'intesa o nell'Annesso I ad esso, i diritti di proprieta' industriale rilasciati o restituiti dal Governo degli Stati Uniti d'America in conformita' al

paragrafo 1 del presente articolo, saranno sottoposti soltanto a quelle restrizioni che siano altrimenti applicabili in via generale negli Stati Uniti d'America ai diritti di proprieta' industriale appartenenti a Paesi esteri o a cittadini di tali Paesi.

ARTICOLO II

4. Il Governo Italiano si impegna a pagare e a depositare presso il Governo degli Stati Uniti d'America il o prima del 31 dicembre 1947, la somma di $5.000.000 (cinque milioni di dollari) in valuta degli Stati Uniti d'America, dovendo questa somma essere utilizzata, nel modo che il Governo degli Stati Uniti d'America ritenga conveniente, per il regolamento dei "claims" dei cittadini degli Stati Uniti d'America sorti a causa della guerra con l'Italia e per i quali non sia stato altrimenti disposto.

ARTICOLO III

DEFINIZIONI

5. Ai fini di questo memorandum d'intesa, l'espressione "cittadini italiani" indica le persone aventi nazionalita' italiana o le Societa' ed Associazioni costituite secondo le leggi italiane, al momento della entrata in vigore del presente memorandum d'intesa.

ARTICOLO IV

Clausole del Trattato di Pace

6. E' inteso che qualsiasi delle clausole del Trattato di Pace con l'Italia, firmato a Parigi il 10 febbraio 1947, alle quali questo memorandum d'intesa e l'annesso ad esso si riferiscono, sara' considerata come parte integrante di questo memorandum d'intesa e dell'annesso ad esso, per cio' che concerne i rapporti fra i Governi degli Stati Uniti d'America e d'Italia.

ARTICOLO V

Data effettiva.

7. Le disposizioni di questo memorandum d'intesa entreranno in vigore immediatamente all'atto della firma.

Il presente documento viene redatto in Washington in due testi, rispettivamente in lingua inglese ed in lingua italiana, aventi ambedue eguale valore alla data del 14 Agosto 1947.

ANNESSO I

Il Governo degli Stati Uniti d'America intende procedere alla restituzione al Governo italiano ed ai sudditi o cittadini italiani e alle Societa' o Associazioni costituite secondo le leggi italiane, in esecuzione dell'articolo I paragrafo 1 (a) di questo memorandum d'intesa, mediante opportuni provvedimenti di legge atti a consentire la restituzione dei beni posti sotto sequestro ("vested"), in base alle disposizioni ed alle condizioni generalmente applicabili alla restituzione di detti beni alle altre persone ammesse alla restituzione in virtu' della sezione 32 del "Trading with the Enemy Act", cosi' come emendato.

E' inteso che mentre il Governo degli Stati Uniti d'America dovra' cercare di eliminare la nazionalita' italiana come causa di esclusione dall'ammissione alla restituzione dei beni prevista dalla sezione 32 (a) del "Trading with the Enemy Act", cosi' come emendato:

(a) Il Governo degli Stati Uniti d'America non intende assumere alcun obbligo di effettuare la restituzione alle seguenti persone o enti:

1) Partito Fascista Italiano ed organizzazioni strettamente affiliate allo stesso (diverse dal Governo italiano) o a persone che siano state membri di tale partito o organizzazione, in qualsiasi periodo successivo all'8 settembre 1943; o
2) Qualsiasi persona, ditta o organizzazione condannata per violazione di una delle disposizioni di cui alla sezione 34 (a) del "Trading with the Enemy Act", cosi' come emendato; o
3) Qualsiasi persona, ditta o organizzazione condannata per crimini di guerra o per avere collaborato con un Paese nemico dopo l'8 settembre 1943; o
4) Qualsiasi persona, ditta o organizzazione accusata o ufficialmente imputata di crimini di guerra o di collaborazione con un Paese nemico dopo l'8 settembre 1943, fino a quando tale persona, ditta o organizzazione non sia stata ufficialmente assolta o discolpata da tale accusa o imputazione; o
5) Le Societa' o Associazioni costituite secondo le leggi di qualsiasi Paese diverso dall'Italia o da Trieste; o
6) Qualsiasi persona che sia stata in qualsiasi momento dopo il 7 dicembre 1941, cittadino o suddito di uno stato diverso dall'Italia con il quale gli Stati Uniti d'America siano stati in guerra in qualsiasi momento dopo il 7 dicembre 1941; o
7) Qualsiasi persona che abbia avuto volontariamente la propria residenza in qualsiasi periodo dopo il 7 dicembre 1941 nel territorio di qualsiasi Stato diverso dall'Italia con il quale gli Stati Uniti d'America siano stati in guerra in qualsiasi momento dopo il 7 dicembre 1941;

(b) La destinazione definitiva dei beni che cadono sotto i termini della precedente sezione (a), paragrafi (1)–(7), e' riservata alle decisioni che potranno essere prese in avvenire dal Governo degli

Stati Uniti d'America, dopo consultazione tra i Governi dell'Italia e degli Stati Uniti d'America;

(c) Il Governo degli Stati Uniti d'America non intende di procedere a restituzioni in qualsiasi caso in cui essi ritengano che la restituzione sarebbe contraria ai propri interessi per cio' che riguarda la sicurezza nazionale o la politica anti-trust o la politica fiscale; e

(d) Il Governo degli Stati Uniti d'America non intende assumere alcun obbligo di procedere a restituzioni di beni che siano stati usati in base ad un accordo tendente a mascherare o nascondere beni o interessi negli Stati Uniti d'America di persone non ammesse a ricevere la restituzione dei beni a norma della sezione 32a (2) del "Trading with the Enemy Act", cosi' come emendato.

E' inteso inoltre che i diritti di proprieta' letteraria, artistica o industriale, che debbono essere restituiti, resteranno soggetti a tutte le licenze e convenzioni sulle licenze che siano state concesse o registrate negli Stati Uniti d'America relativamente a questi diritti e che fossero in vigore immediatamente prima della restituzione; non sara' compresa in questa restituzione la facolta'degli Stati Uniti d'America di revocare tali licenze o convenzioni sulle licenze.

AUGUST 14, 1947

SIR:

In connection with the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding Italian assets in the United States of America and certain claims of United States nationals", signed this date, I wish to bring to your attention the question of the exclusion of Italy from the benefits of the Boykin Act, Public Law 690, 1946, 79th Congress.

Ante, p. 3988.

60 Stat. 940.
35 U. S. C. §§ 101-114.

Section XIV of this Act specifically excludes from its benefits the citizens of any country with which the United States of America has been at war. In this connection, I wish to refer to the terms of Annex XV of the Italian Treaty of Peace relating to Industrial, Literary and Artistic Property. My Government believes that it would be consistent with the spirit of Annex XV for the Government of the United States of America to amend the Boykin Act so as to authorize the granting of reciprocal rights by the United States of America to Italy and Italian nationals.

60 Stat. 944.
35 U. S. C. § 113.

61 Stat., Pt. 2, p. 1472.

I am pleased to be in a position to advise you that at the present time Italy grants to the United States of America and its nationals the rights and privileges referred to in Annex XV. In this connection reference is made to Article I of the Italian Law of September 5, 1946, No. 123, which grants to United States nationals rights with respect to their patents in Italy which are denied to Italian nationals with respect to their patents in the United States of America.

In view of the above circumstances, I should appreciate it if you would advise me of the policy and intentions of the Government of the United States of America in this matter.

Accept, Sir, the renewed assurances of my highest consideration.

I am pleased to be able to inform you that Public Law 380, a copy of which is attached hereto, which was recently enacted by the Congress, amends the Boykin Act by removing present restrictions against the enjoyment by Italy and Italian nationals of the rights granted by the Act, on a finding by the Commission on Patents that Italy grants such rights to the United States of America and its nationals.

It is noted that in your note you state that the Government of Italy grants substantially such rights to the United States of America and its nationals.

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

I have the honor to refer to the "Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding Italian assets in the United States of America and certain claims of United States nationals", signed this date.

Ante, p. 3988.

In consideration of the undertakings by the Government of the United States of America, provided therein, dealing with the question of vessels which were under Italian registry and flag on September 1, 1939, I am authorized, on behalf of my Government, to enter into the following undertakings:

Notwithstanding the fact that the return of the passenger vessels *Conte Grande* and *Conte Biancamano* supersedes the operating agreement relating to these vessels concluded between the Government of Italy and the United States Maritime Commission, dated May 2, 1947,[1] in implementation of an understanding set forth in an aide memoire of January 8, 1947[1] from the Department of State to the Embassy of Italy in Washington, relating to these vessels and also to the operation of the Italian passenger vessels *Saturnia* and *Vulcania*, the Government of Italy agrees that, for the period up to and including

[1] [Not printed.]

December 31, 1949, or for such time during that period that the vessels *Saturnia* and *Vulcania* are under Italian ownership and control, their operation will be continued subject to the rights and privileges of the Government of the United States of America as set forth in the aforesaid aide memoire of January 8, 1947, and under arrangements substantially similar to those currently applying to the *M. V. Saturnia*, subject to such modifications to these arrangements as may be agreed to in the light of existing conditions.

Accept, Sir, the renewed assurances of my highest consideration.

Operation of *Saturnia* and *Vulcania*.

On behalf of my Government, I am pleased to accept the undertakings of the Government of Italy, as set forth in your note, with reference to the operation of the Italian passenger vessels *Saturnia* and *Vulcania*. At such time as your Government may wish to discuss modifications to the existing arrangements, appropriate officials of this Government will be prepared to enter into the necessary discussions.

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

I have the honor to refer to the "Memorandum of Understanding between the Government of the United States of America and the

Government of Italy regarding Italian assets in the United States of America and certain claims of United States nationals", signed this date.

Ante, p. 3988.

Questions have been raised by you concerning:

(1) the scope of paragraph (a) (ii) of Annex I to the memorandum referred to above;

Ante, p. 3991.

(2) the meaning of the final (unnumbered) paragraph of Annex I; and

Ante, p. 3992.

(3) whether, with respect to the revocable, royalty-free, nonexclusive licenses granted by the United States of America, the Government of the United States of America will object if, after the return of such properties, the owners may negotiate with the licensees with a view to altering the terms of the licenses granted to them by the Government of the United States of America.

I am in receipt of the following letter from Mr. David L. Bazelon, Assistant Attorney General, Director of Alien Property, dated August 12, 1947:

"My advisors have informed me that during the July 2, 1947 conference on the documents implementing and/or supplementing the Treaty of Peace with Italy, members of the Italian delegation raised several questions regarding the meaning and scope of certain sections of Annex I of the Memorandum of Understanding between the Government of the United States of America and the Government of Italy regarding Italian assets in the United States and certain claims of United States nationals. Since the questions raised relate to vested property, representatives of the Department of State have asked for my comments and observations.

Ante, p. 3991.

"The members of the Italian delegation have inquired as to the scope of paragraph (a) (2) of Annex I mentioned above. The paragraph under reference provides that the United States does not intend to assume any obligation to make returns to any person, firm, or organization convicted of violation of any of the statutes set forth in Section 34 (a) of the Trading with the Enemy Act, as amended. The statutes (Title II and III of the Act of June 15, 1917, 40 Stat. 217, 220, 221, as amended) prohibiting commission of injury to vessels on the high seas or within the jurisdiction of the United States are not among the statutes enumerated in Section 34 (a) of the Trading with the Enemy Act, as amended. Hence, acts of sabotage committed on Italian vessels which were subsequently vested by the United States Alien Property Custodian will not in themselves be grounds for refusal to return the interest acquired in such vessels by vesting action.

60 Stat. 925. 50 U. S. C. app. §§ 34, 620.

50 U. S. C. §§ 191-194; 18 U. S. C. § 502.

"The members of the Italian delegation have also raised questions with respect to the meaning of the final (unnumbered) paragraph of Annex I. The paragraph under reference provides that the United States intends to return, pursuant to the provisions of Article I, paragraph 1 (a) of the Memorandum of Understanding mentioned above, literary, artistic or industrial property vested

Ante, p. 3992.

Ante, p. 3988.

by the United States Alien Property Custodian from the Italian Government or from Italian nationals. Literary, artistic or industrial property so returned will remain subject to all licenses and agreements for licenses granted or entered into by the United States and which are in effect prior to the return of such properties.

"It is the intention to return the proceeds from licenses and agreements for licenses granted or entered into by the United States with respect to literary and artistic property. Such proceeds will be subject to return pursuant to Article I, paragraph 1 (a), of the Memorandum of Understanding. With respect to industrial property where the United States has granted revocable, royalty-free, non-exclusive licenses it is the intention of the United States not to issue additional similar licenses or to reissue any such licenses which have been cancelled or revoked.

Proceeds from licenses.

Ante, p. 3988.

"With respect to the revocable, royalty-free, non-exclusive licenses granted by the United States, members of the Italian delegation have inquired whether the United States Government will object if, after the return of such properties, the owners negotiate with the licensees with a view to altering the terms of the licenses granted to them by the United States. It is not the intention of the United States to interpose any objection to such negotiations, provided that such negotiations and any changes in the terms of the licenses are in conformity with all laws of the United States, including the anti-trust laws. Also, it must be clearly understood that the United States assumes no obligations with respect to these negotiations and the licensees are in no way obligated to negotiate any changes in the terms of the licenses granted to them by the United States."

Accept, Sir, the renewed assurances of my highest consideration.

SIR:

I wish to express my satisfaction at the successful conclusion of discussions with the Government of the United States of America concerning commercial policy and related matters of mutual interest in furthering the economic relations between the Governments of the United States of America and Italy.

I am authorized to inform you that my Government agrees to the following understandings which have resulted from these discussions:

1. The two Governments affirm their continued support of the principles set forth in the notes exchanged between them December 6, 1945, and reiterate their desire to achieve the elimination of all forms of discriminatory treatment in international commerce and the reduction of tariffs and other trade barriers.

59 Stat. 1731.

2. The two Governments having already entered into preliminary discussions concerning a comprehensive treaty of friendship, commerce and navigation which will regulate to their mutual satisfaction economic relations between the two countries, express their intention to enter into negotiations looking toward the conclusion of such a treaty this year. Meanwhile, the two Governments will continue to accord to articles the growth, produce or manufacture of the other, unconditional most-favored-nation treatment with respect to customs duties, the rules and formalities of customs, and the taxation, sale, distribution, and use within its territory of such articles.

I am also authorized, on behalf of my Government, to advise you that the Government of Italy has been following with deep interest the steps being taken to form an international trade organization of the United Nations and is in full agreement on the fundamental principles of the proposed charter for such an organization.

Accept, Sir, the renewed assurances of my highest consideration.

Agreement between the United States of America and Chile respecting a military aviation mission to Chile, renewing and modifying an agreement of April 23, 1940, as renewed and modified. Effected by exchange of notes signed at Washington April 26 and May 15, 1946; entered into force May 15, 1946.

The Chilean Ambassador to the Acting Secretary of State

EMBAJADA DE CHILE
WASHINGTON
26 April 1946

N° 802/129

EXCELLENCY:

57 Stat. 927.

I have the honor to refer to my note of April 14, 1943 and Your Excellency's reply thereto of June 14, 1943 (825.248) [1] concerning the renewal of the Agreement entered into on April 23, 1940 between the Government of the United States and the Republic of Chile,

54 Stat. 2282.

providing for a United States Military Aviation Mission to Chile.

I beg leave to request of Your Excellency that this Agreement be renewed again for a period of three years, effective from April 23, 1946, on the same conditions and terms, including the modifications in my note of November 27, 1942 and the stipulations contained in

57 Stat. 926.

Your Excellency's note of December 23, 1942; with the additional modification that the Mission be composed of four members instead

54 Stat. 2283.

of three as provided in Title II, Article 6 of the Agreement.

In view of the excellent service rendered, my Government would find it most agreeable if four of the present members of the Mission might be reassigned under the renewed Agreement. They are the following:

Chief of the Mission: Lieutenant Colonel Wilson T. Jones, who by virtue of long residence in Chile is thoroughly acquainted with the problems of the Chilean Air Force.

Second Member: Captain Royce W. Priest, who presently is Pilot and Engineer of the Mission's planes, specializing in maintenance and supplies and who enjoys the benefits of an extensive training as well as valuable war experience.

Third Member: Captain James H. Richards, specializing in Armaments, who has very successfully carried out his work in this field.

Fourth Member: Chief Warrant Officer Robert N. Rader, specializing in radio communications, who is performing efficient work of instruction and technical advice.

[1] [Not printed.]

I should appreciate it most highly if Your Excellency would be good enough to inform me, as soon as convenient, if it would be agreeable to the Government of the United States to renew the referred to Agreement as above indicated. 54 Stat. 2282.

Accept, Excellency, the renewed assurances of my highest consideration.

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's note no. 802/129 of April 26, 1946 in which you request the renewal of the Agreement entered into April 23, 1940, between the Government of the United States of America and the Republic of Chile and renewed by an exchange of notes dated November 27 and December 23, 1942 and April 14, 1943 respectively. 54 Stat. 2282. 57 Stat. 925.

I note that Your Excellency's Government desires to renew the Agreement for a period of three years, the renewal to be effective as of April 23, 1946.

Therefore, it is the understanding of this Government that the Agreement is renewed for a period of three years, effective from April 23, 1946, on the same terms and conditions as the Agreement under reference, including the modifications proposed in the Embassy's note of November 27, 1942 and the stipulation contained in the Department's note of December 23, 1942, also the additional modifications contained in Your Excellency's note under reference that the Mission be composed of four members, notwithstanding the provision of Title II, Article 6 of the basic Agreement. Effective date. 54 Stat. 2282. 57 Stat. 925, 926. 54 Stat. 2283.

Accept, Excellency, the renewed assurances of my highest consideration.

[T. I. A. S. 1766]

Agreement between the United States of America and the United Kingdom of Great Britain and Northern Ireland respecting the transfer and maintenance of radio range and SCS 51 equipment. Effected by exchange of notes signed at London May 8 and July 31, 1946; entered into force July 31, 1946.

The American Ambassador to the British Minister of Civil Aviation

1, GROSVENOR SQUARE,
LONDON, W. 1.,
May 8, 1946

DEAR LORD WINSTER:

Pursuant to recent discussions, it is my understanding that representatives of the Ministry of Civil Aviation and representatives of the United States have reached agreement with regard to the transfer to the United Kingdom Government of certain air navigational and operational facilities and continued operation and maintenance of these facilities by the United Kingdom Government. The United States trans-Atlantic airlines will be materially assisted by the continued operation of these facilities. The air navigational and operational aids involved are among those which were installed or provided for use in the United Kingdom by the United States Armed Forces during the war, and have become or are about to become surplus to the needs of the United States Armed Forces. The understanding which has been reached and which I desire to confirm by this letter is as follows:

1. The transfer would apply to the following installations:

(a) The radio ranges and all facilities now owned by the United States which are necessary to their operation located at Prestwick, Valley, St. Mawgan, Northolt, and Stornaway, and a range and necessary facilities to be moved by the United States to Heathrow. It is the intention of the United States, prior to transfer, to convert the radio range operated at Stornaway to a beacon, and to move the radio range now located at Bovingdon, or such other range as the United States may determine, to Heathrow.

(b) Four complete SCS 51 installations now owned by the United States and located at Prestwick, Valley, St. Mawgan, and one additional such installation which it is the intention of the United States to move to Heathrow.

2. The United States will declare the above described installations surplus to the needs of the United States Armed Forces and will transfer them to the possession of the United Kingdom Government on or before May 31, 1946, or as soon thereafter as they may be placed

by the United States in operable condition. Transfer of the installations will take place under the terms of the "Agreement Relating to United States Army and Navy Surplus Installations in the United Kingdom", accepted by the governments of the United States and of the United Kingdom in Washington on March 26,[1] 1946, and pursuant to the procedures agreed to by the respective governments for the execution of that Agreement. 60 Stat. 1561.

3. The United States will supply, at time of transfer of possession of installations or at such other times as may be convenient, maintenance parts and expendable supplies scheduled on United States Army provisioning scales sufficient for operation of the above described installations for a period of one year from May 31, 1946, together with standard operation and maintenance manuals or instructions for such installations. Such maintenance parts, supplies and manuals will be transferred under the terms of the agreement relating to United States Army and Navy surplus property referred to in paragraph 2 above, and in accordance with procedures established therunder. Maintenance supplies and manuals.

The United States will, prior to May 31, 1946, within limits of personnel available to the United States Armed Forces, render such assistance, instructions and advice as the Ministry of Civil Aviation may require for familiarization of its personnel in the operation and maintenance of the installations.

4. The United Kingdom Government, through the Ministry of Civil Aviation, will make every effort to take over operation and maintenance of the above described ranges at Northolt and Prestwick as of May 31, 1946, and of the other above described installations as soon as is possible, provided that the United Kingdom Government shall not be under any obligation to operate and maintain any of the said installations unless the United States Government shall have placed them in a serviceable condition, and provided further that the United Kingdom Government shall not be under any obligation to operate simultaneously the range at Northolt and the range to be moved to Heathrow. Operation and maintenance by U. K. Government.

5. The United Kingdom Government will continue operation of the above described installations, at present standards of operation and without interruption and, in the case of the radio ranges, at no less than 150 watts power until such time as the aeronautical authorities of the United Kingdom Government after consultation with the United States and other governments concerned determine that the installations may be modified or discontinued. The United Kingdom Government will make periodic flight checks of operation of the installations in accordance with standard practice. Post, p. 4010. Periodic flight checks of operation, etc.

The United Kingdom Government, in consultation with the United States and other countries involved, will give consideration to the operation of a range at Heathrow in lieu of a range at Northolt if experience shows this to be desirable. It is understood that only one range in the London area will be operated. Post, p. 4011.

[1] [The correct date is "Mar. 27".]

6. This understanding is entered into without prejudice to transfer, operation, maintenance or installation of any additional aids to civilian aviation which the United States may deem to be desirable in the United Kingdom.

If you will indicate your acceptance of this understanding, I think that we may consider it to be effective as of the date of your acceptance.

Sincerely,

W. A. HARRIMAN

The Rt. Honorable LORD WINSTER, J. P.,
Minister of Civil Aviation,
Ariel House, The Strand.

The British Minister of Civil Aviation to the American Ambassador

MINISTRY OF CIVIL AVIATION,
ARIEL HOUSE,
STRAND,
LONDON, W.C.2.
31st July, 1946.

MY DEAR AMBASSADOR,

I am sorry that my reply has been so long delayed to your letter of 8th May, in regard to the transfer to the United Kingdom Government of certain air navigational and operational facilities which were installed in the United Kingdom by the United States Armed Forces during the war. The subject of the provision or maintenance of such types of navigational aids has recently been under discussion in P.I.C.A.O., particularly at the Regional Conferences which have been held at Dublin and Paris, and I have been anxious that our arrangements should conform to the general agreements that have been reached.

2. For convenience of reference I am attaching copies of the relevant recommendations from the P.I.C.A.O. documents.

3. In general, the position is that the United Kingdom, in common with other countries, have undertaken to retain or install the "P.I.C.A.O. Standard Instrument Landing System" at international airports; and so far as existing radio ranges are concerned, to retain on low power the ranges used for approach purposes at such airports until the latter are equipped with the P.I.C.A.O. Instrument Landing System and the aircraft concerned are equipped to use it. Accordingly I suggest that the first paragraph in Section 5 of your letter should be re-worded on the following lines:— *Ante*, p. 4009.

"The U.K. Government will continue operation of the above described installations in accordance with the requirements of international civil aviation until such time as the aerodromes concerned can be equipped with alternative P.I.C.A.O. Instrument Landing Systems as agreed at the P.I.C.A.O. North Atlantic and European and Mediterranean Regional Conferences in Dublin and Paris. The

U.K. Government will make periodic flight checks of operation of the installations in accordance with standard practice."

4. As regards the second paragraph in Section 5, the question of the operation of a range at the London Airport is now under examination in connection with the determination of the system of air traffic control to be operated in the region. If a range at that Airport is found to be desirable, it will be operated in lieu of the range at Northolt. In that event the range at Northolt could be moved and I would suggest that, pending a decision on this matter, the range at Bovingdon should be left in situ. I am asking my technical officers to keep in touch with your Civil Air Attache on this matter. *Ante*, p. 4009.

5. The references in para. 1 (a) and (b) of your letter to the transfer of equipment "to Heathrow" should, of course, be qualified accordingly. *Ante*, p. 4008.

6. Subject to the above, I am very glad to confirm the understanding as set out in your letter.

Yours sincerely,

WINSTER.

Embassy of the United States of America,
Grosvenor Square,

Extract of North Atlantic Route Service Conference, Dublin, 1946.

5.2.8. Requirements at Aerodromes designated as terminals or alternates for the North Atlantic:

The Committee has recommended the following:—

5.2.8.1. That Approach and Aerodrome Controls be maintained or provided at such aerodromes.

5.2.8.2. That an instrument landing system as suggested by the COM Committee be a requirement at such aerodromes. This system consists of a runway localizer and glide path transmitter, together with either 2 or 3 fan markers, or one fan marker and either one or two M/F non-directional radio beacons. The ATC Committee consider, however, that the provision and location of the fan markers or non-directional beacons for air traffic control purposes should be the subject of continuing study with the object of obtaining a standard system.

5.2.8.3. That existing M/F radio ranges now available or which may be made available for Approach Control at these Aerodromes should be retained in use until some such system as that

described in the preceding paragraph is available, subject to reduction in power and adjustment of frequency where necessary in the European region.

The Conference endorses the recommendations made at the DUBLIN Conference concerning the adoption as the future international standard of a system equivalent to SCS 51, comprising VHF runway localizer, UHF Glide Path and boundary marker and other marker beacons, with the addition as an optional installation, of one or more low powered L. F../M.F. marker beacons.

In addition the Conference recommends that:

(a) The PICAO standards I.L.S. should be installed as rapidly as possible at all international airports and that the military version of the standard I.L.S. should be retained where it already exists.

(b) S.B.A. (Lorenz) equipment should be installed or retained at airports used by aircraft not fitted with the airborne equipment of the PICAO Standard system.

(c) Ground D/F or radio range equipment used for approach and landing purposes, should be installed or retained at airports used by aircraft not fitted with airborne equipment of either SBA or the PICAO standard system.

(d) V.H.F.D.F. equipment should be installed as soon as possible on the approach lines of international airports.

Agreement between the United States of America and Ecuador respecting a civil aviation mission to Ecuador. Effected by exchange of notes signed at Quito October 24 and 27, 1947; entered into force October 27, 1947.

The American Ambassador to the Ecuadoran Minister for Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA

No. 372

Quito, October 24, 1947

EXCELLENCY:

I have the honor to refer to my conversation with Your Excellency yesterday, at which time I presented to you certain members of the Mission sent from the United States as part of the program of the Interdepartmental Committee of Scientific and Cultural Cooperation, which is at present in Quito, primarily for the purpose of arranging for the exchange of civil aviation technicians between our respective countries. Your Excellency was so kind as to authorize me and the Mission above referred to, to enter into preliminary conversations directly with the Minister of National Defense in order to arrive at a prompt understanding as to what is needed by Ecuador for the development of civil aviation in this country and the extent to which Ecuador would be able to participate in financing such a program.

Your Excellency will remember that the Ecuadoran Ambassador in Washington transmitted a note dated April 8, 1947 [1] to the Department of State, indicating that Ecuador desires the services of one or more civil aviation technical experts. It was desired that these technicians should come to Ecuador for cretain specific purposes to be defined by the Ecuadoran Direction of Civil Aviation.

I informed the Minister of National Defense this morning that the United States is now prepared to send such technical experts to Ecuador as may be requested by this country, and that the terms and conditions under which this service may be provided have been set out in a memorandum containing fourteen points, which is attached to this note. The Minister has been informed of these general principles and has indicated that they are acceptable. He also has indicated that it will be possible for Ecuador to participate to the extent of partially reimbursing the United States at the rate of $2,000 per year per expert, for its expenses in connection with this Mission, funds which will be provided and paid in accordance with the principles already mentioned. (See point no. 7 in the attached memorandum).

Your Excellency is informed further that for budgetary reasons it is necessary to have a general commitment of the Republic of Ecuador to this program, in order to obligate funds which are now available

[1] [Not printed.]

in the United States for the purpose of sending the individuals desired by the Republic of Ecuador. Unless the obligation of these funds is made at an early date, they may revert to the Treasury and become unavailable for this purpose. In view of the situation just described, it would be greatly appreciated if Your Excellency should provide me with a note accepting the general terms set out, it being understood that the details as to the number of technicians desired, their qualifications, the time of their arrival, etc., are to be decided upon later. It is hoped that Your Excellency may find it possible to let me have the reply of your Government by Monday, so that a copy of the note may be taken directly to Washington by the Mission, which is departing from Quito on Tuesday, October 28.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

JOHN F. SIMMONS

His Excellency
Doctor JOSÉ VICENTE TRUJILLO,
Minister for Foreign Affairs,
Quito.

Enclosure No. 1 of 3 pages:
Statement of Conditions

STATEMENT OF CONDITIONS
TECHNICAL ASSISTANCE MISSION TO ECUADOR

Subject to the availability of suitable technicians and appropriated funds for the purpose and in accordance with the following conditions, the Government of the United States of America agrees to make available to the Government of Ecuador the services of technicians in the field of civil aviation as requested by the Government of Ecuador:

1. The assignment of each technician shall be of indefinite duration, subject to joint periodic review.

2. The Government of the United States of America agrees to give the fullest consideration to any requests of the Government of Ecuador for an increase or decrease in the number of technicians originally furnished, or for the assignment of technicians in different fields of civil aviation.

Chief of Mission.

3. The Government of the United States of America shall designate a Chief of Mission authorized to deal with the Government of Ecuador. Mission members shall be responsible to the Chief of Mission. All members shall serve as advisers to the Government of Ecuador in their respective fields but may volunteer opinions on related civil aviation matters when deemed advisable.

Secrecy requirement.

4. Mission members, during the period the Mission is in operation and thereafter, undertake not to divulge or reveal in any form to any

third Government or person confidential or secret matters of which they may become cognizant in the exercise of their duties.

5. Compensation of Mission members shall not be subject to any tax now or hereafter in effect of the Government of Ecuador or any of its political or administrative subdivisions. Should there, however, at present or while this agreement is in effect, be any taxes that might affect this compensation, such taxes shall be paid by the Government of Ecuador, in order to comply with the provisions of this paragraph.

6. The Government of the United States of America shall pay the salary, allowances, travel expenses to and from Ecuador, and any additional compensation of the technicians, subject to partial reimbursement by the Government of Ecuador.

7. The Government of Ecuador shall reimburse the Government of the United States of America toward the expenses incurred in connection with the assignment of each technician at the completion of each six-month period of each assignment. However, for accounting and procedural reasons, it will not be necessary for the Government of Ecuador to make any payments to the Government of the United States of America until such time as the Government of Ecuador shall have received a statement of its obligations in this connection.

8. The Government of Ecuador shall provide for entry free of customs duties for supplies, materials and effects for the professional and personal use of the technicians.

9. The Government of Ecuador shall provide the technicians with means of transportation within Ecuador, outside of the headquarters location, incurred in the conduct of their duties and pay the cost thereof, as well as the cost of acquisition of material, equipment and facilities necessary to the conduct of the Mission.

10. The Government of Ecuador shall provide technicians with suitably-equipped offices and adequate bilingual stenographic personnel and other employees, and bear the cost thereof.

11. The Government of Ecuador shall grant to authorized members of the Mission, approval to make flights in Ecuador in aircraft of United States or Ecuadoran registry as deemed necessary in the performance of the Mission.

12. The Government of Ecuador shall permit the transportation of the body of any technician detailed under these conditions who may die in Ecuador, to a place of burial in the United States of America selected by the surviving members of the family or their legal representatives.

13. The Government of Ecuador shall assume civil liability on account of damages to or loss of property or on account of personal injury or death caused by any member of the Mission while acting within the scope of his duties.

14. The above conditions may be modified in whole or in part by an exchange of notes between the Government of the United States of America and the Government of Ecuador.

QUITO, *a 27 Oct. 1947*

SEÑOR EMBAJADOR:

Tengo a honra contestar la atenta nota de Vuestra Excelencia número 372, de 24 de octubre en curso, en la que se sirve informarme acerca de las conversaciones con el señor Ministro de Defensa Nacional, sostenidas por Vuestra Excelencia y los Miembros de la Misión enviada por los Estados Unidos como parte del programa del Comité Interdepartamental de Cooperación Científica y Cultural, con el propósito primordial de entrar en arreglos para el intercambio de técnicos en aviación civil entre nuestros respectivos países, para el desarrollo de la aviación civil en el Ecuador y la extensión con que mi Gobierno estaría dispuesto a participar en la financiación de tal programa. Con referencia a tales conversaciones y a los deseos expresados al Departamento de Estado por la Embajada ecuatoriana en Washington, el 8 de abril último, sobre el envío de uno o más expertos técnicos en aviación civil al país, Vuestra Excelencia tiene a bien remitirme un Memorándum que contiene 14 puntos, los cuales ha encontrado aceptables el Ministerio de Defensa Nacional, con el objeto de que el Gobierno del Ecuador exprese su opinión sobre los mismos, a la brevedad posible. Vuestra Excelencia tiene a bien destacar, además, la especial urgencia con que es preciso llegar a un acuerdo general para este programa, pues de lo contrario sería posible que se llegara a no poder contar con los fondos actualmente disponibles en los Estados Unidos para el efecto.

2. En respuesta, me es grato manifestar a Vuestra Excelencia, luego de las correspondientes consultas con las competentes autoridades, que mi Gobierno acepta los términos generales puntualizados en el Memorándum anexo a la atenta comunicación de 24 del mes en curso que tengo a honra contestar y aprueba y confirma los términos en que quedan registradas en aquélla las conversaciones sostenidas por Vuestra Excelencia y los Miembros de la Misión, con el señor Ministro de Defensa Nacional, y entiende, en consecuencia, que dicho Memorándum, en virtud de la presente respuesta, constituye la base común aceptada y convenida con el Gobierno de los Estados Unidos de América sobre la cual se habrán de determinar luego, de mutuo acuerdo, los detalles relativos al número de técnicos, sus especialidades, el tiempo de la llegada de aquéllos al país y más particulares que se estimare necesarios, conforme Vuestra Excelencia indica en la misma comunicación.

Válgome de la oportunidad para renovar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración.

Por el Ministro, el Subsecretario:

Eduardo Samaniego y Alvarez.

Al Excelentísimo Señor Don
JOHN F. SIMMONS,
Embajador Extraordinario y Plenipotenciario de los Estados Unidos de América.

URGENT

DIPLOMATIC DEPARTMENT

No. 241-DDP

QUITO, October 27, 1947

MR. AMBASSADOR:

I have the honor to reply to Your Excellency's courteous note No. 372 of October 24 instant, in which you are good enough to inform me concerning the conversations with the Minister of National Defense, in which Your Excellency and the Members of the Mission sent by the United States as part of the program of the Interdepartmental Committee on Scientific and Cultural Cooperation took part, for the prime purpose of entering into arrangements for the interchange of civil aviation technicians between our respective countries for the development of civil aviation in Ecuador, and the extent to which my Government would be disposed to participate in financing such a program. With reference to these conversations and the desires expressed to the Department of State by the Ecuadoran Embassy in Washington on April 8 last, regarding the sending of one or more expert technicians in civil aviation to this country, Your Excellency sends me a Memorandum containing 14 points, which the Ministry of National Defense has found to be acceptable, and on which the Government of Ecuador is asked to express its opinion as soon as possible. Furthermore, Your Excellency points out the special urgency with which it is necessary to reach a general agreement on

Ante, p. 4013.

this program, since otherwise it might not be possible to count on the funds at present available in the United States for this purpose.

2. In reply I am pleased to inform Your Excellency, after consultation with the competent authorities, that my Government accepts the general terms contained in the Memorandum enclosed with the communication of the 24th of this month, to which I have the honor to reply; and my Government approves and confirms the terms of the note with reference to the conversations between Your Excellency and the Members of the Mission and the Minister of National Defense. My Government understands, consequently, that by virtue of this reply, the aforesaid Memorandum constitutes the common basis, accepted and agreed upon with the Government of the United States of America, according to which there will be determined later, by mutual agreement, the details relative to the number of technicians, their specialties, the time of their arrival in the country, and other particulars which may be considered necessary, as indicated by Your Excellency in the same communication.

Ante, p. 4013.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

For the Minister, the Under Secretary:

E. S. Y A.

EDUARDO SAMANIEGO Y ALVAREZ.

His Excellency

JOHN F. SIMMONS,

Ambassador Extraordinary and Plenipotentiary of the United States of America.

Agreement and accompanying notes between the United States of America and the Republic of the Philippines respecting military bases in the Philippines. Signed at Manila March 14, 1947; entered into force March 26, 1947.

March 14, 1947
[T. I. A. S. 1775]

AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND THE REPUBLIC OF THE PHILIPPINES CONCERNING MILITARY BASES

WHEREAS, the war in the Pacific has confirmed the mutuality of interest of the United States of America and of the Republic of the Philippines in matters relating to the defense of their respective territories and that mutuality of interest demands that the Governments of the two countries take the necessary measures to promote their mutual security and to defend their territories and areas;

WHEREAS, the Governments of the United States of America and of the Republic of the Philippines are desirous of cooperating in the common defense of their two countries through arrangements consonant with the procedures and objectives of the United Nations, and particularly through a grant to the United States of America by the Republic of the Philippines in the exercise of its title and sovereignty, of the use, free of rent, in furtherance of the mutual interest of both countries, of certain lands of the public domain;

WHEREAS, the Government of the Republic of the Philippines has requested United States assistance in providing for the defense of the Philippines and in developing for such defense effective Philippine armed forces;

WHEREAS, pursuant to this request the Government of the United States of America has, in view of its interest in the welfare of the Philippines, indicated its intention of dispatching a military mission to the Philippines and of extending to her appropriate assistance in the development of the Philippine defense forces;

WHEREAS, a Joint Resolution of the Congress of the United States of America of June 29, 1944, authorized the President of the United States of America to acquire bases for the mutual protection of the United States of America and of the Philippines; and

58 Stat. 625.
48 U. S. C. §§ 1235a, 1240 note.

WHEREAS, Joint Resolution No. 4 of the Congress of the Philippines, approved July 28, 1945, [1] authorized the President of the United States of America to negotiate with the President of the Philippines for the establishment of bases provided for in the Joint Resolution of the Congress of the United States of America of June 29, 1944, with a view to insuring the territorial integrity of the Philippines, the mutual protection of the United States of America and the Philippines, and the maintenance of peace in the Pacific;

[1] [*Philippine Official Gazette*, Vol. 41, No. 5, August 1945, p. 349.]

THEREFORE, the Governments of the Republic of the Philippines and of the United States of America agree upon the following terms for the delimitation, establishment, maintenance and operation of military bases in the Philippines:

ARTICLE I

GRANT OF BASES

1. The Government of the Republic of the Philippines (hereinafter referred to as the Philippines) grants to the Government of the United States of America (hereinafter referred to as the United States) the right to retain the use of the bases in the Philippines listed in Annex A attached hereto.

Post, p. 4032.

2. The Philippines agrees to permit the United States, upon notice to the Philippines, to use such of those bases listed in Annex B as the United States determines to be required by military necessity.

Post, p. 4032.

3. The Philippines agrees to enter into negotiations with the United States at the latter's request, to permit the United States to expand such bases, to exchange such bases for other bases, to acquire additional bases, or relinquish rights to bases, as any of such exigencies may be required by military necessity.

4. A narrative description of the boundaries of the bases to which this Agreement relates is given in Annex A and Annex B. An exact description of the bases listed in Annex A, with metes and bounds, in conformity with the narrative descriptions, will be agreed upon between the appropriate authorities of the two Governments as soon as possible. With respect to any of the bases listed in Annex B, an exact description with metes and bounds, in conformity with the narrative description of such bases, will be agreed upon if and when such bases are acquired by the United States.

ARTICLE II

MUTUAL COOPERATION

1. It is mutually agreed that the armed forces of the Philippines may serve on United States bases and that the armed forces of the United States may serve on Philippine military establishments whenever such conditions appear beneficial as mutually determined by the armed forces of both countries.

2. Joint outlined plans for the development of military bases in the Philippines may be prepared by military authorities of the two Governments.

3. In the interest of international security any bases listed in Annexes A and B may be made available to the Security Council of the United Nations on its call by prior mutual agreement between the United States and the Philippines.

ARTICLE III

DESCRIPTION OF RIGHTS

1. It is mutually agreed that the United States shall have the rights, power and authority within the bases which are necessary for the establishment, use, operation and defense thereof or appropriate for the control thereof and all the rights, power and authority within the limits of territorial waters and air space adjacent to, or in the vicinity of, the bases which are necessary to provide access to them, or appropriate for their control.

2. Such rights, power and authority shall include, *inter alia*, the right, power and authority:

(*a*) to construct (including dredging and filling), operate, maintain, utilize, occupy, garrison and control the bases;

(*b*) to improve and deepen the harbors, channels, entrances and anchorages, and to construct or maintain necessary roads and bridges affording access to the bases;

(*c*) to control (including the right to prohibit) in so far as may be required for the efficient operation and safety of the bases, and within the limits of military necessity, anchorages, moorings, landings, takeoffs, movements and operation of ships and waterborne craft, aircraft and other vehicles on water, in the air or on land comprising or in the vicinity of the bases;

(*d*) the right to acquire, as may be agreed between the two Governments, such rights of way, and to construct thereon, as may be required for military purposes, wire and radio communications facilities, including submarine and subterranean cables, pipe lines and spur tracks from railroads to bases, and the right, as may be agreed upon between the two Governments to construct the necessary facilities;

(*e*) to construct, install, maintain, and employ on any base any type of facilities, weapons, substance, device, vessel or vehicle on or under the ground, in the air or on or under the water that may be requisite or appropriate, including meteorological systems, aerial and water navigation lights, radio and radar apparatus and electronic devices, of any desired power, type of emission and frequency.

3. In the exercise of the above-mentioned rights, power and authority, the United States agrees that the powers granted to it will not be used unreasonably or, unless required by military necessity determined by the two Governments, so as to interfere with the necessary rights of navigation, aviation, communication, or land travel within the territories of the Philippines. In the practical application outside the bases of the rights, power and authority granted in this Article there shall be, as the occasion requires, consultation between the two Governments.

ARTICLE IV

SHIPPING AND NAVIGATION

1. It is mutually agreed that United States public vessels operated by or for the War or Navy Departments, the Coast Guard or the Coast and Geodetic Survey, and the military forces of the United States, military and naval aircraft and Government-owned vehicles, including armor, shall be accorded free access to and movement between ports and United States bases throughout the Philippines, including territorial waters, by land, air and sea. This right shall include freedom from compulsory pilotage and all toll charges. If, however, a pilot is taken, pilotage shall be paid for at appropriate rates. In connection with entrance into Philippine ports by United States public vessels appropriate notification under normal conditions shall be made to the Philippine authorities.

2. Lights and other aids to navigation of vessels and aircraft placed or established in the bases and territorial waters adjacent thereto or in the vicinity of such bases shall conform to the system in use in the Philippines. The position, characteristics and any alterations in the lights or other aids shall be communicated in advance to the appropriate authorities of the Philippines.

3. Philippine commercial vessels may use the bases on the same terms and conditions as United States commercial vessels.

4. It is understood that a base is not a part of the territory of the United States for the purpose of coastwise shipping laws so as to exclude Philippine vessels from trade between the United States and the bases.

ARTICLE V

EXEMPTION FROM CUSTOMS AND OTHER DUTIES

No import, excise, consumption or other tax, duty or impost shall be charged on material, equipment, supplies or goods, including food stores and clothing, for exclusive use in the construction, maintenance, operation or defense of the bases, consigned to, or destined for, the United States authorities and certified by them to be for such purposes.

ARTICLE VI

MANEUVER AND OTHER AREAS

The United States shall, subject to previous agreement with the Philippines, have the right to use land and coastal sea areas of appropriate size and location for periodic maneuvers, for additional staging areas, bombing and gunnery ranges, and for such intermediate airfields as may be required for safe and efficient air operations. Operations in such areas shall be carried on with due regard and safeguards for the public safety.

ARTICLE VII

USE OF PUBLIC SERVICES

It is mutually agreed that the United States may employ and use for United States military forces any and all public utilities, other

services and facilities, airfields, ports, harbors, roads, highways, railroads, bridges, viaducts, canals, lakes, rivers and streams in the Philippines under conditions no less favorable than those that may be applicable from time to time to the military forces of the Philippines.

ARTICLE VIII

HEALTH MEASURES OUTSIDE BASES

It is mutually agreed that the United States may construct, subject to agreement by the appropriate Philippine authorities, wells, water catchment areas or dams to insure an ample supply of water for all base operations and personnel. The United States shall likewise have the right, in cooperation with the appropriate authorities of the Philippines, to take such steps as may be mutually agreed upon to be necessary to improve health and sanitation in areas contiguous to the bases, including the right, under such conditions as may be mutually agreed upon, to enter and inspect any privately owned property. The United States shall pay just compensation for any injury to persons or damage to property that may result from action taken in connection with this Article.

ARTICLE IX

SURVEYS

It is mutually agreed that the United States shall have the right, after appropriate notification has been given to the Philippines, to make topographic, hydrographic, and coast and geodetic surveys and aerial photographs in any part of the Philippines and waters adjacent thereto. Copies with title and triangulation data of any surveys or photomaps made of the Philippines shall be furnished to the Philippines.

ARTICLE X

CEMETERIES AND HISTORICAL SITES

1. The United States shall have the right to retain and maintain such United States military cemeteries and such sites of historical significance to the United States as may be agreed upon by the two Governments. All rights, power and authority in relation to bases granted under this Agreement shall be applicable, in so far as appropriate, to the cemeteries and sites mentioned in this Article.

2. Furthermore, it is recognized that there are certain cemeteries and historical sites in the Philippines revered in the memory of the People of the United States and of the Philippines, and it is therefore fitting that the maintenance and improvement of such memorials be the common concern of the two countries.

ARTICLE XI

IMMIGRATION

1. It is mutually agreed that the United States shall have the right to bring into the Philippines members of the United States military forces and the United States nationals employed by or under a contract

with the United States together with their families, and technical personnel of other nationalities (not being persons excluded by the laws of the Philippines) in connection with the construction, maintenance, or operation of the bases. The United States shall make suitable arrangements so that such persons may be readily identified and their status established when necessary by the Philippine authorities. Such persons, other than members of the United States armed forces in uniform, shall present their travel documents to the appropriate Philippine authorities for visas, it being understood that no objection will be made to their travel to the Philippines as non-immigrants.

2. If the status of any person within the Philippines and admitted thereto under the foregoing paragraph shall be altered so that he would no longer be entitled to such admission, the United States shall notify the Philippines and shall, if such person be required to leave the Philippines by the latter Government, be responsible for providing him with a passage from the Philippines within a reasonable time, and shall in the meantime prevent his becoming a public responsibility of the Philippines.

ARTICLE XII

INTERNAL REVENUE TAX EXEMPTION

1. No member of the United States armed forces, except Filipino citizens, serving in the Philippines in connection with the bases and residing in the Philippines by reason only of such service, or his dependents, shall be liable to pay income tax in the Philippines except in respect of income derived from Philippine sources.

2. No national of the United States serving in or employed in the Philippines in connection with the construction, maintenance, operation or defense of the bases and residing in the Philippines by reason only of such employment, or his spouse and minor children and dependent parents of either spouse, shall be liable to pay income tax in the Philippines except in respect of income derived from Philippine sources or sources other than the United States sources.

3. No person referred to in paragraphs 1 and 2 of this Article shall be liable to pay to the Government or local authorities of the Philippines any poll or residence tax, or any import or export duty, or any other tax on personal property imported for his own use; provided that privately owned vehicles shall be subject to payment of the following only: when certified as being used for military purposes by appropriate United States authorities, the normal license plate fee; otherwise, the normal license plate and registration fees.

4. No national of the United States, or corporation organized under the laws of the United States, resident in the United States, shall be liable to pay income tax in the Philippines in respect of any profits derived under a contract made in the United States with the Government of the United States in connection with the construction, maintenance, operation and defense of the bases, or any tax in the nature of a license in respect of any service or work for the United States in connection with the construction, maintenance, operation and defense of the bases.

ARTICLE XIII

JURISDICTION

1. The Philippines consents that the United States shall have the right to exercise jurisdiction over the following offenses:

(*a*) Any offense committed by any person within any base except where the offender and offended parties are both Philippine citizens (not members of the armed forces of the United States on active duty) or the offense is against the security of the Philippines;

(*b*) Any offense committed outside the bases by any member of the armed forces of the United States in which the offended party is also a member of the armed forces of the United States; and

(*c*) Any offense committed outside the bases by any member of the armed forces of the United States against the security of the United States.

2. The Philippines shall have the right to exercise jurisdiction over all other offenses committed outside the bases by any member of the armed forces of the United States.

3. Whenever for special reasons the United States may desire not to exercise the jurisdiction reserved to it in paragraphs 1 and 6 of this Article, the officer holding the offender in custody shall so notify the fiscal (prosecuting attorney) of the city or province in which the offense has been committed within ten days after his arrest, and in such a case the Philippines shall exercise jurisdiction.

4. Whenever for special reasons the Philippines may desire not to exercise the jurisdiction reserved to it in paragraph 2 of this Article, the fiscal (prosecuting attorney) of the city or province where the offense has been committed shall so notify the officer holding the offender in custody within ten days after his arrest, and in such a case the United States shall be free to exercise jurisdiction. If any offense falling under paragraph 2 of this Article is committed by any member of the armed forces of the United States

(*a*) while engaged in the actual performance of a specific military duty, or

(*b*) during a period of national emergency declared by either Government and the fiscal (prosecuting attorney) so finds from the evidence, he shall immediately notify the officer holding the offender in custody that the United States is free to exercise jurisdiction. In the event the fiscal (prosecuting attorney) finds that the offense was not committed in the actual performance of a specific military duty, the offender's commanding officer shall have the right to appeal from such finding to the Secretary of Justice within ten days from the receipt of the decision of the fiscal and the decision of the Secretary of Justice shall be final.

5. In all cases over which the Philippines exercises jurisdiction the custody of the accused, pending trial and final judgment, shall be entrusted without delay to the commanding officer of the nearest

base, who shall acknowledge in writing that such accused has been delivered to him for custody pending trial in a competent court of the Philippines and that he will be held ready to appear and will be produced before said court when required by it. The commanding officer shall be furnished by the fiscal (prosecuting attorney) with a copy of the information against the accused upon the filing of the original in the competent court.

Exclusive jurisdiction in time of war.

6. Notwithstanding the foregoing provisions, it is mutually agreed that in time of war the United States shall have the right to exercise exclusive jurisdiction over any offenses which may be committed by members of the armed forces of the United States in the Philippines.

7. The United States agrees that it will not grant asylum in any of the bases to any person fleeing from the lawful jurisdiction of the Philippines. Should any such person be found in any base, he will be surrendered on demand to the competent authorities of the Philippines.

8. In every case in which jurisdiction over an offense is exercised by the United States, the offended party may institute a separate civil action against the offender in the proper court of the Philippines to enforce the civil liability which under the laws of the Philippines may arise from the offense.

ARTICLE XIV

ARREST AND SERVICE OF PROCESS

1. No arrest shall be made and no process, civil or criminal, shall be served within any base except with the permission of the commanding officer of such base; but should the commanding officer refuse to grant such permission he shall (except in cases of arrest where the United States has jurisdiction under Article XIII) forthwith take the necessary steps to arrest the person charged and surrender him to the appropriate authorities of the Philippines or to serve such process, as the case may be, and to provide the attendance of the server of such process before the appropriate court in the Philippines or procure such server to make the necessary affidavit or declaration to prove such service as the case may require.

2. In cases where the service courts of the United States have jurisdiction under Article XIII, the appropriate authorities of the Philippines will, on request, give reciprocal facilities as regards the service of process and the arrest and surrender of alleged offenders.

ARTICLE XV

SECURITY LEGISLATION

The Philippines agrees to take such steps as may from time to time be agreed to be necessary with a view to the enactment of legislation to insure the adequate security and protection of the United States bases, equipment and other property and the operations of the United States under this Agreement, and the punishment of persons who may contravene such legislation. It is mutually agreed that appropriate authorities of the two Governments will also consult from time to

time in order to insure that laws and regulations of the United States and of the Philippines in relation to such matters shall, so far as may be possible, be uniform in character.

ARTICLE XVI

POSTAL FACILITIES

It is mutually agreed that the United States shall have the right to establish and maintain United States post offices in the bases for the exclusive use of the United States armed forces, and civilian personnel who are nationals of the United States and employed in connection with the construction, maintenance, and operation of the bases, and the families of such persons, for domestic use between United States post offices in the bases and between such post offices and other United States post offices. The United States shall have the right to regulate and control within the bases all communications within, to and from such bases.

ARTICLE XVII

REMOVAL OF IMPROVEMENTS

1. It is mutually agreed that the United States shall have the right to remove or dispose of any or all removable improvements, equipment or facilities located at or on any base and paid for with funds of the United States. No export tax shall be charged on any material or equipment so removed from the Philippines.

2. All buildings and structures which are erected by the United States in the bases shall be the property of the United States and may be removed by it before the expiration of this Agreement or the earlier relinquishment of the base on which the structures are situated. There shall be no obligation on the part of the United States or of the Philippines to rebuild or repair any destruction or damage inflicted from any cause whatsoever on any of the said buildings or structures owned or used by the United States in the bases. The United States is not obligated to turn over the bases to the Philippines at the expiration of this Agreement or the earlier relinquishment of any bases in the condition in which they were at the time of their occupation, nor is the Philippines obliged to make any compensation to the United States for the improvements made in the bases or for the buildings or structures left thereon, all of which shall become the property of the Philippines upon the termination of the Agreement or the earlier relinquishment by the United States of the bases where the structures have been built.

ARTICLE XVIII

SALES AND SERVICES WITHIN THE BASES

1. It is mutually agreed that the United States shall have the right to establish on bases, free of all licenses; fees; sales, excise or other taxes, or imposts; Government agencies, including concessions, such as sales commissaries and post exchanges, messes and social clubs, for the exclusive use of the United States military forces and authorized

civilian personnel and their families. The merchandise or services sold or dispensed by such agencies shall be free of all taxes, duties and inspection by the Philippine authorities. Administrative measures shall be taken by the appropriate authorities of the United States to prevent the resale of goods which are sold under the provisions of this Article to persons not entitled to buy goods at such agencies and, generally, to prevent abuse of the privileges granted under this Article. There shall be cooperation between such authorities and the Philippines to this end.

2. Except as may be provided in any other agreements, no person shall habitually render any professional services in a base except to or for the United States or to or for the persons mentioned in the preceding paragraph. No business shall be established in a base, it being understood that the Government agencies mentioned in the preceding paragraph shall not be regarded as businesses for the purposes of this Article.

ARTICLE XIX

COMMERCIAL CONCERNS

It is mutually agreed that the United States shall have the right, with the consent of the Philippines, to grant to commercial concerns owned or controlled by the citizens of the United States or of the Philippines such rights to the use of any base or facility retained or acquired by the United States as may be deemed appropriate by both Governments to insure the development and maintenance for defense purposes of such bases and facilities.

ARTICLE XX

MILITARY OR NAVAL POLICE

It is mutually agreed that there shall be close cooperation on a reciprocal basis between the military and naval police forces of the United States and the police forces of the Philippines for the purpose of preserving order and discipline among United States military and naval personnel.

ARTICLE XXI

TEMPORARY INSTALLATIONS

1. It is mutually agreed that the United States shall retain the right to occupy temporary quarters and installations now existing outside the bases mentioned in Annex A and Annex B, for such reasonable time, not exceeding two years, as may be necessary to develop adequate facilities within the bases for the United States armed forces. If circumstances require an extension of time, such a period will be fixed by mutual agreement of the two Governments; but such extension shall not apply to the existing temporary quarters and installations within the limits of the City of Manila and shall in no case exceed a period of three years.

Post, p. 4032.

2. Notwithstanding the provisions of the preceding paragraph, the Port of Manila reservation with boundaries as of 1941 will be avail-

able for use to the United States armed forces until such time as other arrangements can be made for supply of the bases by mutual agreement of the two Governments.

3. The terms of this Agreement pertaining to bases shall be applicable to temporary quarters and installations referred to in paragraph 1 of this Article while they are so occupied by the armed forces of the United States; provided, that offenses committed within the temporary quarters and installations located within the present limits of the City of Manila shall not be considered as offenses within the bases but shall be governed by the Provisions of Article XIII, paragraphs 2 and 4, except that the election not to exercise the jurisdiction reserved to the Philippines shall be made by the Secretary of Justice. It is agreed that the United States shall have full use and full control of all these quarters and installations while they are occupied by the armed forces of the United States, including the exercise of such measures as may be necessary to police said quarters for the security of the personnel and property therein.

Ante, p. 4025.

ARTICLE XXII

CONDEMNATION OR EXPROPRIATION

1. Whenever it is necessary to acquire by condemnation or expropriation proceedings real property belonging to any private persons, associations or corporations located in bases named in Annex A and Annex B in order to carry out the purposes of this Agreement, the Philippines will institute and prosecute such condemnation or expropriation proceedings in accordance with the laws of the Philippines. The United States agrees to reimburse the Philippines for all the reasonable expenses, damages and costs thereby incurred, including the value of the property as determined by the Court. In addition, subject to the mutual agreement of the two Governments, the United States will reimburse the Philippines for the reasonable costs of transportation and removal of any occupants displaced or ejected by reason of the condemnation or expropriation.

Post, p. 4032.

2. Prior to the completion of such condemnation or expropriation proceedings, in cases of military necessity the United States shall have the right to take possession of such property required for military purposes as soon as the legal requisites for obtaining possession have been fulfilled.

3. The properties acquired under this Article shall be turned over to the Philippines upon the expiration of this Agreement, or the earlier relinquishment of such properties, under such terms and conditions as may be agreed upon by the two Governments.

ARTICLE XXIII

CIVIL LIABILITY

For the purpose of promoting and maintaining friendly relations by the prompt settlement of meritorious claims, the United States shall pay just and reasonable compensation, when accepted by claimants in full satisfaction and in final settlement, for claims, including

claims of insured but excluding claims of subrogees, on account of damage to or loss or destruction of private property, both real and personal, or personal injury or death of inhabitants of the Philippines, when such damage, loss, destruction or injury is caused by the armed forces of the United States, or individual members thereof, including military or civilian employees thereof, or otherwise incident to non-combat activities of such forces; provided that no claim shall be considered unless presented within one year after the occurrence of the accident or incident out of which such claim arises.

ARTICLE XXIV

MINERAL RESOURCES

All minerals (including oil), and antiquities and all rights relating thereto and to treasure trove, under, upon, or connected with the land and water comprised in the bases or otherwise used or occupied by the United States by virtue of this Agreement, are reserved to the Government and inhabitants of the Philippines; but no rights so reserved shall be transferred to third parties, or exercised within the bases, without the consent of the United States. The United States shall negotiate with the proper Philippine authorities for the quarrying of rock and gravel necessary for construction work on the bases.

ARTICLE XXV

GRANT OF BASES TO A THIRD POWER

1. The Philippines agrees that it shall not grant, without prior consent of the United States, any bases or any rights, power, or authority whatsoever, in or relating to bases, to any third power.

2. It is further agreed that the United States shall not, without the consent of the Philippines, assign, or underlet, or part with the possession of the whole or any part of any base, or of any right, power or authority granted by this Agreement, to any third power.

ARTICLE XXVI

DEFINITION OF BASES

For the purposes of this Agreement, bases are those areas named in Annex A and Annex B and such additional areas as may be acquired for military purposes pursuant to the terms of this Agreement.

ARTICLE XXVII

VOLUNTARY ENLISTMENT OF PHILIPPINE CITIZENS

It is mutually agreed that the United States shall have the right to recruit citizens of the Philippines for voluntary enlistment into the United States armed forces for a fixed term of years, and to train them and to exercise the same degree of control and discipline over them as is exercised in the case of other members of the United States armed forces. The number of such enlistments to be accepted by the armed forces of the United States may from time to time be limited by agreement between the two Governments.

ARTICLE XXVIII

UNITED STATES RESERVE ORGANIZATIONS

It is mutually agreed that the United States shall have the right to enroll and train all eligible United States citizens residing in the Philippines in the Reserve organizations of the armed forces of the United States, which include the Officers Reserve Corps and the Enlisted Reserve Corps, except that prior consent of the Philippines shall be obtained in the case of such persons who are employed by the Philippines or any Municipal or Provincial Government thereof.

ARTICLE XXIX

TERM OF AGREEMENT

Agreement between the United States of America and the Netherlands respecting American dead in World War II. Effected by exchange of notes signed at The Hague April 11, 1947; entered into force April 11, 1947.

April 11, 1947
[T. I. A. S. 1777]

The American Chargé d'Affaires ad interim to the Netherlands Minister for Foreign Affairs

No. 705

THE HAGUE, *April 11, 1947.*

EXCELLENCY:

I have the honor to refer to my note No. 688, of March 26, 1947, [1] in which I informed Your Excellency that the Department of State had authorized the Embassy to effect an exchange of notes with Your Excellency concerning American War Graves in the Netherlands and in its Overseas Territories.

The plan presented by the American Graves Registration Command, including the "major concessions" desired, in connection with American War Graves in the Netherlands and the Netherlands Overseas Territories, is as follows:

"1. The Plan Presented:

1. It is the declared policy of the Government of the United States of America, upon application by the next of kin, to return to the Homeland for interment at places designated by the next of kin, or in national cemeteries, the remains of persons who died on or after September 3, 1939, and are buried outside the continental limits of the United States, and who were:

   a. Members of the armed forces of the United States who died in the service.

   b. Civilian officers and employees of the United States.

   c. Citizens of the United States who served in the armed forces of any Government at war with Germany, Italy, Japan, or any other belligerent power, and who died while in such service and who were citizens of the United States at the time of such service.

   d. Citizens of the United States whose homes are in fact in the United States and whose death, outside the continental limits thereof can be directly attributed to the war or who died while employed or otherwise engaged in activities contributing to the prosecution of the war.

   e. Such other citizens of the United States, the return of the remains of whom would, in discretion of the Secretary of War, serve the public interest.

[1] [Not printed.]

2. Future policy of the Government of the United States and the desires of the next of kin of deceased persons may also necessitate the concentration of remains into "Fields of Honors" in each of the United Nations or in other Nations, their possessions or territories, for perpetual care by the United States Government.

3. It may be fitting and proper, at a future date, to commemorate the accomplishment, heroism and sacrifices of the Armed Forces of the United States by monuments or other suitable means.

4. There are presently interred in temporary United States Military Cemeteries in many of the various United Nations and other Nations, or the possessions or territories subject to their jurisdiction, the remains of members of Allied Armed Forces, Italian, German, Japanese and other former belligerent powers which require transfer of the custody of the remains to another country in order to secure perpetual care and maintenance of the graves of such deceased.

5. In furtherance of the objectives hereinbefore set forth, major concessions as enumerated below are desired from each of the Nations in order that the United States of America, through its duly designated representatives, may conduct these sacred operations without undue restrictions upon the Government of the United States.

Major Concessions Requested:

Temporary cemeteries.

a. The right to establish and maintain temporary cemeteries within the Nation, its possessions or territories subject to the control of the respective Government as are necessary for the burial of deceased persons subject to its control and to make exhumations therefrom or from other locations for repatriation or for concentration into permanent cemeteries abroad including movement of bodies from other countries into said Nation, its possessions or territories, provided however that no remains may be removed from the Netherlands to any colony or possession of the Netherlands, nor be removed from the Netherlands to any Netherlands territory over sea out of Europe, nor be removed from those territories to the Netherlands.

Permits for disinterments.

b. The right to be exempt from all national, local or other laws and/or regulations relating to the securing of permits for disinterments; sanitation, upon an assurance that such work will be conducted in a manner not detrimental to public health, any question as to detriment, in case same shall be raised by the respective Government, to be determined by mutual accord; and from the payment of any duties, taxes or fees of any kind whatsoever for the burial, disinterment for reburial or movement of bodies or the maintenance of permanent graves.

c. Free entrance and exit for all personnel, supplies, transportation (air, motor, and water), including the use of highways and inland and coastal waterways necessary or incident to repatriation and concentration activities. Free entrance and exit.

d. Use of such ports, port facilities, including but not limited to, warehousing, docks, pilotage, supplies and services as are essential to repatriation and concentration activities subject only to payment of the established rates of compensation therefor. Use of ports, etc.

e. Use of rail and water transportation, including but not limited to that belonging or subject to the regulations of the respective Government to the extent required for the work involved and subject to payment for the use thereof at prevailing rates.

f. The right to the use of buildings, services and to employ labor within the respective Nation, the possessions or territories subject to the jurisdiction thereof, as are required for all activities involved by payment for use thereof at prevailing rates.

g. The respective Government shall procure possession of such sites for permanent cemeteries (Field of Honor) and/or memorials as are deemed necessary by the Government of the United States and will be pleased to grant to the United States of America the use thereof in perpetuity without payment by the United States of compensation therefor. Such sites shall be at location judged appropriate for the purpose by designated representatives of the Netherlands, and shall include sufficient ground in addition to burial space, for proper beautification, approach roads where required, and the construction of such buildings as are essential to the housing of caretakers, reception of visitors and general maintenance work and memorials at or separate and apart from cemeteries. Sites for permanent cemeteries, etc.

h. The right without regard to any national or local laws, customs, or regulations, to plan, layout, improve, construct buildings thereon, and beautify and provide for the perpetual custody and maintenance of such cemeteries and memorials as are directed by the United States Government, but subject however to the following provisions: Right to plan, etc.

a. The determination of the boundaries of any such cemetery, and particularly those portions lying outside of the burial plots and serving for beautification and/or as a site for the erection of a memorial, must be discussed with and approved by appropriate agencies of the respective government or political component thereof. Determination of boundaries.

Access roads.

b. Like discussion and agreement is required with respect to the course of access roads leading into any such cemetery, the landscaping of portions of any such cemetery, lying outside of the burial plots, the fencing or hedging of the cemetery, and the height, exterior plans and site of any memorial or the permanent structure to be erected thereon.

Exemption of salaries, etc., from taxation.

i. All salaries and other renumeration paid to personnel, who are citizens of the United States, by the United States while engaged in, and all facilities, material and supplies whether purchased locally or otherwise, utilized in these operations, including land for permanent cemeteries and memorials, and improvements thereto and buildings constructed thereon shall be exempt from any and all forms of taxation, direct or indirect.

Custody of remains, etc., of designated personnel.

j. The respective Government, at such time and place as the United States Government so requests, will assume custody of the remains and provide for the permanent maintenance of the graves of personnel formally serving with other Allied Armed Forces, Italy, Germany, Japan, or any other belligerent power which are now buried in temporary United States Military Cemeteries or other places now within custody of the United States Government located in the respective country, its possessions or territories, provided, however, that the United States reserves similar rights, as hereinbefore set forth to be exercised, if so desired, to disinter and transport the remains of members of other Allied Nations to cemeteries designated by such Nation within said respective country, the possessions or territories subject to the jurisdiction thereof.

k. The provisions of this section shall apply with equal force and effect to the shipment of remains from other foreign countries into the respective Nation, the possessions or territories subject to the jurisdiction of said nation, where the next of kin reside in said country, or one of its possessions or territories, and request final interment of remains therein, provided however that no remains may be removed from the Netherlands to any Netherlands territory over sea out of Europe, nor be removed from those territories to the Netherlands.

Exercise of rights reserved to U. S.

l. The rights, privileges and prerogatives reserved to the United States herein shall be exercised prior to January 1, 1955, except as relates to use of land acquired for cemeteries, memorials and improvements thereto, including buildings constructed thereon, which shall run in perpetuity."

As Your Excellency is aware, the question of the above mentioned "major concessions" have been the subject of various informal conversations between officers of this Embassy and representatives of the Ministry for Foreign Affairs; and it is my understanding that Your Excellency's Government is prepared to grant these concessions. If such is indeed the case, I shall appreciate receiving Your Excellency's confirmation thereof.

Accept, Excellency, the assurances of my highest consideration.

Agreement between the United States of America and Rumania respecting American dead in World War II. Effected by exchange of notes signed at Bucharest June 19 and 28, 1946; entered into force June 28, 1946.

The American Representative in Rumania to the Rumanian Minister for Foreign Affairs

THE UNITED STATES MISSION

BUCHAREST, RUMANIA.

JUNE 19, 1946

SIR:

War graves registration, etc.

My Government desires to conclude with your Government a bilateral agreement upon war graves registration and associated matters. I am attaching a suggested text of such an agreement upon which I shall appreciate your comments. If you find this text acceptable, I suggest that the agreement can be concluded by an exchange of notes.

I desire to emphasize that it is now the intention of my Government to arrange only for the right of temporary burial, and that permanent arrangements now in existence or contemplated with regard to the establishment of cemeteries will be cancelled under instructions sent to the United States Military Representative by the United States War Department.

I shall be grateful if this matter is given your prompt consideration.

Very truly yours,

BURTON Y. BERRY
Representative of the United States
In Rumania

His Excellency
GHEORGHE TATARESCU,
The Royal Minister
For Foreign Affairs.

"The following shall govern relative to the disposal of the remains of deceased persons who were citizens of the United States and/or who served or who accompanied the Armed Forces of the United States

and are now buried in Rumania or any possession or territory now or hereafter subject to the control of the Rumanian Government.

U. S. rights, etc.

"1. The United States, through its duly designated representatives shall have the following rights, privileges and prerogatives:

Temporary cemeteries.

"A. The Government of the United States shall have the right to establish and maintain such temporary cemeteries as are necessary for the burial of deceased persons subject to its control and to make exhumations therefrom for repatriation or concentration into other cemeteries abroad; and may move bodies from other countries into and/or through Rumania and its territories and possessions for interment and/or trans-shipment.

Permits for disinterments, etc.

"B. The Government of the United States shall be exempt from all national, local or other laws and/or regulations relating to the permits for disinterments; sanitation, upon an assurance that such work will be conducted in a manner not detrimental to public health; and from the payment of any duties, taxes or fees of any kind whatsoever for the burial, disinterment for reburial or movement of bodies or the maintenance of graves.

Free entrance and exit, etc.

"C. The Government of the United States shall have the right of free entrance and exit for all personnel, supplies, transportation (air, mail, animal, motor, and water) serving or belonging to the United States and the use of air fields or port facilities, warehousing, living quarters, office space, rail and water transportation and the right to employ labor in Rumania, its territory and possessions, essential to the accomplishment of its mission upon payment of just compensation therefor.

Rights of search.

"D. The Government of the United States shall have the unrestricted rights of search for the remains of members of its Armed Forces and/or its citizens.

"E. The Government of the United States shall have the unrestricted right to examine and copy all records, military or civilian, which may be of assistance in locating the graves, or identifying the remains of its deceased military or civilian personnel.

"F. The Government of the United States shall have the right to question and examine citizens of Rumania and to take affidavits in furtherance of its search for, and identification of remains of members of its Armed Forces and/or its citizens.

Assistance from Rumanian Government.

"2. The Government of Rumania will render all possible assistance in locating and securing the effects of deceased military and civilian personnel of the United States, and upon demand and the furnishing of a proper receipt will turn over to representatives of the United States all effects so located and secured.

"3. If in the future the Government of the United States wishes to establish permanent cemeteries or erect memorials in Rumania, the Rumanian Government will exercise its power of eminent domain to

acquire title to such sites and grant to the United States the right to use therein in perpetuity upon payment by the United States of just compensation therefor. Any sites acquired including improvements thereto and buildings constructed thereon shall be exempt for any and all form of taxation, direct or indirect. The provisions of paragraphs 1A, B and C will apply for the period of the agreement, the construction and maintenance of such permanent cemetreries and memorials as may be desired."

D o m n u l e ,

Am onoarea a confirma primirea scrisoarei Domniei Voastre din 19 crt. şi a următorului text propus de Domnia Voastră pentru o convenţiune bilaterală cu privire la mormintele de război şi la chestiunile privitoare la aceste morminte :

"Cele ce urmează vor reglementa soarta rămăşiţelor persoanelor decedate , cari au fost cetăţeni ai Statelor Unite şi (sau) cari au fost în serviciul forţelor armate ale Statelor Unite sau le-au însoţit şi cari acum se găsesc îmormântate în România sau în orice posesiune sau teritoriu supus în prezent sau în viitor jurisdicţiei Guvernului român.

"1. Statele Unite , prin reprezentanţii lor desemnaţi în modul cuvenit , vor avea următoarele drepturi , privilegii şi prerogative :

"A. Guvernul Statelor Unite va avea dreptul de a înfiinţa şi de a întreţine cimitire provizorii necesare pentru înmormântarea persoanelor decedate şi supuse controlului său şi de a face exhumări din

aceste cimitire , în vederea repatrierii sau a concentrării în alte cimitire din străinătate ; şi va putea transporta corpuri din alte ţări în şi (sau) prin România şi teritoriile şi posesiunile sale , pentru înmormântare şi (sau) transbordare.

"B. Guvernul Statelor Unite va fi scutit de orice legi şi (sau) regulamente naţionale , locale sau de altă natură , relative la autorizaţiile de exhumare ; va fi scutit de dispoziţiile sanitare , cu asigurarea că asemenea operaţiuni vor fi efectuate într'un mod care să nu prejudicieze sănătatea publică ; şi de plata oricăror drepturi , impozite sau taxe de orice fel , pentru înmormântarea , exhumarea în vederea reînmormântării sau pentru transportarea corpurilor sau pentru întreţinerea mormintelor.

"C. Guvernul Statelor Unite va avea dreptul de liberă intrare şi eşire pentru tot personalul , aprovizionările , mijloacele de transport (aerian , poştal , animal , motorizat şi pe apă) , cari servesc sau aparţin Statelor Unite , precum şi folosinţa aerodromurilor şi a porturilor , magaziilor , locuinţelor , localurilor pentru biurouri , a mijloacelor de transport feroviar sau pe apă şi dreptul de a întrebuinţa mâna de lucru în România , în teritoriul şi posesiunile ei , necesară pentru îndeplinirea misiunei sale , după plata unei juste remunerări.

"D. Guvernul Statelor Unite va avea drepturi nelimitate pentru căutarea rămăşiţelor membrilor forţelor

sale armate şi (sau) ale cetăţenilor săi.

"E. Guvernul Statelor Unite va avea dreptul nelimitat de a cerceta şi de a copia toate registrele, militare sau civile, cari ar fi de folos la găsirea mormintelor sau la identificarea rămăşiţelor personalului său decedat, militar sau civil.

"F. Guvernul Statelor Unite va avea dreptul de a interoga şi de asculta pe cetăţenii României şi de a le lua declaraţii autentice în interesul cercetărilor sale pentru aflarea şi identificarea rămăşiţelor membrilor forţelor sale armate şi (sau) ale cetăţenilor săi.

"2. Guvernul Român va da tot ajutorul cu putinţă pentru găsirea şi luarea în primire a efectelor personalului decedat, militar şi civil, al Statelor Unite, iar la cerere şi după eliberarea cuvenitei adeverinţe va preda reprezentanţilor Statelor Unite toate efectele astfel găsite şi luate în primire.

"3. Dacă pe viitor Guvernul Statelor Unite va dori să înfiinţeze cimitire permanente sau să ridice monumente în România, Guvernul Român îşi va exercita dreptul de "dominium eminens" pentru a dobândi dreptul asupra unor astfel de terenuri şi va acorda Statelor Unite dreptul de folosinţă perpetuă, în urma achitării de către Statele Unite a unei juste remunerări. Orice terenuri dobândite inclusiv îmbunătăţirile lor şi clădirile construite pe ele, vor fi scutite de orice fel

de impunere , directă sau indirectă. Prevederile paragrafelor 1A, B şi C se vor aplica , pe durata convenţiei , la construirea şi întreţinerea cimitirelor permanente şi a monumentelor dorite".

Drept răspuns la această scrisoare am onoarea a Vă informa că Guvernul Român acceptă propunerea Domniei Voastre , consideră prin prezenta convenţiunea bilaterală propusă în termenii aci menţionaţi ca definitiv încheiată şi va lua imediat măsuri pentru aplicarea ei de către autorităţile sale în înţelegere cu delegatul sau delegaţii desemnaţi de Domnia Voastră.

Al Domniei Voastre foarte sincer

ROYAL MINISTRY OF FOREIGN AFFAIRS

No. 24.152 BUCHAREST, June 28, 1946

SIR:

I have the honor to acknowledge the receipt of your letter of June 19 and of the following text proposed by you for a bilateral agreement with regard to war graves and matters relating to these graves: *Ante*, p. 4042.

[For the English language text of the agreement, see p. 4043.]

In answer to this letter I have the honor to inform you that the Rumanian Government accepts your proposal, that it hereby considers the bilateral agreement proposed in the foregoing terms, as definitively concluded and that it will take immediate steps for its application by its authorities in agreement with the delegate or delegates designated by you. Acceptance by Rumanian Government.

April 10, 30, 1947
[T. I. A. S. 1798]

Arrangement between the United States of America and Sweden respecting passport visa fees. Effected by exchange of notes dated at Washington April 10 and 30, 1947; entered into force April 30, 1947.

The Swedish Minister to the Acting Secretary of State

LEGATION OF SWEDEN
WASHINGTON 8, D. C.

No. 140

The Minister of Sweden presents his compliments to the Honourable the Acting Secretary of State and, with reference to informal discussions between officials of the Visa Division of the Department of State and the Swedish Legation, has the honour to bring to the Acting Secretary's knowledge that the Swedish Government is prepared to abolish visa requirements, but not passport requirements, for American citizens traveling in Sweden. However, existing Swedish regulations which require special permission to stay in Sweden longer than three months or to take employment in Sweden will remain in force unchanged. At present the fee for such permits varies from 4 to 12 Swedish crowns, depending upon the period of validity of the permit.

The necessary steps for abolishing the visa requirements for American citizens visiting Sweden will be taken forthwith by the Swedish Government provided the United States Government is willing to waive, in respect of Swedish citizens, the fees for non-immigrant visas and applications therefor, and to extend to twenty-four months the validity of visas granted to Swedish citizens who may be considered habitual visitors to the United States for bona-fide business purposes.

The Minister would appreciate to be informed of the attitude of the American Government in this matter.

WASHINGTON, D. C., *April 10, 1947.*

The Acting Secretary of State to the Swedish Minister

Abolishment by Sweden of visa requirements for American citizens.

The Acting Secretary of State presents his compliments to the Honorable the Minister of Sweden and has the honor to refer to the Legation's Note No. 140 of April 10, 1947, in which it is stated that the Swedish Government is prepared to abolish visa requirements, but not passport requirements, for American citizens traveling to Sweden, although the Swedish regulations requiring the payment of fees for residence permits will remain in effect.

A reciprocal arrangement, effective July 4, 1925,[1] was concluded between the Government of the United States and the Government of Sweden whereby the fees for nonimmigrant passport visas and applications therefor were waived for American citizens proceeding to

[1] [Not printed. The correct date is July 5, 1925.]

Sweden, and for Swedish citizens or subjects proceeding to the United States. At the request of the Government of Sweden this arrangement was amended, effective September 5, 1939, whereby there was established a fee of Kroner 4 for visaing the passport of an American citizen and a fee of $1.25 for granting a nonimmigrant passport visa to a Swedish citizen or subject. 54 Stat. 2489.

Permit for stay in Sweden longer than three months.

The Government of the United States understands from the Swedish Legation's Note No. 140 that visa requirements, but not passport requirements, will be waived for American citizens proceeding to Sweden or Swedish territory and that such citizens who desire to remain in Sweden or Swedish territory for a period of time longer than three months, or to take employment therein, except in the cases of officials of the United States Government, their families, servants, and employees, will be required to obtain a permit, the fee for which will be 4 crowns for a stay of one month, 6 crowns for three months, and 12 crowns for more than three months; these periods of time being in addition to the original period of three months for which no visa or residence fee will be required. It is further understood that any number of entries may be made into Sweden or Swedish territory without a visa provided the total time spent in Sweden or Swedish territory does not exceed three months in any nine months period, but that this time limit does not apply to crew members of commercial aircraft who enter Sweden or Swedish territory and whose names appear on the aircraft's manifest on which they arrive provided they leave Sweden or Swedish territory within a reasonable time.

Nonapplicability to crew of commercial aircraft.

Waiver of designated passport visa fees by U. S.

In view of the understanding outlined herein the Government of the United States will waive the passport visa fees, effective on and after June 1, 1947, for citizens or subjects of Sweden who are *bona fide* nonimmigrants within the meaning of the immigration laws of the United States. A nonimmigrant passport visa granted by an American diplomatic or consular officer is valid for any number of applications for admission into the United States or United States territory during a period of twelve months from date of issuance, provided the passport of the bearer is valid for that period. The Government of the United States proposes that passport visas may be granted to nonimmigrants for an initial period of two years on and after June 1, 1947. The period of validity of the visa relates only to the period within which it may be used in connection with an application for admission at a port of entry and not to the length of stay in the United States which may be permitted the bearer if he is admitted. The period of stay is a matter within the discretion of the immigration authorities.

Fee for immigration visa.

The fee for an immigration visa to permit an alien to apply for admission into the United States with the privilege of residing permanently in this country is $10.00. The amount of this fee is prescribed by the Immigration Act of 1924, and it may not be changed on the basis of a reciprocal arrangement. 43 Stat. 153. 8 U. S. C. § 201 note.

The Swedish Chargé d'Affaires ad interim to the Secretary of State

LEGATION OF SWEDEN
WASHINGTON 8, D. C.
No. 167

The Charge d'Affaires a. i. of Sweden presents his compliments to the Honourable the Secretary of State and, with reference to the Department of State's note, dated today, has the honour to inform the Secretary that the Swedish Government, as of May 1, 1947, will abolish visa requirements, but not passport requirements, for American citizens traveling to Sweden. Existing Swedish regulations which require special permission to stay in Sweden longer than three months or to take employment there remain in force unchanged.

The Charge d'Affaires has taken notice of the contents of the abovementioned note of the Department of State i.a. stating that the Government of the United States will waive the passport visa fees, effective on and after June 1, 1947, for citizens or subjects of Sweden who are bona-fide non-immigrants within the meaning of the Immigration Laws of the United States, and that the Government of the United States proposes that passport visas may be granted to non-immigrants for an initial period of two years on and after June 1, 1947, which measures will be much appreciated by the Swedish Government.

No. 1271

MEXICO, *May 18, 1943.*

EXCELLENCY:

Proposed network of nine stations.

Pursuant to instructions from my Government, I have the honor to inform Your Excellency that, in furtherance of the war effort, and particularly in order to safeguard military and air transport operations, it appears to be desirable to provide a network of urgently needed meteorological reports from points in northern Mexico bordering important airways of the United States. In the event that the establishment of such a network should be agreeable to Your Excellency's Government, the United States Weather Bureau, of the Department of Commerce, is prepared to provide the necessary equipment for nine such stations and is likewise prepared to defray the salaries of, and to train, sufficient Mexican personnel to take eight complete weather observations at three-hourly intervals daily, including Sundays and holidays.

While this matter has not been previously discussed with Mexican authorities, it is believed that the proposal will receive favorable consideration by the Mexican Meteorological Survey, since the weather reports from the net work would be beneficial in forecasting weather which at times moves southward across Mexico.

Official to assist in arrangements.

For Your Excellency's information I may add that if, as I venture to hope, the above suggestion should prove agreeable to Your Excellency's Government, the Weather Bureau would send an official to this Capital to assist in the making of the necessary arrangements and agreements so that the establishment of the stations may be expedited.

I should appreciate it if Your Excellency would be so kind as to endeavor to expedite a decision in regard to the above.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

SEÑOR EMBAJADOR:

En respuesta a la atenta nota de Vuestra Excelencia número 1271 de 18 de mayo próximo pasado, y con relación a la mía número 53859 de 2 de junio en curso, me es grato manifestarle que el Gobierno de México está de acuerdo en que se establezcan nueve estaciones meteorológicas con el fin de proporcionar, diariamente, informes útiles para mejor salvaguardar las operaciones de transportes militares y aéreos.

Por lo tanto, el Gobierno de los Estados Unidos podrá enviar a México cuando a bien lo tenga, el funcionario de la Oficina Meteorológica a que se refiere la nota de Vuestra Excelencia, a fin de hacer los arreglos necesarios con las autoridades correspondientes del Gobierno de México – en este caso la Secretaría de Agricultura – en todo lo relativo a la localización de dichas estaciones, a la cooperación que prestará la Oficina Meteorológica Norteamericana en el sentido de proporcionar los equipos destinados al funcionamiento de aquellas, y al envío, si se creyera conveniente, de uno o más técnicos que instruyan al personal mexicano que atenderá las estaciones de que se trata. El sueldo de este personal será cubierto por el Gobierno de México.

Con esta nota remito a Vuestra Excelencia, adjunto, un memorándum que contiene diversos informes que en relación con este asunto, ha proporcionado la Secretaría de Agricultura y Fomento a la Secretaría de Relaciones Exteriores.

Aprovecho la oportunidad para renovar a Vuestra Excelencia, las seguridades de mi más alta y distinguida consideración.

MEMORANDUM.

En la actualidad existen en la región norte de la República las 11 estaciones meteorológicas que a continuación se indican:

ESTACIONES:	POSICION APROX. Lat.	Long.
Ensenada, B. C.	31°47′	116°37′
Altar, Son	30 43	111 44
Ures, Son.	29 26	110 24
Villa Ahumada, Chih.	30 38	106 31
Temósachic, Chih.	28°58′	107°50′
Hidalgo del Parral, Chih.	26 56	105 49
Ojinaga, Chih.	29 24	104 25
Sierra Mojada, Coah.	27 17	103 42
Monclova, Coah.	26 55	101 26
Linares, N. L.	24 52	99 34
Soto la Marina, Tamps.	23 46	98 12

Estas estaciones son de categoría termo-pluviométrica y envían, diariamente, a la Oficina Central de Tacubaya, para los estudios de previsión del tiempo a corto plazo, un telegrama con los datos de la observación que efectúan a las 6.30 horas, del meridiano 90° de Greenwich y que comprenden: los de temperatura máxima y temperatura mínima dentro de las 24 horas anteriores; lluvia caída dentro de las 24 horas anteriores; dirección y velocidad estimativa del viento y nubosidad, a la hora de la observación, y aspecto dominante del cielo durante las 24 horas anteriores. (Estos datos no están comprendidos dentro de los que se envían diariamente a los Estados Unidos, actualmente).

Es de suponerse que las nuevas estaciones que el Gobierno de los Estados Unidos propone crear, aparte de las observaciones de temperatura y lluvia harían observaciones de la presión atmosférica, del viento y de la nubosidad; mas quizá sería conveniente tomar en cuenta la localización de las termopluviométricas ya existentes, en vista de la necesidad de que los puntos que se elijan estén comunicados telegráficamente con el centro y de la ventaja de contar con estadística anterior de temperatura y de lluvia.

A los puntos anteriores pueden agregarse dos, comunicados telegráficamente con la capital y en los que también existen estaciones termo-pluviométricas, pero que no envían actualmente sus datos diarios por telégrafo. Son:

Presa de la Angostura, Son. . . . . Lat.: 30°17′; Long: 109°16′
y Lampazos, N. L. . . . . " 27° 2; " 100°31′

El Gobierno de México ha estado siempre dispuesto a cooperar con el de los Estados Unidos en los estudios meteorológicos. Desde hace tres años, el Gobierno Federal ha venido mejorando activamente la red de observatorios y próximamente será inaugurado uno especial, de Climatología Agrícola, en la Escuela Nacional de Agricultura, habiéndose invitado para su inauguración al Dr. C. W. Thornthwaite, del Departamento de Agricultura de los Estados Unidos, quien se ha distinguido por su buen deseo de cooperar con nosotros en esa rama.

La red Mexicana de estaciones meteorológicas se ha ido mejorando, a partir de 1941, en la forma manifiesta que aparece a continuación:

En 1940 había en total sólo 346 estaciones.

En 1941, funcionaron 614 estaciones, como sigue:

Pluviométricas	146
Termopluviométricas	302
De Evaporación	110
Meteorológicas	56

En 1942 funcionaron 804 estaciones, como sigue:

Pluviométricas	193
Termopluviométricas	425
De Evaporación	132
Meteorológicas	54

En 1943, están funcionando 868 estaciones, como sigue:

Pluviométricas	202
Termopluviométricas	468
De Evaporación	140
Meteorológicas	55

y 3 más, de Radio-sondeo, instaladas a solicitud y con la ayuda de la Oficina Meteorológica Norteamericana.

Sin embargo, nuestro programa de aumento y mejora en la red de Observatorios ha sufrido en los últimos dos años gran dilación y limitación debido a las dificultades encontradas para la adquisición de aparatos en los Estados Unidos. En fecha reciente fué cancelado, por la fábrica Taylor Instruments Co. un pedido de barómetros que le hicimos desde noviembre de 1941, a los termómetros y barógrafos solicitados con la misma fecha nos han estado siendo entregados por pequeñas partidas que aun no cubren el total contratado.

En el presente caso, la Secretaría de Agricultura espera que el aumento de los datos meteorológicos redunde en gran beneficio para los estudios del tiempo, en ambos países, y pondrá todo su empeño en cumplir con la cooperación que de ella se solicita.

MEXICO CITY, *June 14, 1943.*

MR. AMBASSADOR:

In reply to Your Excellency's courteous note No. 1271 of May 18 last and with reference to my note No. 53859 [1] of the 2nd of the present month of June, I am happy to inform you that the Government of Mexico is agreeable to nine weather stations being established for the purpose of furnishing, daily, reports useful for better safeguarding military and air transportation operations. *Ante*, p. 4053.

Therefore, the Government of the United States may, whenever it sees fit, send to Mexico City the Weather Bureau official to whom Your Excellency's note refers, for the purpose of making the necessary arrangements with the proper authorities of the Government of Mexico – in this case the Ministry of Agriculture – in connection with everything relative to the location of the said stations, the cooperation which the United States Weather Bureau will extend in the way of furnishing the equipment for the functioning thereof, and the sending, if considered advisable, of one or more experts to instruct the Mexican personnel who will be in charge of the stations in question. The salary of this personnel will be covered by the Government of Mexico.

As an enclosure with this note I transmit to Your Excellency a memorandum containing various information which the Ministry of Agriculture and Development has supplied to the Ministry of Foreign Relations relative to this matter.

I avail myself of the opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

MEMORANDUM

Northern region weather stations.

At the present time there are in the northern region of the Republic the eleven weather stations listed below:

STATIONS:	APPROX. POSITION Lat.	Long.
Ensenada, B. C.	31°47′	116°37′
Altar, Son.	30 43	111 44
Ures, Son.	29 26	110 24
Villa Ahumada, Chih.	30 38	106 31
Temósachic, Chih.	28°58′	107°50′
Hidalgo del Parral, Chih.	26 56	105 49
Ojinaga, Chih.	29 24	104 25
Sierra Mojada, Coah.	27 17	103 42
Monclova, Coah.	26 55	101 26
Linares, N. L.	24 52	99 34
Soto la Marina, Tamps.	23 46	98 12

These stations are of the thermopluviometric category and despatch, daily, to the Central Bureau in Tacubaya, for short-term weather forecast studies, a telegram with the observation data gathered at 6:30 a. m. on the 90° meridian west of Greenwich, which include: maximum temperature and minimum temperature in the previous 24 hours; rainfall in the previous 24 hours; direction and estimated velocity of the wind and cloudiness, at the time of the observation, and prevailing aspect of the sky during the previous 24 hours. (These data are not included among those which are despatched daily to the United States, at present.)

It is to be supposed that the new stations which the Government of the United States is proposing to establish would, in addition to their observations of temperature and rainfall make observations of the atmospheric pressure, wind and cloudiness; but it would perhaps be advisable to take into account the location of already existing pluviometric stations, in view of the necessity of the places selected being connected by telegraph with the Center and of the advantage of taking previous statistics as to temperature and rainfall into account.

To the foregoing places may be added two which are connected by telegraph with the Capital and at which there also are thermopluviometric stations, but which do not at present transmit their daily data by telegraph. They are:

Presa de la Angosture, Son. . . . Lat.: 30°17′; Long.: 109°16′ and Lampazos, N. L. . . . Lat.: 27°2′; Long.: 100°31′.

Observatory for Agricultural Climatology.

The Government of Mexico has always been disposed to cooperate with that of the United States in meteorological studies. For three years the Federal Government has been actively improving the network of observatories, and a special one for Agricultural Climatology will be opened in the very near future at the National School of Agriculture, Dr. C. W. Thornthwaite, of the United States Department of Agriculture, who has distinguished himself by his desire to cooperate with us in that field, having been invited to the opening thereof.

Improvement in Mexican network.

The Mexican network of weather stations has been improved, since 1941, in the manifest way which is apparent from the following:

In 1940 there were only 346 stations in all.

In 1941, 614 stations were in operation, as follows:

Pluviometric	146
Thermopluviometric	302
Evaporation	110
Meteorological	56

In 1942, 804 stations were in operation, as follows:

Pluviometric	193
Thermopluviometric	425
Evaporation	132
Meteorological	54

In 1943, 868 stations are in operation as follows:

Pluviometric	202
Thermopluviometric	468
Evaporation	140
Meteorological	55

and three more, radiometeorographic stations, established at the request and with the help of the United States Weather Bureau.

Our program of increasing and improving the network of Observatories has nevertheless, in the last two years, suffered great delay and limitation, due to the difficulties encountered in the acquisition of apparatus from the United States. Recently an order for barometers which we placed with it as far back as November 1941 was canceled by the Taylor Instruments Company factory, and the thermometers and barographs requested at the same time have been delivered to us in small lots which still do not cover the total number ordered.

In the present case, the Department of Agriculture hopes that the increase in meteorological data will result in great benefit to weather studies, in both countries, and will devote its every endeavor to carrying out the cooperation which is requested of it.

Agreement between the United States of America and Mexico respecting a cooperative program for weather stations on Guadalupe Island. Effected by exchange of notes signed at Mexico November 6, 1945, and April 12, 1946; entered into force April 12, 1946.

The American Chargé d'Affaires ad interim to the Mexican Minister for Foreign Affairs

No. 4488 MEXICO, D. F., *November 6, 1945*

EXCELLENCY:

I have the honor to refer to correspondence between the Embassy and the Ministry in 1943 on the subject of an establishment of several synoptic weather stations in northern Mexico on the basis of a cooperative arrangement between the United States Weather Bureau and the Mexican Meteorological Service. Reference is made particularly to the following communications. The Embassy's note no. 1271 dated May 18, 1943, proposing the establishment of a network of nine synoptic stations and informing the Ministry that the United States Government is prepared to provide the necessary equipment for these stations: to the Ministry's note no. 54229 dated June 14, 1943, informing the Embassy that the Mexican Government is agreeable to the establishment of nine synoptic stations on the suggested cooperative basis and transmitting a memorandum containing certain information related to the project, as provided by the Ministry of Agriculture to the Ministry for Foreign Affairs; and to the Embassy's note no. 1421 dated June 29, 1943, [1] informing the Ministry that an official of the United States Weather Bureau has been designated as a technical advisor to consult with officials of the Mexican Government and to complete the necessary arrangements and agreements in connection with the establishment of the nine stations in question.

Ante, p. 4053.

Ante, p. 4057.

Proposed station on Guadalupe Island.

The Embassy was informed several weeks ago by the present representative of Mexico of the United States Weather Bureau to the effect that the Bureau, the Mexican Meteorological Service, and the Mexican Army have for some time been interested in the establishment of a meteorological station on Guadalupe Island off the coast of Lower California and that these agencies of the United States and Mexican Governments consider this location to be a very important one from a meteorological standpoint with reference to the civilian and military interests of the two countries. In view of the joint interests of the United States Weather Bureau, the Mexican Meteorological Service, and the Mexican Army in the establishment of such a station on a cooperative basis, the United States Weather Bureau has approached

[1] [Not printed.]

the Department of State with a draft of a cooperative arrangement that has been discussed informally and apparently approved by these agencies of the United States and Mexican Governments and the Embassy has been instructed by the Department to formally convey to the Ministry the desire and willingness of the United States Government to effect the establishment of such a program by an exchange of notes between the Embassy and the Ministry. The Embassy has been instructed to suggest for the consideration of the appropriate authorities of the Mexican Government that the agreement include the following obligations on the part of the United States Weather Bureau, the Mexican Meteorological Service, and the Mexican Army.

The United States Weather Bureau to provide:

1. Complete set of meteorological equipment and instruments for the purpose of taking synoptic observations.
2. Radio transmitter and receiver for communication of weather data.
3. Gasoline driven motor-generator power supply.
4. Building for living and working quarters of temporary nature. This probably will be a prefabricated structure to permit easy transportation.
5. Provide for instruction of personnel in observational procedures by competent instructor.
6. Provide for technical assistance in connection with installing buildings and meteorological equipment.

The Mexican Army, through the Segunda Zona Militar, to provide:

1. Labor crew on the island for the purpose of completing a trail or road to the proposed site, and to accomplish the necessary construction work.
2. Provide means for transportating (sic) building materials and equipment from the boat landing to the proposed site.
3. Provide gasoline and oil and such other supplies as may be needed by Mexican Army personnel assigned to the station.
4. Assign at least two non-commissioned officers to the station for the purpose of taking meteorological observations at specified hours and communicating the messages to the mainland.
5. Permit a United States Navy or Coast Guard boat to transport the equipment and materials required from San Diego, California or if so desired arrange for transportation of said equipment through Mexican facilities.

The Mexican Meteorological Service to provide the following:

1. The assignment of a Mexican Meteorological Service Official to accompany the Weather Bureau technician to the island to cooperate in the training of personnel and establishment of the station.

2. Provide for the reception of transmitted radio reports at Hermosillo, Sonora or other point to be designated and arrange for their transmission to Ciudad Juárez, Chih. in time for inclusion with reports from other cooperative international stations.
3. Make the necessary arrangements with the Mexican Army for the assignment of suitable personnel to the station.

I have the honor to suggest to Your Excellency that the above-suggested cooperative agreement if approved by the Government of Mexico be concluded by an exchange of notes between the Embassy and the Ministry consisting of the present communication and the Ministry's reply thereto.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

BASES FOR COOPERATION OF THE MINISTRY OF AGRICULTURE AND DEVELOPMENT IN THE ESTABLISHMENT OF A WEATHER STATION ON THE ISLAND OF GUADALUPE.

1. It will supply a technical inspector to accompany a technical liaison officer of the United States Service to the Island of Guadalupe and carry out the installation of the meteorological equipment, as soon as this is on its way to the Island or has been unloaded and has arrived at the building intended for the Observatory.

2. The same inspector will duly train and instruct the technical personnel responsible for the technical operations of the Observatory.

3. It will agree to the necessary arrangements for the issuance of bulletins and concentration and retransmission thereof at Ciudad Juarez, Chihuahua, for their despatch to the Offices of the United States Service.

4. For budgetary reasons it will furnish only those amounts necessary for covering fifty percent of the honoraria for the said technical personnel, expecting the other fifty percent to be covered by the United States Service, which had offered to pay in full all the personnel of the International Cooperation Observatories.

5. It will, through the intervention of the Mexican Weather Service, control all technical operations, issuance and transmission of bulletins, incorporating the Observatory on Guadalupe Island into the network of the Mexican National Service, but adapting it to the requirements of the National Army and of the United States Service, as regards observation schedules and issuance of bulletins, in the same way that it has been complying with their respective requests in connection with the operations of the other International Cooperation Observatories.

6. Arrangements for concurrence of the Second Military Area and the United States Service shall remain the responsibility of the Ministry of Foreign Relations.

FOREIGN OFFICE, S. W. 1.
13th August, 1947.

No. AN2793/107/45.

YOUR EXCELLENCY,

I have the honour to inform you that discussions have taken place between the competent authorities of the United States and Newfoundland with the view of delimiting the area within Newfoundland territorial waters adjacent to the United States Naval Base at Argentia over which the United States may exercise rights in accordance with the paragraph (1) of Article 1 of the Agreement signed in London on the 27th March, 1941, relating to the Bases Leased to the United States of America. 55 Stat. 1560.

2. As the result of these discussions a draft agreement has been drawn up and, subject to certain modifications of form and wording, has received the approval of His Majesty's Governments in the United Kingdom, Canada and Newfoundland. The revised terms of the agreement are given in the Annex to the present note.

3. I have now the honour to inform Your Excellency that His Majesty's Government in the United Kingdom desire that the agreement should be confirmed by means of an exchange of notes. If therefore the Government of the United States likewise approve of the revised terms of agreement as annexed hereto, I would propose that the present note and Your Excellency's reply to that effect should be regarded as placing on record the formal confirmation of the provisions of the agreement by the Governments of the United Kingdom and the United States of America.

I have the honour to be with the highest consideration,

Your Excellency's obedient Servant,

ANNEX.

Whereas, in paragraph 1 of Article 1 of the Agreement signed in
55 Stat. 1560. London on the 27th March, 1941, relating to the Bases leased to the United States of America, it is provided, among other things, that the United States shall have all the rights, power and authority within the limits of territorial waters and air spaces adjacent to, or in the vicinity of the Leased Areas, which are necessary to provide access to and defence of the Leased Areas, or appropriate for the control thereof; and

55 Stat. 1561. UNITED STATES OF AMERICA

AMERICAN EMBASSY
London, October 23, 1947

YOUR EXCELLENCY,

I have the honor to acknowledge the receipt of Your Excellency's Note of August 13, 1947 (NO. AN 2793/107/45) to which there were annexed the revised terms of the agreement delimiting the waters adjacent to the United States Naval Base in Newfoundland. Your Excellency stated that His Majesty's Government in the United Kingdom desired that the agreement should be confirmed by an exchange of Notes.

The Government of the United States of America has approved of the revised terms of the agreement, as annexed hereto, and I now have the honor to state that the present Note and Your Excellency's Note of August 13, 1947, are to be regarded as placing on record the formal confirmation of the provisions of the agreement by the Governments of the United States of America and of the United Kingdom.

Accept, Sir, the assurances of my highest consideration.

ANNEX

Whereas, in paragraph 1 of Article 1 of the Agreement signed in London on the 27th March, 1941, relating to the Bases leased to the United States of America, it is provided, among other things, that the United States shall have all the rights, power and authority within the limits of territorial waters and air spaces adjacent to, or in the vicinity of the Leased Areas, which are necessary to provide access to and defence of the Leased Areas, or appropriate for the control thereof; and 55 Stat. 1560.

Whereas, in paragraph 4 of Article 1 of the said Agreement is is provided that in the practical application outside the Leased Areas of the preceding paragraphs there shall be, as occasion requires, consultation between the Government of the United States and the Government of the United Kingdom; and 55 Stat. 1561.

Whereas in paragraph 4 of the Protocol to the said Agreement it is agreed that in all consultations concerning Newfoundland arising out of Article I (4), II and XI (5) of the Agreement or of any other 55 Stat. 1599. 55 Stat. 1561, 1565.

Articles involving considerations of defence, the Canadian Government as well as the Government of Newfoundland will have the right to participate; and

Whereas the waters in the vicinity of Argentia, including anchorages, channels and approaches, are demonstrated to be, in general, the maximum area of territorial water necessary to the United States Forces at Argentia to exercise the rights, power and authority conferred by Article 1 of the said Agreement;

55 Stat. 1560.

Limits of territorial waters at Argentia for exercise of U. S. rights, etc.

Now therefore it is agreed between the Government of the United Kingdom of Great Britain and Northern Ireland and the Government of the United States of America after consultations in which the Governments of Canada and Newfoundland have participated that the limits of the territorial waters at Argentia within which the United States shall exercise the said rights, power and authority shall be the water areas included in the boundaries defined by a line joining the following points.

CONSTRUCTION OF NAVAL VESSELS ON THE GREAT LAKES

Exchange of notes signed at Ottawa June 9 and 10, 1939—Entered into force June 10, 1939

The American Minister to the Canadian Under-Secretary of State for External Affairs

AMERICAN LEGATION
OTTAWA, CANADA.
June 9, 1939.

MY DEAR DR. SKELTON:

In a confidential letter addressed to the Secretary of State on January 31, 1939,[1] Admiral Leahy, the Acting Secretary of the Navy, raised certain questions regarding the Rush-Bagot Agreement of 1817. Among other things, Admiral Leahy requested the views of Mr. Hull concerning the mounting of two 4-inch guns on each of the American naval vessels on the Great Lakes, to be used in firing target practice in connection with the training of naval reserves. He inquired, if this was considered improper, concerning the possibility of modifying the Rush-Bagot Agreement to permit this practice. The question was subsequently the subject of informal conversations between officers of our State and Navy Departments.

8 Stat. 231.

After careful consideration of the problem, Mr. Hull is inclined to the opinion that a modification of the Rush-Bagot Agreement would be undesirable at this time. It is clear from a study of the documents relating to the negotiation of the Agreement and its early history that the objective of the negotiators was to provide a solution of an immediate and urgent problem arising out of the war of 1812 and the terms of the Agreement themselves support the view that its indefinite continuation in force was not anticipated. Consequently, from a naval standpoint, its provisions have long been out of date, but in spite of numerous vicissitudes the Agreement itself has survived unchanged for more than one hundred and twenty years and, with the passage of time, has assumed a symbolic importance in the eyes of

[1] [Not printed.]

our own and Canadian citizens. It is true that shortly after the World War modification of the Agreement was studied in this country and in Canada, with a view to making its provisions conform more closely to modern conditions, and a stage was even reached where the Governments exchanged drafts of suggested changes. The proposed changes were never actually agreed upon, however, and Mr. Hull is inclined to think that the two Governments were wise to allow the matter to fall into abeyance, since it is highly debatable whether the realization of their limited objectives would have compensated for the disappearance of the 1817 Agreement as a symbol of the friendly relations between the two countries for over a century.

It was perhaps inevitable that an agreement, the technical provisions of which became obsolete more than half a century ago, should from time to time have been subjected to what may have been considered technical violations by both parties, and of such instances there is a clear record. We believe it can be successfully maintained, however, that without a degree of tolerance the Agreement could scarcely have survived to the present day in its original form. But it is a fact of equal significance that even when the two Governments felt compelled to depart from a strict observance of its terms they were concerned that the spirit underlying it should be preserved.

I understand from information furnished by our Navy Department that the following five vessels of the United States Navy are now serving on the Great Lakes:

Ship	*Launched*	*Present Location*	*Displacement*	*Battery*
DUBUQUE	1905	Detroit	1085	None
HAWK	1891	Michigan City	375	None
PADUCAH	1905	Duluth	1085	None
WILMINGTON	1897	Toledo	1392	None
WILMETTE	1903	Chicago	2600	4–4″/50 2–3″/50A.A. 2–1 pdr.

In a number of respects the presence there of these vessels may not be considered entirely in keeping with a literal interpretation of the Rush-Bagot Agreement. On the other hand, it seems proper to take into account the fact that the vessels of our Navy now on the Great Lakes are there with the knowledge of the Canadian Government, written permission having been obtained for the passage of four of them through the Canadian canals en route to their stations. The case of the *Wilmette* is somewhat different, this vessel having been constructed on the lakes as a commercial vessel and subsequently taken over by our Navy during the World War.

In considering the number and size, disposition, functions and armaments of naval vessels in relation to the provisions of the Rush-Bagot Agreement, it is Mr. Hull's view, with which I feel sure you will agree, that the primary concern of both Governments is to maintain at all costs the spirit which underlies that Agreement and which is representative of the feelings of the Canadian and American people

toward each other. With that clear objective in mind, Mr. Hull wishes me to make the following observations.

(1) Number and size of vessels. As indicated above, the United States Navy now has five vessels, all "unclassified", on the Great Lakes. In the discussion of this problem between officials of the State and Navy Departments, the fact was brought out that approximately one third of the national naval reserve personnel in the United States is concentrated in the region of which Chicago is the center, The need for adequate training of this personnel is clear and I am given to understand that even with our present five vessels on the Great Lakes our facilities are strained. A possible alternative would be to transport these reserves to the Atlantic Coat every summer for the customary two weeks' training period, but I am told that the cost of so transporting even a small fraction of these reserves would in all probability be prohibitive. In the circumstances and in view of the fact that these five vessels have been maintained on the Great Lakes since the war without objection on the part of the Canadian Government, Mr. Hull is inclined to think that the withdrawal of one of them would not be necessary.

Mr. Hull would be reluctant, however, to see American vessels on the Great Lakes increased beyond the present number, omitting from this calculation vessels which are "retained immobile" and used solely as floating barracks for naval reserves. The Canadian Government has in the past given permission for vessels of the latter category to be maintained on the Great Lakes and, it is hoped, would give sympathetic consideration to any similar requests which might be made in the future.

It is my understanding that the *Sacramento*, a vessel of 1,140 tons launched in 1914 and similar in size and type to vessels already on the Great Lakes, is now returning from China, her usefulness as an active naval vessel in regular commission having passed. I am informed that the Navy Department will probably wish this vessel to take the place of the *Hawk*, but that this will not involve an increase in the number of our naval vessels on the lakes. A formal request of your Government for permission for this vessel to proceed to the Great Lakes through Canadian waters will be made in due course.

With regard to the size of these vessels, it has been noted that all are of more than one hundred tons burden, the limit imposed by the Agreement. The change from wood to steel around the middle of the last century, along with other factors, contributed toward rendering this part of the Agreement obsolete. To our knowledge no objection has been taken by the Canadian Government to the presence on the Great Lakes of naval vessels of more than one hundred tons burden and there would be no inclination to question the maintenance by Canada of vessels similar to ours now operating there. It appears to have been the practice of our Navy Department for many years to station on the Great Lakes only "unclassified" vessels that have long since outlived their usefulness in terms of modern warfare

and that have a draft of not more than fourteen feet. I understand that these vessels have and could have no use except to provide elementary training for naval reserves. Mr. Hull believes that it would be desirable to continue this policy, which goes beyond the objectives of the 1817 Agreement, but which is so clearly in keeping with the present temper of public opinion. He is so informing the Navy Department.

(2) Disposition of Vessels. At the time the Rush-Bagot Agreement was negotiated the Great Lakes were independent inland waters with no navigable connection between them and the ocean or, in most cases, between the lakes themselves. This geographical fact was no doubt largely responsible for the provision of the Agreement which allotted one vessel to Lake Champlain, one to Lake Ontario and two to the so-called "Upper Lakes". That situation, of course, no longer exists, and Mr. Hull would not regard it as unreasonable or contrary to the spirit of the Rush-Bagot Agreement to have the naval vessels of each party move freely in the Great Lakes basin or to "maintain" them at any port or ports in the lakes. Were the Canadian Government to act in accordance with such an interpretation, it is certain that no objection would be taken.

(3) Functions of the Vessels. In his letter of January 31, last, Admiral Leahy inquired whether the firing of target practice on the Great Lakes was consistent with the provisions of the Rush-Bagot Agreement. Since the Agreement is silent with respect to the functions of the naval vessels maintained by the two parties on the Great Lakes, other than to state that the naval force of each party is to be restricted to such services as will in no respect interfere with the proper duties of the armed vessels of the other party, it is clearly within the letter as well as the spirit of the Agreement for the naval vessels of both parties to be employed in the training of naval reserves or in any other normal activity, including the firing of target practice, within their respective territorial waters. Mr. Hull is so informing the Navy Department.

(4) Armaments. In Admiral Leahy's letter, the hope was expressed that the Rush-Bagot Agreement might be modified so as to permit each of our naval vessels to carry not over two 4-inch guns.

The Agreement itself provides that each of the naval vessels maintained by each Government may carry one 18-pound cannon. It is my understanding that the shell for a 3-inch gun weighs approximately fourteen pounds and the shell for a 4-inch gun approximately thirty pounds. It would therefore be within the scope of the Agreement for each of the naval vessels in question to carry one 3-inch gun. In the discussions between officers of the State and Navy Departments, however, it was brought out that since the 4-inch gun is now what is considered "standard equipment", whereas the 3-inch gun is not, the use of the former is much more desirable from the point of view of giving adequate training to our naval reserves.

After careful consideration of this problem, Mr. Hull is of the opinion that the following proposal would be in harmony with the spirit of the Rush-Bagot Agreement; namely, the placing of two 4-inch guns on each of three naval vessels on the Great Lakes, and the removal of all other armaments, subject to certain conditions. These are that the firing of target practice be confined to the territorial waters of the United States, and that the 4-inch guns be dismantled except in the summer season during the period of the training of naval reserves.

There remains a question which is of definite interest to both Governments, namely, the construction of naval vessels in shipyards situated on the Great Lakes. The State Department has recently received renewed inquiries on this question.

The Rush-Bagot Agreement, after providing for the maintenance of four naval vessels of each party on the Great Lakes, stipulated that

"All other armed vessels on those lakes shall be forthwith dismantled and no other vessels of war shall be there built or armed."

The provision just quoted should, Mr. Hull believes, be read in the light of the geographical factor to which reference has already been made. At a time when there was no navigable connection between the Great Lakes and the Atlantic Ocean, it was obvious that naval vessels constructed on the lakes could only be intended for use in those waters. Mr. Hull is satisfied that it was this contingency alone which the contracting parties wished to guard against, for no evidence whatever exists to suggest that either party at any time considered that the Agreement should affect the naval forces of the two countries outside the Great Lakes area.

Construction of naval vessels in shipyards on Great Lakes.

In the circumstances, Mr. Hull believes that it would be entirely in harmony with the intent of the negotiators and the spirit of the Agreement for either country to permit naval vessels, unquestionably intended for tidewater service only, to be constructed in shipyards situated on the Great Lakes. In order carefully to preserve the intent of the Agreement, however, it is believed that prior to the commencement of construction each Government should provide the other with full information concerning any naval vessels to be constructed at Great Lake ports; that such vessels should immediately be removed from the lakes upon their completion; and that no armaments whatever should be installed until the vessels reach the seaboard.

I shall be happy to receive for Mr. Hull's informal and confidential information any observations which you may wish to make with regard to the questions touched on in this letter.

Sincerely yours,

DANIEL C. ROPER.

The Canadian Under-Secretary of State for External Affairs to the American Minister

OFFICE OF
THE UNDER-SECRETARY OF STATE
FOR EXTERNAL AFFAIRS
CANADA

OTTAWA, *10th June, 1939*

MY DEAR MR. ROPER,

I have consulted the Acting Prime Minister and Secretary of State for External Affairs and the Department of National Defence concerning your informal letter of June 9th, 1939, which conveys the observations of the Secretary of State of the United States upon certain questions raised by the United States Navy Department regarding the Rush-Bagot Agreement of 1817. 8 Stat. 231.

The Canadian Government concur fully in the desirability of preserving this long-standing Agreement which has been of such inestimable value in furthering the ideals of good neighbourhood in this region of the world. It is also recognised that the great changes in technical, industrial, water transport and population conditions which have occurred in the meantime, while in no sense altering the desire of both peoples to maintain the underlying spirit and objective of the Agreement, have rendered its technical scheme and definitions somewhat out of date. It might be urged that the logical method of dealing with the changed situation would be the conclusion of some formal revision of the Agreement, but it is further recognised that the drafting of a new document which would cover present and future considerations of interest to both countries might present difficulties at the present time, and it is noted that Mr. Hull is inclined to the opinion that this would be undesirable.

If formal revision is, as we agree, impracticable, it is nevertheless recognised that there are certain measures which are mutually considered to be practically necessary or desirable and, at the same time, to be consistent with the underlying objective of the Agreement though not strictly consistent with its technical scheme or definitions. In the case of various instances of this character which have occurred in the past, the two Governments have consulted and made appropriate dispositions by means of correspondence. It is felt that such procedure, which appears to be essentially inherent in the underlying spirit and objective, should be pursued as regards any new practical measures concerning naval vessels on the Great Lakes which may be contemplated at the present moment or in the future.

In the light of these general considerations it will be convenient to give you the views of the Canadian Government regarding the particular measures which your Government now consider desirable and which have been described in your letter under separate headings.

(1) Number and size of vessels. I note that there is no proposal to increase the present number of United States naval vessels on the Great Lakes. As regards the proposed substitution of the HAWK, which is now on the Lakes, by another vessel, the SACRAMENTO, it is noted also that a formal request of the Canadian Government for

permission for the latter vessel to proceed into the Great Lakes through Canadian waters will be made in due course. The Canadian authorities will be agreeable to this substitution, and I assume that at the time particular information will be given as to the disposition of the HAWK as well as a description of the SACRAMENTO and the purpose of the substitution.

(2) Disposition of Vessels. It is recognised, for the reasons indicated in your letter, that it would be consistent with the underlying purpose of the Agreement to have the naval vessels of each party move freely in the Great Lakes or to maintain them at any of its ports in the Lakes.

(3) Functions of the Vessels. The Rush-Bagot Agreement, as your letter points out, is silent with respect to the functions of the naval vessels maintained by the two parties on the Great Lakes other than to state that the naval force of each party is to be restricted to such services as will in no respect interfere with the proper duties of the armed vessels of the other party. The Canadian Government accordingly recognise that it is within the letter as well as the spirit of the Agreement for such naval vessels of both parties to be employed in the training of naval reserves, or in any other normal activity, including the firing of target practice, within their respective territorial waters.

(4) Armaments. It appears that in view of present-day technical conditions, the United States naval authorities regard 3-inch guns as no longer adequate for the purpose of training naval reserves, whereas 4-inch guns, though not strictly within the technical definition of the Agreement, would be suitable for that purpose. Accordingly Mr. Hull suggests the following proposal as being in harmony with the spirit of the Agreement, namely, the placing of two 4-inch guns on each of three of the United States naval vessels on the Great Lakes and the removal of all other armaments, subject to certain conditions. These conditions are that the firing of target practice be confined to the territorial waters of the United States and that the 4-inch guns be dismantled except in the summer season during the period of the training of naval reserves. The Canadian naval authorities concur in the view of the United States naval authorities above indicated, and the Canadian Government agree that Mr. Hull's proposal is consistent with the underlying purpose and spirit of the Agreement. It is assumed that in due course the Canadian Government will be informed of the names of the vessels upon which the 4-inch guns have been placed. It is also assumed that, should any alteration as regards armament take place in any of the five vessels in the future, particulars will be furnished.

A further particular question is raised by your letter, namely, the construction of naval vessels in shipyards situated on the Great Lakes. Careful consideration has been given to Mr. Hull's observations regarding the changes in actual conditions that have occurred in this regard during the past century, and to the suggestion he has made in order to preserve the intent of the Agreement. The suggestion is

that prior to the commencement of construction, each Government should provide the other with full information concerning any naval vessels to be constructed at Great Lakes ports; that such vessels should immediately be removed from the Lakes upon their completion; and that no armaments whatever should be installed until the vessels reach the seaboard. The Canadian Government appreciate the force of Mr. Hull's observations, and they agree that his particular suggestion would be consistent with the underlying objective of the Agreement. They would understand that in the case of each vessel so constructed, when the time came for her removal to the seaboard, the Government concerned would make the usual request through diplomatic channels for permission to pass through the other party's waters.

As regards all these matters and particular measures, the Canadian Government assume it would be understood that the foregoing observations and understandings, so far as they have been expressed only with relation to United States naval vessels maintained on the Great Lakes or to naval vessels to be constructed in United States shipyards there, will apply equally to the case of any Canadian naval vessels that may be maintained on the Great Lakes or of naval vessels to be constructed in Canadian shipyards there.

Yours sincerely,

O. D. SKELTON

MY DEAR MR. MOFFAT:

May I refer to your predecessor's letter of June 9, 1939, and to my letter to Mr. Roper of the 10th June of the same year concerning certain questions raised by the United States Navy Department regarding the Rush-Bagot Agreement of 1817. *Ante*, pp. 4069, 4074. 8 Stat. 231.

2. At that time it was recognized that there were certain measures which were mutually considered to be practically necessary or desirable and, at the same time, to be consistent with the underlying objective of the Rush-Bagot Agreement, though not strictly consistent with its technical scheme or definitions. In various instances of this character which had occurred in the past, the two Governments had concurred and made appropriate dispositions by means of correspondence. It was also agreed that such a procedure, which appeared to be essentially inherent in the underlying spirit and objective of the Agreement, should be pursued as regards any new practical measures, concerning naval vessels on the Great Lakes, which might be contemplated.

3. Certain special questions including "number and size of the vessels", "disposition of the vessels", "functions of the vessels", and "armaments" were discussed and dealt with in the correspondence. A further particular questions was also raised, namely, the construction of naval vessels in shipyards situated on the Great Lakes. The practice and procedure that should be followed in the case of such construction was formulated along lines that met with the approval of the two Governments.

4. The practice that was then approved included the following elements:

(a) That each Government should provide the other with full information concerning any naval vessels to be constructed in Great Lakes ports prior to the commencement of construction.

(b) That such vessels should be removed from the Lakes upon their completion.

(c) That no armaments whatever should be installed until the vessels reached the seaboard.

5. A new aspect of this question has arisen owing to the congestion at the Atlantic seaboard ship-yards and it is the desire of the Canadian Government to have the vessels in the most complete form practicable while still on the Great Lakes. This might involve equipment with gun mounts and with guns which would be so dismantled as to be incapable of immediate use so long as the vessels remained in the Great Lakes.

6. It is therefore suggested that a further interpretation of the Rush-Bagot Agreement might be made in conformity with the basic intent of the Agreement that important naval vessels should not be built for service on the Great Lakes. This would involve recognition that armament might be installed on naval vessels constructed on the Great Lakes provided that:

(a) The vessels are not intended for service on the Great Lakes;

(b) Prior to commencement of construction, each Government furnish the other with full information concerning any vessel to be constructed at Great Lakes ports;

(c) The armaments of the vessels are placed in such condition as to be incapable of immediate use while the vessels remain in the Great Lakes; and

(d) The vessels are promptly removed from the Great Lakes upon completion.

I should be grateful if you would let me know, in due course, whether the above suggestion commends itself to your Government,

Yours sincerely,

O. D. SKELTON

No. 611

SIR:

Ante, p. 4077.

May I refer to Dr. Skelton's note of October 30, 1940, and my reply of November 2, 1940, interpreting the Rush-Bagot Agreement in the light of existing conditions and in conformity with the intent of the Agreement. I am now in receipt of instructions from my Government to suggest that in order to permit naval vessels being constructed on the Great Lakes to combat enemy action upon their arrival in the open sea, they be permitted to have their armament placed in complete readiness for action and that all essential tests and trial of machinery and armament, including the submerged operations of submarines and test firing of torpedoes and guns be effected in Great Lakes waters. My Government is in hopes that the Canadian Government will approve the suggestion, it being understood that the proposed procedure is to be effective only for the duration of the present hostilities.

8 Stat. 231.

Accept, Sir, the renewed assurances of my highest consideration.

No. 21

OTTAWA, *March 9, 1942.*

SIR:

I have the honour to refer to your Note No. 611 dated 26th February, 1942, with regard to the further interpretation of the Rush-Bagot Agreement in the light of existing conditions and in conformity with the intent of the Agreement.

Consideration has been given to your suggestion, and I am now authorized to inform you that the Canadian Government agrees to a further interpretation of the Rush-Bagot Agreement based upon it. Accordingly, in order to permit naval vessels being constructed on the Great Lakes to combat enemy action upon their arrival in the open sea, they will be permitted to have their armament placed in complete readiness for action and all essential tests and trials of machinery and armament including the submerged operations of submarines and test firing of torpedoes and guns may be effected in Great Lakes waters.

The Canadian Government also concurs in your suggestion that this procedure should be effective only for the duration of the present hostilities.

Accept, Sir, the renewed assurances of my highest consideration.

NAVAL VESSELS FOR TRAINING NAVAL RESERVE PERSONNEL

Exchange of notes signed at Washington November 18 and December 6, 1946—
Entered into force December 6, 1946

The Canadian Ambassador to the Acting Secretary of State

CANADIAN EMBASSY
AMBASSADE DU CANADA

No. 421 NOVEMBER 18, 1946.

SIR,

8 Stat. 231. You will recall that the Rush-Bagot Agreement of 1817 has been the subject of discussion between our Governments on several occasions in recent years and that notes were exchanged in 1939, 1940 and *Ante*, p. 4069 *et seq.* 1942 relating to the application and interpretation of this Agreement. It has been recognized by both our Governments that the detailed provisions of the Rush-Bagot Agreement are not applicable to present-day conditions, but that as a symbol of friendly relations extending over a period of nearly one hundred and thirty years the Agreement possesses great historic importance. It is thus the spirit of the Agreement rather than its detailed provisions which serves to guide our Governments in matters relating to naval forces on the Great Lakes.

Discussions have taken place in the Permanent Joint Board on Defence with regard to the stationing on the Great Lakes of naval vessels for the purpose of training naval reserve personnel. The naval authorities of both our Governments regard such a course as valuable from the point of view of naval training and the Board has recorded its opinion that such action would be consistent with the spirit of existing agreements. The Canadian Government concurs in this opinion.

In order that the views of our two Governments may be placed on record, I have the honour to propose that the stationing of naval vessels on the Great Lakes for training purposes by either the Canadian Government or the United States Government shall be regarded as consistent with the spirit of the Rush-Bagot Agreement provided that full information about the number, disposition, functions and armament of such vessels shall be communicated by each Government to the other in advance of the assignment of vessels to service on the Great Lakes. If your Government concurs in this view, this note and your reply thereto shall be regarded as constituting a further inter-

pretation of the Rush-Bagot Agreement accepted by our two Governments.

Accept, Sir, the renewed assurances of my highest consideration.

H. H. WRONG

The Honourable DEAN ACHESON,
Acting Secretary of State,
Washington, D. C.

The Acting Secretary of State to the Canadian Ambassador

DEPARTMENT OF STATE
WASHINGTON, D. C.
December 6, 1946

EXCELLENCY:

I have the honor to acknowledge the receipt of your note No. 421 of November 18, 1946, in which you advised me that your Government has proposed a further interpretation of the detailed provisions of the Rush-Bagot Agreement. My Government is in complete accord with yours as to the historic importance of this Agreement as a symbol of the friendship between our two countries and agrees that it is the spirit of this Agreement which guides our Governments in matters relating to naval forces on the Great Lakes.

I am now pleased to inform you that my Government concurs with your proposal, namely, that the stationing of naval vessels on the Great Lakes for training purposes by either the Canadian Government or the United States Government shall be regarded as consistent with the spirit of the Rush-Bagot Agreement provided that full information about the number, disposition, functions and armament of such vessels shall be communicated by each Government to the other in advance of the assignment of vessels to service on the Great Lakes.

Accept, Excellency, the renewed assurances of my highest consideration.

Acting Secretary of State

Canadian Ambassador.

Agreement between the United States of America and Cuba respecting a cooperative program for weather stations in Cuba. Effected by exchange of notes signed at Habana July 17 and August 2, 1944; entered into force August 2, 1944.

The American Ambassador to the Cuban Minister of State

EMBASSY OF THE
UNITED STATES OF AMERICA
No. 632 *Habana, July 17, 1944*

EXCELLENCY:

I have the honor to inform Your Excellency that preliminary discussions have taken place between representatives of the United States Weather Bureau, Department of Commerce, and the Cuban Meteorological Service regarding the cooperative establishment and operation of a radiosonde station in Cuba to be located in the vicinity of Habana.

Since that time Dr. F. W. Reichelderfer, Chief of the Weather Bureau, has corresponded with Dr. José Carlos Millás, Director of the Cuban Meteorological Service, on the subject, and my Government is informed that as a result the Weather Bureau and the Cuban Meteorological Service have agreed in principle that it would be desirable for their respective governments to cooperate in the establishment and operation of this station.

Funds have now been appropriated by the Congress of the United States of America to enable the Weather Bureau to proceed with the project under the program of the Interdepartmental Committee on Cooperation with the American Republics. To that end I have the honor to enclose, at the instance of my Government, a Memorandum Agreement setting forth in detail the conditions under which the Weather Bureau proposes to cooperate with the Cuban Meteorological Service in the establishment and operation of the station.

My Government has already established a network of radiosonde observation stations in the United States, the West Indies, Mexico, and the Canal Zone, and feels that establishment of a station in Cuba would fill a gap in the network. Radiosonde observations are needed for the protection of military and commercial aircraft operating in this area, and also to provide advance information on destructive hurricanes that threaten civilian and military installations located in the region of the Caribbean Sea and Gulf of Mexico.

Therefore, as in the opinion of my Government this information is of vital importance to both countries, it trusts that the Cuban Government may give the enclosed Memorandum Agreement its urgent consideration and inform it at the earliest possible date whether it finds its contents acceptable.

For your Excellency's information, a representative of the Cuban Meteorological Service, Lt. Louis Larragoiti Alonzo, is now in the United States to receive training in the observational techniques of radiosonde and that Service is prepared to inaugurate the program as soon as the necessary cooperative agreement can be effected.

I have the honor to avail myself of this opportunity to extend to Your Excellency the renewed assurances of my highest consideration.

SPRUILLE BRADEN

His Excellency
Dr. JORGE MAÑACH,
Minister of State,
Habana.

MEMORANDUM AGREEMENT

Exchange of meteorological data.

In accordance with recent correspondence between Dr. F. W. Reichelderfer, Chief of the United States Weather Bureau, and Dr. José Carlos Millás, Director of the Cuban Meteorological Service, and previous conversations between representatives of the two organizations, the Government of the United States, through the Weather Bureau, now proposes to cooperate with the Government of Cuba, through the Cuban Meteorological Service, in organizing the regular exchange of meteorological data, subject to the following understanding:

1. To cooperate in the establishment and operation of a radiosonde observation station in Cuba, to be located at Habana; and
2. To provide for the daily exchange of upper-air weather observations between the United States Weather Bureau and the Cuban Meteorological Service for the use of each country, especially in serving the needs of aviation, and to render it possible for the Government of the United States and the Government of Cuba to assist in the development of an exchange of weather information, forecasts, and warnings.

Action by U. S. Weather Bureau.

To attain the foregoing objectives, the United States Weather Bureau agrees to:

(a) Provide and install the ground equipment necessary for making radiosonde observations at the station and pay the cost of necessary repairs.

(b) Authorize one of its technicians to visit the observation station to repair the ground equipment, whenever such equipment becomes inoperative and repairs cannot be made locally;

(c) Provide the necessary radiosondes, balloons, parachutes, helium gas, meteorological forms and other accessories required for the observations; and

(d) Provide balloon inflation shelter, if necessary.

Action by Cuban Meteorological Service.

The Government of Cuba, through the Cuban Meteorological Service, agrees to:

(a) Assign a minimum of one observer and one assistant at the station for the purpose of making daily observations in accordance with standard practice and procedure;

(b) Supply the necessary office quarters and office equipment, including heat, light, and electric power;

(c) Provide adequate ground space for the balloon inflation shelter, as may be necessary;

(d) Arrange for the prompt transmission of the radiosonde observation reports made pursuant to this agreement to a point in the United States to be designated by the United States Weather Bureau; and

(e) Make available the recorder records to the United States Weather Bureau for reference purposes, and to supply that Bureau with copies of the Weather Bureau forms which will be used for all radiosonde observations made at the station.

Expenditures.

I. The total amount to be expended by the United States shall not exceed eighteen thousand, two hundred forty dollars ($18,240) during the fiscal year ending June 30, 1945. All expenditures incurred by the Weather Bureau shall be paid direct by that organization and all expenditures incident to the obligations assumed by the Government of Cuba shall be paid direct by that Government.

Title to property.

II. Title to all property supplied by the Cuban Government shall remain vested in that Government, and likewise the title to all property supplied by the Government of the United States shall remain vested therein.

Effective date, duration.

This agreement shall come into effect on the day on which it is accepted by the Government of Cuba, and shall continue in effect until June 30, 1947, or for an additional period if mutually agreed upon in writing, unless the Congress of either country shall fail to make available the funds necessary for its execution in which case it may be terminated on sixty days' advance written notice by the Government of either country.

Agreement between the United States of America and France respecting air service facilities in French territory. Effected by exchange of notes signed at Paris June 18, 1946; entered into force June 18, 1946.

The American Ambassador to the French Minister of Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Paris, June 18, 1946

No. 1516

EXCELLENCY:

I have the honor to invite Your Excellency's attention to the air navigation, communication, and weather facilities installed at the following places in French territory by the United States military services:

Post, p. 4095.

A. METROPOLITAN FRANCE: Cape Camerat, Corbigny, Dieppe, Domfront, Istres-le-Tube (Marseille), Le Havre, Lyon, Marignane (Marseille), Nantes, Orly, Querqueville (Cherbourg), St. Renan (Brest), Toulouse, Trappes, Paretta (Corsica):

B. ALGERIA: Bone, Maison Blanche (Algiers), Oran;

C. TUNISIA: Gabes, Tunis;

D. FRENCH MOROCCO: Agadir, Cazes Air Base (Casablanca), Meknes, Port Lyautey;

E. FRENCH GUIANA: Rochambeau (Cayenne);

F. INDO-CHINA: Saigon;

G. FRENCH OCEANIA: Bora Bora (Society Islands), Tontouta (New Caledonia); and

H. SENEGAL: Dakar.

A list of the installations at these points is now being prepared and will be forwarded to Your Excellency for inclusion as an Annex to this letter.[1] As those installations may later become surplus to United States military requirements, it is the intention of my Government that they, together with one year's supply of maintenance parts and expendable supplies wherever theater surplus stocks permit, should be transferred to the Provisional Government of the French Republic. In addition, the Government of the United States of America, through either the U.S. Army, U.S. Navy, CAA, or private agency, will do everything possible to assist the Government of France or its representatives in purchasing, through regular commercial channels, maintenance parts and expendable supplies for the operation of the facilities.

Transfer to Provisional Government of French Republic.

[1] [By airgram, 1461, dated Dec. 13, 1948, to the Secretary of State from the American Ambassador at Paris the Department was informed that: ". . . no list of the installations was subsequently prepared."]

In consideration of this transfer, the Provisional Government of the French Republic, recognizing on the one hand the immediate necessity of insuring the safety of international air traffic in an adequate manner until regulations are established by the Provisional International Civil Aviation Organization (PICAO) and applied by the said Government in execution of its international undertakings, and, on the other hand, the special interests of United States aviation during the period in which American Armed Forces will participate in the occupation of ex-enemy countries, will undertake:

Undertakings by Provisional Government of French Republic.

1. To operate and maintain without interruption all the installations in a manner satisfactory for air traffic into and away from airdromes at which the facilities are located and along the international air routes converging on those airdromes.

2. To provide the full service of all facilities to all aircraft on a non-discriminatory basis with charges, if any, only for non-operational messages, until an international agreement on charges has been promulgated by PICAO.

3. To transmit weather reports, as prescribed by the U.S. Army Air Forces to designated stations thereof and to such other stations as are required to insure an integrated meteorological network for the international air routes, unless changed by international agreement to which the Governments of the United States and France are parties.

4. Subject to the possibility of obtaining necessary spare parts, to continue the operation of all types of facilities in their present locations or at new locations deemed preferable by the representatives of both Governments until (a) new facilities are installed in accordance with standards promulgated by PICAO or (b) it is determined by the Governments of France and the United States that there is no longer a need for the original facilities. It is understood that the aeronautical facilities will be devoted exclusively to aeronautical service and will not be diverted to the communication service.

5. To provide English speaking operators at air-to-ground and control tower communication positions until regulations covering such voice transmissions are promulgated by PICAO; and further, until such regulations are promulgated, to grant permission to a representative of the U. S. air carriers authorized to serve an airdrome to enter its control tower and, when in the opinion of the representative a case of necessity exists, subject to the authority of the Commander of the airdrome, to talk to the pilot of any United States aircraft flying in the vicinity of the airdrome.

6. Until such time as the allocations determined by PICAO come into effect, to select radio frequencies for air-to-ground and control tower operations only after coordination with the using United States carriers and with adjacent stations on the international air routes converging on the airdrome in order to minimize (a) radio interference and (b) the number of frequencies required to be operated by aircraft.

7. To authorize and facilitate day-to-day adjustments in air communication service matters by direct communication between the operating agency of France and the service agency of the United

States Government, United States air carriers, or a communication organization representing one or more of them.

8. To furnish in sufficient number suitable personnel to be trained to operate and maintain all facilities transferred under this Agreement.

Proposed supplemental agreement.

A supplemental agreement shall be entered into by the agency of the French Government which will eventually take over the operation of the facilities and the agency of the United States Government, or its representative, which undertakes the training and interim operation and maintenance of the facilities, pending transfer of full operating responsibility to the agency of the French Government. This supplemental agreement will define the responsibility, authority, and relations between the above-mentioned agencies and their representatives during the period the United States agency remains in charge of the operation, maintenance and training.

Conditions prior to training of personnel.

Until such time as this training program shall have produced an adequate number of trained French personnel, (a) the French Government will not be held responsible under Articles 1, 2, 3 and 4 of the present Agreement for the operation of that part of the facilities enumerated in the Annex from which the U. S. Army Air Force might withdraw, and (b) United States air carriers, or the Civil Aeronautics Administration of the United States, will be authorized to designate technicians to assist the agency designated by the French Government to operate the facilities in accordance with standards established by PICAO.

If the foregoing is satisfactory to the French Government, Your Excellency's reply to that effect, together with this letter, will be considered as constituting an agreement between our two governments with respect to the matters outlined herein.

I take this occasion to renew to Your Excellency the assurances of my highest consideration.

Paris, le 18 Juin 1946

MONSIEUR L'AMBASSADEUR,

Votre Excellence a bien voulu m'adresser en date de ce jour la lettre dont la teneur suit:

"Monsieur le Ministre,

"J'ai l'honneur d'attirer l'attention de Votre Excellence sur les installations d'aide à la navigation aérienne, de transmissions et de

météorologie, établies sur le territoire français par les services militaires des Etats-Unis, aux emplacements suivants :

A – FRANCE METROPOLITAINE ;

– Cap CAMARAT, CORBIGNY, DIEPPE, DOMFRONT, ISTRES le TUBE (MARSEILLE), LE HAVRE, LYON, MARIGNANE (MARSEILLE), NANTES, ORLY, QUERQUEVILLE (CHERBOURG), ST-ROMAN (BREST TOULOUSE, TRAPPES, PORETTA (CORSE).

B – ALGERIE :

– BONE, MAISON BLANCHE (ALGER), ORAN.

C – TUNISIE :

– GABES, TUNIS.

D – MAROC FRANCAIS :

– AGADIR, Base Aérienne de CAZES (CASABLANCA), MEKNES, PORT-LYAUTEY.

E – GUYANE FRANCAISE : ROCHAMBEAU (CAYENNE)

F – INDOCHINE : SAIGON

G – POSSESSIONS FRANCAISES EN OCEANIE : BORA-BORA (Iles de la Société), TONTOUTA (Nouvelle Calédonie).

H – SENEGAL : DAKAR

Une liste des installations existant auxdits emplacements est en préparation et sera adressée à Votre Excellence en vue d'être jointe à cette lettre en annexe. Ces installations étant susceptibles dans l'avenir d'être déclarées "de surplus" par rapport aux besoins militaires des Etats-Unis, mon Gouvernement à l'intention de les transférer au Gouvernement Provisoire de la République Française avec des rechanges pour un an (articles d'entretien et fournitures consommables) dans la mesure où les stocks en surplus des théatres d'opérations le permettent.

En outre, le Gouvernement des Etats-Unis d'Amérique, par l'entremise de l'Armée, de la Marine, de l'Administration de l'Aéronautique Civile ou d'une entreprise privée, fera tout ce qui est en son pouvoir pour aider le Gouvernement français ou ses représentants à acheter par les voies commerciales normales les articles d'entretien et fournitures consommables nécessaires à l'exploitation des installations.

En contre partie de ce transfert, le Gouvernement Provisoire de la République Française, reconnaissant d'une part la nécessité d'assurer dès maintenant la sécurité du trafic aérien international d'une manière satisfaisante en attendant qu'une réglementation soit établie par l'Organisation Provisoire de l'Aviation Civile Internationale (OPACI) et appliquée par ledit Gouvernement conformément à ses engagements internationaux, et, d'autre part, les intérêts spéciaux de l'aviation des Etats-Unis pendant la période où les forces armées américaines participent à l'occupation des pays ex-ennemis, s'engagerait:

I°/ à faire fonctionner et à entretenir sans interruption toutes les installations d'une manière satisfaisante pour le trafic aérien sur, vers et à partir des aérodromes sur lesquels lesdites installations sont

situées, et le long des routes aériennes internationales qui convergent vers ces aérodromes.

2°/ à faire pleinement bénéficier tout avion sans distinction du service de toutes les installations, des taxes n'étant éventuellement perçues que pour les messages autres que les messages d'exploitation jusqu'à ce qu'un accord international sur les taxes élaboré par l'OPACI soit entré en vigueur.

3°/ à transmettre les renseignements météorologiques dans les conditions requises par les forces aériennes des Etats-Unis aux postes désignés par celles-ci, ainsi qu'à tout autre poste dans la mesure jugée nécessaire en vue d'assurer aux routes aériennes internationales un réseau météorologique cohérent, sauf modifications apportées par un accord international auquel seraient parties le Gouvernement des Etats-Unis et le Gouvernement Français.

4°/ sous réserve de la possibilité d'obtenir des rechanges nécessaires, à continuer l'exploitation des installations de tous types sur leurs emplacements actuels ou sur de nouveaux emplacements jugés préférables par les représentants des deux Gouvernements jusqu'à ce que :

a) de nouvelles installations soient établies conformément aux normes dont la mise en vigueur aurait été décidée par l'OPACI, ou

b) le Gouvernement Français et le Gouvernement des Etats Unis estiment que les installations d'origine ne sont plus nécessaires.

Il est entendu que ces installations aéronautiques seront consacrées exclusivement aux services aéronautiques et ne seront pas utilisées à d'autres services de télécommunications.

5°/ à fournir des agents parlant anglais dans les postes de communication air-sol et à la tour de contrôle jusqu'à ce que la mise en vigueur des réglements concernant les communications radiophoniques de cette nature ait été décidée par l'OPACI; et en outre, en attendant la mise en vigueur de tels réglements, à permettre à un représentant des transporteurs américains autorisés à desservir un aérodrome à pénétrer dans la tour de contrôle et, au cas où ce représentant l'estimerait nécessaire, et sous l'autorité du Commandant d'aérodrome ou de son délégué, à parler au pilote de tout appareil américain en vol dans le voisinage de l'aérodrome.

6°/ jusqu'à ce que prennent effet les allocations déterminées par l'OPACI, à ne choisir des fréquences radio pour les communications air-sol et pour l'exploitation de la tour de contrôle qu'après entente avec les transporteurs américains intéressés et avec les stations voisines situées sur les routes aériennes internationales convergent vers l'aérodrome, afin de réduire au minimum:

a) les interférences radio,

b) le nombre des fréquences dont l'utilisation est nécessaire à un aéronef.

7°/ à autoriser et à faciliter les réajustements au jour le jour intéressant les transmissions aéronautiques par la voie de contacts directs entre

le service français exploitant et l'administration américaine compétente, les transporteurs américains ou tout organisme représentant l'un ou plusieurs de ceux-ci en matière de transmissions.

8°/ à recruter en nombre suffisant le personnel approprié en vue d'être entrainé à l'exploitation et à l'entretien de toutes les installations transférées dans le cadre du présent accord.

Un accord complémentaire sera conclu par le service officiel français qui reprendra en définitive l'exploitation avec le Service officiel américain (ou son représentant) qui assurera l'entrainement ainsi que, provisoirement, l'exploitation et l'entretien des installations jusqu'au transfert de la pleine responsabilité de l'exploitation au Service officiel français. Cet accord complémentaire définira la responsabilité et l'autorité respectives des services sus-mentionnés et de leurs représentants pendant la période où le service américain demeurera chargé de l'exploitation, de l'entretien et de l'entrainement, ainsi que les relations entre ceux-ci.

Jusqu'à ce que ce programme d'entrainement ait permis la formation d'un nombre suffisant de personnel français qualifié :

a) le Gouvernement français ne sera pas tenu pour responsable, aux termes des articles I, 2, 3 & 4 du présent "accord", de l'exploitation de celles des installations énumérées en annexe qui seraient abandonnées par l'Armée de l'Air américaine.

b) les transporteurs américains ou l'Administration de l'Aéronautique Civile des Etats-Unis seront autorisés à désigner des techniciens pour aider le service français exploitant les installations conformément aux normes établies par l'OPACI.

Si les dispositions énoncées ci-dessus ne soulèvent pas d'objection de la part du Gouvernement français, une réponse de Votre Excellence à cet effet constituera, avec la présente communication, un accord entre nos deux Gouvernements quant aux questions ayant fait l'objet de la présente lettre.

Veuillez . . . . . ."

J'ai l'honneur de faire savoir à Votre Excellence que le Gouvernement français n'élève pas d'objection à cet égard.

La présente lettre, jointe à la communication précitée de Votre Excellence, constitue donc un accord entre nos deux Gouvernements./.

Veuillez agréer, Monsieur l'Ambassadeur, les assurances de ma très haute considération.

U. S. delegation.

In conference in the City of Mexico, Federal District, in the Conference Room of the Ministry of Foreign Relations, Messrs. William G. MacLean, representative of the Department of State; Ugo Carusi, Commissioner of the Immigration and Naturalization Service of the Department of Justice; Albert del Guercio, District Director of the Immigration and Naturalization Service in the District of Southern California; Maurice L. Stafford, Consul General of the United States of America, in representation of the American Embassy, and Harry F. Brown, observer for the Labor Office of the Department of Agriculture, who form the Delegation of the United States of America; and the members of the "Interdepartamental Commission in Charge of Affairs Related to the Emigration of Mexican Workers", created by decree dated January 17, 1947, published in Official Register, no. 20, January 24, 1947, Messrs. Licenciado Benito Coquet, *Oficial Mayor of Gobernación;* Doctor Alfonso Guerra, *Oficial Mayor* of Foreign Relations, and Licenciado J. Jesús Castorena, *Oficial Mayor* of Labor and Social Welfare, technically advised for this occasion by Messrs. Arcadio Ojeda García, Head of the Department of Migration; Manuel Aguilar, Director General of the Consular Service, and Engineer Jorge Medellín, Head of the Department of General Security and Social Welfare of the Ministry of Labor, who form the Mexican Delegation,

Mexican delegation.

Resolve:

Recommendations for solution of migratory problems.

That having carried on cordial discussions in a friendly atmosphere of mutual understanding, with the object of trying to solve, in the best form for the Governments of Mexico and of the United States, the migratory problems resulting from the illegal movement of Mexican workers, whose number according to estimated statistics presented by the Delegation of the United States has reached a total of 119,000, of which 100,000 are direct emigrants from Mexican territory and 19,000 are workers who not having completed their labor contracts have remained illegally in territory of the United States, being now found, like the direct entrants, giving their services for the most part in agricultural work, the Delegations reached agreement to submit the following conclusions to their respective Governments as recommendations:

Protective contracts.

FIRST: At the request of the Mexican Delegation the United States Delegation agrees to submit to its Government the proposition that the entire contingent of Mexicans who have migrated illegally be returned preferably through the border ports of Mexicali, Ciudad Juárez and Reynosa with a view to making a selection which may permit them to return to employment in the United States under the protection of contracts which should be drawn up on bases acceptable to the two Governments.

SECOND: The abovementioned contracting should be carried out through contracts signed by the representative of the employer in the United States (farmer) and by a representative of the Interdepartmental Commission referred to at the beginning, which is intervening in these conversations; said document to be endorsed in Mexican territory by an official of the Immigration and Naturalization Service of the United States of America, indicating that the employer (farmer) has complied with the requirements of the immigration laws of said country and has received due authorization to contract Mexican workers and to bring them into the United States.

Reinforcement of border patrols, etc.

THIRD: Both Delegations will recommend to their respective Governments the reinforcement of their border patrols and of all methods of vigilance to attain the greatest possible success for the control dispositions established to impede the illegal migration of Mexican workers.

Nonuse of illegally migrated workers.

FOURTH: With a view to cooperation in the realization of this objective, the immigration authorities of the United States will deny authorization for the contracting of Mexican workers to those American employers (farmers) who in contravention of these recommendations use the services of agricultural workers who have entered illegally.

The Mexican Delegation would appreciate the United States Delegation submitting to its Government the desire of the Mexican Government that the authorities of the United States study the possibility of adopting, in addition, legal measures under which United States employers who contract or use illegally migrated Mexican workers may suffer an adequate sanction.

In formulating this suggestion, the Mexican Delegation has in mind that the adoption of such measures would constitute the most effective procedure for putting an end to this illegal migration.

Restricted sale of railroad or bus tickets.

FIFTH: The Mexican Delegation agrees immediately to propose to its Government that, through not only the Ministries of Communications and Public Works but also through that of Gobernación and other state authorities, measures be suggested which may be considered pertinent to restrict as much as possible the sale of railroad or bus tickets to groups of workers proceeding to the border of Mexico with the United States, especially through the Punta Peñasco station, or the adoption as well of governmental measures which may prevent accumulations of workers at said border.

Documentation of persons.

SIXTH: With a view to impeding the migration to the United States of workers who have their permanent residence in border towns, it is suggested to the Delegation of the United States that those who are in this category be documented by the Mexican migration authorities only with Card Form 5–C, which only gives them the right to cross to the adjacent towns and not to be contracted for work in the interior of the United States. Therefore, all such who are clearly shown to be legal residents of border points should be excluded from contracts.

SEVENTH: The Delegation of the United States will recommend to its Government the issuance of instructions to its diplomatic and consular representatives in Mexico with a view to having them abstain, as they have done to date, from documenting, as permanent residents of the United States, persons whose passports do not categorically so specify, with exception of those who have family ties in that country.

Travel expenses of returned workers.

EIGHTH: It is understood that it is a function of the United States Immigration Service to return workers found to be illegally in the United States from the place of detention to a border point between Mexico and the United States. Both delegations are of the opinion that the travel expenses of the workers from the United States border port adjacent to the place of contract to the place of employment and return should be for the account of the employers in accordance with the requirements of Article 29 of the Mexican Labor Law.

Publicity.

NINTH: Both Delegations will recommend to their respective Governments the greatest publicity for these measures and their underlying reasons, in order that the authorities charged with their application, can count upon the fullest support of public opinion in both countries, this publicity to be made simultaneously and on a date to be agreed upon by both Chanceries.

Effective date.

TENTH: The agreements set forth shall become effective thirty days after they are approved by both Governments and notice thereof is given through their respective Chanceries, replacing the agreements concerning these questions signed by the United States and Mexican delegates in the City of Mexico, Federal District, on June 2, 1944, [1] and in the City of Washington on January 9, 1945.[1]

[1] [Not printed.]

In witness whereof, the present document has been prepared in sextuplicate in both Spanish and English and has been signed by the members of both Delegations on this thirty-first day of January, Nineteen hundred and forty-seven."

Nonparticipation of U. S. Government in Mexican contracts.

I am requested to state also that, while my government is ready to comment informally as to the practicability of any contract proposed by the Mexican Government covering the terms of employment between United States employers and Mexican agricultural workers, my government cannot be a party to any contracts made or provide policing for the fulfillment of such contracts, as made clear in the discussions between the representatives of the two governments. The workers will have, however, the usual remedies or recourses available to residents in the United States in the same field of employment.

I also wish to point out to Your Excellency that my government considers the present agreement as distinct and independent of that entered into between our two governments in connection with the recruitment of agricultural workers by representatives of the United States Department of Agriculture in the sense that the first has to do with contractual relations between Mexican laborers and United States employers, whereas the second has to do with contractual relations between Mexican laborers and the United States Government.

If Your Excellency's Government approves the above quoted agreement and is in accord with the other paragraphs of the note, I propose to Your Excellency that this note and the reply to it constitute the exchange of notes contemplated in Article 10 of the agreement above quoted.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

3204 MÉXICO, D. F., *a 10 de marzo de 1947*

SEÑOR EMBAJADOR:

Tengo el honor de referirme a la atenta nota de Vuestra Excelencia número 673 fechada el 10 de marzo de 1947, que a la letra dice:

"Tengo el honor de hacer referencia al convenio a que se llegó por los representantes de los Gobiernos de los Estados Unidos de Norteamérica y de México como resultado de las conferencias verificadas en la Ciudad de México del 27 de enero al 4 de febrero de 1947, en relación con el regreso a México de los mexicanos que han entrado ilegalmente a los Estados Unidos y su posible contratación por empleadores norteamericanos, como trabajadores agrícolas en los Estados Unidos. – El documento conteniendo este convenio ha sido debidamente firmado en originales duplicados y se encuentra en posesión de las autoridades competentes de ambos Gobiernos.

He recibido instrucciones de informar a Vuestra Excelencia que mi Gobierno aprueba el documento arriba mencionado, el que, para mayor claridad se transcribe a continuación: – "En la Ciudad de México, Distrito Federal, reunidos en el Salón de Conferencias de la Secretaría de Relaciones Exteriores los miembros de la "Comisión Intersecretarial encargada de los asuntos referentes a la Emigración de Trabajadores Mexicanos", creada por Decreto de fecha 17 de los corrientes y publicado en el Diario Oficial núm. 20 del día 24 de enero en curso, señores Lic. Benito Coquet, Oficial Mayor de Gobernación; Alfonso Guerra, Oficial Mayor de Relaciones Exteriores; y Lic. J. Jesús Castorena, Oficial Mayor de Trabajo y Previsión Social, asesorados en esta ocasión por los Sres. Arcadio Ojeda García, Jefe del Departamento de Migración; Manuel Aguilar, Director General del Servicio Consular; y Arq. Jorge L. Medellín, Jefe del Depto. de Protección General de Trabajo y Previsión Social, que forman la Delegación Mexicana; con los Sres. William G. McLean, Rpte. del Departamento de Estado; Ugo Carusi, Director General del Servicio de Inmigración y Naturalización en representación del Depto. de Justicia; Albert del Guercio, Director de Migración del Distrito Sur de California; Maurice L. Stafford, Cónsul General de los Estados Unidos de América, en representación de la Embajada Norteamericana en esta Capital; y Harry F. Brown, Oservador de la Ofna. del Trabajo del Depto. de Agricultura, que forman la Delegación de los Estados Unidos de América.

DECLARAN:

Que habiendo efectuado cordiales pláticas bajo un ambiente amistoso de mutua comprensión, con objecto de tratar de resolver en la mejor forma para los Gobernos de México y de los Estados Unidos los problemas migratorios resultantes del éxodo ilegal de trabajadores mexicanos, cuyo monto según datos aproximados, proporcionados por la Delegación Norteamericana, se eleva a la suma de ciento diez y nueve mil, de los cuales cien mil corresponden

a emigrantes directos de territorio mexicano y diez y nueve mil a braceros que habiendo terrumpido el cumplimiento de sus contratos han permanecido ilegalmente en territorio de los Estados Unidos, encontrándose como los anteriores, prestando sus servicios en su gran mayoría en trabajos agrícolas, ambas Delegaciones resolvieron estar de acuerdo en someter a sus respectivos Gobiernos las siguientes conclusiones a título de recomendación:

PRIMERO: A petición de la Delegación Mexicana, la Delegación Norteamericana está conforme en someter a la consideración de su Gobierno la proposición de que el contingente total de mexicanos que inmigraron ilegalmente, sea conducido en forma preferencial, por los puertos fronterizos de Mexicali, Ciudad Juárez y Reynosa, con objeto de hacer una selección que les permita regresar a trabajar en los Estados Unidos, al amparo de contratos que deberán formularse sobre bases aceptables para los dos Gobiernos.

SEGUNDO: La mencionada contratación deberá hacerse mediante contratos suscritos por el Representante del patrono (farmer) y por un Delegado de la Comisión Intersecretarial al principio citada, que interviene en estas pláticas, debiendo ser endosado dicho documento, en territorio mexicano, por un funcionario del Servicio de Inmigración Norteamericana indicando que el patrono (farmer) ha cumplido con los requisitos de las Leyes de Inmigración de los Estados Unidos y ha recibido la autorización para contratar y llevar a territorio de dicho país a trabajadores mexicanos.

TERCERO: Ambas Delegaciones recomendarán a sus respectivos Gobiernos el refuerzo de sus patrullas fronterizas y de todos sus sistemas de vigilancia para lograr el mayor éxito a la disposiciones de control que se establezcan, tendientes a impedir el éxodo ilegal de trabajadores mexicanos.

CUARTO: Con objeto de cooperar a la realización de tal propósito, las Autoridades Migratorias de los Estados Unidos negarán autorización para contratar trabajadores mexicanos a aquellos agricultures norteamericanos (farmers) que en contravención de estas disposiciones utilicen los servicios de trabajadores agrícolas inmigrados ilegalmente.

La Delegación Mexicana agradecería a la Norteamericana que señale a su Gobierno el deseo del de México de que las autoridades norteamericanas estudien la posibilidad de adoptar, además, medidas legales en virtud de las cuales los patronos norteamericanos que contraten o utilicen a trabajadores mexicanos inmigrados ilegalmente reciban la adecuada sanción.

Al formular esta sugestión, la Delegación Mexicana lo hace considerando que la adopción de tales medidas constituiría el procedimiento más eficaz para poner término a este tránsito ilegal.

QUINTO: La Delegación Mexicana acepta desde luego proponer a su Gobierno que por conducto, tanto de las Secretarías de Comunicaciones y Obras Públicas, como de la de Gobernación y demás Autoridades Estatales, se sugieran las medidas que se consideren pertimentes para restringir en lo posible la venta de boletos de transporte ferroviario o autotransportes, a contingentes de braceros que

se dirijan con rumbo a la frontera de México con los Estados Unidos, especialmente por la Estación de Punta Peñasco, o bien la adopción de disposiciones gubernamentales que eviten acumulaciones de trabajadores en dicha frontera.

SEXTO: Con objeto de impedir la inmigración a los Estados Unidos, de trabajadores que tienen su domicilio permanente en poblaciones de la frontera, se sugiere a la Delegación Norteamericana que los que se encuentran en esas circunstancias, sean documentados por las Autoridades Migratorias Mexicanas únicamente con la Tarjeta Forma 5–C, que les da el derecho sólo a pasar a las poblaciones aledañas y de ninguna manera a ser contratados para trabajar en el interior de los Estados Unidos.

Por consecuencia, deben quedar excluídos de contratación todos aquellos a quienes evidentemente se compruebe residencia legal en los puntos fronterizos.

SEPTIMO: La Delegación Norteamericana recomendará a su Gobierno que instruya a sus Representantes Diplomáticos y Consulares en México, con objeto de que se abstengan, como lo han hecho hasta ahora, de documentar, con carácter de residentes permanentes en los Estados Unidos, a personas cuyo correspondiente pasaporte no lo especifique categóricamente, con la excepción de aquellas que tengan ligas familiares en aquel país.

OCTAVO: Se entiende que es función del Servicio de Inmigración de los Estados Unidos de América, conducir a los trabajadores que se encuentren ilegalmente en dicho país, desde el punto de su detención a un puerto fronterizo entre México y los Estados Unidos de América. Ambas Delegaciones son de opinión que los gastos de viaje de los trabajadores, desde el puerto fronterizo norteamericano, adyacente al lugar de contratación, a los lugares de trabajo y viceversa, deberán ser por cuenta de los patronos (farmers), de acuerdo con lo especificado por el artículo 29 de la Ley de Trabajo de México.

NOVENO: Ambas Delegaciones recomendarán a sus respectivos Gobiernos dar la mayor publicidad a estas medidas y a las razones que las fundamentan, con el objeto de que las autoridades encargadas de su aplicación, puedan contar con el mayor apoyo de la opinion pública de ambos paises, debiendo hacerse dicha publicación simultaneamente y en la fecha que previamente se convenga por ambas Cancillerías.

DECIMO: Los acuerdos estipulados, entrarán en vigor treinta días después de ser aprobadas sus conclusiones por ambos Gobiernos y comunicadas las resoluciones por conducto de sus respectivas Cancillerías, debiendo reemplazar los acuerdos que sobre este mismo asunto fueron firmados entre las Delegaciones Norteamericana y Mexicana, en la Ciudad de MEXICO, Distrito Federal, el 2 de junio de 1944 y en la ciudad de WASHINGTON, D. C., el 9 de enero de 1945.

Y para constancia se levanta la presente acta por sextuplicado, en los idiomas español e inglés, que firman los Miembros de ambas Delegaciones, a los trienta y un días del mes de enero de mil novecientos cuarenta y siete.

DELEGACIÒN MEXICANA:

Benito Coquet. – Alfonso Guerra. – J. Jesús Castorena. – Arcadio Ojeda G. – Manuel Aguilar. – Jorge L. Medellín. –

DELEGACIÒN NORTEAMERICANA:

William G. MacLean. – Ugo Carusi. – Alberto del Guercio. – Maurice L. Stafford. – Harry F. Brown

Se me ha pedido indicar tambien que, mientras mi Gobierno está dispuesto a comentar informalmente acerca de la practicabilidad de cualquier contrato propuesto por el Gobierno Mexicano cubriendo las clausulas de trabajo entre los empleadores norteamericanos y los trabajadores agrícolas mexicanos, mi Gobierno no puede ser parte de ningunos contratos que se hagan o proveer vigilancia para el cumplimiento de tales contratos, como se explicó claramente en las discusiones entre los representantes de los dos Gobiernos. Los trabajadores tendrán sin embargo, los remedios o recursos usuales con que cuentan los residentes de los Estados Unidos en la misma clase de trabajo.

También deseo expresar a Vuestra Excelencia que mi Gobierno considera el presente convenio, como distinto e independiente de aquel concertado entre nuestros dos Gobiernos en conexión con el reclutamiento de trabajadores agrícolas por representantes del Departamento de Agricultura de los Estados Unidos de Norteamérica, en el sentido de que el primero tiene que ver con las relaciones contractuales entre trabajadores mexicanos y empleadores norteamericanos, mientras que el segundo tiene que ver con las relaciones contractuales entre trabajadores mexicanos y el Gobierno de los Estados Unidos de Norteamérica.

Si el Gobierno de Vuestra Excelencia aprueba el convenio preinserto y está de acuerdo con los otros párrafos de esta nota, me permito proponer a Vuestra Excelencia que esta nota y la respuesta de ella, constituyan el intercambio de notas mencionado en el artículo 10 de convenio preinserto."

Sobre el particular, me es grato comunicar a Vuestra Excelencia la aceptación del Gobierno de México a la recomendación preinserta, así como su conformidad por lo que respecta a los comentarios también preinsertos, sobre la participación de las autoridades norteamericanas en la redacción y ejecución de los contratos individuales de trabajo, y sobre el hecho de que los agricultores contratados lo serán por empleadores norteamericanos, sin que se trate de relaciones contractuales entre aquellos y el Gobierno de los Estados Unidos de Norteamérica.

Me es grato renovar a Vuestra Excelencia, el testimonio de mi más alta y distinguida consideración.

MR. AMBASSADOR:

I have the honor to refer to Your Excellency's kind note No. 673 of March 10, 1947, which reads word for word as follows: *Ante*, p. 4097.

[For the English language text of this note, as signed, see pp. 4097–4100.]

In this connection I am happy to inform Your Excellency that the Government of Mexico accepts the above-quoted proposal and is in accord with the remarks, also quoted above, on the participation of United States authorities in the drafting and execution of individual work contracts, and on the fact that it is United States employers who will hire the agricultural workers, with no question of contractual relations between the latter and the Government of the United States.

I take pleasure in renewing to Your Excellency the assurances of my highest and most distinguished consideration.

Supplementary agreement between the United States of America and Mexico respecting Mexican agricultural workers. Effected by exchange of notes signed at Mexico City March 10, 1947; entered into force March 10, 1947.

The American Ambassador to the Mexican Secretary of Foreign Relations

No. 675

MEXICO, D. F., *March 10, 1947.*

EXCELLENCY:

Agreement respecting return to Mexico of illegal entrants into U. S.

I have the honor to refer to the supplementary agreement reached by representatives of the United States and Mexican Governments as a result of the conferences held in Mexico City between January 27 and February 4, 1947, on the subject of the return to Mexico of illegal Mexican entrants into the United States, and their possible engagement by American employers as agricultural workers in the United States. The document setting forth this supplementary agreement has been duly signed in duplicate originals and is now in possession of the competent authorities of both governments.

I am directed to inform Your Excellency that my government approves the above mentioned document which, for the sake of clarity, is quoted below:

U. S. delegation.

"In conference in the City of Mexico, Federal District, in the Conference Room of the Ministry of Foreign Relations, Messrs. William G. MacLean, representative of the Department of State; Ugo Carusi, Commissioner of the Immigration and Naturalization Service of the Department of Justice; Albert del Guercio, District Director of the Immigration and Naturalization Service in the District of Southern California; Maurice L. Stafford, Consul General of the United States of America, in representation of the American Embassy, and Harry F. Brown, observer for the Labor Office of the Department of Agriculture, who form the Delegation of the United

Mexican delegation.

States of America; and the members of the "Interdepartmental Commission in Charge of Affairs Related to the Emigration of Mexican Workers", created by decree dated January 17, 1947, published in Official Register no. 20, January 24, 1947, Messrs. Licenciado Benito Coquet, *Oficial Mayor* of *Gobernación;* Doctor Alfonso Guerra, *Oficial Mayor* of Foreign Relations, and Licenciado J. Jesus Castorena, *Oficial Mayor* of Labor and Social Welfare, technically advised for this occasion by Messrs. Arcadio Ojeda García, Head of the Department of Migration; Manuel Aguilar, Director General of the Consular Service, and Engineer Jorge Medellín, Head of the Department of General Security and Social Welfare of the Ministry of Labor, who form the Mexican Delegation:

Mexican workers employed in State of Texas.

FIRST: As an annex to the memorandum of this date, the United States Delegation has advised that a considerable number of the

Mexican workers found illegally in the United States presently are employed in the State of Texas.

SECOND: The Mexican Delegation, in view of the statement to which the preceding point refers, considers that it is confronted with a factual situation which was not created by the Government of Mexico, but which it is desirable to solve in benefit to the Mexican workers. Consequently it is disposed to recommend to its Government that, as an exceptional measure, it authorize the contracting of these workers in order that they may continue to lend their services in the State of Texas, on the understanding that this attitude will not constitute a precedent nor can it be invoked in the future, since the Government of Mexico remains firm in its determination not to permit, under the protection of existing conventions, that persons of Mexican nationality be contracted to work in States of the United States in which there may exist discrimination against Mexicans, a problem which, on the other hand, in so far as Texas is concerned, seems to be on the road to a favorable solution, in view of the repeated proofs of friendship and of good will which the Honorable Beaufort Jester, Governor of said State, has shown towards Mexico.

THIRD: The resolutions which fall under this additional memorandum are subject to the same treatment mentioned in the tenth recommendation of the document of which this is an annex." *Ante*, p. 4099.

SEGUNDO: La Delegación Mexicana, en vista de la Declaración a que se refiere el punto anterior, estima que se halla en presencia de una situación de hecho que no fué creada por el Gobierno de Mexico, pero que conviene resolver en beneficio de los trabajadores mexicanos. En consecuencia, está dispuesta a recomendar a su Gobierno que, como medida de excepción, autorice la contratación de estos trabajadores para que sigan prestando sus servicios en el Estado de Texas, en la inteligencia de que esta actitud no constituirá ningún precedente ni podrá ser invocada en el futuro, ya que el Gobierno de México, se mantiene invariable en su determinación de no permitir que, al amparo de los convenios vigentes, se contrate a personas de nacionalidad mexicana para trabajar en los Estados de la Unión Norteamericana en los que exista discriminación en contra de los mexicanos, problema que, por otra parte, por lo que respecta a Texas, parece encontrarse en vías de solución favorable, en vista de las reiteradas pruebas de amistad y de buena voluntad que hacia México ha dado el señor Buford Jester, Gobernador de dicha Entidad. TERCERO: Las resoluciones que recaigan sobre el presente Protocolo adicional quedan sujetas al mismo tratamiento que se menciona en la recomendación Décima del documento al que se anexa el presente. MONSIEUR L'AMBASSADEUR,

I°/ A la suite des échanges de vues qui ont eu lieu entre les représentants de votre Ambassade et ceux de mon Département relativement au recrutement pour le travail en France de main d'oeuvre libre allemands dans la zone américaine d'Allemagne, vous m'avez fait connaître que le Gouvernement français pourra procéder au recrutement de cette main d'oeuvre sous le contrôle du Commandant de cette zone aux conditions suivantes:

a) le recrutement de travailleurs allemands libres n'affectera en aucune façon l'application des engagements français actuellement existants concernant le recrutement de personnes déplacées en Allemagne;

b) le recrutement des travailleurs allemands libres aux termes des dispositions du présent accord sera réalisé par l'intermédiaire des Offices allemands du Travail dans les locaux desquels la Mission française de recrutement interrogera et renseignera les volontaires pour le travail en France.

La Mission française de recrutement fera part aux Autorités compétentes du Gouvernement militaire américain de toute difficulté survenue entre elle-même et les offices allemands du travail, de manière à permettre à celles-ci de prendre les dispositions nécessaires.

Les dispositions de l'accord technique indiqué au paragraphe 3° ci-après seront réexaminées à la demande du Chef de la Mission française de recrutement si celui-ci considère que le recrutement des travailleurs allemands pour la France n'est pas satisfaisant et si, après enquête des autorités militaires américaines, il apparaît que cette insuffisance résulte de l'obstruction des offices allemands du travail de la zone américaine d''Allemagne.

c) Les familles des travailleurs allemands volontaires pour le travail en France se rendront en France via la zone française d'Allemagne. Le départ de la famille sera effectué simultanément avec celui du travailleur et en tout cas dans le délai maximum d'un mois après le départ du travailleur.

d) Aucun recrutement ne sera effectué parmi les travailleurs employés dans les houillères.

e) A titre exceptionne, sera temporairement suspendu, à la reqêête des autorités qualifiées du Gouvernement militaire américain, le recrutement des travailleurs qui seront considérés par ces autorités comme appartenant à des professions ou employés dans des régions où existe une insuffisance critique de main d'oeuvre.

Mon Gouvernement accepte ces conditions.

2°/ Par dérogations aux dispositions du paragraphe I c) ci-dessus concernant le départ de la zone américaine d'Allemagne des familles des travailleurs allemands volontaires pour la France, le Gouvernement américain est disposé à examiner la possibilité d'admettre exceptionnellement le maintien dans la zone américaine d'Allemagne d'un certain nombre de familles de ces travailleurs qui pourront refuser ou n'être pas en mesure de quitter la zone. Le nombre des travailleurs volontaires allemands qui seront autorisés à laisser leur famille ne pourra dépasser I0% du total des travailleurs recrutés pour la France dans la zone américaine d'Allemagne.

La disposition qui précède ne s'appliquera pas aussi longtemps que le problème du transfert des économies des travailleurs libres allemands n'aura pas été règlé entre les Gouvernements.américain, britannique et français.

3°/ Un accord technique d'application des principes qui font l'objet de la présente lettre sera négocié à Berlin avec des représentants américains, britanniques et français.

4°/ Tous les frais engagés pour le fonctionnement de la mission française de recrutement des travailleurs allemands volontaires en zone américaine d'Allemagne seront intégralement mis à la charge de la France. L'activité de cette mission sera placée sous le contrôle du Commandant de la zone américaine.

5°/ Des conversations auront lieu entre les représentants des Gouvernements intéressés en vue de mettre fin au présent accord ou d'en modifier les dispositions, lorsque le recrutement des travailleurs volonaires allemands en zone américaine d'Allemagne atteindra un chiffre susceptible d'être considéré par le Commandant de la zone comme représentant le maximum de main d'oeuvre allemande, ou le maximum de cette main d'oeuvre appartenant à une profession déterminée que cette zone peut fournir à la France au moment considéré./.

Veuillez agréer, Monsieur l'Ambassadeur, les assurances de ma haute considération.

The American Ambassador to the Secretary General of the French Ministry of Foreign Affairs

EMBASSY OF THE
UNITED STATES OF AMERICA
Paris, October 25, 1947.

MY DEAR MR. AMBASSADOR:

I have the honor to acknowledge the receipt of Your Excellency's note of October 25, 1947, which states:

Recruitment of free German workers in U. S. Zone of Germany.

"1. As a consequence of the exchanges of views which have taken place between the representatives of your Embassy and those of my Department relative to the recruitment for labor in France of free German workers in the United States Zone of Germany, you have informed me that the French Government will be able to proceed with the recruitment of such workers, under the authority of the Commander of the Zone, on the following conditions:

(a) Recruitment of free German workers will in no way affect the implementation of existing French commitments regarding the recruitment of displaced persons in Germany.

(b) Recruitment of free German workers under the provisions of this Agreement will be effected through the intermediary of the German labor offices on whose premises the French Recruitment Mission will question and furnish information to volunteers for labor in France.

The French Recruitment Mission will inform the appropriate United States Military Government authorities of any difficulties arising between it and the German Labor Office in order that those authorities may take necessary action.

The provisions of the technical agreement referred to in paragraph 3 below will be reexamined at the request of the chief of the French Recruitment Mission if he considers that the recruitment of German workers for France is unsatisfactory and if, after investigation by the United States Military Government authorities, it appears that the inadequate recruitment results from obstructive practices by the German Labor Offices in the United States Zone of Germany.

(c) The families of voluntary German workers recruited for labor in France will leave for France, via the French Zone of Germany. The departure of the family will take place simultaneously with the departure of the worker, or in any case not later than one month thereafter.

(d) No recruitment will take place among workers employed in the mines.

(e) In exceptional circumstances, recruitment will be temporarily suspended at the request of the appropriate United States Military Government authorities among workers whom they consider as belonging to an occupation or being employed in areas where there exists a critical shortage of manpower.

My Government accepts these conditions.

Families of voluntary German workers.

2. Notwithstanding the provisions of paragraph 1 (c) above concerning the departure from the United States Zone of Germany of the families of voluntary German workers for France, the United States Government is disposed to examine the possibility of permitting exceptionally, a certain number of families of those workers which may refuse or not be able to leave the United States Zone of Germany to remain in that Zone. The number of voluntary German workers who will be authorized to leave their families in the United States Zone of Germany will not exceed 10% of the total number of voluntary German workers recruited for France from the United States Zone of Germany.

This will not be done, however, until the problem of remittances from voluntary German workers is settled by the American, British and French Governments.

3. A technical agreement to implement the principles contained in this letter will be negotiated at Berlin by representatives of the American, British and French Governments.

Recruitment expenses.

4. All expenses incurred in the operation of the French Mission recruiting voluntary German workers in the United States Zone of Germany will be paid entirely by France. The activities of the French Recruiting Mission will be subject to the control of the United States Zone Commander.

Termination or modification of agreement.

5. Conversations will take place between representatives of the interested Governments with a view to terminating the present Agreement or modifying its provisions at the moment when the recruitment of voluntary German workers in the United States Zone of Germany reaches a figure which may be considered by the Zone Commander as representing the maximum number of German workers, or the maximum in any given occupation, which the United States Zone in Germany can furnish to France at that time.

Please accept, Mr. Ambassador, the assurance of my high consideration."

I have the honor to inform Your Excellency that the Government of the United States concurs in the terms of Your Excellency's note and agrees that that note together with this acknowledgment should constitute an agreement between our two Governments on the principles governing French recruitment of German labor in the United States Zone of Germany.

Please accept, Mr. Ambassador, the renewed assurances of my highest consideration.

The American Embassy at Brussels presents its compliments to the Ministry of Foreign Affairs and, with reference to the Ministry's letter of January 31, 1946 (No. 2202/pr/ETATS-UNIS), concerning a proposed reciprocal visa fee waiver agreement for non-immigrant travelers, has the honor to quote below a communication dated March 11, 1946, which has been received from the Department of State on the subject:

"The Government of the United States is willing to grant gratis passport visas to qualified Belgian nationals who are bearers of valid Belgian passports and who are classifiable as bona fide nonimmigrants under the immigration laws of the United States, if the Belgian Government will waive passport visa fees for qualified nonimmigrants proceeding to Belgian territory and bearing valid passports issued by the Government of the United States. Such an arrangement must be concluded on a fully reciprocal basis in accordance with the provisions of the Act of Congress approved February 25, 1925, and the Executive Order of May 15, 1925, which stipulate that arrangements for the waiving or the reduction of passport visa fees shall be accomplished by an exchange of notes and that the concessions granted shall be similar. No arrangement may be concluded affecting the issuance of immigration visas or the fees therefor.

43 Stat. 976.
8 U. S. C. § 202 (l).

"It is noted that the Belgian Government is prepared to waive passport visa fees in cases of applicants for visitor's visas but desires to limit the period of validity of such visas to a maximum of two months and good for several trips.

"The normal period of validity of a temporary visitor's visa issued by the Government of the United States is twelve months, provided the applicant's passport is valid for that period. Such period of validity could not be modified generally and limited to a period of two months without excessive administrative difficulties.

It would appear, therefore, that the arrangement suggested by the Belgian Government could not be feasibly effected upon a reciprocal basis. It is the period of validity of the visa granted by a foreign country which must be equal to the period of validity of the visa issued by the Government of the United States, and not the period or the duration of the stay of the individuals in each country.

"The Government of the United States hopes that further discussions will lead to the conclusion of a reciprocal arrangement whereby bearers of passports issued by the Government of the United States, in possession of nonimmigrant visas issued by the Belgian Government, may enter and reenter Belgium one or more times within a normal period equivalent to that of the validity of a passport visa issued by the Government of the United States, that is, one year."

Le Ministère des Affaires Etrangères et du Commerce Extérieur a l'honneur de faire savoir à l'Ambassade des Etats-Unis d'Amérique à Bruxelles, en se référant à sa note du 27 mars 1946, n° 149, [1] que les Administrations compétentes, après examen de la question, ont marqué leur accord pour porter de 2 mois à 1 an au maximum, à titre de réciprocité, la durée de validité des visas de voyage qui pourraient être délivrés, directement et gratuitement, aux sujets américains, par les agents diplomatiques et consulaires de carrière de Belgique, en vertu du nouvel arrangement à intervenir entre les deux pays.

Nonobstant la durée de validité de leur visa de voyage, les ressortissants américains qui ne désirent pas s'établir en Belgique seront dispensés de l'obligation de la carte professionnelle.

A ce point de vue, ils seront donc, en fait, placés sur le même pied que les étrangers dispensés de la formalité du visa.

Le Ministre saurait gré à l'Ambassade de lui faire connaître la date à laquelle le Gouvernement des Etats-Unis serait disposé à faire entrer en vigueur les dispositions du susdit arrangement.

BRUSSELS, *November 23, 1946*

The Ministry of Foreign Affairs and Foreign Commerce has the honor to inform the Embassy of the United States of America in Brussels, with reference to its note No. 149[1] of March 27, 1946, that the competent Administrations, after examining the question, have agreed to extend from two months to a maximum of one year, on a basis of reciprocity, the period of validity of travel visas which could be issued directly and free of charge to United States nationals by Belgian career diplomatic and consular agents, by virtue of the new arrangement to be concluded between the two countries.

Notwithstanding the period of validity of their travel visa, United States nationals who do not wish to establish themselves in Belgium will not be required to have professional cards.

Therefore, from that point of view, they will, in fact, be placed in the same status as foreigners exempted from the formality of the visa.

The Minister would be grateful if the Embassy would notify it of the date on which the United States Government would be prepared to have the provisions of the aforesaid arrangement enter into force.

The American Embassy at Brussels presents its compliments to the Ministry of Foreign Affairs and Foreign Commerce, and has the honor to refer to the Ministry's note of November 23, 1946, in which it was stated that the Ministry is agreeable to entering into an agreement with the United States Government to permit the reciprocal issuance of visitors' visas to nationals of both countries, valid for one year, without fees.

[1] [This number has been corrected to 631; see p. 4117.]

The Embassy is in receipt of instructions from the Department of State authorizing it to conclude arrangements for the reciprocal agreement and, if it is agreeable to the Ministry of Foreign Affairs and Foreign Commerce, the Embassy would suggest that the effective date for the reciprocal waiver of fees for visitors' visas be set as February 17, 1947.

Effective date.

The Embassy will appreciate it if the Ministry of Foreign Affairs and Foreign Commerce will indicate whether this date is acceptable to the Belgian Government and takes this occasion to renew the assurances of its highest consideration.

AIR TRANSPORT AGREEMENT BETWEEN THE UNITED STATES OF AMERICA AND THE UNITED STATES OF BRAZIL.

The Government of the United States of America and the Government of the United States of Brazil, considering:

- that the ever-growing possibilities of commercial aviation are of increasing importance;

- that this means of transportation because of its essential characteristics, permitting rapid connections, provides the best means for bringing nations together;

- that it is desirable to organize in a safe and orderly form regular international air services, without prejudice to national and regional interests, having in mind the development of international cooperation in the field of air transport;

- that it is necessary to conclude an agreement to secure regular air communications between the two countries

have appointed for this purpose their Plenipotentiaries as follows:

The President of the United States of America, His Excellency William Douglas Pawley, Ambassador Extraordinary and Plenipotentiary in Brazil, and His Excellency James McCauley Landis, Chairman of the Civil Aeronautics Board;

The President of the United States of Brazil, His Excellency Samuel de Sousa-Leão Gracie, Acting Minister for Foreign Affairs and His Excellency Major-Brigadier Armando Figueira Trompowsky de Almeida, Minister of State for Aeronautics;

ACÔRDO SÔBRE TRANSPORTES AÉREOS ENTRE OS

ESTADOS UNIDOS DA AMÉRICA E OS ESTADOS UNIDOS DO BRASIL.

O Govêrno dos Estados Unidos da América e o Govêrno dos Estados Unidos do Brasil, considerando:

- que as possibilidades sempre crescentes da aviação comercial são de importância cada vez mais relevante;

- uqe êsse meio de transporte,pelas suas carecterísticas essenciais, permitindo ligações rápidas,proporciona melhor aproximação entre as nações;

- que é conveniente organizar, por forma segura e ordenada, os serviços aéreos internacionais regulares, sem prejuízo dos interesses nacionais e regionais, tendo em vista o desenvolvimento da cooperação internacional no campo dos transportes aéreos;

- que se torna necessário a conclusão de um acôrdo destinado a assegurar comunicações aéreas regulares entre os dois países;

nomearam,para êsse fim os seguintes Plenipotenciários:

O Presidente dos Estados Unidos da América, Sua Excelência o Senhor William Douglas Pawley, Embaixador Extraordinário e Plenipotenciário no Brasil, e Sua Excelência o Senhor James McCauley Landis, Presidente do "Civil Aeronautics Board";

O Presidente dos Estados Unidos do Brasil, Sua Excelência o Senhor Samuel de Sousa-Leão Gracie, Ministro de Estado interino, das Relações Exteriores e Sua Excelência o Major-Brigadeiro Armando Figueira Trompowsky de Almeida, Ministro de Estado dos Negócios da Aeronáutica;

who, after having exchanged their full powers, found to be in good and due form, agreed upon the following articles:

ARTICLE I

Rights.

The Contracting Parties grant each other the rights specified in the Annex hereto, in order that there may be established the regular air services described therein (hereinafter referred to as "agreed services").

Post, p. 4138.

ARTICLE II

Inauguration of services.

1 - Each of the agreed services may be inaugurated immediately or at a later date, at the option of the Contracting Party to whom the rights have been granted, but not before:

(a) the Contracting Party to whom the rights have been granted shall have designated an airline or airlines for the route or routes specified;

(b) the Contracting Party granting the rights shall have given the necessary operating permission to the airline or airlines concerned (which it shall do without delay, in accordance with the provisions of paragraph 2 of this article and of Article VI).

Post, p. 4128.

2 - The airlines so designated may be required to satisfy the aeronautical authorities of the Contracting Party granting the rights, that they are in a position to fulfill the requirements prescribed by the laws and regulations normally applied by these authorities to the operation of commercial airlines.

os quais, depois de haverem trocado seus Plenos Poderes, achados em boa e devida forma, convieram nos artigos seguintes:

ARTIGO I

As Partes Contratantes concedem-se reciprocamente os direitos especificados no Anexo do presente Acôrdo, a fim de que se estabeleçam os serviços aéreos regulares no mesmo descritos (doravante referidos como "serviços convencionados").

ARTIGO II

1 - Qualquer dos serviços convencionados poderá ser iniciado imediatamente ou em data posterior, a critério da Parte Contratante à qual os direitos foram concedidos, mas não antes que:

(a) a Parte Contratante à qual os mesmos tenham sido concedidos haja designado uma emprêsa ou empresas aéreas para a rota ou rotas especificadas;

(b) a Parte Contratante que concede os direitos tenha dado a necessária licença para funcionamento à emprêsa ou empresas aéreas em questão (o que fará sem demora, obedecidas as disposições do número 2º dêste artigo e as do artigo VI).

2 - As empresas aéreas designadas poderão ser chamadas a provar, perante as autoridades aeronáuticas da Parte Contratante que concede os direitos, que se encontram em condições de satisfazer os requisitos prescritos pelas leis e regulamentos normalmente aplicados por essas autoridades ao funcionamento de empresas aéreas comerciais.

ARTICLE III

Charges, etc.

1 - The charges which either of the Contracting Parties impose or permits to be imposed on the eirline or airlines designated by the other Contracting Party for the use of airports and other facilities shall not be higher than would be paid for the use of such airports and facilities by its national aircraft engaged in similar international services.

2 - Fuel,lubricating oils, and spare parts introduced into the territory of one Contracting Party or placed on board airplanes in its territory by the other Contracting Party,either for its own account or for the airlines designated by it,solely for use by the aircraft of the other Contracting Party,shall enjoy,with respect to customs duties,inspection fees and other charges imposed by the first Contracting Party, treatment not less favorable than that granted to the national airlines engaged in international air transport services or to the airlines of the most favored nation.

3 - Aircraft of one of the Contracting Parties used in the operation of the agreed services and the supplies of fuel, lubricating oils, spare parts, normal equipment and aircraft stores retained on board such aircraft shall enjoy exemption from customs duties, inspection fees, and similar duties or charges in the territory of the other Contracting Party, even though these supplies be used by such aircraft on flights within that territory.

Certificates of airworthiness, certificates of com

ARTIGO III

1 - As taxas que uma das partes Contratantes imponha ou permita que sejam impostas à emprêsa ou empresas aéreas designadas pela outra Parte Contratante para o uso de aeroportos e outras facilidades não serão superiores àquelas que seriam pagas pelo uso de tais aeroportos e facilidades por aeronaves de sua bandeira empregadas em serviços internacionais semelhantes.

2 - Os combustíveis, óleos, lubrificantes e sobressalentes introduzidos no território de uma Parte Contratante ou postos a bordo de aeronaves nesse território pela outra Parte Contratante, ou por sua conta, ou pelas empresas aéreas pela mesma designadas, ùnicamente para serem usados pelas aeronaves da outra Parte Contratante, gozarão, com relação aos direitos aduaneiros, taxas de inspeção e outras taxas impostas pela primeira Parte Contratante de tratamento não menos favorável do que o concedido às empresas aéreas nacionais que realizam transporte aéreo internacional, ou à empresas aéreas da nação mais favorecida.

3 - As aeronaves de uma das Partes Contratantes utilizadas na exploração dos serviços convencionados e os suprimentos de combustível, óleos lubrificantes, sobressalentes, equipamento normal e provisões guardados a bordo de tais aeronaves, gozarão de isenção de direitos aduaneiros, taxas de inspeção e direitos ou taxas semelhantes no território da outra Parte Contratante, ainda que êsses suprimentos venham a ser utilizados pelas aeronaves em vôo naquele território.

ARTIGO IV

Os certificados de navegabilidade, cartas de habi-

petency and licenses issued or validated by one of the Contracting Parties and still in force, shall be recognized as valid by the other Contracting Party for the purpose of the operation of the agreed services. Each Contracting Party reserves the right however to refuse to recognize, for the purpose of flight above its own territory, certificates of competency and licenses granted to their own nationals by another State.

ARTICLE V

Laws and regulations.

1 - The laws and regulations of one Contracting Party, relative to the entry into its own territory, or departure therefrom of aircraft employed in international air navigation or to the operation of such aircraft within its own territory, shall be applied to aircraft of the airline or airlines of the other Contracting Party.

2 - The laws and regulations of one Contracting Party as to the admission into its own territory or the departure therefrom of passengers, crew or cargo of aircraft (i.e., regulations relative to entry, clearance, immigration, passports, customs and quarantine) shall be applied to passengers, crew and cargo of aircraft of the airline or airlines designated by the other Contracting Party, within the territory of the first Contracting Party.

ARTICLE VI

Withholding or revocation of exercise of rights.

Each of the Contracting Parties reserves the right to withold or revoke the exercise of rights specified in the Annex of the present Agreement by an airline designated by the other Contracting Party when it is not satisfied that substantial ownership and effective control of the airline under reference is in the hands of nationals of the other Contracting Party, or in case of failure by that airline to

As Partes Contratantes se reservam, entretanto, o direito de não reconhecer, relativamente ao sobrevôo de seu território, certificados de habilitação e licenças concedidos aos seus nacionais por um outro Estado.

ARTIGO V

1 - As leis e regulamentos de uma Parte Contratante, relativas à entrada no seu próprio território, ou à saída do mesmo, de aeronaves empregadas em navegação aérea internacional ou à exploração de tais aeronaves dentro do seu território, serão aplicadas às aeronaves da emprêsa ou empresas aéreas designadas pela outra Parte Contratante.

2 - As leis e regulamentos de uma Parte Contratante, relativas à entrada no seu território, ou à sáida do mesmo, de passageiros, tripulações ou carga de aeronaves (como sejam regulamentos concernentes à entrada, despacho, imigração, passaportes, alfândega e quarentena) aplicar-se-ão aos passageiros, tripulações e carga das aeronaves da emprêsa ou empresas aéreas designadas pela outra Parte Contratante, dentro do território da primeira Parte Contratante.

ARTIGO VI

Cada uma das Partes Contratantes reserva-se o direito de negar ou revogar o exercício dos direitos especificados no Anexo do presente Acôrdo por uma emprêsa aérea indicada pela outra Parte Contratante quando não julgar suficientemente provado que uma parte substancial da propriedade e o contrôle efetivo da referida emprêsa estão em mãos de nacionais da outra Parte Contratante ou em caso

ARTICLE VII

Registration of Agreement.

The present Agreement shall be registered with the Provisional International Civil Aviation Organization established by the Interim Agreement on International Civil Aviation signed in Chicago on December 7, 1944, or its successor.

59 Stat. 1516.

ARTICLE VIII

Modifications of terms of Annex, etc.

If either of the Contracting Parties considers it desirable to modify the terms of the Annex to this Agreement, as well as to exercise the rights specified in Article VI, it may request consultation between the aeronautical authorities of the two Contracting Parties, such consultation to be initiated within a period of 60 days from the date of the request. When these authorities agree that the Annex should be modified, or choose to exercise the rights set forth in Article VI, such decisions shall enter into force after having been confirmed by an exchange of notes through diplomatic channels.

ARTIGO VII

O presente Acôrdo será registrado na Organização Provisória Internacional de Aviação Civil, estabelecida pelo Acôrdo Provisório sôbre Aviação Civil Internacional, assinado em Chicago, em 7 de dezembro de 1944 ou do órgão que a suceder.

ARTIGO VIII

Se qualquer das Partes Contratantes considerar desejável modificar os termos do Anexo ao presente Acôrdo, bem como usar da faculdade prevista no Artigo VI, poderá solicitar consultas entre as autoridades aeronáuticas das duas Partes Contratantes, tais consultas devendo ser iniciadas dentro do prazo de 60 dias a correr da data da solicitação. Quando essas autoridades concordarem em modificar o Anexo, ou em efetivar o exercício do direito previsto no Artigo VI, essas resoluções entrarão em vigor depois de confirmação por troca de notas através dos canais diplomáticos.

ARTIGO IX

Salvo quando regulado de outro modo no presente Acôrdo ou no seu Anexo, qualquer divergência entre as Partes Contratantes, relativamente à interpretação ou à aplicação do presente acôrdo ou de seu Anexo, que não puder ser resolvida por meio de consultas, deverá ser submetida ao parecer consultivo do Conselho Provisório da Organi-

vil Aviation Organization (in accordance with the provisions of Article III, Section 6 (8) of the Provisional Agreement on International Civil Aviation signed at Chicago on December 7, 1944) or to its successor, unless the Contracting Parties agree to submit the dispute to an Arbitration Tribunal designated by agreement between the same Contracting Parties, or to some other person or body. The Contracting Parties will use their best efforts under the powers available to them to put into effect the opinion expressed in any such report.

59 Stat. 1521.

ARTICLE X

Multilateral convention.

If a general multilateral aviation convention, accepted by both Contracting Parties, enters into effect, this Agreement shall be modified in such a way so that its provisions will conform to those of the convention under reference.

ARTICLE XI

For the purposes of the present Agreement, and its Annex, except where the text provides otherwise:

"Aeronautical authorities."

(a) the term "aeronautical authorities" shall mean in the case of the United States of America the Civil Aeronautics Board and any person or agency authorized to perform the functions exercised at the present time by the Civil Aeronautics Board and, in the case of the United States of Brasil, the Air Minister and any person or agency authorized to perform the function exercised at present by the said Minister.

"Designated airlines."

(b) the term "designated airlines" shall mean those airlines that the aeronautical authorities of one of the Contracting Parties have communicated in writing to the aeronautical authorities of the other Contracting Party that they are the airlines that it has designated in conformity with Article II of the present Agreement for the routes specified in such designation.

Ante, p. 4124.

zação Internacional Provisória de Aviação Civil, na conformidade das disposições do Artigo III, seção 6 (8) do Acôrdo Provisório sôbre Aviação Civil Internacional, assinado em Chicago aos 7 de dezembro de 1944 ou do órgão que suceder, a menos que as Partes Contratantes concordem em resolver a divergência perante um Tribunal Arbitral, nomeado em virtude de acôrdo entre as mesmas Partes Contratantes, ou perante outra pessoa ou órgão. As Partes Contratantes comprometem-se a envidar os seus melhores esforços, dentro dos limites de seus poderes, para pôr em execução a opinião que aquele órgão internacional expressar.

ARTIGO X

Se uma convenção geral aérea multilateral, aceita por ambas as Partes Contratantes, entrar em vigor, o presente Acôrdo deverá ser modificado de modo que as suas disposições se conciliem com as da referida convenção.

ARTIGO XI

Para os fins do presente Acôrdo e do seu Anexo, a não ser que o texto disponha de outro modo:

(a) a expressão "autoridade aeronáutica" significará, no caso dos Estados Unidos da América, o "Civil Aeronautics Board" e qualquer pessoa ou órgão autorizado a exercer as funções atualmente exercidas pelo Civil Aeronautics Board ou funções similares, e, no caso dos Estados Unidos do Brasil, o Ministro da Aeronáutica e qualquer pessoa ou órgão autorizado a exercer as funções atualmente exercidas pelo referido Ministro ou funções similares;

(b) a expressão "empresas aéreas designadas" significará as empresas de transportes aéreos a respeito das quais as autoridades aeronáuticas de uma das Partes Contratantes tenham feito comunicação por escrito às autoridades aeronáuticas da outra Parte Contratante de que as mesmas são empresas aéreas por elas designadas, na conformidade do Artigo II do presente Acôrdo, para as rotas especificadas em tal modificação;

"Territory." (c) the term "territory" shall have the meaning given to it by Article 2 of the Convention on International Civil Aviation, signed 61 Stat., Pt. 2, p. 1181. at Chicago on December 7, 1944.

(d) the definitions contained in paragraphs a, b and d of Article 96 of the Convention on International Civil Aviation signed at Chi 61 Stat., Pt. 2, p. 1207. cago on December 7, 1944, shall be applied to the present Agreement.

ARTICLE XII

Notice of termination. Either of the Contracting Parties may at any time notify the other of its intention to terminate the present Agreement. Such a notice shall be sent simultaneously to the Provisional International Civil Aviation Organization or its successor. In the event such communication is made, this Agreement shall terminate six (6) months after the date of receipt of the notice to terminate, unless by Agreement between the Contracting Parties the communication under reference is withdrawn before the expiration of that time. If the other Contracting Party fails to acknowledge receipt, notice shall be deemed as having been received 14 days after its receipt by the Provisional International Civil Aviation Organization or its successor.

ARTICLE XIII

The present Agreement supersedes any acts, permissions, privileges or concessions already in existence at the time of the signing, granted for any reason by any of the Contracting Parties in favour of airlines of the nationality of the other Contracting Party.

(c) a expressão "território" terá o sentido que lhe dá o Artigo 2 da Convenção sôbre Aviação Civil Internacional, assinada em Chicago aos 7 de dezembro de 1944.

(d) as definições contidas nos parágrafos a, b e d do Artigo 96 da Convenção sôbre Aviação Civil Internacional, assinada em Chicago aos 6 de dezembro de 1944, aplicar-se-ão ao presente Acôrdo.

ARTIGO XII

Qualquer das Partes Contratantes poderá, em qualquer ocasião, notificar à outra o seu propósito de fazer cessar o presente Acôrdo, comunicação esta que deverá ser feita simultaneamente à Organização Provisória Internacional de Aviação Civil ou ao órgão que a suceder. Na eventualidade dessa comunicação, o presente Acôrdo terminará seis (6) meses após a data do recebimento da notificação pela outra Parte Contratante, a menos que, mediante entendimento entre as Partes Contratantes, a referida comunicação venha a ser retirada antes da expiração daquele prazo. Se a outra Parte Contratante deixar de acusar o recebimento, a notificação será considerada como tendo sido recebida quatorze dias depois do recebimento, pela Organização Provisória Internacional de Aviação Civil ou pelo órgão que a suceder, da notificação que lhe foi dirigida.

ARTIGO XIII

O presente Acôrdo substitui quaisquer atos, licenças, privilégios ou concessões porventura existentes ao tempo da assinatura, outrogados a qualquer título por qualquer das Partes Contratantes em favor de empresas aéreas de nacionalidade da outra Parte Contratante.

ARTICLE XIV

Entry into force.

The present Agreement will come into form thirty (30) days after the date of its signature.

In witness whereof the undersigned Plenipotentiaries have signed the present Agreement and affixed thereto their respective seals.

Authentic texts.

ANNEX

SECTION I.

Right granted to U. S. Government.

The Government of the United States of Brazil grants to the Government of the United States of America the right to conduct air transport services by one or more air carriers of American nationality designated by the latter country on the routes, specified in Schedule I attached, which transit or serve commercially the territory of the United States of Brazil.

Post, p. 4156.

SECTION II.

Right granted to Brazilian Government.

The Government of the United States of America grants to the Government of the United States of Brazil the right to conduct air transport services by one or more air carriers of Brazilian nationality designated by the latter country on the routes, specified in Schedule II attached, which transit or serve commercially the territory of the United States of America.

Post, p. 4158.

SECTION III.

Rights of transit and stop.

One or more air carriers designated by each of the Contracting Parties under the conditions provided in this Agreement will enjoy, in the territory of the other Contracting Party, rights of transit, of stops for non-traffic purposes and of commercial entry and departure for international traffic in passengers, cargo and mail at the points enumerated and on each of the routes specified in the schedules attached at all airports open to international traffic.

SECTION IV.

Consultation.

The appropriate aeronautical authorities of each of the Contracting Parties will consult from time to time, or at the request of

one of the Parties, to determine the extent to which the principles set forth in Section V below are being followed by the airlines designated by the Contracting Parties, so as to prevent an unfair proportion of traffic being diverted from any designated airline through violation of those principle or principles enunciated elsewhere in this Agreement, the Annex, or the Protocol of Signature.

Ante, p. 4121.

Post, p. 4152.

SECTION V.

It is agreed between the Contracting Parties:

a) that the air transport capacity offered by the carriers of both countries should bear a close relationship to traffic requirements. Capacity.

b) that in the operation of common sections of trunk routes the air carriers of the Contracting Parties should take into account their reciprocal interests so as not to affect unduly their respective Services.

c) that the services provided by a designated air carrier under this Agreement and its Annex shall retain as their primary objective the provision of capacity adequate to the traffic demands between the country of which such air carrier is a national and the country of ultimate destination of the traffic;

d) that the right to embark and to disembark at points in the territory of the other country international traffic destined for or coming from third countries at a point or points specified in the Schedules attached, shall be applied in accordance with the general principles of orderly development to which both government subscribe and shall be subject to the general principle that capacity shall be related: Right to embark, etc.

1 - to traffic requirements between the country of origin and the countries of destination;

2 - to the requirements of through airline operation, and

3 - to the traffic requirements of the area through which the airline passes after taking account of local and regional services.

SECTION VI.

Change of gauge.

It is agreed between the Contracting Parties that, where the onward carriage of traffic by an aircraft of different size from that employed on the earlier stage of the same route (hereinafter referred to as "change of gauge") is justified by reason of economy of operation, and where such change of gauge is to be made at a point in the territory of the United States of America or the United States of Brazil, the smaller aircraft will operate only in connection with the larger aircraft arriving at the point of change, so as to provide a connection service which will thus normally wait on the arrival of the larger aircraft, for the primary purpose of carrying onward those passengers who have travelled to the United States of America or the United States of Brazil in the larger aircraft to their ultimate destination in the smaller aircraft. It is likewise understood that the capacity of the smaller aircraft shall be determined with primary reference to the traffic travelling in the larger aircraft normally requiring to be carried onward. Where there are vacancies in the smaller aircraft such vacancies may be filled with passengers from the United States of America or the United States of Brazil respectively without prejudice to the local traffic, exclusive of cabotage.

SECTION VII.

Rates.

a) The determination of rates in accordance with the following paragraphs shall be made at reasonable levels, due regard being paid to all relevant factors, such as cost of operation, reasonable profit, and the rates charged by any other carriers, as well as the characteris-

tics of each service.

b) The rates to be charged by the air carriers of either Contracting Party between points in the territory of the United States and points in Brazilian territory referred to in the attached Schedules shall, consistent with the provisions of the present Agreement and its Annex, be subject to the approval of the aeronautical authorities of the Contracting Parties, who shall act in accordance with their obligations under the present Annex, within the limits of their legal powers.

c) Any rate proposed by the air carrier of carriers of either Contracting Party shall be filed with the aeronautical authorities of both Contracting Parties at least thirty days before the proposed date of introduction; provided that this period of thirty days may be reduced in particular cases if so agreed by the aeronautical authorities of both Contracting Parties. Filing of proposed rates.

d) The Civil Aeronautics Board of the United States having approved the traffic conference machinery of the International Air Transport Association (hereinafter called IATA), for a period of one year beginning in February 1946, any rate agreements concluded through this machinery during this period and involving United States air carriers will be subject to approval of the Board. Rate agreements concluded through this machinery may also be required to be subject to the approval of the aeronautical authorities of the United States of Brazil pursuant to the principles enunciated in paragraph (b) above. IATA.

e) The Contracting Parties agree that the procedure described in paragraphs (f), (g) and (h) of this Section shall apply

1 - If during the period of the Civil Aeronautics Board's approval of the IATA traffic conference machinery, either any specific rate agreement is not approved, within a reasonable time by either Contracting Party or a conference of IATA is unable to agree on a rate, or

2 - at any time no IATA machinery is applicable, or

3 - if either Contracting Party at any time withdraws or fails

to renew its approval of that of the IATA traffic conference machinery relevant to this Section.

Prevention of unfair or uneconomic rates.

f) In the event that power is conferred by law upon the aeronautical authorities of the United States to fix fair and economic rates for the transport of persons and property by air on international services and to suspend proposed rates in a manner comparable to that in which the Civil Aeronautics Board at present is empowered to act with respect to such rates for the transport of persons and property by air within the United States, each of the Contracting Parties shall thereafter exercise its authority in such manner as to prevent any rate or rates proposed by one of its carriers of services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party from becoming effective, if in the judgement of the aeronautical authorities of the Contracting Party whose air carrier or carriers is or are proposing such rate, that rate is unfair or uneconomic.

Notice of dissatisfaction with proposed rate.

If one of the Contracting Parties on receipt of the notification referred to in paragraph (c) above is disatisfied with the rate proposed by the air carrier or carriers of the other Contracting Party, it shall so notify the other Contracting Party prior to the expiry of the first fifteen of the thirty days referred, to, and the Contracting Parties shall endeavour to reach agreement on the appropriate rate.

In the event that such agreement is reached, each Contracting Party will exercise its best efforts to put such rate into effect as regards its air carrier or air carriers.

Rate effective provisionally.

If agreement has not been reached at the end of the thirty day period referred to in paragraph (c) above, the proposed rate may, unless the aeronautical authorities of the country of the air carrier concerned see fit to suspend its application, go into effect

provisionally pending the settlement of any dispute in accordance with the procedure outlined in paragraph (h) below.

g) Prior to the time when such power may be conferred by law upon the aeronautical authorities of the United States, if one of the Contracting Parties is dissatisfied with any rate proposed by the air carrier or carriers of either Contracting Party for services from the territory of one Contracting Party to a point or points in the territory of the other Contracting Party, it shall so notify the other prior to the expiry of the first fifteen of the thirty day period referred to in paragraph (c) above, and the Contracting Parties shall endeavour to reach agreement on the appropriate rate.

In the event that such agreement is reached each Contracting Party will use its best efforts to cause such agreed rate to be put into effect by its air carrier or carriers.

It is recognized that if no such agreement can be reached prior to the expiry of such thirty days, the Contracting Party raising the objection to the rate may take such steps as it may consider necessary to prevent the inauguration or continuation of the service in question at the rate complained of.

h) When in any case under paragraph (f) and (g) above the aeronautical authorities of the two Contracting Parties cannot agree within a reasonable time upon the appropriate rate after consultation initiated by the complaint of one Contracting Party concerning the proposed rate or an existing rate of the air carrier or carriers of the other Contracting Party, upon the request of either, both Contracting Parties shall submit the question to the Provisional International Civil Aviation Organization or its successor for an advisory report, and each Party will use its best efforts under the powers available to it to put into effect the opinion expressed in such report. Advisory report.

SECTION VIII.

Changes in routes.

Changes made by either Contracting Party in the routes described in the Schedules attached except those which change the points served by these airlines in the territory of the other Contracting Party shall not be considered as modifications of the Annex. The aeronautical authorities of either Contracting Party may therefore proceed unilaterally to make such changes, provided, however, that notice of any change is given without delay to the aeronautical authorities of the other Contracting Party.

Post, pp. 4156, 4158.

If such other aeronautical authorities find that, having regard to the principles set forth in Section V of the present Annex, interests of their air carrier or carriers are prejudiced by the carriage by the air carrier or carriers of the First Contracting Party of traffic between the territory of the second Contracting Party and the new point in the territory of a third country, the authorities of the two Contracting Parties shall consult with a view to arriving at a satisfactory agreement.

Ante, p. 4139.

SECTION IX.

Exchange of information.

After the present Agreement comes into force, the aeronautical authorities of both Contracting Parties will exchange information as promptly as possible concerning the authorizations extended to their respective air carriers to be designated to render service on the route mentioned in the annexed schedules or any part thereof. This will specially include copies of authorizations granted together with such modifications as may occur and any annexes.

A N E X O

SECÇÃO I.

O Govêrno dos Estados Unidos do Brasil concede ao Govêrno dos Estados Unidos da América o direito de assegurar, por intermédio de uma ou várias empresas americanas de transporte aéreo indicadas por êste último Govêrno, serviços aéreos nas rotas (mencionadas no quadro I anexo) que atravessam ou servem o território brasileiro.

SECÇÃO II.

O Govêrno dos Estados Unidos da América concede ao Govêrno dos Estados Unidos do Brasil o direito de assegurar, por intermédio de uma ou várias empresas brasileiras de transporte aéreo indicadas por êste último Govêrno, serviços aéreos nas rotas (mencionadas no quadro II anexo) que atravessam ou servem território americano.

SECÇÃO III.

A emprêsa ou empresas de transportes aéreos indicadas por uma das Partes Contratantes segundo as disposições do Acôrdo gozarão no território da outra Parte Contratante, nos pontos enumerados e em cada uma das rotas descritas nos quadros anexos, do direito de trânsito, de escalas para fins não comerciais e do direito de desembarcar e embarcar tráfico internacional de passageiros, cargas e malas postais em todos os aeroportos abertos ao tráfego internacional.

SECÇÃO IV.

As autoridades aeronáuticas competentes das Partes Contratantes consultar-se-ão de quando em quando, ou a pedido de uma delas,

a fim de determinar até que ponto os princípios enunciados na Secção V, infra, estão sendo observados pelas empresas aéreas indicadas pelas Partes Contratantes, de modo a evitar que uma proporção injusta de tráfico seja desviada de qualquer das empresas indicadas, em virtude de violação de um princípio ou princípios enunciados em qualquer parte dêste Acôrdo, de seu Anexo ou do Protocolo de Assinatura.

SECÇÃO V.

Fica entendido entre as Partes Contratantes:

a) que as capacidades de transporte oferecidas pelas empresas dos dois países deverão ser adaptadas à procura do tráfico;

b) que as empresas dos dois países deverão tomar em consideração, nos percursos comuns, os seus interêsses mútuos, a fim de não afetarem indevidamente os seus respectivos serviços;

c) que os serviços explorados por uma emprêsa aérea indicada segundo os termos dêste Acôrdo e seu Anexo terão por objetivo principal oferecer uma capacidade correspondente à procura de tráfico entre o país a que pertence a emprêsa e o país a que se destina o tráfico;

d) que o direito de embarcar e desembarcar, nos pontos e rotas especificados, tráfico internacional com destino a ou proveniente de terceiros países será exercido em conformidade com os princípios gerais do desenvolvimento ordenado do transporte aéreo aceitos pelos dois Governos, de modo que a capacidade seja adaptada:

1 - à procura de tráfico entre o país de origem e os países de destino;

2 - às exigências de uma exploração econômica dos serviços considerados; e

3 - à procura de tráfico existente nas regiões atravessadas, respeitados os interêsses dos serviços locais e regionais.

SECÇÃO VI.

Fica entendido entre as Partes Contratantes que, onde se justificar, em razão de economia de exploração dos serviços, a realização de tráfego, além de determinado ponto da rota, por aeronave de capacidade diferente da empregada no trecho anterior da mesma rota (doravante denominada "mudança de bitola") e onde essa mudança de bitola fôr feita num ponto do território dos Estados Unidos da América ou dos Estados Unidos do Brasil, a aeronave menor funcionará somente em conexão com a aeronave maior que chegar ao ponto de mudança, de forma a estabelecer um serviço conjugado que aguardará assim, normalmente, a chegada da aeronave maior para o fim principal de levar além, na aeronave menor, até seu último destino, os passageiros que viajarem até o território dos Estados Unidos da América ou dos Estados Unidos do Brasil na aeronave maior.

Fica igualmente entendido que a capacidade da aeronave menor será determinada principalmente em função do tráfego em trânsito na aeronave maior que exigir normalmente ser transportado para além. Quando existirem vagas na aeronave menor, tais vagas poderão ser preenchidas com passageiros dos Estados Unidos da América e dos Estados Unidos do Brasil, respectivamente, sem prejuizo do tráfego local e excluida a cabotagem.

SECÇÃO VII.

a) A fixação de tarifas, de conformidade com o disposto nos parágrafos seguintes, deverá ser feita em niveis razoáveis, devendo ser levados em devida consideração todos os fatores relevantes, tais como o custo de exploração, lucros razoáveis, as tarifas cobradas pelas outras empresas, assim como as características apresentadas em cada serviço;

b) As tarifas a serem cobradas pelas empresas aéreas de ca

da uma das Partes Contratantes entre pontos no território dos Estados Unidos da América e pontos no território dos Estados Unidos do Brasil, mencionados nos quadros anexos, deverão ser submetidos, de conformidade com as disposições do presente Acôrdo e de seu Anexo, à aprovação das autoridades aeronáuticas de cada uma das Partes Contratantes, as quais agirão segundo as obrigações que resultarem do presente Anexo, dentro dos limites de seus poderes legais;

c) Qualquer tarifa proposta pela emprêsa ou empresas de cada uma das Partes Contratantes deverá ser submetida às autoridades aeronáuticas das duas Partes Contratantes no mínimo trinta dias antes da data prevista para sua vigência; ficando entendido que êsse período de trinta dias poderá ser reduzido em casos especiais se assim fôr acordado pelas autoridades aeronáuticas de ambas as Partes Contratantes;

d) O "Civil Aeronautics Board" dos Estados Unidos da América, tendo aprovado pelo prazo de um ano, a começar em fevereiro de 1946, o mecanismo da conferência de tráfego da "Associação Internacional de Transportes Aéreos" (doravante denominada I.A.T.A.), os acordos sôbre tarifas concluídos segundo aquêle mecanismo durante o aludido prazo e que interessem às empresas aéreas dos Estados Unidos da América, serão submetidos à aprovação do aludido "Civil Aeronautics Board". Os acordos sôbre tarifas concluídos por intermédio do referido mecanismo poderão igualmente ser submetido à exigência de aprovação pelas autoridades aeronáuticas dos Estados Unidos do Brasil, por fôrça dos princípios enunciados no parágrafo h, supra;

e) As Partes Contratantes acordam que o processo previsto nos parágrafos f, g e h da presente secção será aplicável:

1 - quando, durante o prazo da aprovação do "Civil Aeronautics Board" ao mecanismo das conferências de tráfego da I.A.T.A., um dado acôrdo sôbre tarifas não fôr aprovado dentro de um período razoável de tempo,

por qualquer das Partes Contratantes, ou, ainda, quando uma conferência da I.A.T.A. não puder estabelecer uma tarifa, ou

2 - quando, em qualquer tempo, nenhum mecanismo da I.A.T.A. fôr aplicável, ou

3 - quando, em qualquer tempo, uma ou outra das Partes Contratantes retirar ou abstiver-se de renovar sua aprovação àquela parte do mecanismo das conferências de tráfego da I.A.T.A. concernentes à presente secção.

f) Se as autoridades aeronáuticas dos Estados Unidos da América forem investidas de poder legal para fixar as tarifas justas e econômicas para o transporte aéreo internacional de pessoas e coisas, assim como de suspender as tarifas propostas, como o "Civil Aeronautics Board" está atualmente habilitado a fazer no que concerne tais tarifas no interior dos Estados Unidos da América, cada uma das Partes Contratantes exercerá posteriormente sua autoridade de modo a impedir que se aplique qualquer tarifa proposta por uma de suas empresas para os serviços entre o território de uma das Partes Contratantes e o da outra, se, na opinião das autoridades aeronáuticas da Parte Contratante cuja emprêsa propõe uma tal tarifa, a referida tarifa não é justa ou econômica.

Se uma das Partes Contratantes, depois de recebida a notificação prevista no parágrafo c, supra, não aprovar a tarifa proposta por uma emprêsa da outra Parte Contratante antes da expiração da metade do prazo de trinta dias previsto, dará ciência dêsse fato à outra Parte Contratante antes de terminados os primeiros quinze dias do período de trinta dias acima aludido, e as Partes Contratantes envidarão esforços para chegar a um acôrdo sôbre a tarifa conveniente.

Se fôr alcançado tal acôrdo, cada Parte Contratante empregará seus melhores esforços para que seja posta em vigor a referida tarifa por sua emprêsa ou empresas.

Se não fôr alcançado acôrdo ao fim do período dos trin-

ta dias previstos no parágrafo c, supra, a tarifa proposta poderá ser posta em vigor, a título provisório, até a solução da disputa segundo o processo definido no parágrafo h infra, a menos que as autoridades aeronáuticas do país a que pertencer a emprêsa interessada não julguem dever suspender a aplicação da dita tarifa.

g) Enquanto as autoridades aeronáuticas dos Estados Unidos da América não dispuzerem de tais poderes legais, se uma das Partes Contratantes não aprovar uma tarifa proposta por uma emprêsa ou empresas de uma ou de outra Parte Contratante para serviços entre o território de uma das Partes Contratantes e o da outra, a referida Parte Contratante dará ciência à outra, antes do fim da metade do prazo de trinta dias previsto no parágrafo c, supra, e as Partes Contratantes envidarão esforços para chegar a um acôrdo sôbre a tarifa conveniente.

Se fôr alcançado tal acôrdo, cada uma das Partes Contratantes empregará seus melhores esforços para que seja posta em vigor a referida tarifa por sua emprêsa ou empresas.

Fica entendido que, se um tal acôrdo não puder ser alcançado antes da expiração dos referidos trinta dias, a Parte Contratante que levantar objeções à tarifa poderá tomar a medida que julgar necessário para o fim de impedir a inauguração ou manutenção do serviço em questão à tarifa discutida.

h) Caso o processo de consultas definido nos parágrafos f e g supra não vier a resultar, dentro de um prazo razoável, num acôrdo entre as autoridades aeronáuticas das duas Partes Contratantes relativamente a uma tarifa conveniente, a disputa será submetida, por solicitação de uma ou de outra das Partes Contratantes, ao parecer consultivo da Organização Provisória de Aviação Civil Internacional, ou do órgão que a suceder, e as Partes Contratantes envidarão os seus melhores esforços, nos limites dos pode-

res ao seu alcance, para por em execução a opinião que emitir aquêle órgão internacional.

SECÇÃO VIII.

Quaisquer modificações feitas por uma das Partes Contratantes nas rotas mencionadas nos quadros anexos, excetuadas as que alterarem os pontos servidos no território da outra Parte Contratante, não serão consideradas como alterações do Anexo. As autoridades aeronáuticas de cada uma das Partes Contratantes poderão, por conseguinte, proceder unilateralmente a uma tal modificação, desde que, porém, sejam disto notificadas, sem demora, as autoridades aeronáuticas da outra Parte Contratante.

Se estas últimas julgarem, tidos em consideração os princípios enunciados na Secção V do presente Anexo, que os interêsses de suas empresas nacionais são prejudicados pelas empresas do outro país, por já estar assegurado o tráfego entre o seu próprio território e a nova escala em terceiro país, as autoridades de ambas as Partes Contratantes consultar-se-ão a fim de chegar a um acôrdo satisfatório.

SECÇÃO IX.

Depois de entrar em vigor o presente Acôrdo, as autoridades aeronáuticas das duas Partes Contratantes deverão comunicar uma à outra, tão cedo quanto possível, as informações concernentes às autorizações dadas à sua ou às suas empresas indicadas para explorar as linhas mencionadas nos quadros anexos ou em trechos das referidas linhas. Estas informações incluirão especialmente cópia das autorizações concedidas, acompanhadas de eventuais modificações e documentos anexos.

PROTOCOL OF SIGNATURE

Points of agreement.

Ante, p. 4121.

It appeared in the course of negotiations leading up to the conclusion of the Agreement on air services between the United States of America and the United States of Brazil signed at Rio de Janeiro today that the representatives of the two Contracting Parties were in agreement on the following points:

Equal opportunity for operation of routes.

Ante, p. 4138.

1 - The air carriers of the two Contracting Parties operating on the routes described in the Annex of said Agreement shall enjoy fair and equal opportunity for the operation of the said routes.

2 - When it is verified to be temporarily impossible for the carrier or carriers of one of the Contracting Parties, on a route, to take equal advantage of the opportunities referred to in 1, above, the situation thus arising will be mutually examined by both Governments for the purpose of assisting the said carrier or carriers to increasingly participate in the services contemplated on a fair and equitable basis.

Determination of tariffs.

3 - It is recognized that the determination of tariffs to be applied by an air carrier of one Contracting Party between the territory of the other Contracting Party and a third country is a complex question, the overall solution of which cannot be sought through consultation between only two countries. It is noted, furthermore, that the method of determining such tariffs is now being studied by the Provisional International Civil Aviation Organization. It is understood under these circumstances:

a) - That, pending the acceptance by both parties of any recommendations which the Provisional International Civil Aviation Organization may make after its study of this matter, such tariffs shall be subject to consideration under the provisions of Section V (b) of the Annex to the

Ante, p. 4139.

Agreement.

b) - That in case the Provisional International Civil Aviation Organization fails to establish a means of determining such rates satisfactory to both Contracting Parties, the consultation provided for in Article VIII of the Agreement shall be in order.

Ante, p. 4130.

PROTOCOLO DE ASSINATURA

No curso das negociações que terminaram com a assinatura do Acôrdo relativo aos serviços aéreos entre o território dos Estados Unidos da América e o dos Estados Unidos do Brasil, firmado na cidade do Rio de Janeiro em data de hoje, os representantes das duas Partes Contratantes mostraram-se de acôrdo sôbre os seguintes pontos:

1 - As emprêsas aéreas das duas Partes Contratantes que forem indicadas para as linhas mencionadas no Anexo do referido Acôrdo devem estar em condições de gozar de oportunidade igual e equitativa para a exploração das referidas linhas.

2 - Quando se verificar temporàriamente numa rota a impossibilidade por parte da emprêsa ou emprêsas aéreas de uma das Partes Contratantes de gozar da igualdade de oportunidade referida em 1, supra, a situação assim surgida será examinada por ambos os Governos para que auxiliem a referida emprêsa ou emprêsas permitindo-lhes progressivamente uma participação justa e equitativa nos serviços considerados.

3 - Foi reconhecido que a fixação de tarifas a serem aplicadas pela emprêsa ou emprêsas de uma das Partes Contratantes entre o território da outra Parte Contratante e um terceiro país é um assunto complexo, cuja solução de conjunto não poderá ser encontrada por consulta unicamente entre dois países. Foi observado, além disto, que as condições para fixação das referidas tarifas está sendo objeto de estudo pela Organização Internacional Provisória de Aviação Civil. Nessas condições, ficou entendido:

a) - Que, pendendo a aceitação por ambas as Partes Contratantes das recomendações que a Organização Internacional Provisória de Aviação Civil possa fazer em conclusão de seus trabalhos sôbre o assunto, tais ta-

tarifas serão apreciadas em função das disposições da Secção V, b do Anexo ao Acôrdo;

b) - Que, não conseguindo a Organização Internacional Provisória de Aviação Civil estabelecer as condições para fixação das referidas tarifas, a contento das duas Partes Contratantes, poderá ter lugar a consulta prevista no Artigo VIII do Acôrdo.

AMERICAN ROUTES TO BRAZIL AND ACROSS BRAZILIAN TERRITORY

Part 1. TO BRAZIL:

a) From the United States of America, via intermediate points in the Caribbean, South America, to Manaus-Goiania and Rio de Janeiro or São Paulo; in both directions.

Remark:- While the route Manaus-Goiania-Rio de Janeiro is not ready for international operation, it will be replaced by the following route: "From the United States of America, via intermediate points in the West Coast of South America, to Campo Grande, São Paulo and Rio de Janeiro; in both directions."

Part 2. ACROSS BRAZIL:

a) From the United States of America, via intermediate points in the Caribbean and South America, to Belém, Natal and beyond to Africa; in both directions. (In the event meteorological conditions in the North Atlantic so require, this route may be used also to Europe).

POSTAL CONVENTION
BETWEEN
THE UNITED STATES OF AMERICA
AND
THE REPUBLIC OF THE PHILIPPINES

POSTAL CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND THE REPUBLIC OF THE PHILIPPINES

For the purpose of making postal arrangements between the United States of America and the Republic of the Philippines, the undersigned, Robert E. Hannegan, Postmaster General of the United States of America and R. Nepomuceno, Secretary of Public Works and Communications of the Republic of the Philippines, by virtue of authority vested in them by law, have agreed upon the following articles:

Article 1

Articles subject to provisions of Convention.

(a) The provisions of this Convention will apply to letters, single and reply-paid post cards, prints of all kinds including printed matter for the blind and second-class matter, commercial papers, samples without value, and small packets, ordinary and registered, and to parcel-post packages, ordinary only. These articles will be subject to such regulations in the country of destination as that country may deem necessary to protect its customs revenue.

(b) The two Administrations advise each other, by means of the List of Prohibited Articles published by the International Bureau of the Universal Postal Union, of all prohibited articles. However, they do not on that account assume any responsibility towards the customs or police authorities or the sender.

If parcels wrongly admitted to the mails are neither returned to origin nor delivered to the addressee, the Administration of origin must be informed in a precise manner of the treatment accorded the parcel.

(c) The Administration of origin is entitled to collect from the sender of each parcel the postage and the fees for requests for information as to the disposal of a parcel made after it has been posted.

Except in the case of returned or redirected parcels, pre-payment of the postage and such of the fees mentioned in the preceding paragraph as are applicable, is compulsory.

(d) The weight limit for parcel-post packages shall be 44 pounds for parcels addressed for delivery in the United States and the whole of its possessions; the cities of Manila, Baguio, Iloilo, Cebu, Zamboanga and Davao, and the municipality of Tacloban in the province of Leyte, Philippines, and 11 pounds for parcels addressed for delivery in other points of the Philippines. Parcel post packages containing legal, educational, medical and scientific books up to 22 pounds (10 kilograms) in weight for provincial capitals and other cities in the Philippines may also be accepted for mailing in the United States. The dimensions shall be: Greatest combined length and girth, 6 feet.

Greatest length, 3½ feet, except that parcels may measure up to 4 feet in length, on condition that parcels over 42 and not over 44 inches in length do not exceed 24 inches in girth, parcels over 44 and not over 46 inches in length do not exceed 20 inches in girth, and parcels over 46 inches and up to 4 feet in length do not exceed 16 inches in girth.

The weight limits and dimensions for the other articles mentioned above under (a) as well as the postage rates and registration fees for such articles will be the same as are generally applicable from the United States of America to the countries of the Americo-Spanish Postal Union. In no case may the rates, fees, weight limits and dimensions or other provisions be less favorable, for the public, than those provided for by the Universal Postal Convention then in force.

(e) Except as required by the regulations of the country of destination for the collection of its customs duties, all admissible matter mailed in one country for the other, or received in one country from the other, shall be free from any detention or inspection whatever, and shall be forwarded by the most speedy means to its destination and be promptly delivered to the respective persons to whom it is addressed, being subject in its transmission to the laws and regulations of such country respectively.

Article 2

Fees collected on postal articles.

(a) Each Administration shall retain to its own use the whole of the postage and registration, or special delivery fees it collects on postal articles exchanged with the other, including deficient postage, but it is agreed that on packages sent at parcel post rates, the country of origin shall allow to the country of destination on the total excess number of parcel post packages dispatched over the number of such packages received, 30 cents for each parcel not over 11 pounds in weight and 60 cents for each parcel over 11 pounds in weight, settlement to be made quarterly in a general postal account between the two countries on the basis of the parcel bills.

The charges specified above may be reduced or increased on three months previous notice given by one country to the other. These reductions or increases shall hold good for at least one year.

(b) The charges to be paid for the transit of parcel post and air mail of one country by the services of the other country shall be fixed by the country whose services are utilized.

(c) The charges to be paid for the transit to a third country of articles in the regular mails of one country by the services of the other country shall be the transit charges, based on transit statistics, provided by the Universal Postal Convention then in force.

(d) In case of the total loss of a registered article originating in either country and addressed to the other, the maximum indemnity shall be the amount provided by the Universal Postal Union Convention in force from time to time.

(e) The special delivery fee to be levied and collected upon first class mail matter originating in either country and addressed to the other shall be twenty cents.

(f) Articles of every kind not prepaid or insufficiently prepaid, originating in either country and addressed to the other, shall be dealt with in accordance with the regulations prescribed by the Universal Postal Union Convention in force for unprepaid and insufficiently prepaid articles.

Article 3

Redirected parcel post packages.

In case a parcel post package is redirected from one address to another in the country of destination, it shall be subject to an additional charge for postage. The country of destination may, at its option, levy and collect from the addressee of a parcel post package for interior service and delivery, a charge, the amount of which is to be fixed according to its own regulations, but which shall in no case exceed five cents for each parcel regardless of weight. A customs clearance charge may also be collected on each parcel post package which may in no case exceed ten cents for each parcel.

Article 4

Exchange post offices.

(a) Exchanges of mails under this Convention shall be effected through the post offices of both countries designated as exchange post offices under such regulations relative to the details of the exchanges as may be mutually determined to be essential to the security and expedition of the mails and the protection of the customs revenues.

(b) Each country shall provide for and bear the expense of the conveyance of its mails to the other.

Article 5

Registration of correspondence.

(a) Any packet of mailable correspondence, with the exception of parcels prepaid at parcel post rates, may be registered upon payment of the rate of postage and the registration fee applicable thereto in the country of origin.

(b) An acknowledgment of the delivery of a registered article shall be returned to the sender when requested; but either country may require of the sender prepayment of a fee therefor not exceeding ten cents.

Article 6

Ordinary and registered exchanges shall be effected in properly closed sacks, under such regulations relative to the details of the exchanges as may be mutually determined to be essential.

If a registered article advised shall not be found in the mails by the receiving office, its absence shall be immediately reported by the receiving to the sending office.

Article 7

Prepayment on parcel post packages.

(a) All parcel post packages must be fully prepaid before dispatch. Parcels which are not delivered for any cause, shall be reciprocally returned without charge, through the appropriate exchange offices of the two countries, after the expiration of the period for their detention prescribed by the laws or regulations of the country of destination. Such parcels shall be liable on return to senders to a charge equal to

the amount required to fully prepay the postage thereon when originally mailed. Insufficiently prepaid articles in the regular mails shall be liable on return to senders to the charge for deficient postage that would have been collected from the addressees if said articles had been delivered.

Article 8

Dispatch of parcels.

(a) Parcel-post packages shall be dispatched in separate sacks from other articles.

(b) Parcel bills shall be prepared in duplicate for such parcels dispatched.

The duplicate is sent in the regular mails, while the original is inserted in one of the sacks. The sack containing the parcel bill is to be designated by the letter "F" on the label.

(c) The parcels included in each dispatch are to be entered on the bills to show the total number of parcels according to the following divisions of weight:

(1) not over 11 pounds
(2) over 11 pounds

(d) Parcels sent "a decouvert" must be entered separately on the bills.

Returned or redirected parcels must be entered individually on the bills and be followed by the word "Returned" or "Redirected".

(e) The total number of sacks comprising each dispatch must also be shown on the bills.

(f) Each dispatching exchange office numbers the bills in the upper left-hand corner in accordance with an annual series. The last number of the preceding year must be mentioned on the first bill of the following year.

(g) The exact method of advising parcels or the receptacles containing them sent by one Administration in transit through the other, together with any details of procedure in connection with the advice of such parcels or receptacles for which provision is not made in this Convention, shall be settled by mutual consent through correspondence between the two Administrations.

Article 9

Receipt of parcel post dispatch.

(a) On receipt of a dispatch of parcel post packages, the exchange office of destination proceeds to verify it. The entries in the parcel bill must be verified exactly. Each error or omission must be brought immediately to the knowledge of the dispatching exchange office by means of a bulletin of verification. A dispatch is considered as having been found in order in all regards when no bulletin of verification is made up.

If any error or irregularity which could give rise to liability for compensation is found upon receipt of a dispatch, all objects which may serve later on for investigations, or for examination of requests for indemnity, must be kept.

(b) The dispatching exchange office to which a bulletin of verification is sent returns it after having examined it and entered thereon its observations, if any. That bulletin is then attached to the parcel bills of the parcels to which it relates. Corrections made on a parcel bill which are not justified by supporting papers are considered as devoid of value.

(c) If necessary, the dispatching exchange office may also be advised by telegram, at the expense of the office sending such telegram.

(d) In case of shortage of a parcel bill, a duplicate is prepared, a copy of which it sent to the exchange office of origin of the dispatch.

(e) The office of exchange which receives from a corresponding office a parcel which is damaged or insufficiently packed must redispatch such parcel after repacking, if necessary, preserving the original packing as far as possible.

If the damage is such that the contents of the parcel may have been abstracted, the office must first officially open the parcel and verify its contents.

In either case, the weight of the parcel will be verified before and after repacking, and indicated on the wrapper of the parcel itself. That indication will be followed by the note "Repacked at . . . .", and the signature of the agents who have effected such repacking.

Article 10

All matters connected with the exchange of mails between the two countries, which are not herein provided for, shall be governed by the provisions of the Universal Postal Convention and Regulations then in force, so far as the provisions of such Universal Postal Convention and Regulations shall be obligatory upon both of the contracting parties, except as hereafter modified or changed.

Article 11

Changes and modifications.

The Postmaster General of the United States of America and the Secretary of Public Works and Communications of the Republic of the Philippines shall have authority to jointly make such further regulations of order and detail and to provide for such changes and modifications as may be found necessary to carry out the present Convention from time to time.

Article 12

Ratification.

This Convention shall be ratified [1] by the contracting countries in accordance with their respective laws, and its ratifications shall be

exchanged as early as possible. It shall take effect on a date [2] to be mutually decided on and shall continue in force until terminated by mutual agreement, or annulled at the instance of the Post Office Department of either country, upon six months previous notice given to the other. Effective date; duration.

Done in duplicate and signed at Manila, Philippines, the 17th day of September, 1947, and at Washington the 30th day of September, 1947.

Agreement between the United States of America and Austria respecting the settlement of certain war accounts and claims. Signed at Vienna June 21, 1947; entered into force June 21, 1947.

AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE FEDERAL GOVERNMENT OF AUSTRIA REGARDING SETTLEMENT FOR WAR ACCOUNTS AND CLAIMS INCIDENT TO THE OPERATIONS OF THE U. S. FORCES IN AUSTRIA DURING THE PERIOD 9 APRIL 1945 TO 30 JUNE 1947, INCLUSIVE

PREAMBLE

1. The Government of the United States of America and the Government of Austria have reached an understanding regarding the settlement for outstanding war accounts and claims incident to the operations of the United States Forces in Austria from the liberation of Austria on 9 April 1945 to 30 June 1947, inclusive. This agreement is in full, complete and final settlement, and the signatory governments agree that, except as herein specifically provided, no further benefits will be sought by either of them as consideration for the foregoing. In arriving at this understanding, the signatory governments have recognized the benefits accruing to each from the liberation of Austria on 9 April 1945, the early establishment of that economic security necessary for a lasting peace as well as the difficulties connected on each side with the keeping of detailed accounts and records during the period of and following actual combat operations of field armies.

Effective date for payment with U. S. dollar funds.

2. Effective 1 July 1947, rentals, facilities, goods, services, and schillings procured by the U. S. Occupational Forces stationed in Austria will be paid for with U. S. dollar funds.

ARTICLE I

Payment of prior obligations incurred by U.S. Forces in Austria.

3. The Government of the United States agrees to pay the sum of Three Hundred Eight Million Three Hundred Eighty Two Thousand Five Hundred Ninety Schillings (Sch 308,382,590) to the Austrian Government in full and final settlement of all obligations incurred by United States Forces, agencies (Public or Quasi-Public) together with forces of other nations operating under command of the U. S. Forces in Austria, during the period 9 April 1945 to 30 June 1947, inclusive.

4. The Austrian Government agrees to accept Three Hundred Eight Million Three Hundred Eighty Two Thousand Five Hundred Ninety Schillings in full, final and complete settlement and payment of all

claims which have arisen or may arise as a result of acts which occurred prior to 1 July 1947.

5. The word claims as used covers all claims and includes specifically but is not restricted to the following: Claims.

a. Claims for the loss, damage, destruction and use of property, whether real, personal, or mixed and for supplies, communication, transportation and other services, requisitioned, ordered and used, arising out of the exercise or purported exercise of belligerent, occupational or other rights and all other claims of any type whatever against the United States by the Austrian Government, nationals of Austria, or persons owning property in or residing in Austria.

b. Claims for rentals for real estate occupied during the period 9 April 1945 to 30 June 1947, inclusive.

c. Claims for cost of supplies and services of any type whatever, furnished during the aforesaid period to the Government of the United States and to individuals accredited to United States Forces in Austria.

d. Settlement in full for the completed and delivered portion of all contracts entered into by representatives of the Government of the United States with Austrian nationals or others owning property, rendering service or residing in Austria, entered into prior to 1 July 1947.

6. The Austrian Government guarantees the Government of the United States to adjudicate individual claims, pay to individuals and settle with individuals, both Austrian nationals and others owning property, rendering service or residing in Austria, and to guarantee full protection to the United States against any claims for services, supplies, and other obligations of whatever nature which occurred during the period 9 April 1945 to 1 July 1947.

7. The Austrian Government recognizes the validity and propriety of the payments made during the aforementioned period in schillings by the United States for obligations of whatsoever nature.

ARTICLE II

8. The Austrian Government agrees that nothing in this agreement is to be construed as settlement of, or in any manner or form as abrogating the terms of any loans made by any agency of the Government of the United States to the Austrian Government. The Austrian Government further agrees that nothing in this agreement is to be construed as modifying or abrogating the terms of any private agreements entered into by citizens or corporations of the United States with citizens or corporations of or residing in Austria, and will not be construed as changing in any manner whatever or abrogating any securities issued by the Austrian Government or corporations whose home office is in Austria. Loans made by agency of U. S. Government, etc.

ARTICLE III

9. The United States Forces in Austria will deliver to the Austrian Government all records, vouchers, etc. pertaining to the obligation Records pertaining to obligations, etc.

and claims of Austrian Governmental agencies, Austrian nationals, corporations, individuals residing in or owning property in Austria, and foreign and local corporations, remaining unpaid as of 1 July 1947.

10. The United States Forces in Austria will hold available for inspection by the Austrian Government, for a period of two years from the date of signing this agreement, all records pertaining to bills paid or claims settled by the United States Forces in Austria, with Austrian Governmental agencies, Austrian nationals, individuals residing in or owning property in Austria, including claims by or bills owing to foreign and local corporations and remaining unsettled as of 1 July 1947.

11. The Austrian Government will hold available for inspection by representatives of the Government of the United States, for a period of two years from the date of signing this agreement, all records pertaining to financial transactions, supplies, services, and personal services, furnished to the Government of the United States, during the period 9 April 1945 to 1 July 1947.

ARTICLE IV

Derequisitioned property, etc.

12. The Austrian Government further agrees that no amount will be charged to the United States Forces in Austria for any real properties, chattels appurtenant thereto or personal services in connection therewith which shall be derequisitioned and vacated by the United States Forces in Austria prior to 31 July 1947 or for any claims arising out of the termination of employment.

Official language of Agreement.

13. This English text in 4 pages including this one is agreed upon as the official language of this agreement, but a translation into German will be made.

Agreement between the United States of America and Austria respecting occupation costs of United States Forces in Austria. Signed at Vienna June 21, 1947; entered into force July 1, 1947.

June 21, 1947
[T.I.A.S. 1921]

AGREEMENT BETWEEN UNITED STATES FORCES IN AUSTRIA AND THE FEDERAL GOVERNMENT OF AUSTRIA

In order to assist the Government of Austria in the restoration of its economic life and the return of its democratic processes, the United States Forces in Austria hereby declares its policy in regard to the payment of Occupation Costs in Austria:

Payment in U. S. dollars.

Hereafter, the United States Forces in Austria will pay, in United States dollars, for all real estate and chattels appurtenant thereto, utility service, services, and supplies furnished for the maintenance of United States Forces in Austria.

To assist the United States Forces in Austria in the accomplishment of this objective, the Austrian Government hereby subscribes to the following procedures and agrees to furnish technical assistance necessary to implement the provisions stated below:

PAYMENT PROCEDURE:

1. Payment for real estate and chattels appurtenant thereto, utility service, services and supplies furnished will be made quarterly, or at such shorter intervals as may be deemed desirable by the United States Forces in Austria in American dollars by the United States Forces in Austria to the Austrian Government. The United States Forces in Austria will present vouchers quarterly or at such shorter intervals as may be deemed desirable by the United States Forces in Austria on all items furnished together with sufficient dollars at the agreed rate of exchange to cover the amount included in the vouchers, for which the Austrian Government will acknowledge receipt and make proper payment against the vouchers submitted and all claims arising under future agreements.

BASES FOR DETERMINATION OF RENTALS AND VALUES:

2. The rental value of real estate and chattels appurtenant thereto will be determined by adding (a) the annual furnished rental value in schillings of the real estate as determined by the Federal Ministry of Finance of the Austrian Government as of 1 June 1947, (b) estimated annual schilling cost of electricity, gas and water, (c) estimated annual schilling cost of such inspections and services as may be re-

quired by Austrian law and dividing the total in schillings by twelve to determine the monthly rate. This monthly schilling rate will be then computed in dollars at the agreed rate of exchange. In any case where the rental value of the real estate including (a), (b) and (c) above and chattels appurtenant thereto may not have been estimated as of 1 June 1947, the Federal Ministry of Finance agrees to establish not later than 31 July 1947 a value in accordance with practices and similar valuations in effect as of 1 June 1947.

3. The cost of public utility services, such as electricity, gas, and water, other than that which is included in rental agreements, will be in accordance with the rates in schillings prescribed by the Occupation Forces as of 1 June 1947.

4. The cost of personal services, other than that covered in rental agreements, will be in accordance with the wage rates in schillings prevailing at the time in the general locality where the services are performed and as may be negotiated with the appropriate officials.

5. The cost of supplies in Austria will be at prevailing prices which have been approved by the Office of Price Control of the Austrian Government.

6. The Austrian Government agrees to maintain properties required for use by the United States Forces in Austria in a condition acceptable to the Commanding General, United States Forces in Austria. If, however, lack of materials or of articles necessary for proper maintenance of such properties prevent the Austrian Government from fulfilling its obligation in this respect, the United States Forces in Austria may make the necessary repairs and deduct the cost of same from the accrued and accruing rentals.

ACCRUED OR PENDING CLAIMS

7. For various valuable considerations, receipt of which is acknowledged by the Austrian Government, the said Austrian Government hereby acknowledges and assumes full and complete responsibility for the adjudication and for the appropriate payment of all such claims against the United States arising out of the use by the United States Forces in Austria, of real estate in Austria, loss, damage to or destruction of fixtures and chattels appurtenant thereto; and loss, damage to or destruction of real, personal, and mixed property, as may have accrued during the period 9 April 1945 and 30 June 1947 inclusive as to both dates, without regard to the nationality of the person asserting the claim, thereby relieving the United States of all liability to receive, adjudicate and settle claims of that nature.

RESERVATIONS

8. The United States Forces in Austria reserves all right, title, and interest in fixtures which are the property of the United States Government and which have been installed in real estate heretofore

requisitioned, and in all fixtures hereafter installed and paid for by the United States Forces in Austria, except when the value of the same shall be charged against the rental of the property in which installed or included in a single payment settlement to the Austrian Government of outstanding obligations.

9. None of the terms or provisions of this instrument shall be interpreted or construed in such a manner as to limit or abrogate the rights and powers vested in the Commanding General, United States Forces in Austria, and the High Commissioner, whether or not the functions of those offices be combined in one and the same individual, under the Allied Control Agreement.

10. The Austrian Government agrees that, without the express consent of the Commanding General, United States Forces in Austria, or of the United States High Commissioner, no law it has heretofore enacted or may hereafter enact to ration and limit the use of electricity, gas, and water shall apply to the use thereof by the United States Forces in Austria, but that those utilities will be furnished, without restriction other than those imposed by an act of God, in accordance with paragraph 3 hereof.

11. The Austrian Government further agrees that during the presence in Austria of representatives of the United States in connection with the Occupation of Austria it will enter into agreements with any other United States Government agency now or hereafter requiring real estate and chattels appurtenant thereto, identical to this agreement unless more favorable terms are offered by the Government of Austria.

12. The Austrian Government hereby agrees that it will not cause nor permit the destruction, removal or exchange of any chattels, furniture, fixtures or accessories in real property the subject of this agreement or of agreements entered into between the agents of the Austrian Government and the United States Forces in Austria in conformity with this agreement.

13. This agreement shall be binding upon the parties hereto as of 1 July 1947 and until revised in whole or in part or abrogated by mutual agreement. Effective date.

14. The Austrian Government recognizes that after 1 July 1947 there will be need by the United States Government for Austrian schillings and to protect the United States, the Austrian Government agrees to repurchase from the United States Government upon presentation such schillings at a price not less favorable than the price the United States was required to pay for same. Such purchases by the United States will be made from the National Bank of Austria. Repurchase of Austrian schillings.

15. This English text in 4 pages, including this one, is agreed upon as the official language of this agreement, but a translation into German will be made. Official language of Agreement.

In witness whereof the parties hereto by their duly authorized representatives hereunto subscribe their names at Vienna, Austria, this 21st day of June, anno domini one thousand nine hundred and forty-seven.

Agreements between the United States of America and France respecting a mutual aid settlement. Signed at Washington May 28, 1946; entered into force May 28, 1946. And a declaration made in Paris by the President of the Provisional Government of the French Republic and in Washington by the President of the United States on May 28, 1946.

May 28, 1946
[T. I. A. S. 1928]

MEMORANDUM OF UNDERSTANDING BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC REGARDING SETTLEMENT FOR LEND-LEASE, RECIPROCAL AID, SURPLUS WAR PROPERTY, AND CLAIMS

1. The Government of the United States of America and the Provisional Government of the French Republic have reached an understanding for the final settlement of lend-lease and reciprocal aid, and of the French obligation to the United States Government under the military supply program (Plan A); the acquisition by the French Government of certain United States Army and Navy surplus property, including installations, located in France and certain French overseas territories, and for the final settlement of other financial claims of each Government against the other arising out of the conduct of the war. In arriving at this understanding both Governments have recognized the considerations expressed in Article VII of their Preliminary Agreement of February 28, 1945, on the principles applying to mutual aid, as well as the benefits accruing to each from the contributions of both to the defeat of their common enemies. In the light of the foregoing, both Governments agree that no further benefits will be sought as consideration for lend-lease and reciprocal aid.

59 Stat. 1306.

2. The net amount due from the French Government to the United States Government for the foregoing, including all indebtedness arising from provisions of the lend-lease and reciprocal aid agreements of February 28, 1945, is $720,000,000, made up in part of amounts now agreed upon and in part of estimated amounts subject to revision. The latter, for which the best available figures have been used pending their final determination by agreed accounting procedures, represent in the main transfers after September 1, 1945.

Net amount due from French Government.
Post, p. 4184.

3. The French Government will pay interest on the net amount due to the United States Government from July 1, 1946, at the rate of two percent per annum. Such interest payments will be made annually on the first day of July of each of the years 1947 to 1950, inclusive. Beginning on July 1, 1951, interest and principal will be paid in thirty (30) equal annual installments. Each installment shall consist of the full amount of the interest due for the year preceding the July 1 on which the payment is made, and the remainder of the installment

Payments.

shall be the principal due in that year. Nothing herein shall be construed to prevent the French Government from anticipating the payment of any of such installments, or of any part thereof. If, by agreement of both Governments, it is determined that because of extraordinary and adverse economic conditions arising during the course of payment, the payment of any installment would not be in the joint interest of both Governments, payment may be postponed for an agreed upon period.

To the extent that the terms of payment provided in this paragraph 3 are inconsistent with those contained in previous agreements, the provisions of this paragraph shall prevail.

U. S. troop pay and procurement.

4. The two Governments have agreed upon arrangements and procedures for the settlement of past and future troop pay and procurement of United States Armed Forces in France and French overseas territories.

Transfer of property and francs to U. S. Government.

5. As and when requested by the United States Government from time to time prior to January 1, 1950, the French Government will transfer to the United States Government real property to be mutually agreed upon and not to exceed a total dollar value of $15,000,000. In addition, the French Government will provide, at the request of the United States Government, francs representing an aggregate dollar value not in excess of $10,000,000. Any francs so transferred will be furnished at the exchange rate established in conformity with procedures of the International Monetary Fund, or if no such rate exists, at the rate used in official French Government transactions at the time of such transfer. The United States Government will use francs so transferred exclusively to acquire or improve real property for United States Government use or to carry out educational programs agreed between the two Governments.

Transfers made in accordance with this paragraph 5 will be credited first to interest then due and then to installments of principal in direct order of maturity.

Settlement of claims.

6. The two Governments have also agreed upon the following:

a) All claims and financial obligations between the two Governments arising out of the acquisition, operation, disposition or loss of French vessels and cargoes of such vessels while under United States control will be settled by the United States for $17,500,000 in accordance with the provisions of an agreement relating to the purchase by France of up to 75 Liberty ships.

b) Both Governments express their intention of entering into a maritime claims agreement, providing for the mutual waiver of intergovernmental claims arising from maritime accidents, and for the handling by each Government of claims asserted in its courts by its nationals against the other Government and based on maritime accidents occurring prior to November 1, 1945.

c) As part of the general settlement, the French Government has agreed to process and pay all unpaid claims of French residents

against the United States Government arising out of the use or infringement in war production of patent rights held by them, out of the requisitioning by the United States Government for use in the war program of any property interest owned by French residents, and out of acts or omissions prior to July 1, 1946, in France or French overseas territories of members of the United States Armed Forces or civilian personnel attached to such Forces.

d) During the course of the negotiations both Governments have reached agreement on the disposition of certain specific claims of one Government against the other. All other financial claims of either Government against the other, except where liability has heretofore been acknowledged and the method of computation agreed, which (1) arose out of lend-lease or reciprocal aid, or (2) otherwise arose on or after September 3, 1939, and prior to September 2, 1945, out of or incidental to the conduct of the war, not otherwise dealt with in this Memorandum of Understanding, are hereby waived.

e) Appropriate non-discriminatory treatment will be extended by the French Government to United States nationals in the use and disposition of installations in the building of which there has been a United States Government contribution and which are transferred under this settlement.

f) The United States Government reserves its right of recapture of any lend-lease articles held by the French Armed Forces, except petroleum products and an agreed list of non-combat aircraft. The United States Government has indicated that it does not intend to exercise generally this right of recapture, except that vessels of the United States Navy and lend-lease merchant vessels are to be returned to the United States Government unless otherwise agreed.

Post, p. 4195.

g) Disposals for military use to forces other than the French Armed Forces of lend-lease articles held on September 2, 1945, or received thereafter by the French Armed Forces, and disposals for civilian use other than in France and French overseas territories of such lend-lease articles, will be made only with the consent of the United States Government and any net proceeds will be paid to the United States Government. The French Government will not, except to a very limited extent, release for civilian use in, or export from, France and French overseas territories lend-lease articles held by the French Armed Forces.

Title to lend-lease and reciprocal aid articles.

h) Except as otherwise provided in this Memorandum of Understanding, the French Government and the United States Government receive full title to lend-lease and reciprocal aid articles respectively held as of September 2, 1945, or transferred thereafter. If any United States surplus installation not transferred under this Memorandum of Understanding contains a lend-lease interest, such lend-lease interest is retained by the United States.

Post, p. 4215.

i) The United States Government will undertake to make available to the French Government part of the United States Government's share of captured German and Japanese surface naval vessels when such vessels become excess to United States needs and are no longer needed for any task connected with the implementation of the German and Japanese surrenders.

7. The two Governments agree to conclude such specific agreements as may be necessary to implement this general understanding.

Effective date.

8. This Memorandum of Understanding will be effective upon signature, and instruments of ratification will be exchanged [1] as soon as possible.

AGREEMENT RELATING TO THE TRANSFER OF SURPLUS UNITED STATES ARMY AND NAVY PROPERTY AND INSTALLATIONS IN FRANCE AND CERTAIN FRENCH OVERSEAS TERRITORIES

In accordance with the Memorandum of Understanding regarding settlement for lend-lease, reciprocal aid, surplus war property and claims, dated May 28, 1946, and in partial consideration of the payment to be made thereunder by the Provisional Government of the French Republic to the Government of the United States, the two Governments have reached agreement for the transfer to the French Government of certain property which is surplus to the needs of the United States Armed Forces. This agreement has been made on the basis of the mutual advantages to be derived therefrom and in the expectation that the property transferable hereunder will provide substantial benefits to the French civilian economy.

Ante, p. 4175.

Acquisition by French Government of title to designated property.

1. The two Governments have agreed that the French Government shall acquire possession of and title to the following property on the terms and conditions set forth below:

a) All moveable articles of whatever description, except as set forth in paragraphs 2, 3 and 4 below, located in France and French North and West Africa which had been on May 25, 1946, or are thereafter declared to the Office of the Foreign Liquidation Commissioner, United States Department of State, as surplus to the needs and responsibilities of the United States War and Navy Departments.

b) All interests of the United States War and Navy Departments in installations (which term includes structures or capital assemblies affixed to land or buildings in a permanent manner) located in France and French North and West Africa where such interests have been or are hereafter declared to the Office of the Foreign Liquidation Commissioner as surplus to the needs and responsibilities of the War and Navy Departments.

c) All interests of the United States War and Navy Departments in certain items and installations, located at Noumea, New Caledonia, as listed by the representatives of the French Government in their Aide Memoire on the subject of the French Pacific Institute.

Exceptions.

2. Specifically excepted from the property to be transferred under this agreement are the following:

a) Non-demilitarized combat material, including ammunition.

b) Property located in France and French North and West Africa and under contract or commitment for sale from the Government of the United States to purchasers other than the French Government. Property shall be considered under contract or commitment for the purposes of this agreement if, prior to 12:00

Limitation of time for contract or commitment.

noon, Paris time, May 25, 1946, the Central Field Commissioners, Office of the Foreign Liquidation Commissioner, in Paris and in Cairo, had accepted a bid therefor or had arrived at a written or oral understanding which they regard as firm.

Transfer of air navigation facilities, etc.

3. Air navigation, Communication and Weather facilities installed in France and French Overseas territories will be transferred to the French Government under this agreement, subject to certain conditions to be covered by a separate agreement.

U. S. owned locomotives, etc.

4. In view of the current transportation situation in Europe, the greater part of United States owned locomotives and rolling stock in Europe have not yet been declared surplus, and it is not possible at this time to anticipate the date of such declaration. However, when such material is declared surplus, it is the intention of the Government of the U.S. to make available to the French Government, at prices to be mutually agreed, such quantities as may be allocated to France by the European Central Inland Transport Organization.

Property purchased from Office of Foreign Liquidation Commissioner.

5. All property heretofore purchased by the French Government from the Office of the Foreign Liquidation Commissioner, which had not been paid for as of May 25, 1946, is covered by this agreement and payment therefor is included in the amount to be paid by the French Government under the Memorandum of Understanding.

Custodial responsibility for designated property.

6. Title to and custodial responsibility for the property described in Paragraph 1 hereof shall pass to the French Government as soon as possible, in accordance with transfer procedures to be agreed between representatives of the Government of the United States and the French Government. The French Government is prepared to accept custodial responsibility promptly, and will arrange to relieve United States personnel of this responsibility at the earliest possible date.

Use of property by U. S. Army or Navy.

7. The French Government agrees that the procedure for the acquisition of the property described in paragraph 1 hereof will not operate to prevent the United States Army or Navy from consuming or continuing to use such property, prior to its turnover under this agreement, in connection with their respective needs and responsibilities. The two Governments agree, however, that if, for any reason, the consumption or use of such property by the United States Army or Navy is materially greater than that reasonably contemplated at the time of the execution of this agreement, so as unduly to reduce the quantity of the property transferred to the French Government hereunder, the two Governments will consult together to fix an appropriate adjustment in the price to be paid therefor.

Post, p. 4182.

Nonimportation of property into U. S.

8. The French Government will use its best endeavors to insure that property transferred pursuant to this agreement shall not be imported into the United States in the same or substantially the same form, if such property was originally produced in the United States and is readily identifiable as such, unless such property is to be imported into the United States on consignment to a person or firm in the United States for the purpose of reconditioning for re-export, or by a member of the United States Armed Forces for his personal use.

9. The French Government, when it disposes of or distributes property pursuant to this agreement, will use its best endeavors to avoid discrimination against the legitimate interests of the United States manufacturers of such property, or their agents or distributors. Members and veterans of the United States Armed Forces, United States Government Agencies, United States citizens and non-profit institutions, and UNRRA and the International Red Cross will be accorded an opportunity to buy the property transferred under this agreement on the same basis and at the same priority as accorded to other buyers of like character.

Nondiscrimination in distribution of property.

10. To the extent that the property transferred to the French Government under this agreement does not include the items listed in the "French Purchasing Program of United States Army Surplus" submitted to the Office of the Foreign Liquidation Commissioner by the French Council of Allied Surplus on May 7, 1946, and subsequently amended, it is understood that the Foreign Liquidation Commissioner will use his best efforts to make such items available to the French Government from surplus property located outside France and French North and West Africa at prices to be mutually agreed. The Foreign Liquidation Commissioner will also use his best efforts to arrange for the transportation of such property to France, the cost thereof to be borne by the French Government. If the property is transported in United States Government owned carriers, the charge for such transportation will be mutually agreed in advance.

Availability of items not included under agreement.

11. Floating equipment acquired under this agreement, with the exception of that listed in the Program referred to in Paragraph 10 above shall be distributed by the French Government in accordance with ECITO recommendations at prices not to exceed 50 per cent of original cost to the United States.

Distribution of floating equipment.

12. U. S. Army or Navy surplus property located in foreign areas hereafter sold by the United States to the French Government under the provisions of paragraphs 4 or 10 hereof or otherwise will be sold on the same credit terms and conditions as those set forth in the Memorandum of Understanding.

MAY 29, 1946

DEAR MONSIEUR BLUM:

Referring to the Agreement dated 28 May 1946, relating to the sale to your Government of United States Army and Navy surplus, this will confirm to you that the latest estimates which we have received from the Army with respect to the surplus property to be transferred under the agreement are as follows (at original cost):

Ante, p. 4179.

	"SURPLUS DECLARED"		"SURPLUS TO BE DECLARED
	(in millions of dollars)		
	FRANCE	FRENCH NORTH & WEST AFRICA	FRANCE
Army Service Forces			
Moveable Goods	749	25	469
Army Air Forces			
Moveable Goods	17	24	–
Fixed Installations	98	21	95
Total	864	70	564
TOTAL			1498
Estimated commitments			100
GRAND TOTAL			1398

For your further information, attached hereto as Schedule "A" through "C" [2] is a further breakdown of the above schedule.

As was pointed out to you during the negotiations, it is estimated that property representing an original cost of approximately $100,000,000 is already committed for sale to various purchasers, including France.

Of the following items, to which you have indicated that you attach unusual importance, the current Army estimates are:

Class 34–Machine tools and sets	30 millions
Class 67–Clothing	66 millions
Class 68–Footwear	9 millions
Class 69–Blankets//	0.5 millions

Ante, p. 4180.

In paragraph 7 of the Agreement, provision has been made for the continued use by the United States Army and Navy of property in France prior to its turnover under this Agreement. This provision is not intended to cover unusual or abnormal use or consumption. If for any reason, the use or consumption is materially greater than that now contemplated, it is envisaged that an appropriate adjustment

will be made in the amount to be paid by the French Government under the Agreement. It is not intended, however, that this provision will necessitate adjustment in the case of a minor excess or deficiency, which is to be expected in dealing with estimates of this magnitude.

We have taken note of the items listed in the "French Purchasing Program of United States Army Surplus" submitted to the Foreign Liquidation Commissioner by the French Council of Allied Surplus on May 7, 1946, and subsequently amended, (Schedule "D"). To the extent that these items are not transferred under the Agreement, the Foreign Liquidation Commissioner will use his best efforts to make such items available from surplus stocks in other parts of the world. These items will be made available at 20% of original cost. The Foreign Liquidation Commissioner will also use his best efforts to arrange for the transportation of such property to France, the cost thereof to be borne by the French Government.

It is also the intention of the Foreign Liquidation Commissioner to make available to the French Government such of its requirements for locomotives and rolling stoc, as may be available from surplus property and as may be allocated to France by the ECITO. These sales are not, however, covered by the understanding set forth in the preceding paragraph for the sale of certain items at 20% of original cost.

The Memorandum of Agreement provides for the termination of sales as of noon, Paris time, May 25, 1946. For your convenience, we will be glad to request Mr. Virden to communicate to the Conseil des Surplus information as to the property covered by contracts or commitments prior to that time. *Ante*, p. 4179.

Sincerely yours,

will be made in the amount to be paid by the French Government under the Agreement. It is not intended, however, that this provision will necessitate adjustment in the case of a minor excess or deficiency, which is to be expected in dealing with estimates of this magnitude.

We have taken note of the items listed in the "French Purchasing Program of United States Army Surplus" submitted to the Foreign Liquidation Commissioner by the French Council of Allied Surplus on May 7, 1946, and subsequently amended, (Schedule "D"). To the extent that these items are not transferred under the Agreement, the Foreign Liquidation Commissioner will use his best efforts to make such items available from surplus stocks in other parts of the world. charged to straight lend-lease instead of to the Crowley-Monnet account. This claim is allowed in the sum of $0.4 million.

4. Freight on Off-shore Goods. During the period of straight lend-lease to Metropolitan France, the French purchased for cash outside the United States goods which were transported to France on U.S. owned or controlled vessels, and are asked to pay the ocean freight in cash. The French request that these ocean freight charges be changed to a straight lend-lease basis. The U.S. side points out that ocean freight charges on goods not acquired under lend-lease have, as an operating matter, been furnished on a lend-lease basis infrequently and only under special circumstances. However, in view of the fact that the goods in question would have been eligible to lend-lease if acquired in the United States, and in view of the fact that French vessels being under the control of the U.S. or U.K. were not available to carry these goods, it is considered appropriate, as an incident of a general settlement, to allow this claim at $4 million to be reflected in net claims balance.

5. Miscellaneous Freights. The French have been billed cash for ocean freight in certain cases where they believe that the freight should have been furnished as straight lend-lease or on 3(c) terms. WSA reports that the items eligible for straight lend-lease have been refunded to the French out of lend-lease funds and that the items chargeable on a 3(c) basis will be so treated as an accounting matter so that they need not be considered as claims. The French have accordingly withdrawn this claim.

6. Coal. By agreement dated 25 August 1944, it was established that coal procured by the U. S. Military in Metropolitan France would not be furnished by the French as reciprocal aid, but would be replaced in kind or paid for by the United States. A study has been made of the transactions, and it is agreed that U.S. withdrawals up to VJ Day exceed by 150,000 tons replacement up to 31 December 1945. France requests settlement at $20 per ton, the approximate landed cost of coal actually purchased for cash by France in the United States to meet French coal deficiencies. The claim is allowed, to be settled by payment on the same basis as other pre-VJ Day procurement ineligible as reciprocal aid.

7. Other Short Supply Goods. The French have withdrawn this claim.

8. Price of Cotton. For cotton furnished on a cash reimbursable basis and on 3(c) credit, France has been billed the domestic price. France requests that the lower export price be used, and the U.S. side agrees to the principle. The claim is allowed. The Crowley-Monnet account should be reduced by $1.4 million and the 3(c) account by $11.2 million, to reflect the appropriate adjustment for cotton furnished on that basis. It is understood that this principle has been borne in mind in pricing cotton in inventory.

9. Price of Sugar. Similarly, France requests certain allowances for processing taxes and for drawback of customs duties on sugar exported to France and to French North Africa. These are cus-

tomarily arranged for on peacetime commercial exports, but the administrative requirements could not be complied with in the case of these shipments, and the allowances are therefore not reflected in the present billings. The claim is allowed; the Modus Vivendi account should be reduced by $7.4 million and the 3(c) account by $0.1 million.

10. Price of Locomotives. Seven hundred locomotives were transferred to France under Schedule II of the 3(c) Agreement, and are billed at a price of approximately $120,700 each, f.a.s. New York. The French contended that this charge was excessive, as they had purchased substantially similar locomotives privately for $110,500 each, f.o.b. plant. The U.S. side explained the computation of the charge, as follows (in approximate figures):

Cost of locomotives under War Department Contract –	$110,000
Army Transportation Corps charge for services, inspection, etc. (5%) –	5,500
War Department charge for handling, inland freight, etc. (10%) –	11,550
	127,050
Less 5% discount under 3(c) Agreement –	6,350
Price billed to French –	$120,700

The U.S. side further stated that the War Department charges of 5 and 10 percent were specifically imposed by War Department regulation. Upon this explanation, the French withdrew this claim.

11. Excise Taxes. There have been transferred to France, on cash reimbursement and on credit terms, goods subject to U.S. excise tax on domestic sales. These excise taxes are not payable on sales for export, but it was administratively impossible to follow the procedure prescribed by Treasury Department regulations for establishing the exemptions. However, as the fact of export is undisputed, France has requested that the excise tax be eliminated where it appears on the face of the invoice. The claim appears just in principle and the U.S. and French figures are in substantial agreement. The claim is approved for deduction of $0.13 million from Modus Vivendi account and $0.37 million from 3(c) account.

12. Petroleum Billing Procedure in North Africa. Petroleum delivered to the French in North Africa up to the middle of 1943 was billed on the basis of proceeds of sale. It was contemplated that after June 30, 1943, billings would be based on landed cost, and this was in fact done for products other than petroleum. However, petroleum has been billed on a proceeds-of-sale basis until September 30, 1943. The French contend that the three-month extension of this procedure for petroleum alone is without present justification, and claim $1.2 million as the difference in cost to them under the two methods. The claim is allowed at $1.2 million, to be deducted from Modus Vivendi and charged to straight lend-lease.

13. Price of Petroleum in North Africa. The French claim that the prices billed them for petroleum in North Africa from October 1, 1943, were well above current world prices. Explanation of the prices

charged has been given to the French by the Army-Navy Petroleum Board, showing that these were actual landed cost prices. The French have accordingly withdrawn this claim.

14. French Petroleum Deliveries to the North African Pool. 93,000 tons of French-owned petroleum were contributed to the North African pool through the British. The French claim derives from that of a private French company against which France will agree to indemnify the United States. The French felt that petroleum is a product in such short supply in French territory as not to be a subject of reciprocal aid, and they therefore claim for the full value of these petroleum deliveries. The U.S. side maintained that in view of the large volume of petroleum products furnished by the United States to France on a straight lend-lease basis, the United States should not be required to pay for the comparatively small amount of petroleum furnished to the pool by France, and that France's contributions to the pool must be treated in the same way as those of other members. The U.S. side therefore believed the French contribution should be considered as applied first against French military withdrawals, which considerably exceeded the tonnage of petroleum put into the pool by France. The claim was withdrawn.

15. Price of Rubber. It is agreed that the price charged to the French should be the same as that paid by the United States, subject to adjustment for accrued charges, etc. The U.S. side states that necessary revisions will be made as a routine accounting matter.

16. Missing or Damaged Goods. France has abandoned this claim.

17. Cost of Procurement. France has waived its claim for reduction of the 15% accessorial charge (to cover inland transportation, handling, etc.) on cash reimbursable and 3(c) goods.

Coal procured under "Q" requisitions.

However, with respect to coal procured under "Q" requisitions, the U.S. procuring agency requests reimbursement for actual expenses instead of adding 15% to the purchase price. The French point out that the 15% charge is an average designed to cover the overall procuring expenses on a group of commodities. If therefore actual cost of services is to be the rule for coal, the same rule should apply for all other commodities procured under "Q" requisition.

The U. S. side replies that 15% is clearly inadequate to cover accessorial charges in the case of coal and that coal constitutes $23 million of $62 million of "Q" requisitions. Application of the 15% rule could therefore result in a loss to the United States which no appropriations are available to cover. On the other hand a complete departure from such rule would create a precedent which would have to be extended to other countries and would greatly disturb the accounting procedure followed by the U. S. procuring agency.

While it seems that technically the accessorial charge should be consistent throughout, the French side recognizes the problem facing the American administration. Upon the request of the U. S. side, France has consented to withdraw this claim.

18. Petroleum delivered to Metropolitan France for Civilian Use from February 28 to September 2, 1945. The French request that

such of the petroleum delivered by the combined military supply agencies as was derived from U. S. sources be considered as delivered under the lend-lease agreement of February 28, 1945, rather than under Plan A. The French state that there was no Plan A target program for petroleum and that there was a substantial petroleum program under Schedule I of the lend-lease agreement, which would not be met unless this claim is allowed. The U. S. side replies that in fact these deliveries were made and have been recorded as Plan A deliveries under tripartite supply arrangements under which Great Britain and Canada also have rights. In the light of a satisfactory general settlement of Plan A, France withdraws the claim.

59 Stat. 1304.

59 Stat. 1309.

19. North African Petroleum Stockpile – November 1942. This French claim for compensation for petroleum taken over by the U. S. military at the time of the landings in 1942 is based on the same contention noted under 14 above, that petroleum is not a subject of reciprocal aid by France. The U. S. position is also the same, that the U. S. cannot pay the French for this stockpile when the U. S. has since that date furnished very much larger amounts of petroleum to the French on a straight lend-lease basis. France has withdrawn the claim.

U. S. CLAIMS

1. Maritime Claims (Knock-for-Knock). The United States has requested the French to enter into an agreement providing for mutual waiver of intergovernmental claims arising from maritime accidents, and for the handling by each country on a lend-lease and reverse lend-lease basis of claims asserted in its courts by its nationals against the other country. France consents to this principle. The draft of the agreement is still under consideration of both Governments. It is recommended that the agreement be completed and signed as soon as possible, and that, if this cannot be done before a general settlement, the general settlement contain a statement of intention to enter into an agreement covering the lend-lease period.

2. (a) Tort Claims. The United States has requested France to assume processing and payment of all presently unpaid claims against the United States, arising out of acts or omissions in France or French overseas territories of members of the United States Armed Forces or civilian personnel attached to such forces, including not only line-of-duty claims, but also off-duty claims of types previously handled by the United States. No claim is made with respect to such claims already paid by the United States. France agrees to assume this obligation as regards items arising from incidents prior to July 1, 1946.

(b) Patents. The United States War and Navy Departments have incurred obligations for patent royalties and possible infringement liabilities to French residents on United States patents used in war production, and France has been requested to assume this liability as a matter of reciprocal aid. France agrees to assume this obligation.

(c) Requisitioned Property. The United States requisitioned, for use in the war program, property located in the United States and

in which French residents had interests, thus incurring liability for payment of the fair value of the property interests requisitioned. France agrees to assume this liability.

(d) Information necessary to the processing of claims assumed by the French Government under this paragraph 2 will be furnished by the United States Government to the French Government on its request.

(e) France also agrees to waive all claims against the United States that the French Government may have with respect to matters described in this paragraph 2.

(f) In the net claims adjustment, an allowance will be made to France in the amount of $15 million in consideration of such of the obligations assumed by France under this paragraph 2 as are not the subject of reciprocal aid.

3. Charter Hire. Recommendations on this subject have been made by a separate combined Shipping Group.

4. Sugar Barter Agreement. The so-called "Sugar Agreement No. 2", dated August 1, 1944, between FEA, the French Supply Council, and Commodity Credit Corporation, provided that during the period August 1–December 31, 1944, CCC would furnish approved quantities of refined sugar to the French, would charge FEA's account for refined sugar furnished, and would report to FEA the quantities furnished, for settlement between FEA and the French under cash reimbursement lend-lease. On their side, the French undertook to furnish to CCC 107 pounds of raw sugar from Martinique and Guadaloupe for every 100 pounds of refined sugar furnished to the French, the value of this to be credited against shipments of refined sugar. In fact, the French failed to meet their commitment to the extent of 62,000 tons of raw sugar, and have advised the United States that they will not make such deliveries. CCC has purchased this amount of raw sugar in Cuba, at the higher Cuban price, resulting in an additional cost to CCC of $669,884.07. CCC has charged this sum to FEA account.

The United States claims that France is liable for this amount as consequential damages resulting from the failure of France to deliver raw sugar in accordance with the agreement. It is recommended that the claim be approved.

5. Diversions. The United States has requested France to include in the general settlement an allowance to cover claims arising out of retransfers or diversions of lend-lease articles by France, occurring in France and French overseas territories during the period from March 11, 1941, to September 1, 1945, inclusive, or out of exports during that period, for which the United States would be entitled to reimbursement. The claim is allowed at $1 million.

6. Price Clause Revision. Under the 3(c) Agreement France is entitled to a 5% reduction from the contract price of articles transferred. The original purpose of this provision was to give France the benefit of contract renegotiation recoveries by the United States procuring agencies. It is now believed that recoveries on contract

renegotiation average well under 5%. The United States has considered requesting a revision of the 3(c) Agreement to reflect this fact, but has withdrawn the claim in view of the French abandonment of their request to reduce the item of accessorial charges.

7. Ballast from North Africa. U. S. vessels carrying goods to North Africa returned in ballast furnished from French sources. Upon arrival in the United States the ballast was sometimes dumped and sometimes sold. The United States submits that this ballast should be regarded as reciprocal aid. The claim is allowed by France.

Aide-Mémoire on the subject of Plan A [1]

AIDE-MÉMOIRE

Waiver of U. S. share of combined bills.

In the course of the discussions between the representatives of your government and of the United States Government with regard to the settlement of war accounts between the two governments, consideration has been given to the possible methods of settlement for the United States share of the combined bills for civilian supplies furnished by the combined armies of the Allies for the civilian population of France. The Secretary of State informs His Excellency the Ambassador of the French Republic that, as a result of these discussions, the United States Government has decided that the most satisfactory method of accomplishing settlement for the United States share of the total combined bills being presented to the French Government would be to waive the United States share of the combined bills in connection with the overall settlement of war accounts between the United States and French Governments.

Conditions.

Since the Government of the United States has been committed by written agreements to participate on a combined basis with the United Kingdom and Canadian Governments in the collection of the total bill for these supplies and in the determination of the relative shares of each in the proceeds, it is necessary for this Government to stipulate the following prior conditions to effecting a waiver of the United States share of the combined bills:

That the French Government recognize that the settlement to be made with the United States Government in no way impairs the validity of the obligation of the French Government to the United Kingdom and Canadian Governments for their shares of the combined bills.

That the French Government currently establish a reserve of 10 percent of the combined bills at the time such bills are submitted, such reserve to be deducted from the United States share, and to be held in the name of the French Government in the Bank of France in funds convertible into sterling or Canadian dollars, or both, at rates to be agreed upon by the Government of France with the United Kingdom and Canadian Governments. This reserve will be payable to the United Kingdom and Canadian Governments to the extent and in such proportions of sterling and Canadian dollars as the United States, United Kingdom, and Canadian Governments may determine by combined agreement to be necessary in order to comply with the existing financial arrangements among the three supplying governments. Such remaining amounts of the reserve not so paid will revert to the free disposition of the French Government upon combined notification by the United States, United Kingdom, and Canadian Governments.

Upon notification by the French Government of their acceptance of the above-stated conditions, the United States Government will effect

[1] [No French language text.]

a waiver of its share of the combined bills in connection with the overall settlement of war accounts between the United States and French Governments.

In identic notes to your government dated April 10, 1946, the Governments of the United States, the United Kingdom, and Canada specified the proportions of the currencies in which payments were to be made for the bills presented to the French Government through December 31, 1945. The notes of April 10, 1946 will be superseded by a notification to the French Government by the three supplying governments of the amount of your government's obligation to the Governments of the United States, the United Kingdom, and Canada.

MEMORANDUM RELATING TO SHIPPING CLAIMS

The Government of the United States of America and the Provisional Government of the French Republic during the course of their negotiations on a lend-lease settlement have discussed all mutual shipping problems and shipping claims arising out of the acquisition, operation and disposition of French vessels under the control of the United States of America during the period from December 7, 1941 to May 1, 1946, and have agreed as follows:

Purchase of Liberty ships from U. S. Maritime Commission.

1. In full and complete satisfaction of any and all claims and financial obligations of one government against the other arising out of the requisition, use, repair, damage, loss, operation and redelivery of French vessels, the Government of the United States of America will deposit a sum of 17.5 million dollars with the United States Maritime Commission on behalf of the Provisional Government of the French Republic, which sum shall be applied against the purchase by the Provisional Government of the French Republic of up to 75 Liberty ships from the United States Maritime Commission under the terms of the Ship Sales Act, 1946.

60 Stat. 41.
50 U. S. C., app. §§ 1735–1746.

a. This sum will be applied by the United States Maritime Commission first to the down payment of the statutory sales price of the vessels at the time of their delivery as required by the Maritime Commission under its regulations; and secondly, any excess of funds remaining after the said down payment will be applied as payments on interest and annual installments as they become payable towards the amortization of the unpaid balance to the extent that such excess of funds are available.

b. The price and other terms of sale shall be mutually determined by the United States Maritime Commission and the Provisional Government of the French Republic in accordance with the Ship Sales Act of 1946.

c. The Provisional Government of the French Republic may make application for the purchase of additional ships from the United States Maritime Commission.

Waiver of designated financial claims.

2. All financial claims of one government against the other arising out of the loss of French vessels or their cargoes while said vessels were under the control of the Government of the United States of America are hereby waived.

Responsibility of Provisional Government for payment of designated claims.

The Provisional Government of the French Republic hereby assumes responsibility for the processing and payment of any claims now or hereafter made by any person, body or corporation who is or was or claims that he is or was at any time the owner of or who has or had or claims to have or to have had any rights in the rem against, or any beneficial interest in any of the French vessels under the control of the Government of the United States of America during the period referred to above or of any of the cargo on said vessels.

The Provisional Government of the French Republic agrees to indemnify and hold harmless the Government of the United States of America, its agents, servants or employees in respect of any such claim.

3. The arrangements set forth herein will be contingent upon mutually satisfactory settlement of all lend-lease and other war accounts; upon the availability, within the terms of such settlement, of 17.5 million dollars for deposit by the Government of the United States of America with the United States Maritime Commission; and upon the conclusion of an agreement for the purchase and sale of up to 75 Liberty ships referred to above between the United States Maritime Commission and the Provisional Government of the French Republic.

DEAR M. MONNET:

This will confirm my understanding with you as to the method by which, subject to the provisions of the special agreement relating to shipping claims dated May 28, 1946, the United States will establish with the United States Maritime Commission the credit of $17,500,000 in favor of the French Government. A sum of $17,500,000 will be drawn for this purpose from funds heretofore paid by the French Government to the Foreign Economic Administration but not taken into account in arriving at the net amount due the United States set forth in paragraph 2 of the Memorandum of Understanding signed today by our two Governments.

TROOP PAY AND MILITARY PROCUREMENT

The representatives of the Government of the United States of America and the representatives of the Provisional Government of the French Republic have accepted the recommendations contained in the joint United States–French Report of the Troop Pay and United States Armed Forces Procurement Subcommittee.

The aforementioned report, and the Memorandum of Agreement between the Government of the United States and the Provisional Government of the French Republic Regarding Expenditures of the United States Armed Forces in French Territory, contain the arrangements and procedures for the settlement of past and future troop pay and procurement of the United States Armed Forces referred to in paragraph 4 of the Memorandum of Understanding of this date between the Government of the United States and the Provisional Government of the French Republic Regarding Settlement for Lend-Lease, Reciprocal Aid, Surplus War Property and Claims.

REPORT OF TROOP PAY AND ARMED FORCES PROCUREMENT SUBCOMMITTEE [1]

1. The War Department has submitted the attached report (Memorandum I) showing the U.S. dollar liability to France for net troop pay as approximately $29 million and for open market procurement not eligible for reciprocal aid as approximately $2 million, both for the period from D-Day to December 26, 1945.

Post, p. 4200.

Net troop pay.

2. The net troop pay was small in amount because of the large volume of local currency returned to the Army by Army personnel and by others enjoying the privileges of the PX and other Army service organizations.

The detailed reasons explaining the modest amount of troop pay were discussed by the Subcommittee and are embodied in the attached memoranda by the War Department and the French representatives (Memoranda II and III).

Post, pp. 4201, 4203.

3. The French and U.S. representatives on the Subcommittee agree that the extremely small amount of U.S. dollar liability on troop pay account was a result far different from that which had been anticipated at the time when the financial agreements concerning lend-lease and civilian supplies were made with the French in 1943 and 1944.

[1] [No French language text.]

It was agreed by both sides of the Subcommittee that the small amount of U.S. dollar liability on troop pay account is a factor to be considered in making the over-all settlement of the war accounts.

Basis for settlement of troop pay account.

4. In view of the above, the French representatives on the Subcommittee have agreed to recommend that the War Department report (Memorandum I) be accepted as the basis for the settlement of the troop pay account as a part of the over-all war settlement.

Post, p. 4200.

U. S. Army procurement through AFA.

5. The French Government has estimated that U.S. Army procurement through the official French office of Aid to the Allied Forces (AFA) amounted, for the period from September 2, 1945, to December 26, 1945, to five billion francs, or approximately $100 million at the old rate of exchange. (See attached Memorandum IV.)

Post, p. 4204.

The U.S. liability to the French for procurement since December 26 has been estimated at $20 million to April 1, 1946.

Both the U.S. and French representatives on the Subcommittee concur in these estimates of U.S. Army procurement with the understanding that the actual dollar liability of the U.S. for such procurement will be determined on the basis of the French Government's presentation of appropriate documents in a form acceptable to the U.S. Army, as has been, or may be, agreed upon between the U.S. Army and the French authorities.

Conversion of francs.

6. The U.S. has a liability of $96 million for the francs in the possession of the U.S. Army after the date of conversion. The French have an obligation to convert into dollars any part of the francs not used, in accordance with the provisions of Paragraph 8(C) below.

7. Against the U.S. obligations the U.S. has advanced to the French on troop pay account $120 million. The net result, therefore, is as shown in the following table:

U.S. Liabilities to French

	(Millions of dollars)
1. Net troop pay for period up to Dec. 26, 1945 (at old rate of exchange).	29
2. Direct open market procurement prior to Dec. 26, 1945, not eligible for reciprocal aid	2
3. Procurement through French (AFA) from from Sept. 2 to Dec. 26, 1945	100
4. Estimated procurement from Dec. 26, 1945, to April 1, 1946	20
5. Francs acquired on Dec. 26, 1945 (at new rate of exchange)	96
TOTAL	247

French Liabilities to U.S.

1. Advances to French on troop pay	120
2. Obligation to convert into dollars excess francs held by Army	76–96 √
TOTAL	196–216
Net estimated U.S. liability to French	31–51

√ This estimate is based on the assumption that net troop pay between Dec. 26, 1945, and April 1, 1946, will not exceed $20 million.

8. Suggested procedure for settlement. In order to avoid difficulties with the over-certification of troop pay, it is recommended that the following procedure be adopted for the settlement of the cash accounts by the U.S. and French Governments:

(A) The U.S. Army will apply the over-certification of net troop pay dollars (approximately $91 million) and a small sum of additional dollars (approximately $7 million) to pay for the francs which the Army held on December 26 after the change of the rate of exchange (approximately $96 million) and non-reciprocal aid open-market procurement (approximately $2 million). For additional currency needs of the U.S. Armed Forces the U.S. will pay in dollars.

(B) The U.S. Army will pay the French Government for military procurement after September 2, 1945, either in dollars or by tendering the francs which it holds, to the extent that such holdings are in excess of its current needs for troop pay.

(C) The French Government will repurchase against dollars, at the rate at which they were sold to the Armed Forces, the francs presented by the U.S. Armed Forces, but in order to avoid net troop pay negative in amount, this obligation will be subject to the qualifications to be contained in a revised currency agreement.

(D) In order to minimize the transfer into dollars of francs now being held by the Army in excess of its current needs, practical steps will be taken for using these francs for the repayment of the U.S. Army liability for military procurement as estimated in paragraph 5 above.

9. The French have submitted a statement on the Mendes-France Agreement and a proposal for its liquidation (Memorandum V).

MEMORANDUM II

War Department Statement on the Major Reasons for the Modest Level of Net Troop Pay

1. The mechanical limitations of the official accounts, maintained strictly pursuant to US/UK/French currency agreement of 15 August 1944. Thus, U.S. Army monthly French franc Currency Reports reflect: Currency Reports.

   a. On the disbursements side, *only* French francs used for pay and allowances to U.S. military personnel and such civilians actually paid by the military establishment.

   b. On the receipts side, *all* cash collections taking in French francs for services rendered through all Army facilities (such as PX's, messes, clubs, canteens, salestores, commissaries, etc.) and administrative services rendered (such as personnel transfers, money orders, War/Savings bond purchases, currency conversions, etc.) not only for U.S. military personnel but also for the following groups, aggregating several hundred thousand individuals:

      (1) U.S. civilians, employed by other U.S. departments and agencies, obtaining francs from sources other than WD dollars and from other than U.S. Army disbursing officers;

      (2) Members of the military forces of the Allies, obtaining francs from the French Government itself and/or from non-dollar sources such as sterling, Belgian francs and other foreign currencies;

      (3) French civilians employed by or affiliated with the U.S. and Allied military establishments, obtaining francs directly from the French Government itself.

2. The U.S. Armed Forces' observance of the overall policies of the French Government designed to preserve to the maximum extent, and revive as rapidly as possible, their domestic economy after five years of Axis occupation. Domestic economy policies of French Government, observance by U. S. Armed Forces.

   a. Implementation by the U.S. Armed Forces of this basic French policy was predicated upon MEMORANDUM No. 11 "Relating to Currency" of 15 August 1944, and the "Memorandum of Agreement between Supreme Commander, Allied Expetitionary Forces,

and the Military Delegate under the Ordinance of 14th March 1944, of the French Committee of National Liberation;" Section IV, paragraph two thereof reading in part, ". . . . troops will be encouraged to make the maximum use of military canteens;" and paragraph three which reads, "Troops will be encouraged to reduce to a minimum their drawings on pay. Every effort will be made to induce them to invest." Accordingly, Allied troops were officially encouraged to spend a minimum in France.

b. Maintenance by the French Government of a 50 to 1 franc/dollar rate of exchange resulted in souvenir, gift and luxury item prices extremely unfavorable to military personnel; and U.S. troops, accordingly, could not spend freely. In addition, these luxury items were occasionally acquired in exchange for cigarettes, candy, soap, etc.

c. During Phase One (D–Day to VE–Day) general French hospitality minimized the need for military personnel to expend their own funds. Many comforts, local additions to unit messes and entertainment were provided by the French, either gratuitously or in exchange for eagerly sought items such as cigarettes, chocolate, soap, etc. General desire of French communities to show appreciation upon their liberation, provided units immediately behind the combat lines with many gratuitous goods and services.

d. Various French Ministries cooperated, from the liberation of Paris forward, with the Army Post Exchange system in order to increase production of French souvenir and gift items for sale to military personnel. The Post Exchange system imported into France to aid in this objective, millions of dollars worth of supplies and raw materials not available in France. Purchases by the Post Exchange system, from the proceeds of sales to the military, flowed freely into the French economy. This resulted, however, in additional U.S. drawn French francs remaining within, and non-dollar source French francs flowing into, the U.S. Army Post Exchanges.

e. During Phase Two (the redeployment period) the French Government actively negotiated with U.S. representatives in order to offset the difficult rate of exchange. Adjustment francs totalling 850 francs per man were issued monthly to those permanently stationed in France and to all U.S. military personnel arriving in France on leave, temporary duty, or upon redeployment. As pointed out to the French Government in June 1945, not being distinguishable from the pay and allowances drawn in francs, some of these adjustment francs flowed back into dollars in the form of cash collection as set forth in paragraph 1 b above. Tax exemption was given to the Post Exchange system on all of its ever increasing volume of French merchandise; and tax exemption was offered the individual American soldier under certain export conditions. Finally, there was inaugurated an extensive program of free tours, educational opportunities and special group entertainments.

All of the foregoing conditions described in a through e above reduced the need for American military personnel expenditures in the French local economy.

3. Extra-legal activities of military and civilian personnel in their relations with French citizens. The U.S. Armed Forces inaugurated currency control shortly after VE–Day and is continuously strengthening the control system. It should be noted: Extra-legal activities; currency control.

   a. The sale of U.S. Government property of material in short supply in France was eliminated by speedy joint action of military and civilian police. However, the seriousness of having French civilians participate in black market operations may not have been brought home as effectively as possible.

   b. The very understandable desire of French citizens for a few of life's material comforts provided a great temptation to all Allied personnel having access to Post Exchanges and Quartermaster stores.

   c. Although a premium over the official rate was consistently quoted for U.S. currency in the open market, owing to the very restricted availability of dollar notes in the lowest denominations sought by civilian operators, dealings of this nature were extremely limited.

   In any event, all of the foregoing types of transactions have resulted in a substantial "value received" on the part of the French population, and represent enhancement of the French economy for which a certain amount of dollars would have had to be spent.

MEMORANDUM III

MEMORANDUM

By the French Representatives on the amount of net troop pay

It is difficult to discover all the reasons why the amount of net troop pay was so low, because the accounting procedure agreed upon in London on August 25, 1944, does not appear to have been exactly followed.

Memorandum II by the War Department contains an accurate analysis of most of those reasons, and as a whole gives a fair story of what happened. *Ante*, p. 4201

It should be emphasized however that one of the main reasons for the low amount of the net troop pay is to be found in the fact that a very important quantity of U.S. Army supplies was sold for francs to the French population through various channels, and specially through sales by individual members of the American forces at black-market prices. Therefore the needs of the U.S. Armed Forces for French currency were covered to a large extent by francs obtained under conditions other than those foreseen at the time of the conclusion of the Agreement of August 25, 1944.

France has thereby lost an important source of dollars, amounting possibly to several hundred million dollars, which both American and French authorities had expected her to receive. This loss has been but slightly balanced by the advantages which resulted from the sale to the French population of various products, as those products were seldom essentials and were as a rule sold at abnormally high prices and distributed under conditions which have further upset the French economy.

MEMORANDUM IV

Statement of French Government on Estimate of Goods and Services Furnished to the U.S. Armed Forces between September 2 and December 26, 1945

According to French Government estimates, expenditures for the procurement of supplies, facilities and services for the U.S. Army in France between September 2, 1945 and December 26, 1945 amounted to 5,000,000,000 francs, that is approximately $100,000,000. This amount was calculated on the basis of the rate of expenditures by the French Government for reciprocal aid during the months that preceeded September 2, 1945, and corrected to take into account the reduction of American Army personnel during that period, as well as the decrease of their needs following the termination of military operations.

MEMORANDUM V

Statement by the French Representative on the application of the exchange of letters of May 29, 1944

Adjustment of dollars and francs for pay of troops.

1–According to the letter sent by Mr. Mendes-France to Mr. Morgenthau on May 29, 1944, the amount of dollars to be paid by the U.S. Government for the francs used for the pay of the troops should be equitably adjusted, giving particular consideration to the present rate of exchange.

The rate of 50 francs for 1 dollar which has been used as a basis for a provisional settlement should not be kept for a definite settlement, since it would be of too great disadvantage to the U.S. Government. On the other hand, the rate of about 120 francs for 1 dollar is still less to be considered as it would impose an undue burden on the French Government. It must be remembered that this latter rate has been set by the French Government with a view to leaving a margin for an eventual additional rise in French prices. Besides, it must be recalled that, at the time of the landing, French prices were much lower than they are now and that since then they have been steadily increasing. Taking into consideration these various considerations, it seems that an equitable adjustment for the net amount due for the pay of the troops could be made on the basis of 75 francs for 1 dollar.

Payment of supplies and services furnished by French Government.

2–As to the effect of Mr. Mendes-France's letter on the payment of supplies and services furnished by the French Government to the U.S. Army from Sept. 2 to Dec. 26, 1945, it might be discussed whether the wording and the spirit of the said letter cover such items. Without raising such a disucssion it should be observed that the billings made out for that period by the French Government to the American Government are computed on the basis of French official prices and tariffs, especially for wages and transportation. When said prices and tariffs are compared with the American prices and tariffs, it appears that the 50 franc rate would be more adequate for the supplies and services than for the pay of the troops. An adjustment, if desired, should be arrived at on the basis of a rate intermediary between 50 and 75 francs.

Amount owed by American Government.

3–As a whole, the American Government owes to the French Government, for the period preceding the change in the French rate of exchange, the equivalent in dollars of about 5 billion francs for supplies and services and, according to American figures, the equivalent in dollars of about 1.5 billion francs for the pay of the troops and other expenses non eligible as "reciprocal aid." These figures, at the rate of 50 francs for 1 dollar, correspond respectively to about $100 million and $30 million, i. e., a total amount of $130 million.

Moreover, the French Government has disbursed for the U.S. Army a further amount of about 2.8 billion francs for bonus and various facilities; therefore, the U.S. Army has received from the French Government, in cash or otherwise a total of 9.3 billion francs. If the American Government should pay 130 million dollars as a counterpart, it would correspond to an average rate of about 70 francs for 1 dollar for all the expenses of the American army.

Such a result would seem to realize the equitable adjustment contemplated in Mr. Mendes-France's letter.

MEMORANDUM OF AGREEMENT BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC REGARDING EXPENDITURES OF THE UNITED STATES ARMED FORCES IN FRANCE AND FRENCH OVERSEAS TERRITORIES

Use of French francs by Allied Forces.

By agreements entitled "Memorandum No. I, Relating to Administrative and Jurisdictional Questions" and annexes thereto, and "Memorandum No. II, Relating to Currency" initialed by representatives of the United States, British and French Governments on August 15, 1944, and signed in London by General Eisenhower and General Koenig on August 25, 1944, arrangements were made for the supply of French francs by the French Government to the Allied Forces and for the use of French francs by the Allied Forces.

By an agreement entitled "Memorandum Relating to Lend-Lease and Reciprocal Aid", dated August 15/25, 1944, and maintained in force by an exchange of letters between the two Governments on February 28, 1945, financial arrangements were made between United States and French authorities under which francs advanced by the French Government to the United States military forces and used by the latter for net pay of troops and procurement of goods and services and other expenditures not eligible for reciprocal aid were to be paid for by the United States Government in dollars.

59 Stat. 1304.

End of lend-lease and reciprocal aid.

By agreement reached in letters from Monnet to Clayton dated September 24, 1945 and from Clayton to Monnet dated October 31, 1945, reciprocal aid from France was considered as ending simultaneously with lend-lease aid from the United States to France, i.e., on September 2, 1945 at 00.01, with certain exceptions.

Settlement of French franc advances.

On December 26, 1945 the French Government changed the rate of exchange between the French franc and the United States dollar. On December 26, 1945, the United States Armed Forces returned to the Bank of France through book entry the total amount of official franc funds held by finance officers, and franc funds held by United States Armed Forces organizations and members of the United States Armed Forces. This return was effected in order to terminate and settle the French franc advances made by the French Government since D–Day. However, at the time of the repayment, the United States Armed Forces by book entries effected the withdrawal of the same amount of francs from the Bank of France.

Identification of agreements.

The agreements in the following list, which does not purport to be exclusive, are referred to for identification purposes only:

Memorandum of Agreement between the Supreme Commander, Allied Expeditionary Force and the military delegate under the Ordinance of 14 March 1944 of the French Committee of National Liberation for the procurement of supplies, services and facilities in Continental France, drawn pursuant to Article 17 (iv) of "Memorandum No. 1 Relating to Administrative and Jurisdictional

Questions in Continental France" signed in London on August 25, 1944.

Memorandum of Agreement between the Supreme Commander of the Allied Expeditionary Force and the military delegate appointed under the Ordinance of 14 March 1944 of the French Committee of National Liberation, drawn under Article 18 of Memorandum No. 1 concerning the observation by the Allied Forces of the French regulations concerning the exchange of currency and the export of capital and other matters, signed in London on August 25, 1944.

Memorandum of Agreement between the French Financial Attache in London and Supreme Headquarters, Allied Expeditionary Force, relating to mutilated currency.

Letter of August 20, 1945, from Headquarters USFET to M. Brunet, Director of the Treasury in the French Ministry of Finance, regarding the vesting directly in the United States Armed Forces of the benefits of certain financial arrangements formerly held by SHAEF.

Reference is made to current conversations between the United States Treasury Representative in France and representatives of the French Government regarding the conversion and redemption of franc currency found among the personal effects of deceased personnel of the United States Armed Forces.

Amendatory provisions.

It is now deemed desirable to amend, in certain respects, some of the terms of the aforementioned agreements. The following amendatory provisions, which shall take effect as indicated below, are hereby agreed upon:

Purchase of French francs.

1. (a) All French francs held by the United States Armed Forces on December 26, 1945, and accounted for to the Bank of France, will be purchased at the rate of 118.959107 francs to the dollar.

(b) All French francs required by the United States Armed Forces for use in Continental France including Corsica and in French Overseas Territories, in addition to those purchased on December 26, 1945, will be purchased from the French authorities against payment of their countervalue in United States dollars.

(c) The United States Armed Forces may accept francs from, and shall accept francs from none other than, members of the United States Armed Forces, quasi-official organizations, agencies and personnel in and under the military establishment. The United States Armed Forces shall take all practical measures to avoid the acquisition of francs derived from non-official channels.

Use of francs acquired by U. S. Armed Forces.

2. The francs acquired by the United States Armed Forces may be used only for: (a) the pay, exchange of funds, and encashment of dollar instruments authorized by the United States Armed Forces, of troops and personnel in and under the military establishments, and (b) procurement of goods and services. Such francs will be tendered and accepted at the same rate at which acquired, for each dollar of local

procurement not eligible for reciprocal aid, the dollar value being computed at the rate in force when the goods and services were actually furnished.

Procurement of goods and services.

3. Appropriate United States and French authorities will determine the cases in which United States Armed Forces will, in conformity with the requirements of the French Government, procure, in Continental France including Corsica and in French Overseas Territories, goods and services through appropriate French agencies designated by the French authorities, and the cases in which they will procure such goods and services through direct purchases.

Goods and services procured by United States Armed Forces before the termination of reciprocal aid when ineligible, and after the termination of reciprocal aid, will be paid for on the basis of the French authorities' presentation of appropriate documents in a form acceptable to the United States Armed Forces as has been, or may be, agreed upon between the United States Armed Forces and the French authorities.

Return of unused francs, etc.

4. In Continental France including Corsica and in French Overseas Territories unused francs may be returned to the French Government by the United States Armed Forces at any time, and will be repurchased by the French Government against dollars at the rate at which they were acquired by the United States Armed Forces; it being stipulated that the obligation of the French Government to repurchase said francs shall not exceed the amount of francs acquired against dollars on and after December 26, 1945 by the United States Armed Forces, after deducting therefrom the amount of francs used by the United States Armed Forces for procurement of goods and services.

Sale of scrap and salvage.

5. In conformity with the requirements of the French Government, the United States Armed Forces will, in Continental France including Corsica, and in French Overseas Territories, sell all scrap and salvage only through appropriate French agencies designated by the French authorities with such exceptions as may be agreed upon. Scrap and salvage thus sold to the appropriate French agencies will be paid for by the French authorities in United States dollars.

Monthly records of use of francs.

6. The United States Armed Forces will continue to maintain their accounts so that there will be made available to the appropriate French authorities, through the United States Treasury Representative in France, monthly records of the purposes for which francs have been used by the United States Armed Forces. Official statements will be rendered quarterly by the United States authorities.

Quarterly statements.

7. To the extent that agreements referred to herein are not inconsistent with the terms of the within memorandum of agreement they shall remain in full force and effect.

Effective date.

8. This Memorandum of Agreement shall be effective upon signature.

DECLARATION BY THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC ON COMMERCIAL POLICY AND RELATED MATTERS

The Government of the United States of America and the Provisional Government of the French Republic, having concluded comprehensive discussions on commercial policy and related matters, find themselves in full agreement on the general principles which they desire to see established to achieve the liberation and expansion of international trade, which they deem to be essential to the realization of world-wide prosperity and lasting peace.

The French Government has made known to the United States Government the measures which it has taken and intends to take to make possible the attainment of this common objective. The French Government has also made known to the United States Government its plan for the reconstruction and modernization of the French economy. In accordance with the letters exchanged on November 8, 1945, the two Governments have examined this plan and have agreed that the attainment of its objectives should make possible full participation by France in the cooperative achievement of an expanding world economy.

The two Governments have studied the problems involved in the construction of a general framework for world trade and have also examined a number of specific questions relating to commercial policy and other matters which are of interest to themselves and to other countries. The following joint statement by the two Governments summarizes the understandings reached in these discussions.

I

International trade.

The two Governments are in complete agreement, at all important points, on the principles expressed in the "Proposals for Consideration by an International Conference on Trade and Employment" submitted to the French Government by the Government of the United States. They have therefore resolved to continue discussions between themselves and with other like-minded countries in order to give effect to these principles in the Charter of the proposed International Trade Organization. The two Governments are of the opinion that the prior conclusion of agreements among the major trading nations of the world for the substantial reduction of tariffs and other barriers to trade and for the removal of discriminatory arrangements would contribute greatly to the success of the World Conference.

II

Policies of French Government.

The French Government has advised the United States Government of the following policies:

(a) A new French tariff is being prepared which will contain *ad valorem* duties only and which will not increase the degree of protection over the level which existed prior to the war. This new

tariff will serve as the level from which reciprocal reductions will be negotiated in the forthcoming multilateral conference.

(b) France has definitely abandoned its pre-war policy of protecting French producers with import quotas.

(c) The French Government has reiterated that it has abandoned the price equalization (perequation) procedure which it was compelled to use provisionally during the period prior to the revaluation of the franc in order to facilitate exports.

III

Maintenance of import controls by French Government.

The French Government has made clear that it must maintain import controls within the framework of an import program but that it will maintain such controls only so long as they are necessary to safeguard the equilibrium of its balance of payments and to achieve in an orderly way its plan of reconstruction and modernization. The French Government will administer the issuance of import licenses under the French import program without discrimination as among foreign sources of supply as soon as France possesses, or is able to earn, sufficient free foreign exchange so that it is no longer necessary for her to make her purchases within the limits of bilateral trade and financial arrangements.

IV

Return of trade to private channels.

The two Governments have reached a mutually satisfactory understanding on the return to private channels of trade between France and the United States. The French Government has already restored to private channels a large part of the import trade of France and its colonies, and will continue to curtail the foreign procurement activities of the Government.

French Government procurement in the United States will be limited to equipment for public corporations and agencies. For the time being, Government procurement will also be continued for a restricted list of items, such as short supply foodstuffs, steel, lumber, tires and certain medical supplies.

Temporarily, a part of French imports will be handled by associations of private traders, (groupements) until the difficulties of loading, shipment, and transport of essential supplies and their distribution in France are overcome.

The French Supply Council in the United States will continue to operate on a reduced scale, engaging principally in the liquidation of outstanding contracts and governmental procurement as indicated above. It will limit its purchases to the satisfaction of essential civilian requirements; it will make the maximum practicable use of normal trade channels; it will pursue methods consistent with commercial practices and it will cease operations as soon as possible.

V

French exports to U. S.

The two Governments have agreed that important benefits would accrue to both countries from a substantial expansion of French exports to the United States. They have discussed certain United States

laws and regulations, which, in the opinion of the French Government, tend to hamper unduly the importation of French products into the United States. Special attention has been given to trade mark and copyright legislation, the use of geographic names related to particular products, price control of imported goods, and valuation of imported goods for the assessment of customs duties. The various agencies of the United States Government which are concerned with these matters have agreed to give careful and sympathetic consideration to the views of the French Government, and to study the possibility of altering their administrative procedures or recommending to the Congress the revision of existing legislation.

VI

Licensing of German patents.

The two Governments have agreed, subject to participation in the program by other important industrial nations, each to license freely and without royalty to the nationals of the other, on conditions of reciprocity, all former German-owned patents which have come into the full possession of either Government, reserving only those rights which have already been granted with respect to such patents. The two Governments believe that the general adoption of this policy will eliminate an important barrier to international trade and will contribute substantially to the achievement of expanding world economy. In accordance with these objectives, they have agreed, at some future time, jointly to consider other questions relating to German patents.

VII

War damages to property.

The French Government will accord to American nationals who have suffered damage to their properties in France, through causes originating in the war, compensation equal to that payable to French nationals having the same types and extent of losses. The United States Government has informed the French Government that equality of treatment is accorded to French and American nationals with reference to war damages to property in the United States.

VIII

Negotiations for treaty.

In order to provide a sound framework for the expansion of mutually beneficial economic relations between their two countries, the Governments of France and the United States have agreed to begin negotiations as soon as possible looking toward the conclusion of a modern and comprehensive Treaty of Establishment, Commerce and Navigation.

UNDERSTANDING BETWEEN THE GOVERNMENT OF THE UNITED STATES OF AMERICA AND THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC WITH RESPECT TO THE EXHIBITION OF AMERICAN MOTION PICTURES IN FRANCE

Measures applicable in French customs territory.

The Government of the United States of America and the Provisional Government of the French Republic, in the light of their broad agreement of this date on commercial policy objectives, and with special regard to changes brought about by the war, have re-examined certain problems relating to the exhibition in France of dubbed American motion picture films. As a result of these conversations, the French Government has informed the American Government that it will take the following measures which will be applied in the customs territory of France:

Screen quota system.

Effective July 1, 1946, all previous provisions concerning the number of dubbed films permitted to be shown in France will be abandoned. On the same date, a "screen quota" system will be instituted, as a temporary protective measure, to assist the French motion picture industry to recover from the disorganization caused by enemy occupation of France. Under this system, motion picture exhibitors in France will be required to exhibit French films for a certain number of weeks per quarter. During the remaining weeks, French exhibitors will be allowed free choice of films, foreign or domestic.

Beginning July 1, 1946, the screen quota reserved for French films will be not more than four (4) weeks per quarter.

The screen quota shall continue at the level of four (4) weeks per quarter unless reduced to three (3) weeks per quarter by the operation of the following automatic formula:

If, in any two-year period ending on June 30, 1948, or on June 30 of any subsequent year, feature films produced in France should obtain total playing time in French theatres equal to or greater than an average of five (5) weeks per quarter, the screen quota shall automatically be reduced to three (3) weeks per quarter effective October 1 following the expiration of such two-year period.

If, through the operation of the above formula, the screen quota should be reduced to three (3) weeks per quarter, it shall continue at that level unless terminated entirely by the operation of the following automatic formula:

If, in any two-year period ending on September 30, during the whole of which period a screen quota of three (3) weeks per quarter is in effect, feature films produced in France should obtain total playing time in French theatres equal to or greater than an average of five (5) weeks per quarter, the screen quota shall be entirely abolished effective January 1 following the expiration of such two-year period.

The French Government has agreed that, in the period during which the screen quota remains in force, it will impose no restrictions whatever on the importation of American films into France, and no restrictions other than the screen quota on the exhibition of American films

in France, except such restrictions as are also applied to French films. If, through the operation of this plan, the screen quota should be entirely abolished, there will be, on and after the effective date of such abolition, no restrictions on the importation of American films into France, and no restrictions on the exhibition of American films in France, except such restrictions as are also applied to French films.

The United States Government has noted with satisfaction that the new measures to be taken by the French Government contemplate the complete elimination of protection when the French producing industry has regained its competitive strength.

Negotiation.

If, in the opinion of either Government, this plan should, at some future time, be inappropriate to the conditions then prevailing in the French motion picture producing industry or in the French motion picture market, each Government has reserved the right to request the other to undertake negotiations looking toward its modification or termination. If, upon the expiration of six months from the date of such a request, these negotiations shall not have reached a conclusion satisfactory to both Governments, the terms of the Reciprocal Trade Agreement which is then in effect between them shall apply.

Interpretation of paragraph 6(i) of the "Memorandum of Understanding between the United States and France"

MAY 28, 1946.

Paragraph 6(i) of the "Memorandum of Understanding Between the United States and France" reads as follows: *Ante*, p. 4178.

> "The United States Government will undertake to make available to the French Government part of the United States Government's share of captured German and Japanese surface naval vessels when such vessels become excess to United States needs and are no longer needed for any task connected with the implementation of the German and Japanese surrenders."

The United States authorities are presently engaged in examining the conditions under which such vessels may be legally made available to another power. In the circumstances, it is understood by both parties to this "Memorandum" that the phrase "will make available to the French Government" in the above quoted paragraph is not to be construed as an undertaking that the vessels in question will be transferred without compensation.

WASHINGTON, *May 28, 1946*

DECLARATION MADE IN PARIS BY THE PRESIDENT OF THE PROVISIONAL GOVERNMENT OF THE FRENCH REPUBLIC AND IN WASHINGTON BY THE PRESIDENT OF THE UNITED STATES ON MAY 28, 1946 [1]

Economic and financial problems.

Representatives of the Provisional Government of the French Republic and the Government of the United States have met together in Washington and have discussed important economic and financial problems of common interest. These problems have included the need for foreign credits for reconstructing and modernizing the French economy, the settlement of lend-lease reciprocal aid and other war accounts, the purchase of United States surplus property situated in France and certain French overseas territories, the purchase of ships owned by the United States, and international commercial policy.

The discussions have brought out clearly the full agreement of the two Governments on cooperation in the fulfillment of the economic objectives which both Governments recognize as essential to world peace and prosperity. The well-being of the people of all nations can be advanced through a full flow of trade which enables each country to maintain higher levels of production and better standards of living. These benefits of world trade can be realized only as the markets of the world are opened to all countries on fair and equal terms. The two Governments are determined to work together in securing general international acceptance of the world trade proposals of the United States to be considered by a conference of the United Nations.

Reconstruction of French economy.

The reconstruction and modernization of the French economy will facilitate the integration of Europe in the world economy and enable France to resume her place as a great producing and trading nation. The French Delegation has presented a program for reconstructing and modernizing the economy of France. The immediate objective is to restore French production to the prewar level; the ultimate objective is to expand French production to higher levels commensurate with the technical progress of the past two decades. One requisite for the fulfillment of this program is an adequate and assured supply of coal, not only from increased French production, but also from imports of German coal. The United States Government will continue to assist France in securing an adequate supply of coal from Germany.

In the opinion of the American representatives, attainment of the objectives of increased production and trade presented by the French Delegation is necessary to the full and effective participation of France in the world economy. In furtherance of the efforts of the French people to this end, the United States has agreed to the extension of additional credits to France.

Extension of additional credits to France.

At the end of 1945 the Export-Import Bank made a loan of $550 million to France. The Board of Directors of the Export-Import

[1] [No French language text.]

Bank have now approved a new line of credit of $650 million. This action has been taken pending the time when the International Bank for Reconstruction and Development will be in full operation.

Settlement of lend-lease and reciprocal aid.

The two Governments have reached complete agreement for the final settlement of all lend-lease and reciprocal aid, including military and civilian supplies furnished by each Government to the other. They have also agreed on the acquisition of United States army and navy surplus property located in France and certain French overseas territories. Under this Agreement, credits of $720 million have been provided for the purchase of surplus property and for goods supplied to France since the end of the war.

Credit for French acquisition of merchant shipping.
60 Stat. 41.
50 U. S. C., app. §§ 1735–1746.

Discussions are taking place for an additional credit, subject to the provisions of the Merchant Ship Sales Act of 1946, whereby France will acquire approximately 750,000 tons of merchant shipping owned by the Government of the United States.

The two Governments believe that the results of the discussions which have now been concluded will help France in reconstructing and modernizing the French economy and are a substantial step towards the achievement of the international economic cooperation which is the prerequisite of a peaceful and prosperous world. They welcome the support of all of the United Nations in establishing a world trading and monetary system which will assure a full flow of commerce to the benefit of the peoples of all countries.

MEMORANDUM D'ACCORD ENTRE LE GOUVERNEMENT DES ETATS-UNIS D'AMERIQUE ET LE GOUVERNEMENT PROVISOIRE DE LA REPUBLIQUE FRANCAISE COMPORTANT REGLEMENT EN MATIERE DE PRET-BAIL, D'AIDE RECIPROQUE, DE SURPLUS MILITAIRES ET DE CREANCES DE GUERRE

I. – Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement Provisoire de la République française ont abouti à un accord relatif à un règlement définitif en ce qui concerne le prêt-bail, l'aide réciproque et la dette française envers le Gouvernement des Etats-Unis résultant du programme militaire de ravitaillement dit Plan "A", à l'acquisition par le Gouvernement français de certains biens en surplus appartenant à l'Armée et à la Marine des Etats-Unis, y compris des installations fixes, situés en France et dans certains territoires français d'outre-mer, et à un règlement définitif des autres créances de chacun des deux Gouvernements à l'égard de l'autre nées de la conduite de la guerre. En arrivant à cet accord les deux Gouvernements ont eu égard aux considérations touchant les principes de l'aide mutuelle qui figurent à l'article 7 de leur accord préliminaire du 28 février 1945, ainsi qu'aux avantages dont chacun d'eux a bénéficié du fait de la contribution fournie par l'un et l'autre à la défaite de leurs ennemis communs. A la lumière de ce qui précède les deux Gouvernements conviennent de ne pas se réclamer d'avantages supplémentaires au titre du prêt-bail et de l'aide réciproque.

II. – La dette du Gouvernement français envers le Gouvernement des Etats-Unis à raison du règlement mentionné ci-dessus, qui inclut toutes les dettes résultant des dispositions de l'accord du 28 février 1945 relatif au prêt-bail et à l'aide réciproque, est d'un montant net de $720.000.000, qui comprend pour partie des sommes déjà déterminées d'un commun accord et pour le reste des évaluations sujettes à révision. Ces dernières, pour lesquelles les meilleures données existantes ont été utilisées en attendant qu'une procédure comptable, fixée d'un commun accord, ait permis d'établir les chiffres définitifs, représentent principalement des livraisons postérieures au 1er septembre 1945.

III. – Le Gouvernement français paiera un intérêt de 2% l'an à partir du 1er juillet 1946 sur le montant net dû au Gouvernement des Etats-Unis. Les paiements d'intérêts seront effectués le 1er juillet de chaque année, de 1947 à 1950 inclusivement. A partir du 1er juillet 1951 l'intérêt et le principal seront payés en 30 annuités égales. Chaque annuité comprendra la totalité de l'intérêt dû pour l'année écoulée, le reste de l'annuité représentant le capital remboursable à cette échéance. Aucune des dispositions du présent accord ne sera comprise comme s'opposant à ce que le Gouvernement français s'acquitte par anticipation de tout ou partie des annuités restant dues. Si les deux Gouvernements estiment d'un commun accord, qu'en raison de conditions économiques adverses et exceptionnelles survenant au cours de la période de remboursement, le paiement d'une ou plusieurs annuités serait contraire à l'intérêt commun des deux Gouvernements, ce paiement pourra être retardé pour une période fixée d'un commun accord.

Dans la mesure où les conditions de paiement prévues au présent paragraphe III diffèrent de celles qui ont été fixées par des accords antérieurs, ce sont les présentes dispositions qui prévaudront.

IV.–Les deux Gouvernements sont convenus des dispositions et de la procédure à suivre pour le règlement de la solde des troupes et des autres dépenses des forces armées américaines en France et dans les territoires français d'outre-mer, pour le passé et pour l'avenir.

V.–Le Gouvernement français sera tenu, jusqu'au 1er janvier 1950, de céder au Gouvernement des Etats-Unis, dans la mesure où celui-ci le lui demandera, tels biens immobiliers qui seront désignés d'un commun accord à concurrence d'une valeur totale de $15.000.000 au plus. En outre, le Gouvernement français cédera des francs au Gouvernement des Etats-Unis sur sa demande dans la limite d'un maximum de $10.000.000. Les francs ainsi versés seront fournis au taux de change fixé conformément aux règles suivies par le Fonds Monétaire International, ou, à défaut d'un tel cours, à celui qui sera utilisé à l'époque de chaque versement pour les opérations officielles du Gouvernement français. Le Gouvernement des Etats-Unis utilisera les francs ainsi versés uniquement pour acquérir ou améliorer des biens immobiliers destinés à ses besoins ou pour réaliser telles mesures dont les deux Gouvernements conviendront dans le domaine de l'enseignement.

Les cessions effectuées conformément au présent paragraphe V seront imputées d'abord sur les intérêts courus et ensuite sur le capital, dans l'ordre d'échéance des annuités.

VI.–Les deux Gouvernements sont également convenus des dispositions suivantes:

a) Toutes les créances et obligations financières nées entre les deux Gouvernement de l'acquisition, de l'usage, de la cession ou de la perte de navires français et de cargaisons de ces navires pendant la période où ces navires ont été placés sous le contrôle des Etats-Unis, seront réglées par le Gouvernement des Etats-Unis pour une somme de $17.500.000, conformément aux dispositions d'un accord relatif à l'achat par la France d'un nombre maximum de 75 navires dits "Liberty Ships".

b) Les deux Gouvernements expriment leur intention de conclure un accord sur les dommages maritimes, comportant l'annulation réciproque des créances intergouvernementales résultant d'accidents de mer et le règlement par chacun des deux Gouvernements des revendications formulées devant ses tribunaux par ses nationaux contre l'autre Gouvernement et fondées sur des accidents de mer antérieurs au 1er novembre 1945.

c) Dans le cadre du règlement d'ensemble, le Gouvernement français a accepté d'instruire et de payer toutes les créances encore non réglées que des personnes résidant en France ou dans les territoires français d'outre-mer possèdent sur le Gouvernement des Etats-Unis du fait de l'utilisation ou de l'exploitation irrégulière de droits de brevets pour la production de guerre, de la réquisition par le Gouvernement des Etats-Unis pour les besoins de la guerre de droits réels

appartenant à ces personnes, et d'actes ou de manquements commis antérieurement au 1er juillet 1946 en France ou dans les territoires français d'outre-mer par des membres des forces armées des Etats-Unis ou du personnel civil attaché aux dites forces.

d) Au cours des négociations, les deux Gouvernements se sont mis d'accord sur le sort de certaines de leurs créances réciproques. A l'exception des cas où une obligation de paiement a été antérieurement reconnue et un mode de règlement convenu, les créances de chacun des deux Gouvernements à l'égard de l'autre qui sont nées du prêt-bail ou de l'aide réciproque, ou qui sont nées à tout autre titre entre le 3 septembre 1939 et le 2 septembre 1945, directement ou indirectement, de la conduite de la guerre, sont, en l'absence de dispositions contraires dans le présent accord, annulées.

e) Le Gouvernement français accordera aux nationaux des Etats-Unis tel traitement non-discriminatoire qui conviendra en matière d'usage et d'aliénation d'installations à la construction desquelles le Gouvernement des Etats-Unis a contribué et qui sont cédées en vertu du présent règlement.

f) Le Gouvernement des Etats-Unis réserve son droit de reprise des articles fournis en prêt-bail détenus par les forces armées françaises, à l'exception des produits pétroliers et d'une liste d'avions autres que des avions de combat établie d'un commun accord. Le Gouvernement des Etats-Unis a indiqué qu'il n'a pas l'intention d'exercer d'une façon générale ce droit de reprise, étant entendu toutefois que les navires de la Marine de guerre américaine et les navires marchands fournis en prêt-bail devront être rendus au Gouvernement des Etats-Unis à moins qu'il n'en soit convenu autrement.

g) La disposition pour des fins militaires en faveur de forces autres que les forces armées françaises d'articles fournis en prêt-bail, détenus par les forces armées françaises au 2 septembre 1945 ou reçus postérieurement, ainsi que la disposition de tels articles pour emploi à des usages civils ailleurs qu'en France et dans les territoires français d'outre-mer, n'auront lieu qu'avec le consentement du Gouvernement des Etats-Unis, et le produit net en sera versé au Gouvernement des Etats-Unis. Sauf dans une mesure très limitée, le Gouvernement français ne libérera d'articles fournis en prêt-bail et détenus par les forces armées françaises, ni pour emploi à des usages civils en France ou dans les territoires français d'outre-mer, ni pour exportation hors de France ou de ces territoires

h) Sous réserve des dispositions du présent Mémorandum d'accord, le Gouvernement des Etats-Unis et le Gouvernement français reçoivent la pleine propriété des articles qu'ils se sont mutuellement fournis en prêt-bail et en aide réciproque et qu'ils détenaient le 2 septembre 1945 ou ont reçus à une date ultérieure. Si un intérêt au titre du prêt-bail se trouve inclus dans des installations déclarées surplus des Etats-Unis et non cédées en application du présent Memorandum d'accord, le Gouvernement des Etats-Unis conservera cet intérêt.

i) Le Gouvernement des Etats-Unis s'engage à mettre à la disposition du Gouvernement français une fraction de sa part dans les navires

de surface pris à l'Allemagne et au Japon, lorsque ces navires viendront à être en excédent des besoins des Etats-Unis et ne seront plus nécessaires pour aucune opération liée à l'application des capitulations allemande et japonaise.

VII.–Les deux Gouvernements conviennent de conclure tels accords spéciaux qui seront nécessaires à l'application du présent accord général.

VIII.–Le present Memorandum d'accord entrera en vigueur des sa signature et les instruments de ratification seront échangés aussitôt que possible.

ACCORD RELATIF A LA CESSION DES BIENS ET INSTALLATIONS EN SURPLUS DE L'ARMEE ET DE LA MARINE DES ETATS-UNIS SE TROUVANT EN FRANCE ET DANS CERTAINS TERRITOIRES FRANCAIS D'OUTRE-MER

En application du memorandum d'accord du 28 mai 1946, comportant règlement en matière de prêt-bail, d'aide réciproque, de surplus militaires et de créances de guerre, dénommé ci-dessous memorandum d'accord, et en conséquence d'une partie du paiement à effectuer par le Gouvernement provisoire de la République française au Gouvernement des Etats-Unis en vertu du dit memorandum, les deux Gouvernements ont conclu un accord pour la cession au Gouvernement français de certains biens en surplus aux besoins des forces armées des Etats-Unis. Cet accord est établi compte tenu des avantages qui doivent en découler pour les deux parties et avec la conviction que les biens ainsi cédés seront d'un avantage substantiel pour l'économie civile française.

I. Les deux Gouvernements conviennent que le Gouvernement français acquiert, dans les conditions fixées ci-après, la pleine et entière propriété des biens suivants:

a) Sous réserve des paragraphes II, III et IV ci-dessous, tous articles mobiliers, de quelque nature qu'ils soient, situés en France, en Afrique du Nord et en Afrique Occidentale françaises qui, au 25 mai 1946, étaient déjà déclarés au Commissariat à la liquidation des biens à l'étranger du Département d'Etat des Etats-Unis, dénommé ci-dessous Commissariat à la liquidation, comme étant en surplus des besoins des Ministères de la Guerre et de la Marine des Etats-Unis et mis hors de leur responsabilité ou qui lui ont été après cette date ou lui seront déclarés comme tels.

b) Tous les intérêts possédés par les Ministères de la Guerre et de la Marine des Etats-Unis dans les installations, y compris tous immeubles par destination, situées en France, en Afrique du Nord et en Afrique Occidentale françaises, qui ont été ou seront ultérieurement déclarés au Commissariat à la liquidation comme étant en surplus des besoins des Ministères de la Guerre et de la Marine des Etats-Unis.

c) Tous les intérêts possédés par les Ministères de la Guerre et de la Marine des Etats-Unis dans certains articles et installations situés à Nouméa (Nouvelle-Calédonie) tels qu'ils sont énumérés dans un aide-mémoire relatif à l'Institut français du Pacifique remis par les représentants du Gouvernement français.

II. Sont expressément exceptés des biens cédés en application du présent accord:

a) le matériel de combat non démilitarisé, y compris les munitions;

b) les biens, situés en France, en Afrique du Nord et en Afrique Occidentale françaises, qui ont fait l'objet d'un contrat ou d'un en-

gagement de vente de la part du Gouvernement des Etats-Unis en faveur d'acheteurs autres que le Gouvernement français. Ces biens sont considérés comme ayant fait l'objet d'un contrat ou d'un engagement si, avant le 25 mai 1946, à midi, heure de Paris, les délégués en chef à Paris et au Caire du Commissariat à la liquidation ont, à leur égard, accepté une offre ou conclu, verbalement ou par écrit, un accord qu'ils considèrent comme ferme.

III. Les équipements de navigation aérienne, de transmission et de météorologie situés en France et sur les territoires français d'outremer seront cédés au Gouvernement français en application du présent accord, sous réserve de certaines conditions à fixer par un accord distinct.

IV. En raison de la situation actuelle des transports en Europe, la plus grande partie des locomotives et du matériel roulant appartenant aux Etats-Unis et se trouvant en Europe n'ont pas encore été déclarés surplus et il est impossible à présent de prévoir à quelle date ils le seront. Cependant, le Gouvernement des Etats-Unis a l'intention, quand ce matériel sera déclaré surplus, de le mettre à la disposition du Gouvernement français à des prix à convenir, à concurrence de la franction qui lui en sera allouée par l'Organisation centrale européenne pour les transports intérieurs (ECITO).

V. Tous les biens achetés jusqu'ici par le Gouvernement français au Commissaire à la liquidation, qui n'avaient pas encore été payés à la date du 25 mai 1946 sont couverts par le présent accord et le prix en est inclus dans la somme à payer par le Gouvernement français en application du memorandum d'accord.

VI. La propriété effective et la responsabilité de la garde des biens décrits au paragraphe I du présent accord seront transmis aussitôt que possible au Gouvernement français, suivant la procédure dont les représentants du Gouvernement français et du Gouvernement des Etats-Unis conviendront. Le Gouvernement français est prêt à accepter rapidement la responsabilité de la garde des biens et il prendra les mesures nécessaires pour permettre au Gouvernement des Etats-Unis de dégager son personnel de cette responsabilité dans le plus bref délai possible.

VII. Le Gouvernement français accepte que la procédure d'acquisition des biens énumérés au paragraphe I ci-dessus, ne fasse pas obstacle à ce que l'armée ou la marine des Etats-Unis puissent, en raison de leurs besoins et obligations, les consommer ou continuer à les utiliser, jusqu'à ce qu'ils soient effectivement livrés conformément au présent accord.

Les deux Gouvernements sont toutefois d'accord pour que si, pour une raison quelconque, la consommation ou l'usage de ces biens par l'armée ou la marine des Etats-Unis dépasse notablement ce qui avait été envisagé comme raisonnable au moment de la mise en vigueur du présent accord, et s'il en résulte une réduction injustifiée de quantités des biens transférés au Gouvernement français en application du

présent accord, les deux Gouvernements se concertent pour déterminer les modifications qu'il conviendra, en conséquence, d'apporter au prix.

VIII. Le Gouvernement français s'efforcera d'éviter que les biens cédés conformément au présent accord, s'ils sont originaires des Etats-Unis et peuvent aisément être reconnus comme tels, ne soient importés aux Etats-Unis sous leur forme présente ou sous une forme sensiblement identique. Toutefois, ces biens peuvent être importés aux Etats-Unis pour être consignés, aux fins de remise en état pour réexportation, à des personnes ou firmes établies aux Etats-Unis. Ils peuvent également être importés aux Etats-Unis par un membre des forces armées des Etats-Unis pour son usage personnel.

IX. Quand il cédera ou répartira des biens visés au présent accord, le Gouvernement français s'efforcera d'éviter toute discrimination contraire aux intérêts légitimes des producteurs américains qui ont fabriqué ces biens ainsi que de leurs agents ou distributeurs. Les membres et les anciens combattants des forces armées des Etats-Unis, les administrations des Etats-Unis, les citoyens des Etats-Unis et les institutions américaines à caractère non lucratif, l'UNRRA et la Croix-Rouge internationale seront admis, dans les mêmes conditions et avec la même priorité que les autres acheteurs prioritaires de caractère analogue, à se porter acquéreurs des biens cédés conformément au présent accord.

X. Dans la mesure où les biens cédés au Gouvernement français conformément au présent accord ne comprennent pas les articles énumérés au "programme français d'achat de surplus de l'armée des Etats-Unis", tel qu'il a été soumis le 7 mai 1946 par le Conseil français des surplus alliés au Commissariat à la liquidation et tel qu'il a été ultérieurement amendé, le Commissaire à la liquidation fera tout ce qui est en son pouvoir pour mettre les dits articles à la disposition du Gouvernement français, à des prix à convenir, en les prélevant sur les biens en surplus situés hors de France, d'Afrique du Nord et d'Afrique Occidentale françaises. Le Commissaire à la liquidation fera tout ce qui est en son pouvoir pour organiser le transport de ces biens jusqu'en France aux frais du Gouvernement français. Chaque fois que les biens seront acheminés à l'aide de moyens de transport appartenant au Gouvernement des Etats-Unis, le coût de ce transport fera l'objet d'un accord préalable.

XI. Le matériel flottant acquis conformément au présent accord, à l'exception de celui qui figure au programme visé au paragraphe X ci-dessus, sera rétrocédé par le Gouvernement français dans le cadre des recommandations de l'ECITO, les prix de rétrocession ne devant pas dépasser 50% du coût primitif aux Etats-Unis.

XII. Les biens en surplus de l'armée et de la marine des Etats-Unis qui se trouvent en territoire étranger et que les Etats-Unis vendront ultérieurement au Gouvernement français, soit en application des paragraphes IV ou X ci-dessus, soit autrement, seront cédés aux conditions générales et de crédit fixées dans le memorandum d'accord.

Fait à Washington, ce 28 mai 1946, en français et en anglais, les deux textes faisant également foi.

COMITE FRANCO-AMERICAIN POUR LA LIQUIDATION DES COMPTES DE GUERRE

DECLARATION CONJOINTE AU SUJET DES CREANCES LITIGIEUSES

Les créances litigieuses présentées par les deux gouvernements ont été examinées par un "Sous-Comité" mixte des créances litigieuses, dont le rapport a été revu par le Comité mixte du règlement des comptes de guerre. Les créances exposées ci-dessous sont en dernier ressort réglées dans le sens indiqué plus loin. Il est également convenu que :

1. – La formule adoptée pour le règlement de certains litiges représente des concessions faites de part et d'autre par rapport aux principes habituellement appliqués, concessions qui sont faites seulement dans le cadre d'un règlement général satisfaisant des comptes de guerre.

2. – Certaines réclamations relatives au compte du "Modus Vivendi" ne se trouvent pas reportées sur l'état récapitulatif des créances litigieuses ci-annexé, ce compte devant par hypothèse faire l'objet d'un règlement d'ensemble.

3. – Le memorandum d'accord contiendra certaines dispositions concernant l'abandon de réclamations non réglées dans le présent texte.

RECLAMATIONS FRANCAISES

I – Aide Militaire en Afrique du Nord. Le Modus Vivendi du 25 septembre 1943 stipulait que l'aide militaire pour l'Afrique du Nord et l'Afrique Occidentale Française serait donnée en pur prêt-bail, que le Gouvernement français paierait les marchandises destinées à la population civile, et que la distinction entre ces deux catégories de fournitures serait faite d'un commun accord.

Les Français estiment que, sur un montant approximatif de 373,8 millions de dollars, déjà facturé ou restant à facturer comme fournitures à la population civile, 40,8 millions de dollars ont, en fait été affectés directement ou indirectement à des usages militaires et devraient être considérés, aux termes du Modus Vivendi, comme relevant du pur prêt-bail. Les représentants américains ont dans l'ensemble accepté les chiffres présentés par les représentants français, estimant toutefois que le chiffre de 2,8 millions de dollars pour les fournitures en Afrique Occidentale et celui de 5,5 millions de dollars environ pour les fournitures expédiées postérieurement au 1er mars 1945, représentant des évaluations d'aide militaire trop élevées. Le montant de la créance française est réduit de 1,4 million de dollars, représentant l'équipement automobile destiné à l'Afrique Occidentale, et de 1,5 million de dollars, représentant des marchandises expédiées après le 1er juillet 1945.

La demande française est admise pour un montant de 37,9 millions de dollars, qui sera déduit du compte du Modus Vivendi et ajouté au compte du prêt-bail militaire.

II – Colis pour prisonniers de guerre. Des fournitures consistant principalement en produits alimentaires ont été réquisitionnées par le

Gouvernement français dans le cadre du Modus Vivendi pour être livrées par l'intermédiaire de la Croix-Rouge Internationale aux prisonniers de guerre français. Les représentants français estiment que ces livraisons doivent être regardées comme une aide militaire relevant du pur prêt-bail, et ajoutent qu'en fait 11 millions de dollars de ces fournitures n'ont jamais été reçus par eux. La demande française est admise pour 25 millions de dollars, somme qui sera déduite du compte du Modus Vivendi pour être ajoutée à celui du prêt-bail militaire.

III – Ajustement du compte Monnet-Crowley. Certaines marchandises réquisitionnées pour l'Afrique du Nord dans le cadre du Modus Vivendi ont été en réalité expédiées en France Métropolitaine en juin 1945, pendant la période où ce territoire bénéficiait du pur prêt-bail. Les représentants français demandent que ces marchandises soient admises en pur prêt-bail au lieu de figurer au compte de l'accord Crowley-Monnet. Cette demande est admise pour une somme de 0,4 million de dollars.

IV – Frêt sur marchandises achetées hors des Etats-Unis. Pendant la période où la France a bénéficié du pur prêt-bail, le Gouvernement français a acheté comptant, hors des Etats-Unis, des marchandises qui ont été expédiées en France sur des navires appartenant au Gouvernement américain ou contrôlés par lui, et s'est vu réclamer le paiement au comptant du frêt relatif à ces expéditions. Les représentants français demandent que ce frêt soit imputé au pur prêt-bail. Les Américains font observer que le coût du frêt sur marchandises non acquises en prêt-bail n'a été fourni sous ce régime que dans des circonstances spéciales, et assez rarement. Cependant, en raison du fait que les marchandises en question auraient relevé du prêt-bail si elles avaient été acquises aux Etats-Unis, et étant donné que les navires français, se trouvant sous contrôle des Etats-Unis ou du Royaume-Uni n'étaient pas disponibles pour transporter ces marchandises, il est jugé opportun, dans le cadre du règlement d'ensemble, d'admettre cette demande pour un montant de 4 millions de dollars, dont il sera tenu compte dans le solde net des créances litigieuses.

V – Frêts divers. Le Gouvernement français a reçu des factures relatives à des frêts payables au comptant, dans des cas où il estime que ces frêts auraient dû être fournis en pur prêt-bail ou en crédit 3(c). La War Shipping Administration précise que les sommes afférentes aux frêts susceptibles de bénéficier du pur prêt-bail ont été remboursées au Gouvernement Français sur les fonds du prêt-bail et que les frêts susceptibles de bénéficier des crédits 3(c) seront facturés sur cette base par voie de règlement comptable, de telle sorte qu'il n'y a pas lieu de les considérer comme une créance litigieuse. En conséquence, le Gouvernement français a retiré sa demande.

VI – Charbon. Par accord en date du 25 août 1944, il a été admis que le charbon livré aux forces armées des Etats-Unis en France Métropolitaine ne serait pas fourni par le Gouvernement français au titre de l'aide réciproque, mais serait remplacé en nature ou payé

par les Etats-Unis. Après examen des quantités de charbon échangées il a été convenu que les prélèvements américains jusqu'au jour VJ ont excédé de 150.000 tonnes les remplacements en nature effectués jusqu'au 31 décembre 1945. Le Gouvernement français demande le règlement, au prix de 20 dollars la tonne, (coût "rendu à terre" approximatif) du charbon réellement acheté au comptant aux Etats-Unis pour parer à l'insuffisance de la production française. Cette demande est admise et sera réglée par un paiement fait sur la même base que pour les autres fournitures antérieures au jour VJ, qui ne sont pas de nature à être admises en aide réciproque.

VII – Autres produits rares. Les représentants français ont retiré leur demande.

VIII – Prix du Coton. Le coton fourni au comptant ou en crédit 3(c) a été facturé au Gouvernement français sur la base du prix intérieur américain. Les représentants français demandent l'application du prix pratiqué à l'exportation, lequel est inférieur au prix intérieur. Les représentants américains sont d'accord sur le principe et la demande est admise. Une réduction de 1,4 million de dollars devrait être effectuée sur les comptes de l'accord Crowley-Monnet, et une réduction de 11,2 millions de dollars sur les comptes du "crédit 3(c)", pour traduire l'ajustement correspondant. Il est entendu que ce principe a été pris en considération dans l'évaluation du coton en inventaire au Jour VJ.

IX – Prix du sucre. Le Gouvernement français demande également l'exemption de certaines taxes de transformation et la ristourne de droits de douane sur le sucre exporté vers la France et l'Afrique du Nord française. Ces réductions sont d'usage en matière d'exportations commerciales en temps de paix, mais il n'a pu être satisfait aux formalités administratives dans le cas des expéditions en question, de sorte que les factures actuelles n'en font pas état. Cette demande est admise. Les comptes du Modus Vivendi devraient être réduits de 7,4 millions de dollars et ceux du crédit 3(c), de 0,1 million de dollars.

X – Prix des locomotives. 700 locomotives ont été livrées au Gouvernement français dans le cadre de la "Schedule II" de l'accord 3(c) et ont été facturées à un prix unitaire d'environ 120,700 dollars, f. a. s. New York. Les représentants français estimaient que ce prix était excessif car la mission française a acheté dans le commerce privé des locomotives sensiblement identiques pour 110.500 dollars chacune, f. o. b. usine. Les représentants américains ont expliqué comme suit la décomposition de leur prix (en chiffres approximatifs):

Coût des locomotives sous contrat du War Department	$110,000
Frais facturés par l'Army Transportation Corps, pour services divers, inspection, etc. 5%	$5,500
Frais facturés par le War Department pour manutention transports terrestres, etc. (10%)	$11,550
	127,050
A déduire, escompte de 5% en application de l'accord 3(c)	$6,350
Prix facturé au Gouvernement français	$120,700

Les représentants américains ont de plus déclaré que les frais de 5 et 10% ajoutés par le War Department sont proprement imposés par les règlements intérieurs de cette administration. A la suite de cette explication, les représentants français ont retiré leur réclamation.

XI – Taxes d'accise. La France a acheté, au comptant ou à crédit, des marchandises qui sont soumises aux Etats-Unis à des taxes indirectes sur les ventes intérieures. Ces taxes d'accise ne sont pas applicables aux ventes à l'exportation mais il a été administrativement impossible de suivre la procédure prescrite par les règlements de la Trésorerie afin d'en obtenir l'exonération. Cependant, le fait de l'exportation étant indiscutable, le Gouvernement français a demandé que cette taxe indirecte soit supprimée quand elle apparaît sur les factures. La réclamation paraît fondée dans son principe, et les chiffres français et américains sont sensiblement les mêmes. La demande est acceptée; le compte "Modus Vivendi" sera réduit de 0,13 million de dollars, et le compte "crédit 3(c)" de 0,37 million de dollars.

XII – Mode de facturation du pétrole en Afrique du Nord. Le pétrole fourni à la France, en Afrique du Nord, jusqu'au milieu de 1943, a été facturé sur la base du produit de sa revente. Il était envisagé qu'à partir du 30 juin 1943 les factures seraient établies sur la base du "coût rendu à terre"; cette procédure fut, en fait, appliquée aux produits autres que le pétrole, tandis que ce dernier fut facturé sur la base du produit des ventes jusqu'au 30 septembre 1943. Les représentants français estiment que l'extension de cette procédure pendant 3 mois pour les produits pétroliers, n'est pas justifiée, et demandent que soit accordée la somme de 1,2 millions de dollars, qui constitue la différence d'application des deux procédures. La demande est admise pour cette somme qui sera déduite du compte "Modus Vivendi", et imputée au prêt-bail direct.

XIII – Prix du pétrole en Afrique du Nord. Le Gouvernement français considère que les prix auxquels ont été facturés les produits pétroliers livrés à l'Afrique du Nord, à partir du 1er octobre 1943 étaient beaucoup plus élevés que les cours mondiaux. Les représentants de l'Army and Navy Petroleum Board ont donné le détail des prix facturés à la France et montré que c'étaient en fait les prix de revient réels "rendus à terre", des dits produits pétroliers. En conséquence, les représentants français ont retiré cette demande.

XIV – Livraisons françaises de pétrole au "pool" nord-africain. 93.000 tonnes de pétrole appartenant aux français ont été versées au "pool" nord-africain, par l'intermédiaire d'organismes britanniques. La réclamation française procède de celle d'une compagnie française privée, contre les revendications de laquelle la France s'engage à garantir les Etats-Unis. Les Français considérant que le pétrole est en quantité tellement limitée sur les territoires français que l'aide réciproque ne saurait s'appliquer à ce produit, ont réclamé le paiement intégral de ces livraisons. Les Américains considéraient en revanche qu'ils ne sauraient être tenus de payer les quantités relativement peu importantes de produits pétroliers livrées au "pool" par la France, étant donné que les Etats-Unis avaient fourni eux-mêmes en pur

prêt-bail de très grandes quantités de ces produits; la contribution de la France doit, selon eux, être traitée de la même façon que celle des autres membres du "pool". En conséquence, les représentants américains estimaient que la contribution française devait venir d'abord en compensation des prélèvements militaires français, lesquels dépassaient dans une très large mesure les fournitures faites au "pool" par la France. La réclamation française fut retirée.

XV – Prix du caoutchouc. Il est convenu que le prix facturé aux Français doit être le même que celui payé par les Etats-Unis, sous réserve de rectifications pour frais supplémentaires, etc. . . Les représentants américains déclarent qu'il sera procédé aux corrections nécessaires au cours des opérations comptables.

XVI – Marchandises endommagées ou perdues. La France a abandonné cette réclamation.

XVII – Frais d'achat. La France a retiré sa demande tendant à la réduction des 15% de frais accessoires (transport terrestre et manutention, etc..) ajoutés au coût des marchandises achetées sur une base "cash reimbursable" ou en crédit 3(c).

En ce qui concerne le charbon acheté sous Réquisition "Q," les organismes pourvoyeurs américains demandent le remboursement des frais effectivement encourus, au lieu d'ajouter 15% au prix d'achat. Les représentants français font valoir que les 15% constituent une couverture moyenne des dépenses supplémentaires effectuées sur un groupe de marchandises; dès lors, si le coût réel des services doit être la règle pour le charbon, cette règle doit s'appliquer à toutes les autres marchandises obtenues en Réquisition "Q".

Les représentants américains répondent que les 15% sont manifestement insuffisants pour couvrir les dépenses accessoires dans le cas du charbon et que ce produit représente 23 millions de dollars sur un total de 62 millions de dollars pour les Réquisitions "Q". L'application de la règle des 15% se traduirait dès lors pour les Etats-Unis par une perte qu'aucun crédit budgétaire ne peut couvrir. D'autre part, l'abandon complet de cette règle créerait un précédent dont il faudrait étendre le bénéfice aux autres pays et qui créerait de sérieuses perturbations dans la procédure comptable suivie par les organismes fournisseurs américains.

Il semble que, techniquement, les frais accessoires devraient être les mêmes pour toutes les marchandises; cependant les représentants français ne méconnaissent pas le problème auquel l'administration américaine doit faire face. A la demande des représentants américains, ils ont consenti à retirer leur réclamation.

XVIII – Pétrole livré à la France Métropolitaine pour les usages civils, du 28 février au 2 septembre 1945. Les Français demandent que telles quantités de pétrole livrées par les organismes militaires mixtes d'approvisionnement qui provenaient de sources américaines soient considérées comme fournies en application de l'accord de prêt-bail du 28 février 1945, et non en vertu du plan "A". Ils soulignent qu'il n'y avait pas de programme-cible ("target-program") dans le plan "A" en ce qui concerne le pétrole, tandis que la "Schedule I" de

l'accord de prêt-bail contenait un programme important de livraisons de pétrole qui ne serait pas réalisé s'il n'était pas fait droit à leur demande. Les Américains répondent, qu'en fait, ces livraisons ont été faites, et ont été comptabilisées comme fournitures sous plan "A", en vertu d'accords tripartites d'approvisionnement auxquels la Grande-Bretagne et le Canada sont également intéressés. En considération du règlement général satisfaisant prévu pour le plan "A", la France retire sa demande.

XIX – Stocks de pétrole en Afrique du Nord – Novembre 1942. La France demande une compensation pour le pétrole saisi par l'armée américaine à l'époque du débarquement en 1942. Cette réclamation est basée sur la même argumentation que la réclamation XIV ci-dessus, c'est-à-dire que le pétrole ne peut pas être fourni en aide réciproque par la France. La position américaine est également la même : les Etats-Unis ne peuvent payer ces stocks à la France étant donné que depuis Novembre 1942, ils ont fourni au Gouvernement français de bien plus grandes quantités de pétrole, sur la base du pur prêt-bail. La France a retiré sa demande.

RECLAMATIONS AMERICAINES

1.–Réclamations maritimes (Abordages). Les Etats-Unis ont demandé à la France de conclure un accord prévoyant l'abandon réciproque des réclamations intergouvernementales découlant d'accidents maritimes et disposant que chaque pays règlerait sur une base de pur prêt-bail et d'aide réciproque les réclamations portées devant ses tribunaux par ses nationaux, contre l'autre pays. La France admet ce principe. Le projet d'accord fait encore l'objet d'un examen par les deux gouvernements. Il est recommandé que l'accord soit réalisé et signé aussitôt que possible, et que, si cela ne peut être fait avant un règlement général, celui-ci contienne une déclaration par laquelle les pays exprimeront leur intention de conclure un accord couvrant la période de prêt-bail.

2.–A/ Réclamations pour dommages. Les Etats-Unis ont demandé à la France d'assurer l'instruction et le paiement de toutes les créances sur les Etats-Unis non encore payées, résultant d'actes ou de manquements commis en France ou dans les territoires français d'Outre-mer par des membres des forces armées des Etats-Unis ou du personnel civil attaché auxdites forces, et se rapportant non seulement aux réclamations pour dommages causés "en service", mais aussi à celles pour dommages causés en dehors du service, qui ont été jusqu'à présent instruites par les Etats-Unis. Aucune demande n'est présentée pour celles de ces réclamations qui ont déjà été indemnisées par les Etats-Unis. La France accepte d'assumer cette obligation en ce qui concerne les dommages découlant d'incidents survenus avant le 1er juillet 1946.

B/ Brevets. Les Départements de la Guerre et de la Marine des Etats-Unis, sont tenus de diverses obligations vis-à-vis de personnes résidant en France ou dans les territoires français d'Outre-mer, pour redevances et éventuellement exploitation irrégulière de brevets améri-

cains utilisés dans la production de guerre. Il a été demandé à la France d'en assumer la charge au titre de l'aide réciproque. Les représentants français acceptent d'assumer cette obligation.

C/ Biens réquisitionnés. Le Gouvernement américain a réquisitionné, pour être utilisés dans le programme de guerre, des biens situés aux Etats-Unis dans lesquels des résidents français avaient des intérêts; les Etats-Unis se trouvent ainsi responsables du paiement du juste prix des droits réels réquisitionnés. La France accepte d'assumer cette charge.

D/ Le Gouvernement des Etats-Unis fournira au Gouvernement français, à la demande de ce dernier, tous les renseignements nécessaires à l'instruction des réclamations dont se charge le Gouvernement français, en vertu du présent paragraphe 2.

E/La France accepte d'abandonner toutes les réclamations contre les Etats-Unis que le Gouvernement français pourrait avoir à faire relativement aux questions mentionnées dans le présent paragraphe 2.

F/Dans le règlement définitif des créances litigieuses une somme de 15 millions de dollars sera accordée à la France en considération de celles des obligations qu'elle aura assumées en vertu du présent paragraphe 2, et qui ne sont pas matière à aide réciproque.

3. – Affrètements de navires.

Des recommandations ont été faites à ce sujet par un autre comité mixte chargé des questions maritimes.

4. – Accord de troc sur le sucre.

L'accord dit "accord de troc No. 2", en date du 1er août 1944, signé entre la Foreign Economic Administration, le Conseil Français des Approvisionnements en Amérique du Nord, et la Commodity Credit Corporation, disposait que pendant la période 1er Août–31 Décembre 1944, C. C. C. livrerait aux Français certaines quantités de sucre raffiné, débiterait le compte de la F. E. A. de la valeur du sucre raffiné fourni, et rendrait compte à la F. E. A. des quantités livrées en vue d'un règlement entre la France et F. E. A., dans le cadre du prêt-bail remboursable. De leur côté les Français s'engageaient à fournir à C. C. C. 107 livres de sucre brut en provenance de la Martinique et de la Guadeloupe pour chaque 100 livres de sucre raffiné livré aux Français, la valeur de ce sucre brut devant être créditée en regard des livraisons de sucre raffiné.

En fait, le Gouvernement français n'a pu tenir cet engagement en ce qui concerne 62.000 tonnes de sucre brut qui n'ont pu être livrées, et a informé le Gouvernement des Etats-Unis que les dites livraisons n'auraient pas lieu. C. C. C. a acheté les quantités susdites de sucre à Cuba, au prix local, lequel était plus élevé que le prix du contrat, ce qui a entrainé pour le Gouvernement des Etats-Unis une dépense supplémentaire de $669,884.07. C. C. C. a imputé cette somme au compte F. E. A.

Les Etats-Unis demandent que la France supporte la charge de cette différence de prix, comme dommages résultant du fait qu'elle n'a pas livré les quantités de sucre prévues au contrat. Il est recommandé de faire droit à cette réclamation.

5. – Affectations erronées.

Les Etats-Unis ont demandé à la France d'inclure dans le règlement général une somme destinée à faire face aux réclamations résultant du fait que des marchandises acquises en prêt-bail ont reçu une affectation erronée ou ont été retransférées par la France, dans les territoires métropolitains et d'Outremer, au cours de la période allant du 11 mars 1941 au 1er septembre 1945 inclusivement, ou ont été exportées pendant la dite période, opérations qui ouvrent aux Etats-Unis un droit à remboursement. Cette demande est admise pour un montant d'un million de dollars.

6. – Revision de la Clause des Prix.

En vertu de l'accord 3(c), la France a droit à une réduction de 5% sur le prix du contrat pour les marchandises livrées. Le but initial de cette disposition était d'accorder à la France le bénéfice des réductions obtenues sur renégociations des contrats par les organismes compétents américains. Il est maintenant admis que les ristournes sur renégociations sont bien inférieures en moyenne aux 5%. Les Etats-Unis se sont proposé de demander une révision de l'accord 3(c) pour tenir compte de ce fait; mais étant donné que la France a abandonné sa demande sur la réduction des frais accessoires sur achats, les Etats-Unis ont retiré leur demande.

7. – Lest en provenance d'Afrique du Nord.

Des navires américains ayant transporté des marchandises en Afrique du Nord, ont effectué leur voyage de retour avec du lest fourni par la France. A l'arrivée aux Etats-Unis, ce lest a parfois été jeté, parfois vendu. Les Etats-Unis demandent que la fourniture de ce lest soit considérée comme aide réciproque. La demande est acceptée par la France.

MEMORANDUM

SUR LES CREANCES MARITIMES

Le Gouvernement des Etats-Unis et le Gouvernement provisoire de la République française ont, au cours des négociations relatives au règlement du Prêt-Bail, discuté de tous les problèmes communs de transports maritimes et de toutes les créances maritimes nés du fait de l'acquisition, de l'usage et de la cession de navires français placés sous le contrôle des Etats-Unis d'Amérique pendant la période du 7 décembre 1941 au 1er mai 1946, et sont convenus des dispositions suivantes:

1. A titre de règlement complet et définitif de toutes créances et dettes financières quelles qu'elles soient, d'un gouvernement envers l'autre, nées de la réquisition, l'emploi, la réparation, l'avarie, la perte, l'usage et la restitution de navires français, le Gouvernement des Etats-Unis d'Amérique déposera une somme de 17.500.000 dollars auprès de la Commission Maritime des Etats-Unis, au nom du Gouvernement Provisoire de la République française, cette somme devant être imputée sur le prix de l'achat par le Gouvernement provisoire de la République française à la Commission Maritime des Etats-Unis d'un nombre maximum de 75 navires dits "Liberty Ships" dans le cadre de la Loi de 1946 sur les ventes de navires.

a) Sur cette somme la Commission Maritime des Etats-Unis imputera en premier lieu l'acompte du prix de vente statutaire des navires payable à la date de leur livraison comme requis par les règlements de la Commission Maritime. Le solde de cette somme après ledit paiement d'acompte sera affecté aux paiements d'intérêts et aux annuités sur le solde du prix de vente, au fur et à mesure de leur échéance, et jusqu'à extinction de ce solde.

b) Le Gouvernement provisoire de la République française et la Commission Maritime des Etats-Unis conviendront du prix et des autres conditions de vente dans le cadre de la Loi de 1946 sur les ventes de navires.

c) Le Gouvernement provisoire de la République française pourra se porter acquéreur d'autres navires auprès de la Commission Maritime des Etats-Unis.

2. Toutes créances d'un gouvernement sur l'autre nées de la perte de navires français ou de cargaisons de ces navires pendant la période où ces navires ont été placés sous le contrôle du Gouvernement des Etats-Unis d'Amérique sont annulées.

Le Gouvernement provisoire de la République française assume par le présent accord la responsabilité d'instruire et de payer toute demande qui a été ou sera présentée par toute personne physique ou morale, qui est, ou qui était, ou qui prétend être ou avoir été, à un moment quelconque, propriétaire de, ou titulaire de droits réels sur, tout navire français placé sous le contrôle du Gouvernement des Etats-Unis d'Amérique pendant la période sus-mentionnée ou toute cargaison d'un tel navire.

Le Gouvernement provisoire de la République française convient d'indemniser et de garantir le Gouvernement des Etats-Unis d'Amérique, ses agents, fonctionnaires ou employés, pour toute demande de ce genre.

3. Les dispositions du présent accord seront subordonnées à un règlement satisfaisant pour les deux parties de tous comptes du Prêt-Bail et autres comptes de guerre, à la possibilité de disposer, conformément aux conditions dudit règlement, de la somme de 17.500.000 dollars que le Gouvernement des Etats-Unis doit déposer auprès de la Commission Maritime des Etats-Unis et à la conclusion de l'accord susmentionné entre le Gouvernement provisoire de la République française et la Commission Maritime des Etats-Unis, pour l'achat et la vente d'un nombre maximum de 75 navires dits "Liberty Ships".

MEMORANDUM D'ACCORD ENTRE LE GOUVERNEMENT DES ETATS-UNIS D'AMERIQUE ET LE GOUVERNEMENT PROVISOIRE DE LA REPUBLIQUE FRANCAISE CONCERNANT LES DEPENSES DES FORCES ARMEES DES ETATS UNIS EN FRANCE CONTINENTALE ET DANS LES TERRITOIRES FRANCAIS D'OUTRE-MER

Des accords intitulés "Memorandum No I, relatif aux questions administratives et juridictionnelles" (avec annexes) et "Memorandum No 2, relatif à la monnaie", paraphés par les représentants des Gouvernements français, américain et britannique le 15 Août 1944, et signés à Londres par le Général EISENHOWER et le Général KOENIG le 25 Août 1944, ont réglé les conditions d'approvisionnement des forces alliées en francs francais par le Gouvernement français et d'utilisation de francs français par les forces alliées.

Par un accord du 15/25 Août 1944, intitulé "Memorandum relatif au prêt-bail et à l'aide réciproque", maintenu en vigueur par un échange de lettres entre les deux Gouvernements en date du 28 Février 1945, les autorités françaises et américaines ont adopté des dispositions en vertu desquelles les francs avancés par le Gouvernement français aux forces armées des Etats-Unis et utilisés par ces dernières pour la solde nette des troupes et pour les autres dépenses non susceptibles de bénéficier de l'aide réciproque, devaient être payés en dollars par le Gouvernement des Etats-Unis.

Par un accord résultant d'une lettre de M.MONNET à M. CLAYTON en date du 24 Septembre 1945 et d'une lettre de M. CLAYTON à M. MONNET en date du 31 Octobre 1945, l'aide réciproque donnée par la France a été considérée comme se terminant en même temps que le prêt-bail accordé par les Etats-Unis à la France, soit le 2 Septembre 1945, à 0 heure, ceci sous réserve de certaines exceptions.

Le 26 Décembre 1945, le Gouvernement français a modifié le taux du change entre le franc français et le dollar des Etats-Unis. A cette date, les forces armées des Etats-Unis ont reversé, en écritures, à la Banque de France, le montant total des francs détenus officiellement par les officiers de finance, et des francs détenus par les membres des forces armées des Etats-Unis et par les organismes en dépendant. Ce reversement a été effectué à l'effet de terminer et de régler les avances en francs faites par le Gouvernement français depuis le jour du débarquement. Toutefois, les forces armées des Etats-Unis ont en même temps retiré de la Banque de France, en écritures, un montant en francs égal.

Pour définir la question, il y a lieu également de se référer aux accords suivants dont la liste ne doit pas être considérée comme limitative.

Memorandum d'accord entre le Commandant en Chef des forces expéditionnaires alliées et le Délégué militaire désigné conformément à l'ordonnance du 14 Mars 1944 du Comité français de la Libération Nationale, relatif à la fourniture des prestations en France continentale, conclu en application de l'article 17 (IV) du memorandum No I relatif aux questions administratives et juridictionnelles en France continentale, signé à Londres le 25 Août 1946.

Memorandum d'accord entre le Commandant en Chef des Forces expéditionnaires alliées et le Délégué militaire désigné conformément à l'ordonnance du 14 mars 1944 du Comité français de la Libération Nationale, établi en application de l'article 18 du memorandum No I et relatif à l'observation par les forces alliées de la règlementation française sur le change et les exportations de capitaux et à certaines autres questions, signé à Londres le 25 Août 1944.

Memorandum d'Accord entre l'Attaché Financier à Londres et l'Etat-Major des Forces Expéditionnaires Alliées, relatif aux billets détériorés.

Lettre du 20 Août 1945 de l'Etat-Major des forces des Etats-Unis en Europe à M. BRUNET, Directeur du Trésor au Ministère des Finances français, relative à l'attribution aux forces armées des Etats-Unis en France du bénéfice de certains arrangements financiers précédemment conclus avec SHAEF.

Il convient enfin de se référer aux conversations en cours entre le représentant de la Trésorerie américaine en France et les représentants du Gouvernement français au sujet de la conversion et du rachat de billets français trouvés parmi les effets des membres décédés des forces armées des Etats-Unis.

Il apparait maintenant souhaitable de modifier à divers égards certaines des dispositions des accords ci-dessus mentionnés. Il est convenu à cet effet des dispositions suivantes, qui constituent avenant aux dits accords, et qui prennent effet à compter des dates. respectives mentionnées ci-dessous:

1 – a) Le montant total des francs détenus par les forces armées des Etats-Unis au 26 Decembre 1945, et retirés de la Banque de France, sera acheté au taux de 118,959107 pour un dollar.

b) Tous les francs dont les forces armées des Etats-Unis auront besoin en plus de ceux achetés le 26 Décembre 1945, pour utilisation en France continentale (Corse incluse) et dans les territoires français d'outre-mer, seront achetés aux autorités françaises moyennant paiement de leur contrevaleur en dollars des Etats-Unis.

c) Les forces armées des Etats-Unis peuvent accepter de recevoir des francs présentés par leurs membres, leurs organismes officiels ou assimilés et généralement leur personnel ayant le statut militaire, mais ne peuvent accepter de recevoir des francs que de ces personnes ou de ces organismes. les forces armées des Etats-Unis prendront toutes mesures pratiques nécessaires pour éviter d'acheter des francs qui auraient été acquis par des voies non officielles.

2 – Les francs acquis par les forces armées des Etats-Unis ne peuvent être utilisés que pour:

a) la solde des troupes et du personnel sous statut militaire, l'échange de monnaies étrangères présentées par ces troupes ou ce personnel, le règlement d'effets en dollars présentés par ces troupes ou ce personnel conformément aux errements en vigueur dans les forces armées des Etats-Unis.

b) l'achat de produits et services. Dans ce dernier cas, ces francs seront offerts et acceptés pour le paiement de produits et services non couverts par l'aide réciproque au cours auquel ils auront été achetés et la valeur en dollars des produits et services sera établie en tenant compte du taux de change en vigueur au moment où ils auront effectivement été fournis.

3 – Les autorités compétentes américaines et françaises s'entendront pour déterminer les cas dans lesquels les forces armées des Etats-Unis devront, pour se conformer aux désirs du Gouvernement français, passer, pour se procurer des produits ou services en France continentale (Corse incluse) et dans les territoires français d'outre-mer, par l'intermédiaire d'organismes appropriés désignés par le Gouvernement français, et les cas dans lesquels les forces armées des Etats-Unis pourront recourir à des achats directs.

Les produits et services que les forces armées des Etats-Unis se sont procurés avant la cessation de l'aide réciproque, et qui n'étaient pas susceptibles de bénéficier de cette aide réciproque, ainsi que les produits ou services qu'elles se sont procurés depuis la fin de l'aide réciproque et se procureront à l'avenir, seront payés sur présentation, par les autorités françaises, de documents appropriés, établis dans une forme susceptible de satisfaire les forces armées des Etats-Unis et déterminée conformément aux arrangements intervenus ou à intervenir à cet effet entre elles et les autorités françaises.

4 – En France continentale (Corse incluse) et dans les territoires français d'outre-Mer les francs qui n'ont pas été utilisés peuvent être, à tout moment, reversés au Gouvernement français par les forces armées des Etats-Unis et seront rachetés par le Gouvernement français contre dollars au taux auquel ils auront été acquis par ces dernières, étant entendu que l'obligation de rachat du Gouvernement français sera limitée au montant des francs qui auront été acquis contre dollars le 26 Décembre 1945 ou depuis lors par les forces armées des Etats-Unis, déduction faite du montant des francs utilisés par les forces armées des Etats-Unis pour l'achat de produits et services.

5 – Pour se conformer au désir exprimé par le Gouvernement français, les forces armées des Etats-Unis ne vendront de produits de rebut, en France continentale (Corse incluse) ou dans les territoires français d'outre-mer, que par l'intermédiaire d'organismes français désignés par les autorités françaises, sous réserve des exceptions dont il pourra être convenu. Les produits de rebut ainsi vendus aux organismes français compétents seront réglés en dollars des Etats-Unis par les autorités françaises.

6 – Les forces armées des Etats-Unis continueront à tenir leurs comptes de telle sorte que les autorités françaises compétentes reçoivent chaque mois, par l'intermédiaire du représentant de

la Trésorerie américaine en France, une analyse de l'emploi des francs mis à la disposition des forces armées des Etats-Unis. Des comptes rendus officiels seront fournis trimestriellement à cet égard, par les Autorités américaines.

7 - Pour autant qu'elles ne sont pas en contradiction avec le présent memorandum, les dispositions des autres accords ou arrangements visés ci-dessus restent pleinement en vigueur./.

DECLARATION DU GOUVERNEMENT DES ETATS-UNIS D'AMERIQUE ET DU GOUVERNEMENT PROVISOIRE DE LA REPUBLIQUE FRANCAISE SUR LA POLITIQUE COMMERCIALE ET DIVERSES QUESTIONS ANNEXES.

Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement provisoire de la République française, après une étude approfondie des problèmes de politique commerciale et de diverses questions annexes, ont constaté leur complet accord sur les principes généraux qu'ils souhaitent mettre en oeuvre en vue de la suppression des entraves au commerce international et de l'expansion des échanges internationaux qu'ils jugent indispensables à la prospérité du monde et à l'établissement d'une paix durable.

Le Gouvernement français a porté à la connaissance du Gouvernement des Etats-Unis les mesures qu'il a prises et celles qu'il a l'intention d'adopter afin de créer les conditions nécessaires pour atteindre cet objectif commun. Le Gouvernement français a fait également connaître au Gouvernement des Etats-Unis le Plan de Reconstruction et de Modernisation de l'économie française. Conformément aux lettres échangées le 8 novembre 1945, les deux gouvernements ont procédé à l'examen de ce plan et ont reconnu d'un commun accord que la réalisation des objectifs qui y sont fixés mettrait la France en mesure de s'associer pleinement aux efforts poursuivis en vue d'assurer le développement de l'économie mondiale.

Les deux gouvernements ont étudié les problèmes que pose l'organisation future des échanges internationaux et examiné un certain nombre de questions particulières ayant trait à la politique commerciale et à divers sujets qui les intéressent ainsi que d'autres pays. La déclaration suivante des deux gouvernements expose les arrangements auxquels ils sont parvenus.

I

Les deux gouvernements sont en complet accord, pour tous les points importants, sur les principes inscrits dans les "Propositions à soumettre à une Conférence Internationale sur le Commerce et l'Emploi" qui ont été communiquées par le Gouvernement des Etats-Unis au Gouvernement français. Ils ont, en conséquence, décidé de poursuivre leurs conversations et de se concerter avec les pays animés des mêmes intentions, afin d'établir sur ces principes la Charte de l'Organisation du Commerce International. Les deux gouvernements estiment que la conclusion préalable d'accords entre les principales nations commerçantes du monde en vue de la réduction substantielle des droits de douanes et autres entraves au commerce et de l'élimination des arrangements discriminatoires contribuerait largement au succès de la Conférence mondiale.

II

Le Gouvernement français a fait savoir au Gouvernement des Etats-Unis qu'il avait pris les décisions suivantes:

(a) Un nouveau tarif douanier français est actuellement en préparation qui ne comportera que des droits ad valorem et qui n'accroitra

pas le degré de protection d'avant guerre. Ce nouveau tarif constituera la base sur laquelle les réductions réciproques seront négociées au cours de la prochaine conférence multilatérale.

(b) Le Gouvernement français a renoncé définitivement à la politique d'avant guerre qui consistait à protéger la production française à l'aide de contingents d'importation.

(c) Le Gouvernement français a rappelé que les procédés de péréquation des prix, qu'il avait dû employer provisoirement pour faciliter les exportations pendant la période qui a précédé l'alignement du franc, avaient été abandonnés.

III

Le Gouvernement français a précisé qu'il est dans l'obligation d'exercer un contrôle des importations sous forme d'un programme d'importations; mais ce contrôle ne sera appliqué qu'aussi longtemps qu'il sera nécessaire pour sauvegarder l'équilibre de la balance des comptes et assurer l'exécution méthodique du Plan de Reconstruction et de Modernisation. La délivrance par le Gouvernement français des licences d'importation, dans les limites du programme, sera faite sans discrimination entre les différentes sources étrangères d'approvisionnement dès que la France possédera, ou sera en mesure d'acquérir, un montant de devises libres tel qu'elle ne soit plus contrainte de procéder à ses achats dans les limites d'accords bilatéraux, commerciaux et financiers.

IV

Les deux gouvernements sont parvenus à un accord qui leur donne mutuellement satisfaction sur le retour au commerce privé pour les échanges entre la France et les Etats-Unis. Le Gouvernement français a déjà rendu au commerce privé une grande partie des importations de la France et des colonies françaises et continuera à réduire l'intervention gouvernementale dans ses achats extérieurs.

Les achats effectués par le Gouvernement français aux Etats-Unis se limiteront au matériel d'équipement destiné aux services publics. Les services d'achats officiels continueront temporairement à acheter un nombre restreint d'articles parmi lesquels les produits alimentaires déficitaires, l'acier, le bois, les pneumatiques et certains produits médicaux.

A titre provisoire, une partie des importations françaises sera effectuée par des associations d'acheteurs privés (groupements) jusqu'à ce que soient résolues les difficultés de chargement, d'expédition et de transport des fournitures essentielles et de leur distribution en France.

Le Conseil français des Approvisionnements aux Etats-Unis poursuivra son activité sur une base réduite et se consacrera principalement à la liquidation des commandes en cours et aux achats gouvernementaux indiqués ci-dessus. Il limitera ses achats aux fournitures correspondant aux besoins civils essentiels et utilisera au maximum les voies normales du commerce. Il appliquera des méthodes conformes aux usages commerciaux et cessera ses opérations dès que ce sera possible.

V

Les deux Gouvernements sont d'accord pour reconnaître qu'une augmentation substantielle des exportations françaises aux Etats-Unis présenterait d'importants avantages pour chacun des deux pays. Ils ont examiné certaines lois et règlements en vigueur aux Etats-Unis qui, de l'avis du Gouvernement français, tendent à entraver indûment l'importation des produits français aux Etats-Unis. Ils ont porté une attention spéciale à la législation en matière de marques de fabrique et de droits d'auteur, à la question de l'emploi des appellations d'origine, au contrôle des prix sur les produits importés et aux méthodes d'évaluation de ceux-ci pour la perception des droits de douane. Les services compétents du Gouvernement des Etats-Unis ont accepté d'examiner avec attention et sympathie les vues du Gouvernement français et d'étudier la possibilité d'apporter des modifications aux règles administratives ou de recommander au Congrès la revision de la législation existante.

VI

Dans le cas où les mêmes mesures seraient adoptées par d'autres importantes nations industrielles, chacun des deux gouvernements s'est engagé à accorder, sur la base de la réciprocité, aux ressortissants de l'autre le droit d'utiliser librement et sans redevances tous les brevets appartenant précédemment à des allemands qui sont tombés en sa pleine possession, sous la seule réserve des droits qui ont déjà été concédés sur ces brevets. Les deux gouvernements estiment que l'adoption généralisée de cette politique aura pour effet de faire disparaître une importante entrave au commerce international et apportera une contribution substantielle au développement du commerce mondial. Conformément à ces objectifs, ils ont décidé d'examiner ultérieurement en commun d'autres questions relatives aux brevets allemands.

VII

Le Gouvernement français accordera aux ressortissants américains dont les biens en France ont subi des dommages par suite de la guerre, une réparation égale à celle assurée aux ressortissants français pour des pertes de même nature et d'une même étendue. Le Gouvernement des Etats-Unis a informé le Gouvernement français que l'égalité de traitement est accordée aux ressortissants français et américains en ce qui concerne la réparation des dommages causés par la guerre à leurs biens aux Etats-Unis.

VIII

Afin de donner une base solide au développement entre les deux pays de relations économiques mutuellement avantageuses, le Gouvernement des Etats-Unis et le Gouvernement français ont décidé d'entreprendre, dès que possible, des négociations en vue de la conclusion, sur des bases générales et modernes, d'un Traité d'établissement, de commerce et de navigation./.

ARRANGEMENT ENTRE LE GOUVERNEMENT DES ETATS-UNIS D'AMERIQUE ET LE GOUVERNEMENT PROVISOIRE DE LA REPUBLIQUE FRANCAISE AU SUJET DE LA PROJECTION DES FILMS AMERICAINS EN FRANCE

Le Gouvernement des Etats-Unis d'Amérique et le Gouvernement provisoire de la République française, s'inspirant de leur accord général en date de ce jour sur la politique commerciale et tenant spécialement compte des changements provoqués par la guerre, ont réexaminé certains problèmes relatifs à la projection en France de films doublés américains. Comme suite à ces conversations, le Gouvernement français a informé le Gouvernement des Etats-Unis qu'il allait prendre les mesures suivantes applicables à l'ensemble du territoire douanier français:

A partir du Ier juillet 1946, toutes dispositions antérieures concernant le nombre de films doublés susceptibles d'être projetés en France seront abandonnées. A la même date, sera appliqué un régime dit de "contingentement à l'écran" destiné à faciliter, par une protection temporaire, la reconstruction de l'industrie française du film éprouvée par la désorganisation due à l'occupation de la France par l'ennemi. Sous ce régime, les propriétaires de salles de cinéma seront tenus de projeter, chaque trimestre, pendant un certain nombre de semaines, des films de production française. Au cours des autres semaines, ils pourront librement projeter soit des films étrangers, soit des films français.

A partir du Ier juillet 1946, le contingent à l'écran réservé aux films français sera au maximum de quatre semaines par trimestre.

Ce contingent sera maintenu sur la base de quatre semaines par trimestre à moins qu'il ne soit réduit automatiquement à trois semaines par trimestre conformément à la règle suivante:

Si, pendant une période de deux ans prenant fin soit le 30 juin 1948, soit le 30 juin d'une des années suivantes, la production française a occupé, parmi les films projetés dans les salles de spectacle en France, une place égale ou supérieure à une moyenne de cinq semaines par trimestre, le contingent sera, à partir du Ier octobre suivant l'expiration de ladite période de deux ans, automatiquement réduit à trois semaines par trimestre.

Si, conformément à la formule ci-dessus, le contingent à l'écran est réduit à trois semaines par trimestre, ce régime sera maintenu sur cette base à moins qu'il ne vienne à prendre automatiquement fin conformément à la règle suivante:

Si, au cours d'une période quelconque de deux ans prenant fin un 30 septembre et pendant le cours total de laquelle a été appliqué un contingent de trois semaines par trimestre, la production française a occupé, parmi les films projetés dans les salles de spectacle en France, une place égale ou supérieure à une moyenne de cinq semaines par trimestre, le régime du contingentement sera complètement abandonné à partir du Ier janvier suivant l'expiration de la période de deux ans envisagée.

Le Gouvernement français s'est déclaré d'accord pour que, pendant la période d'application du contingentement à l'écran, aucune restriction, de quelque nature que ce soit, ne soit apportée à l'importation en France de films américains et pour que la projection en France de ces films ne subisse d'autres limitations que celle du contingentement à l'écran ou celles qui viseraient également les films français. Si, conformément aux dispositions ci-dessus, le contingentement à l'écran est supprimé, il n'y aura dès lors aucune restriction à l'importation en France de films amèricains et aucune autre limitation à la projection en France de ces films que celles qui viseraient également les films français.

Le Gouvernement des Etats-Unis constate avec satisfaction qu'en prenant ces nouvelles mesures, le Gouvernement français envisage l'élimination complète de toute protection pour le moment où l'industrie française du film aura recouvré son pouvoir de concurrence.

Si, de l'avis de l'un des deux gouvernements, ces nouvelles dispositions cessent, à un moment quelconque, de répondre aux conditions prévalant alors dans l'industrie française du film ou sur le marché français du film, chaque gouvernement se réserve le droit de demander à l'autre d'entreprendre des négociations en vue de leur modification ou de leur annulation. Si, à l'expiration d'un délai de six mois à compter de la date d'une telle demande, ces négociations n'ont pas abouti à une conclusion satisfaisante pour les deux gouvernements, les dispositions de l'accord commercial réciproque alors en vigueur seront applicables.

Fait à Washington, en double exemplaire, ce 28 mai 1946; en français et en anglais, les deux textes faisant également foi.

Interpretation of paragraph 6(i) of the "Memorandum of Understanding between the United States and France"

MAY 28, 1946

Le paragraphe VI i) du "Memorandum" d'accord entre le Gouvernement des Etats-Unis et le Gouvernement Francais est ainsi concu:

> "Le Gouvernement des Etats-Unis s'engage a mettre a la disposition du Gouvernement Francais une fraction de sa part dans les navires de surface pris a l'Allemagne et au Japon, lorsque ces navires viendront a etre en excedent des besoins des Etats-Unis et ne seront plus necessaires pour aucune operation liee a l'application des capitulations allemande et japonaise."

Les autorites competentes des Etats-Unis examinent actuellement les conditions dans lesquelles ces navires peuvent etre legalement cedes a une autre puissance. Dans ces conditions, il est entendu par les deux parties signataires du "Memorandum" susvise que la phrase "s'engage a mettre a la disposition du Gouvernement francais "dans le paragraphe cite plus haut ne doit pas etre comprise comme un engagement que les navires en question seront cedes sans compensation.

CONVENTION
FOR
THE EXCHANGE OF POSTAL MONEY ORDERS
BETWEEN
THE UNITED STATES OF AMERICA
AND
REPUBLIQUE LIBANAISE

THE CONVENTION FOR EXCHANGE OF POSTAL MONEY ORDERS BETWEEN THE POSTAL ADMINISTRATION OF THE UNITED STATES OF AMERICA ON THE ONE HAND AND THE POSTAL ADMINISTRATION OF THE REPUBLIC OF LEBANON ON THE OTHER HAND.

The Government of the United States of America and the Government of the Republic of Lebanon desiring to facilitate the transmission of funds between the United States of America and the Republic of Lebanon by means of money orders, have decided to conclude an agreement to this effect.

The undersigned, duly authorized by their respective Governments, are in agreement on the following articles:

ARTICLE I.

"The United States of America".

In this convention the expression "The United States of America" includes the Continental United States, Alaska, the Islands of Guam, Hawaii, Puerto Rico, Virgin Islands and Tutuila (Samoa). The expression "Republic of Lebanon" includes the territories under the jurisdiction of Lebanon.

Republic of Lebanon".

"The Central Administration".

The expression "The Central Administration" or "The Central Administrations" indicate, in regard to the United States of America, the Post Office Department, Division of Money Orders, Washington, D. C., and in regard

POUR L'ECHANGE DES MANDATS-POSTE ENTRE L'OFFICE POSTAL DES ETATS-UNIS D'AMERIQUE D'UNE PART, ET L'OFFICE POSTAL DE LA REPUBLIQUE LIBANAISE D'AUTRE PART.

Le Gourvernement Fédéral des Etats-Unis d'Amérique et le Gourvernement de la République Libanaise étant désireux de faciliter la transmission des fonds entre les Etats-Unis d'Amérique et la République Libanaise par le moyen de mandats de poste, et de conclure un arrangement à ces fins.

Les Soussignés dûment autorisés par leur gourvernement respectif se sont mis d'accord sue les articles suivantes:

ARTICLE I.

Dans cette convention l'expression "Etats-Unis d'Amérique" comprend les territoires de la Fédération des Etats-Unis d'Amérique, de l'Alaska, des Iles Guam, Hawaii, Porto Rico, Vierges et Tutuila (Samoa). L'expression "République Libanaise" comprend tous les territoires ressortissant à ce pays.

Les expressions "l'Administration Centrale" ou "les Administrations Centrales" désignent en ce qui touche les Etats-Unis d'Amérique: The Post Office Department, Division of Money Orders, Washington, D. C., en

to the Republic of Lebanon, the General Administration of Posts and Telegraphs at Beyrouth, Lebanon.

ARTICLE II.

A regular exchange of postal money orders is established between the United States of America on the one hand and the Republic of Lebanon on the other hand.

ARTICLE III.

The service of postal money orders between said countries will be carried out exclusively through the intermediary of Exchange Offices. The Exchange Office for the United States of America is New York; that for the Republic of Lebanon is Beyrouth.

ARTICLE IV.

The amount of each remittance will be expressed for the money orders issued in the United States of America, in Lebanon pounds and piastres; for those issued in Lebanon, in American dollars and cents.

The conversion into the money of the country of destination will be done by the office (exchange office or issuing office, as the case may be) under the jurisdiction of the Central Administration of the country of origin. The latter will fix the rate of exchange used by its own offices.

In conversion, fractions of cents or of Lebanon piastres will be disregarded.

ARTICLE V.

Each Central Administration has the right to establish, in agreement with the other, the maximum amount of issue for each order. This amount must not exceed two hundred (200) dollars

ce qui regarde la République Libanaise, la Direction Générale des Postes et des Télégraphes à Beyrouth, Liban.

ARTICLE II.

Un échange régulier de mandats-poste est créé entre les Etats-Unis d'Amérique d'une part, et la République Libanaise d'autre part. Establishment of exchange of postal money orders.

ARTICLE III.

Le service des mandats-poste entre les pays dénommés sera exclusivement exécuté par l'intérmediaire de bureaux d'échange. Le bureau d'échange des Etats-Unis d'Amérique est New York; celui de la République Libanaise est Beyrouth. Exchange Offices.

ARTICLE IV.

Le montant de chaque titre sera exprimé pour les mandats émis aux Etats-Unis d'Amérique, en livres et piastres Libanaise; pour ceux émis en Libanaiseen dollars et cents américains. Conversion into money of country of destination. *Post*, p. 4270.

La conversion en monnaie du pays de destination sera opérée par les bureaux (bureaux d'échange ou bureaux émetteurs suivant le cas) ressortissant à l'Administration centrale du pays d'origine; celle-ci fixera le taux de conversion pratiqué par ses propres bureaux.

Dans la conversion, les fractions de cent ou de piastres Libanaise, seront negligées.

ARTICLE V.

Chacune des Administrations Centrales aura la faculté de fixer, d'accord avec sa correspondante, le chiffre maximum d'émission de chaque mandat. Ce chiffre ne pourra dépasser deux cents (200) Maximum amount of issue for each order.

dollars pour les mandats émis dans la République Libanaise ou quatre cent quarante (440 livres Libanaise pour ceux émis aux Etats-Unis d'Amerique.

ARTICLE VI.

ARTICLE VI.

Fees, etc.

Each Central Administration has the right to change according to circumstances, the fees paid by remitters of postal money orders issued by the offices under its jurisdiction, on condition that it will inform the other Central Administration of its changes. The fees collected shall belong to the Administration of origin. The latter will allow to the paying Administration a commission of one half of one per cent (½%) on the total amount of orders paid. No allowance will be made for money orders issued without charge.

Chacune des administrations centrales aura le droit de modifier selon les circonstances le droit proportionnel de commission payable par les expéditeurs des mandats-poste émis par les bureaux de son ressort a condition qu'elle fasse connaître son tarif à l'administration centrale correspondante. Le droit de commission appartiendra à l'office d'origine.

Ce dernier bonifiera à l'office qui acquittera ces mandats une commission d'un demi pour cent (½%) du montant total des mandats payés; aucune bonification ne sera allouée pour les mandats émis en franchise de droits.

Exemptions.

The amounts of orders drawn in favor of prisoners of war, or sent by them, are exempt from all charges.

Les titres émis au profit des prisonniers de guerre ou envoyés par eux seront exempts de toutes taxes.

ARTICLE VII.

ARTICLE VII.

Remitter and payee names, etc.

The remitter of a postal money order shall be required to furnish, if possible, the surname and the first name or names, or at least the initials of the first name of the remitter and payee, or the name and address of the dispatching or receiving business firm or company. But if the aforesaid names or initials cannot be given, the money order may nevertheless be issued at the risk of the remitter.

L'expediteur d'un mandat-posts sera tenu de fournir, si possible, le nom et le ou les prénoms ou au moins l'initiale d'un prénom de l'expéditeur et du destinataire ou le nom et l'adresse de la maison de commerce ou de la compagnie expéditrice ou destinataire. Cependant, si le ou les prénoms ou l'initiale susmentionnée ne peuvent être fournis, le titre est néanmoins émis aux risques de l'expediteur.

ARTICLE VIII.

ARTICLE VIII.

Lost money order.

If a money order is lost a duplicate will be issued on written request of the remitter or payee, containing all the necessary information, and addressed to the Cen-

l'administration centrale du pays dans lequel le titre primitif est payable. Sauf au cas ou ce titre serait supposé avoir été perdu en cours de transmission dans le service postal, l'administration centrale qui délivrera le duplicata sera autorisée de ce fait à percevoir les mêmes droits que ceux prévus par sa législation intérieure.

ARTICLE IX.

A request for correction of name, or change of address of the payee, or for stoppage of payment of an order, or for refund of the money to the remitter, must be addressed by the remitter to the Central Administration of the country of issue of the money order.

ARTICLE IX.

Toute demande tendant soit à rectifier le nom, soit à modifier l'adresse du destinataire, soit à suspendre le payement d'un titre, soit enfin à en obtenir le remboursement au profit de l'expéditeur, devra être adressée par ce dernier à l'administration centrale du pays d'origine du mandat.

Request for correction, etc.

ARTICLE X.

In no event shall repayment of a money order be effected without a statement from the Central Administration of the country of destination to the effect that the money order has not been paid and that repayment is authorized.

ARTICLE X.

En tout cas, le remboursement d'un mandat ne pourra avoir lieu que sur la déclaration de l'administration centrale du pays où le titre était payable, que le mandat n'a pas été payé et que le remboursement est autorisé.

Authorization required for repayment.

ARTICLE XI.

The period of validity of a money order is fixed at twelve months, not including the month of issue. After the expiration of said period the amount of orders not paid is returned to the Central Administration of origin, which will dispose of them according to its own regulations.

ARTICLE XI.

La durée de validité d'un mandat est fixée à douze mois non compris celui de l'émission; à l'expiration de cette période le montant des titres non payés est reversé à l'administration centrale d'origine qui en dispose suivant sa propre législation.

Period of validity.

ARTICLE XII.

The orders issued in one country on the other are subject to the regulations of the country of origin as concerns their issue and to the laws of the country of destination as concerns their payment.

ARTICLE XII.

Les titres émis d'un pays sur l'autre seront soumis, en ce qui concerne l'émission aux réglements en vigueur dans le pays d'origine, et en ce qui touche le payement à la législation du pays de destination.

Regulations.

ARTICLE XIII.

Certification.

The exchange office at Beyrouth will certify to the exchange office at New York the particulars of the money orders drawn for payment in the United States of America, and the New York Office will certify to the exchange office at Beyrouth the orders drawn for payment in the Republic of Lebanon.

Money order advice lists.

The money order advice lists used for that purpose shall be similar to Forms A and B, attached hereto.

Post, pp. 4264, 4265.

In order to prevent the inconvenience resulting from the loss of one of these lists, each office will send with each list a duplicate of the preceding list.

ARTICLE XIV.

Order of entry on lists.

The orders will be entered in consecutive order in the lists by each exchange office, beginning with No. 1 on July 1st of each year.

"International numbers."

The numbers assigned to orders in the lists are considered "international numbers."

The lists will likewise be numbered serially each year beginning with No. 1 on July 1st.

ARTICLE XV.

Missing list of money orders.

Each missing list of money orders must be immediately claimed by the exchange office of destination. The exchange office of origin will transmit without delay to the other exchange office a duly certified copy of each list.

ARTICLE XVI.

Verification of advice list, etc.

Each advice list shall be carefully verified by the exchange office of destination and corrected

ARTICLE XIII.

Le bureau d'échange de Beyrouth communiquera au bureau d'échange de New-York le détail des sommes encaissées en vue de leur payement aux Etats-Unis d'Amérique; celui, de New-York transmettra au bureau d'échange de Beyrouth le détail des sommes encaissées en vue de leur payement dans la République Libanaise.

Les listes d'avis employées à cet effet seront conformes au modéle "A" and "B" annexé.

En vue de prévenir les inconvénients résultant de la perte d'une de ces listes, chaque bureau transmettra, en même temps que chaque liste, un duplicata de la liste précédente.

ARTICLE XIV.

Les mandats seront enregistrés sur les listes suivant une série annuelle spéciale pour chaque bureau d'échange commençant le 1er Juillet, par le No. 1.

Le numéro affecté à un mandat sur la liste sera considéré comme "numéro international."

Les listes seront ellesmêmes numérotées suivant une série annuelle commençant, le 1er Juillet, par le numéro 1.

ARTICLE XV.

Toute liste d'avis manquante devra être immédiatement réclamée par le bureau d'échange destinataire. Le bureau d'échange expéditeur devra alors transmettre sans délai au bureau d'échange correspondant une copie dûment certifiée de cette liste.

ARTICLE XVI.

Chaque liste d'avis devra être soigneusement vérifiée par le bureau d'échange destinataire et cor-

in cases of simple errors. The details of correction will be communicated to the exchange office of origin.

If a list contains other irregularities, the exchange office of destination shall ask for information from the exchange office of origin, which shall furnish this information in the shortest possible time. In such cases the issue of inland orders drawn on the items subject to such inquiries will be suspended until correction

rigée en cas d'erreurs manifestes. Le détail des corrections sera communiqué au bureau d'échange expéditeur.

Si une liste comporte d'autres irrégularités, le bureau d'échange destinataire demandera des renseignements au bureau d'échange expéditeur qui devra les fournir dans le plus bref délai possible. Dans ce cas, l'émission du titre intérieur faisant l'objet de la demande sera suspendue jusqu'à régularisation.

ARTICLE XVII.

Reissuance of new orders, etc.

On receipt of a list at the exchange office of destination, after verification, said office shall reissue new orders in favor of the payees for amounts specified in the lists, or their equivalents in the money of the country of destination, and shall transmit them to the payees or to the paying offices in accordance with the regulations in force in the country of destination.

ARTICLE XVII.

Dés l'arrivée d'une lists d'avis au bureau d'échange destinataire, celui-ci après vérification, établira au profit des bénéficiaires les titres dont le montant est égal aux sommes spécifiées dans la liste; il les transmettra, soit aux destinataires, soit aux bureaux payeurs, selon la réglementation en vigueur dans l'office destinataire.

ARTICLE XVIII.

Arrangements for exchange of money orders.

The Republic of Lebanon may exchange, through the intermediary of the Postal Administration of the United States, postal money orders with the countries which have money order service with the United States of America. This service will be subject to special arrangements as follows:

(a) The exchange office at Beyrouth will certify the amount of each "through" order to the exchange office at New York, which will in turn certify it to the country of payment.

(b) The maximum amount of each order must not exceed the maximum fixed in the agreement between the United States of America and the country of destination.

ARTICLE XVIII.

L'office postal Libanaise pourra échanger par l'intermédiaire de l'office Américain, des mandats poste avec les pays participant au service des mandats poste avec les Etats-Unis d'Amérique. Ce service sera soumis aux dispositions particuliéres ci-aprés:

(a) Le bureau d'échange de Beyrouth notifiera le montant de chaque titre en transit au bureau d'échange de New York qui le notifiera à son tour à l'office intéressé.

(b) Le montant maximum de chaque titre ne devra pas être supérieur à celui fixé dans les relations entre les Etats-Unis d'Amérique et le pays de destination.

(c) The particulars of such orders shall be entered in red ink at the end of each advice list certified to New York, or on special lists, and the total amounts of such orders will be included in the total of the ordinary lists.

(d) The name and address of the payee of a "through" order, as well as the name of the city and country of destination must be as complete as possible.

(e) The Lebanon Postal Administration will allow to the Postal Administration of the United States on the "through" money orders, a commission equal to that allowed on orders payable in the United States of America. (See Article VI). The American Central Administration will credit the country of payment with a commission equal to that provided in agreements between that country and the United States of America, and will deduct from the amount of the order a fee fixed by the American Central Administration.

Ante, p. 4254.

(f) In case of repayment to the remitter of the amount of a "through" money order, the intermediary country shall retain the fee collected.

The Postal Administration of the United States shall communicate to the General Administration of Posts and Telegraphs at Beyrouth, the names of the countries with which it exchanges postal money orders, the maximum amount of the orders in each case, and the fees to be deducted from the amount of each remittance.

(c) Les indications relatives à cette catégorie de titre devront figurer à l'encre rouge à la fin de chacune des listes d'avis ordinaires notifiées à New York ou sur des listes spéciales et le total du montant de ces titres sera compris dans le total des listes ordinaires.

(d) Le nom et l'adresse du bénéficiaire de mandat-poste en transit ainsi que le nom de la ville et du pays destinataire devront être aussi complets que possible.

(e) L'office postal Libanaise allouera á l'office Américain, pour les mandats poste en transit, une bonification égale à celle dont sont passibles les mandats payables aux Etats-Unis d'Amérique (voir Article VI). Le Bureau d'échange Américain créditera l'office du lieu du payement d'une commission égale à celle prévue dans les relations entre cet office et les Etats-Unis d'Amérique et déduira du montant un titre un droit de commission fixé par l'administration centrale Américaine.

(f) Au cas de remboursement à l'expéditeur du montant d'un mandat en transit, le droit de commission prélevé par l'office intermédiaire restera acquis à celui-ci.

L'Office Américain communiquera à la Direction Générale des Postes et Télégraphes à Beyrouth les noms des pays avec lesquels il échange des mandats-poste, le montant maximum des titres dans chaque relation et les droits de commission à déduire du montant de chaque titre.

ARTICLE XIX.

At the end of each quarter each Central Administration will prepare and transmit to the other a statement of money orders issued in the other country and which are not paid at the expiration of twelve months following the month of issue, and therefore became void during the preceding quarter (see appendix C); should there be no such orders, a statement marked "no void orders" shall be transmitted.

ARTICLE XIX.

A la fin de chaque trimestre, chacune des administrations centrales établira et transmettra à l'autre un relevé des mandats-poste émis par les bureaux ressortissant a sa correspondante qui, non payés à l'expiration du délai de douze mois faisant suite au mois de l'émission, seront périmés au cours du trimestre écoulé (voir appendice C). Le cas échéant, un relevé "Néant" sera transmis.

Quarterly statements by Central Administrations.

ARTICLE XX.

The General Administration of Posts and Telegraphs at Beyrouth, will mail to the Third Assistant Postmaster General, Division of Money Orders, Washington, D. C., as soon as possible after the end of each quarter an account, in duplicate, containing the following items:

a. To the credit of the United States:

1. The total amount of advice lists sent by the Beyrouth exchange office during the current quarter, less the amount of invalid orders and the orders which the Lebanon Republic has been authorized to repay during the same period.

2. The commission of ½% on the amount of money orders paid in the United States.

b. To the credit of the Lebanon Republic:

a. Of advice lists transmitted during the quarter in both directions (Appendix D)

Post, p. 4267.

b. Of invalid and repaid money orders (Appendix C).

Acceptance copy of account.

A copy of the account, duly accepted, will be returned to the General Administration of Posts and Telegraphs at Beyrouth.

ARTICLE XXI.

Payment of provisional balance.

If during the quarter the total amount of the money orders issued by either Administration exceeds 12,000 gold francs (or the equivalent thereof), the orders issued by the other Central Administration, the creditor country shall have the right to ask the debtor Central Administration for payment of a provisional balance amounting to three-quarters of the sum due. This payment shall be effected within eight days follow-

remboursement a été autorisé aux Etats-Unis durant la même période.

2. La bonification de ½ pour cent sur le montant des mandats payés dans la République Libanaise.

c. La Balance de ces comptes:

Pour l'Établissement de cette balance la créance la plus faible sera convertie en la monnaie de la créance la plus forte en prenant pour base de conversion le cours moyen officiel du change dans le pays débiteur pendant la période à laquelle le compte se rapportera. Les différences ultérieurement constatées seront reprises dans le premier compte trimestriel à intervenir.

Ce compte, établi sur une formule analogue à l'appendice E devra être accompagné des relevés:

a. Des listes d'avis transmises pendant le trimestre dans les deux sens (Appendix D).

b. Des mandats périmés, annulés ou remboursés (Appendix C).

Une copie du compte, dûment approuvée, sera retournée à la Direction Générale des Postes et Télégraphes à Beyrouth.

ARTICLE XXI.

Lorsqu'au courant du trimestre, le montant total des mandats émis par l'une des Administrations correspondantes dépassera de douze mille (12,000) francs-or celui des titres émis par l'autre, l'administration centrale créditrice aura le droit de demander à l'administration centrale débitrice le versement d'un solde de provision jusqu'à concurrence des trois-quarts de la crèance. Ce paiement devra être effectué dans

In case of nonpayment in the stipulated time, interest at the rate of 6% per annum shall be paid from the date the payment is due until the date of payment.

les huit jours qui suivront le réception de la demande du créditeur, et verification de la montant du.

En cas de non versement dans le délai sus-indiqué, les sommes dues porteront intéréts à raison de 6% l'an du jour de l'expiration de ce délai au jour du paiement.

ARTICLE XXII.

The balance of the general account must be paid by the debtor country not later than 15 days after the date on which the general account is accepted as correct.

Balance of general account.

La balance d'un compte général devra être versée par l'office débiteur quinze jours au plus aprés la date de réception du compte général reconnu exact.

The payment mentioned in this article and article XXI, will be effected by remittance on New York or Beyrouth, as the case may be, in the money of the creditor country, without any loss to the latter.

Post, p. 4270.

Les versements visés tant au présent article qu'à l'article XXI, seront effectués au moyen de traites tirées suivant le cas soit sur New York, soit sur Beyrouth, et dans la monnaie du pays créditeur, sans perte pour ce dernier.

Any amount not paid by one of the Central Administrations to the other, after the expiration of six months following the period for which the bill was rendered, will bear interest at the rate of 6% per annum.

Interest on unpaid amounts.

Toute somme restant due par l'une des Administrations Centrales à l'autre à l'expiration du délai de six mois qui suivra la période pour laquelle le compte a été établi portera intérets à raison de 6%.

ARTICLE XXIII.

Each of the Central Administrations is authorized to adopt any supplementary measures, not contrary to the provisions of this Convention, which it may deem advisable to guard more securely against fraud or to improve the working of the service provided due notice thereof be given to the other.

Supplementary measures, etc.

Chacune des Administrations Centrales sera autorisée à adopter, pour autant qu'elles ne sont pas contraires aux dispositions de la présente convention toutes mesures complémentaires qu'elle jugera convenables en vue d'assurer une plus grande sécurité contre les fraudes, ou une meilleure exécution du service, pourvu qu'elle fasse connaître à sa correspondante les dispositions adoptées.

ARTICLE XXIV.

The General Administration of Posts and Telegraphs of the Lebanon Republic shall have the right to fix the maximum amount

des sommes pouvant être envoyées journellement par un expediteur au même destinaire aux Etats-Unis d'Amérique.

ARTICLE XXV.

ARTICLE XXV.

Right to increase fees, suspend service, etc.

Each Central Administration reserves the right to increase the fees or to suspend temporarily money order service in case it finds that this service is used by firms or by any one else for remitting large amounts, or for speculation purposes.

Chacune des Administrations Centrales se réserve la faculté d'augmenter le droit de commission ou même de suspendre temporairement le service des mandats-poste, au cas où elle constaterait que le service est utilisé par des commerçant ou par tout autre personne pour l'envoi des sommes exagérées ou pour des manoeuvres spéculatives sur les devises.

The temporary suspension of money order service may be decided unilaterally by each Administration in case of extraordinary circumstances, of which each Administration is the sole judge.

In all cases notice of such suspension must be given immediately by telegraph to the correspondent Central Administration.

La suspension temporaire due service des mandats-poste pourra également être décidée de façon unilatérale par chacune des parties en cause au case de circonstances extraordinaires dont celle-ci demeurera seule juge. Dans tous les cas, avis de cette suspension devra etre donné immediatement, au besoin par télégraphe à l'administration centrale correspondante.

ARTICLE XXVI.

ARTICLE XXVI.

Effective date.

The present Convention shall take effect on a date fixed by common agreement between the Postal Administration of the United States and Lebanon and promulgated according to the laws of the respective countries.[1]

La présente Convention entrera en vigueur à une date fixée d'un commun accord entre l'office Libanaise et l'office Américain et promulguée conformément aux lois respectives des deux pays.

AMENDMENTS TO MONEY ORDER CONVENTION BETWEEN THE UNITED STATES OF AMERICA AND THE REPUBLIC OF LEBANON

95847°—50—PT. IV——59

Amendments.

Pursuant to authority vested in them, the Postmaster General of the United States of America and the Director of Posts and Telecommunications of the Republic of Lebanon have agreed upon the following amendments to the Convention for the exchange of international money orders between the two countries.

These amendments will become effective when signed and will supersede ARTICLE IV, ARTICLE XX, (Par. c) and ARTICLE XXII, (Par. 2).

Ante, pp. 4253, 4260, 4261.

ARTICLE IV.

Conversion into currency.
Ante, p. 4253.

The amount of money orders exchanged in both directions will be expressed in American currency. The exchange office at Beyrouth will convert the amount of the money orders issued in Lebanon into United States dollars and the amount of the money orders issued in the United States of America, into Lebanon currency.

The rate of conversion shall approximate as closely as possible the buying and selling rate of the United States dollar fixed by the Official Bank at Beyrouth.

The Postal Administration of Lebanon will duly notify the Postal Administration of the United States of the conversion rates used for orders going in both directions.

ARTICLE XX.

Balances.
Ante, p. 4260.

Par. (c). For the establishment of this balance the credit of the Lebanese Republic, expressed in Lebanese pounds, will be converted into United States dollars by using for the basis of conversion the average official rate of exchange in the United States of America, during the period to which the account relates. The differences established will be carried over to the next quarterly account to follow.

ARTICLE XXII.

Payments.
Ante, pp. 4261, 4260.

Par. (2). The payments provided in this Article and in Article XXI, will be effected by means of drafts drawn on New York in United States dollars.

In witness whereof the Undersigned have signed these Amendments to the Convention and have affixed their seals.

Done in duplicate and signed at Washington on October 8, 1946 and Beyrouth on 15 Mars 1947.

AMENDEMENTS A L'ARRANGEMENT ENTRE LES ETATS-UNIS D'AMERIQUE ET LA REPUBLIQUE LIBANAISE CONCERNANT LES MANDATS DE POSTE

En vertu des pouvoirs qui leur sont conférés, le Postmaster General des Etats-Unis d'Amérique et le Directeur des Postes et Télécommunications de la République Libanaise ont arrêté les amendements suivants à l'Arrangement concernant les Mandats de Poste entre les deux pays.

Ces amendements entreront en vigueur des qu'ils seront signés, et remplaceront les Articles IV, XX (Alinéa c), et XXII (Paragraphe 2).

ARTICLE IV

Le montant des mandats de poste échangés dans les deux sens sera exprimé en monnaie américaine. Le bureau d'échange de Beyrouth convertira le montant des mandats emis au Liban en dollars des Etats-Unis, et celui des mandats émis aux Etats-Unis en monnaie libanaise.

Le taux de conversion se conformera autant que possible au prix d'achat et de vente du dollar fixé par la Banque Officielle de Beyrouth.

L'Administration des Postes du Liban notifiera celle des Etats-Unis au moment voulu sur les taux de conversion employés pour les mandats expédiés dans les deux sens.

ARTICLE XX

Alinéa (c). Pour l'établissement de ce solde, l'avoir de la République Libanaise, exprimé en livres libanaises, sera converti en dollars des Etats-Unis en prenant comme base de conversion le cours moyen officiel du change aux Etats-Unis pendant la période à laquelle le compte correspond. La différence établie sera portée au compte trimestriel prochain.

ARTICLE XXII

Paragraphe (2). Les paiements prévus à l'Article présent et à l'Article XXI seront effectués au moyen de traites tirées sur New York en dollars des Etats-Unis.

En foi de quoi, les soussignés ont souscrit ces Amendements à l'Arrangement et y ont apposé leurs sceaux officials.

Fait en duplicata et signé à Washington le October 8, 1946 et à Beyrouth le 15 Mars 1947.

EXCELLENCY:

I have the honor to refer to the Embassy's note 697 of October 13, 1942, and to the Memorandum Agreement between Mexico and the United States pertaining to the cooperative project of the Mexican Weather Bureau and the United States Weather Bureau under the program of the Inter-departmental Committee on Cooperation with the American Republics. The Ministry in its note to the Embassy No. 59195 of November 10, 1942, informed the Embassy that the Ministry of Agriculture agreed to the terms of the Memorandum and understood that the agreement was to be effective until June 30, 1945.

Post, p. 4281.

Post, p. 4285.

Proposed extension of agreement.

As the Agreement now in force will expire June 30, 1945, the Embassy is instructed to approach Your Excellency's Government with the view to effecting an extension of the Memorandum Agreement for another three year period, i.e. from July 1, 1945, to June 30, 1948. The continued performance of the Agreement on the part of the United States Government is, of course, dependent on the appropriation of the necessary funds by the Congress of the United States.

I should be happy to transmit Your Excellency's reply to this communication to my Government.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

SEÑOR EMBAJADOR:

Con referencia a la nota de esa Embajada a su digno cargo, número 3884, fechada el 12 del actual, relativa a los deseos del Gobierno de Vuestra Excelencia para que el Memorándum Convenio relativo al Servicio de Observación Meteorológico por radiosondeo, existente entre México y los Estados Unidos de América, se prorrogue por 3 años, y sin estar aún en condiciones de comunicar a Vuestra Excelencia la respectiva contestación de las autoridades competentes mexicanas, tengo el agrado de manifestarle que la Secretaría de Agricultura y Fomento, con el deseo de fomentar el establecimiento de estaciones para tal servicio, comunica a esta Dependencia del Ejecutivo que la Dirección General de Geografía, Meteorología e Hidrología, sugirió al Servicio Meteorológico Norteamericano la conveniencia de establecer dos estaciones de la misma naturaleza, en Ciudad Victoria, Tamps. y Chihuahua, Chih. que funcionarían bajo las mismas condiciones establecidas en el Convenio Memorándum citado.

Se refiere aquella Secretaría a que el Servicio Meteorológico Norteamericano, en nota enviada por su Delegado, señor Arnold P. Eliot, de fecha 8 de mayo último, está anuente a establecer la estación de que se trata, en la capital de Estado de Tamaulipas.

De acuerdo con lo anterior tengo el agrado de poner lo correspondiente en conocimiento de Vuestra Excelencia, con el fin de que, en su caso, pueda adicionarse el convenio existente incluyendo la estación de referencia.

Aprovecho esta oportunidad para reiterar a Vuestra Excelencia las seguridades de mi más alta y distinguida consideración.

MR. AMBASSADOR:

With reference to note number 3884, dated the 12th instant, from the Embassy under your worthy charge, relative to the desires of Your Excellency's Government that the Memorandum of Agreement relative to the Meteorological Observation Service by radiosonde, which is in

effect between Mexico and the United States of America, be extended for three years, although I am not yet in a position to communicate to Your Excellency the answer of the competent Mexican authorities, I have the honor to inform you that the Department of Agriculture and Development, with the desire to promote the establishment of stations for that service, informs this branch of the Executive that the Office of the Director General of Geography, Meteorology and Hydrology has suggested to the United States Meteorological Service the advantage in establishing two stations of the same nature at Ciudad Victoria, Tamaulipas and Chihuahua, Chihuahua, which would be operated under the same terms stated in the Memorandum of Agreement mentioned.

The said Department refers to the fact that the United States Meteorological Service, in a note sent by its representative, Mr. Arnold P. Eliot, dated May 8 last, [1] agrees to establish the station referred to in the capital of the State of Tamaulipas.

In accord with the aforegoing, I have the honor to bring this information to Your Excellency's attention to the end that, if desirable, the existing Agreement may be extended to include the station referred to.

I avail myself of this opportunity to renew to Your Excellency the assurances of my highest and most distinguished consideration.

EXCELLENCY:

I have the honor to acknowledge the receipt of Your Excellency's courteous note No. 56730 dated June 16, 1945 with reference to this Embassy's communication No. 3884 of June 12, [2] 1945 concerning the eventual renewal for a period of three years of the Memorandum Agreement existing between the Governments of Mexico and the United States and pertaining to the cooperative project of the Mexican Weather Bureau and the United States Weather Bureau under the program of the Interdepartmental Committee on Cultural and Scientific Cooperation with the American Republics. Your Excellency informs me that the Dirección General de Geografía, Meteorología e Hidrología of the Ministry of Agriculture suggests for the considera-

tion of the United States Weather Bureau that two additional radiosonde stations be established, one in Ciudad Victoria, Tamps., and one in Chihuahua, Chih., to operate under the conditions set forth in the Memorandum Agreement, and Your Excellency also states that a reply has not been received from the appropriate Mexican authorities with regard to the renewal of the agreement for a period of three years or to June 30, 1948.

Establishment of additional station at Ciudad Victoria.

As I am instructed by my Government that the United States Weather Bureau concurs in the desirability of establishing the additional station at Ciudad Victoria, may I propose to Your Excellency, in accordance with the suggestion contained in the next to last paragraph of Your Excellency's note No. 56730, that the language of paragraph one of the Memorandum Agreement which now reads:

Post, p. 4282.

"1. To cooperate in the establishment and operation of three radiosonde observation stations in Mexico, to be located at Mexico City (Tacubaya), Mazatlan and Tapachula; and"

be changed to read:

"1. To cooperate in the establishment and operation of four radiosonde observation stations in Mexico, to be located at Mexico City (Tacubaya), Mazatlan, Merida and Ciudad Victoria, Tamps.; and".

Transfer of station in Tapachula.

The above amendment would provide not only for the establishment of a new station at Ciudad Victoria but also for the transfer of the station in Tapachula to Merida which was actually effected in 1944. I have referred to my Government the suggestion with regard to the establishment of a station at Chihuahua, Chih., but in the meantime venture to suggest to Your Excellency that the extension of the amended Memorandum Agreement for a period of three years be effected by an exchange of notes comprising this communication and Your Excellency's reply thereto. As I am informed that the United States Weather Bureau has made provision in its budget for the 1946 fiscal year in connection with its obligations under the Memorandum Agreement for the establishment of the Ciudad Victoria station and as it desires to proceed in cooperation with the Mexican Meteorological Service promptly after June 30, 1945, in the establishment of this station, I would appreciate receiving Your Excellency's reply to this communication as soon as a decision is reached by the appropriate authorities of the Mexican Government concerning the eventual renewal of the amended Memorandum Agreement to June 30, 1948.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

EXCELLENCY:

I have the honor to refer to the Undersecretary's courteous note no. 5682 of January 31, 1941, [1] and related correspondence in connection with the visit to Mexico of Mr. Stephen Lichtblau of the United States Weather Bureau to confer with Dr. José C. Gomez and other officials of the Mexican Meteorological Service with a view to the establishment on a cooperative basis of radiosonde observation stations. Establishment of radiosonde observation stations.

Since Mr. Lichtblau's visit to Mexico, Dr. F. W. Reichelderfer, Chief of the Weather Bureau, has corresponded with Dr. Gomez on the subject and it is understood that as a result of these preliminary discussions the United States Weather Bureau and the Mexican Meteorological Service have agreed in principle that it would be desirable to cooperate in the establishment and operation of three radiosonde observation stations to be located in Mexico City (Tacubaya), Mazatlan and Tapachula.

In this connection I have the honor to transmit herewith a Memorandum Agreement setting forth in detail the conditions under which the United States Weather Bureau proposes to cooperate with the Mexican Meteorological Service in the establishment and operation of the proposed stations in question. If this Memorandum Agreement meets with the approval of Your Excellency's Government I should appreciate it if Your Excellency would be so kind as to inform me as soon as may be possible in order that I may so inform my Government. Memorandum Agreement, *Post*, p. 4282.

It is the view of my Government that a note from Your Excellency accepting the proposals set forth in the Memorandum will constitute an agreement to that effect and it is not necessary that the Memorandum be signed.

For Your Excellency's further information I may state that my Government has already established a network of radiosonde observation stations in the United States, the West Indies, and the Canal Zone, and if additional stations can be established at Mexico City, Desired result of project.

[1] [Not printed.]

Mazatlan, and Tapachula the project will result in filling an existing gap in the network. The stations will make it possible for the Mexican Meteorological Service and the Weather Bureau to obtain data on the temperature, pressure and humidity of the atmosphere from the earth's surface to great heights. This information is of vital importance to aviation both in Mexico and the United States and it is therefore hoped that Your Excellency will be so kind as to expedite a reply in the premises.

Please accept, Excellency, the renewed assurances of my highest and most distinguished consideration.

MEMORANDUM AGREEMENT

Regular exchange of meteorological data.

In accordance with recent correspondence between Dr. F. W. Reichelderfer, Chief of the United States Weather Bureau, and Dr. José C. Gomez, Chief of the Mexican Meteorological Service, and previous conversations between representatives of the two organizations, the Government of the United States, through the Weather Bureau, now proposes to cooperate with the Government of Mexico, through the Mexican Meteorological Service, in organizing the regular exchange of meteorological data, subject to the following understanding:

General objectives.

It shall be the general objective of the said meteorological services of the two countries –

Ante, p. 4279.

1. To cooperate in the establishment and operation of three radiosonde observation stations in Mexico, to be located at Mexico City (Tacubaya), Mazatlan and Tapachula; and

2. To provide for the daily exchange of upper-air weather observations between the United States Weather Bureau and the Mexican Meteorological Service for the use of each country, especially in serving the needs of aviation, and to render it possible for the Government of the United States and the Government of Mexico to assist in the development of a continental exchange of weather information, forecasts, and warnings.

Action by U. S. Weather Bureau.

To attain the foregoing objectives, the United States Weather Bureau agrees to –

(a) Provide and install the ground equipment necessary for making radiosonde observations at each of the three stations and pay the cost of necessary repairs;

(b) Authorize one of its technicians to visit the observation stations to repair the ground equipment, whenever such equipment becomes inoperative and repairs cannot be made locally;

(c) Detail three experienced radiosonde observers to Mexico (one to each observation station) for a period of about two months to instruct observers employed by the Mexican Meteorological Service in the technique of making radiosonde observations and in the maintenance of equipment;

(d) Provide the necessary radiosondes, balloons, parachutes, helium gas, meteorological forms and other accessories required for the observations; and

(e) Provide balloon inflation shelters, if necessary.

Action by Government of Mexico.

The Government of Mexico, through the Mexican Meteorological Service, agrees to –

(a) Assign a minimum of one observer and one assistant to each station for the purpose of making daily observations in accordance with standard practice and procedure;

(b) Supply the necessary office quarters and office equipment, including heat, light and electric power;

(c) Provide adequate ground space for balloon inflation shelters, as may be necessary;

(d) Arrange for the prompt transmission of the radiosonde observation reports made pursuant to this agreement to a point in the United States to be designated by the United States Weather Bureau; and

(e) Make available the recorder records to the United States Weather Bureau for reference purpose, and supply that Bureau with copies of the Weather Bureau forms which will be used for all radiosonde observations made at the stations.

Expenditures.

I. The total amount to be expended by the United States Weather Bureau shall not exceed Fifty Thousand Dollars ($50,000) during the fiscal year ending June 30, 1943. All expenditures incurred by the Weather Bureau shall be paid directly by that organization and all expenditures incident to the obligations assumed by the Government of Mexico shall be paid directly by that Government.

Title to property.

II. Title to all property supplied by the Mexican Government shall remain vested in that Government, and likewise the title to all property supplied by the Government of the United States shall remain vested therein.

Effective date; termination.

This agreement shall come into effect on the day on which it is accepted by the Government of Mexico, and shall continue in effect until June 30, 1943, [1] or for an additional period if mutually agreed upon in writing, unless the Congress of either country shall fail to make available the funds necessary for its execution in which case it may be terminated on sixty days' advance written notice by the Government of either country.

CONFÉRENCE DES NATIONS UNIES SUR LE COMMERCE ET L'EMPLOI

FINAL ACT

In accordance with the Resolution adopted at the First Session of the Preparatory Committee of the United Nations Conference on Trade and Employment, established by the Economic and Social Council of the United Nations on February 18, 1946,

The Governments of the COMMONWEALTH OF AUSTRALIA, the KINGDOM OF BELGIUM, the UNITED STATES OF BRAZIL, BURMA, CANADA, CEYLON, the REPUBLIC OF CHILE, the REPUBLIC OF CHINA, the REPUBLIC OF CUBA, the CZECHOSLOVAK REPUBLIC, the FRENCH REPUBLIC, INDIA, LEBANON, the GRAND-DUCHY OF LUXEMBURG, the KINGDOM OF THE NETHERLANDS, NEW ZEALAND, the KINGDOM OF NORWAY, PAKISTAN, SOUTHERN RHODESIA, SYRIA, the UNION OF SOUTH AFRICA, the UNITED KINGDOM OF GREAT BRITAIN AND NORTHERN IRELAND, and the UNITED STATES OF AMERICA,

Initiated negotiations between their representatives, at Geneva on April 10, 1947, directed to the substantial reduction of tariffs and other trade barriers and to the elimination of preferences, on a reciprocal and mutually advantageous basis. These negotiations have terminated today and have resulted in the framing of a General Agreement on Tariffs and Trade and of a Protocol of Provisional Application, the texts of which are annexed hereto. These texts are hereby authenticated.

The signature of this Final Act, or of the Protocol of Provisional Application, by any of the above-mentioned Governments does not in any way prejudice their freedom of action at the United Nations Conference on Trade and Employment.

This Final Act, including the texts of the General Agreement on Tariffs and Trade and of the Protocol of Provisional Application, will be released by the Secretary-General of the United Nations for publication on November 18, 1947, provided that the Protocol of Provisional Application shall have been signed by November 15, 1947, on behalf of all the countries named therein.

ACTE FINAL

Conformément à la résolution adoptée lors de la première session de la Commission préparatoire de la Conférence des Nations Unies sur le Commerce et l'Emploi, constituée le 18 février 1946 par le Conseil économique et social des Nations Unies,

Les Gouvernements du COMMONWEALTH D'AUSTRALIE, du ROYAUME DE BELGIQUE, des ETATS-UNIS DU BRÉSIL, de la BIRMANIE, du CANADA, de CEYLAN, de la RÉPUBLIQUE DU CHILI, de la RÉPUBLIQUE DE CHINE, de la RÉPUBLIQUE DE CUBA, des ETATS-UNIS D'AMÉRIQUE, de la RÉPUBLIQUE FRANÇAISE, de l'INDE, du LIBAN, du GRAND-DUCHÉ DE LUXEMBOURG, du ROYAUME DE NORVÈGE, de la NOUVELLE-ZÉLANDE, du PAKISTAN, du ROYAUME DES PAYS-BAS, de la RHODÉSIE DU SUD, du ROYAUME-UNI DE GRANDE-BRETAGNE ET D'IRLANDE DU NORD, de la SYRIE, de la RÉPUBLIQUE TCHÉCOSLOVAQUE et de l'UNION SUD-AFRICAINE,

Ont engagé à Genève, le 10 avril 1947, par l'entremise de leurs représentants, des négociations en vue de réduire, d'une façon substantielle, les tarifs douaniers et les autres entraves au commerce et d'éliminer les préférences, sur une base de réciprocité et d'avantages mutuels. Ces négociations ont pris fin aujourd'hui et ont abouti à l'élaboration d'un Accord général sur les tarifs douaniers et le commerce et d'un Protocole d'application provisoire, dont les textes sont joints au présent acte. L'authenticité de ces textes est établie par le présent Acte.

La signature, par les gouvernements susmentionnés, du présent Acte final ou du Protocole d'application provisoire ne porte atteinte en aucune manière à leur liberté d'action à la Conférence des Nations Unies sur le Commerce et l'Emploi.

Le présent Acte final, ainsi que le texte de l'Accord général sur les tarifs douaniers et le commerce et celui du Protocole d'application provisoire seront publiés le 18 novembre 1947 par les soins du Secrétaire général des Nations Unies, à la condition que le Protocole d'application provisoire ait été signé le 15 novembre 1947 au nom de tous les pays énumérés dans ce Protocole.

IN WITNESS WHEREOF the respective Representatives have signed the present Act.

DONE at Geneva, in a single copy, in the English and French languages, both texts authentic, this thirtieth day of October, one thousand nine hundred and forty-seven.

EN FOI DE QUOI les représentants des gouvernements susmentionnés ont signé le présent Acte.

FAIT à Genève, en un seul exemplaire, en langues française et anglaise, les deux textes faisant également foi, le trente octobre mil neuf cent quarante-sept.

GENERAL AGREEMENT ON TARIFFS AND TRADE

The Governments of the Commonwealth of Australia, the Kingdom of Belgium, the United States of Brazil, Burma, Canada, Ceylon, the Republic of Chile, the Republic of China, the Republic of Cuba, the Czechoslovak Republic, the French Republic, India, Lebanon, the Grand Duchy of Luxemburg, the Kingdom of the Netherlands, New Zealand, the Kingdom of Norway, Pakistan, Southern Rhodesia, Syria, the Union of South Africa, the United Kingdom of Great Britain and Northern Ireland, and the United States of America:

Recognizing that their relations in the field of trade and economic endeavour should be conducted with a view to raising standards of living, ensuring full employment and a large and steadily growing volume of real income and effective demand, developing the full use of the resources of the world and expanding the production and exchange of goods;

Being desirous of contributing to these objectives by entering into reciprocal and mutually advantageous arrangements directed to the substantial reduction of tariffs and other barriers to trade and to the elimination of discriminatory treatment in international commerce;

Have through their Representatives agreed as follows:

PART I

Article I

General Most-Favoured-Nation Treatment

1. With respect to customs duties and charges of any kind imposed on or in connection with importation or exportation or imposed on the international transfer of payments for imports or exports, and with respect to the method of levying such duties and charges, and with respect to all rules and formalities in connection with importation and exportation, and with respect to all matters referred to in paragraphs 1 and 2 of Article III, [1] any advantage, favour, privilege or immunity granted by any contracting party to any product originating in or destined for any other country shall be accorded immediately and unconditionally to the like product originating in or destined for the territories of all other contracting parties.

2. The provisions of paragraph 1 of this Article shall not require the elimination of any preferences in respect of import duties or charges which do not exceed the levels provided for in paragraph 3 of this Article and which fall within the following descriptions:

(a) preferences in force exclusively between two or more of the territories listed in Annex A, [2] subject to the conditions set forth therein;

(b) preferences in force exclusively between two or more territories which on July 1, 1939, were connected by common sovereignty or relations of protection or suzerainty and which are listed in Annexes B, C and D, [3] subject to the conditions set forth therein;

[1] [*Post*, p. A85.]
[2] [*Post*, p. A76.]
[3] [*Post*, pp. A78, A79, A80.]

(c) preferences in force exclusively between the United States of America and the Republic of Cuba;

(d) preferences in force exclusively between neighbouring countries listed in Annexes E and F. [1]

3. The margin of preference [2] on any product in respect of which a preference is permitted under paragraph 2 of this Article but is not specifically set forth as a maximum margin of preference in the appropriate Schedule annexed to this Agreement shall not exceed

(a) in respect of duties or charges on any product described in such Schedule, the difference between the most-favoured-nation and preferential rates provided for therein; if no preferential rate is provided for, the preferential rate shall for the purposes of this paragraph be taken to be that in force on April 10, 1947, and, if no most-favoured-nation rate is provided for, the margin shall not exceed the difference between the most-favoured-nation and preferential rates existing on April 10, 1947;

(b) in respect of duties or charges on any product not described in the appropriate Schedule, the difference between the most-favoured-nation and preferential rates existing on April 10, 1947.

In the case of the contracting parties named in Annex G, [3] the date of April 10, 1947, referred to in sub-paragraphs (a) and (b) of this paragraph shall be replaced by the respective dates set forth in that Annex.

[1] [*Post*, pp. A81, A82.]
[2] [*Post*, p. A85.]
[3] [*Post*, p. A83.]

Article II

Schedules of Concessions

1.(a) Each contracting party shall accord to the commerce of the other contracting parties treatment no less favourable than that provided for in the appropriate Part of the appropriate Schedule annexed to this Agreement.

(b) The products described in Part I of the Schedule relating to any contracting party, which are the products of territories of other contracting parties, shall, on their importation into the territory to which the Schedule relates, and subject to the terms, conditions or qualifications set forth in that Schedule, be exempt from ordinary customs duties in excess of those set forth and provided for therein. Such products shall also be exempt from all other duties or charges of any kind imposed on or in connection with importation in excess of those imposed on the date of this Agreement or those directly and mandatorily required to be imposed thereafter by legislation in force in the importing territory on that date.

(c) The products described in Part II of the Schedule relating to any contracting party, which are the products of territories entitled under Article I to receive preferential treatment upon importation into the territory to which the Schedule relates, shall, on their importation into such territory, and subject to the terms, conditions or qualifications set forth in that Schedule, be exempt from ordinary customs duties in excess of those set forth and provided for in Part II of that Schedule. Such products shall also be exempt from all other duties or charges of any kind imposed

on or in connection with importation in excess of those imposed on the date of this Agreement or those directly and mandatorily required to be imposed thereafter by legislation in force in the importing territory on that date. Nothing in this Article shall prevent any contracting party from maintaining its requirements existing on the date of this Agreement as to the eligibility of goods for entry at preferential rates of duty.

2. Nothing in this Article shall prevent any contracting party from imposing at any time on the importation of any product

(a) a charge equivalent to an internal tax imposed consistently with the provisions of paragraph 1 of Article III in respect of the like domestic product or in respect of an article from which the imported product has been manufactured or produced in whole or in part;

(b) any anti-dumping or countervailing duty applied consistently with the provisions of Article VI; [1]

(c) fees or other charges commensurate with the cost of services rendered.

3. No contracting party shall alter its method of determining dutiable value or of converting currencies so as to impair the value of any of the concessions provided for in the appropriate Schedule annexed to this Agreement.

4. If any contracting party establishes, maintains or authorizes, formally or in effect, a monopoly of the importation of any product described in the appropriate Schedule annexed to this Agreement, such monopoly shall not, except as provided for in that Schedule or as otherwise

[1] [*Post*, p. A86.]

agreed between the parties which initially negotiated the concession, operate so as to afford protection on the average in excess of the amount of protection provided for in that Schedule. The provisions of this paragraph shall not limit the use by contracting parties of any form of assistance to domestic producers permitted by other provisions of this Agreement. [1]

5. If any contracting party considers that a product is not receiving from another contracting party the treatment which the first contracting party believes to have been contemplated by a concession provided for in the appropriate Schedule annexed to this Agreement, it shall bring the matter directly to the attention of the other contracting party. If the latter agrees that the treatment contemplated was that claimed by the first contracting party, but declares that such treatment cannot be accorded because a court or other proper authority has ruled to the effect that the product involved cannot be classified under the tariff laws of such contracting party so as to permit the treatment contemplated in this Agreement, the two contracting parties, together with any other contracting parties substantially interested, shall enter promptly into further negotiations with a view to a compensatory adjustment of the matter.

6.(a) The specific duties and charges included in the Schedules relating to contracting parties members of the International Monetary Fund, and margins of preference in specific duties and charges maintained by such contracting parties, are expressed in the appropriate currency at the par value accepted or provisionally recognized by the Fund

[1] [*Post*, p. A86.]

at the date of this Agreement. Accordingly, in case this par value is reduced consistently with the Articles of Agreement of the International Monetary Fund [1] by more than twenty per centum, such specific duties and charges and margins of preference may be adjusted to take account of such reduction;

Provided that the CONTRACTING PARTIES (i.e. the contracting parties acting jointly as provided for in Article XXV) concur that such adjustments will not impair the value of the concessions provided for in the appropriate Schedule or elsewhere in this Agreement, due account being taken of all factors which may influence the need for, or urgency of, such adjustments.

(b) Similar provisions shall apply to any contracting party not a member of the Fund, as from the date on which such contracting party becomes a member of the Fund or enters into a special exchange agreement in pursuance of Article XV.

7. The Schedules annexed to this Agreement are hereby made an integral part of Part I of this Agreement.

[1] [60 Stat. 1401.]

PART II

Article III

National Treatment on Internal Taxation and Regulation

1. The products of the territory of any contracting party imported into the territory of any other contracting party shall be exempt from internal taxes and other internal charges of any kind in excess of those applied directly or indirectly to like products of national origin. Moreover, in cases in which there is no substantial domestic production of like products of national origin, no contracting party shall apply new or increased internal taxes on the products of the territories of other contracting parties for the purpose of affording protection to the production of directly competitive or substitutable products which are not similarly taxed; and existing internal taxes of this kind shall be subject to negotiation for their reduction or elimination.

2. The products of the territory of any contracting party imported into the territory of any other contracting party shall be accorded treatment no less favourable than that accorded to like products of national origin in respect of all laws, regulations and requirements affecting their internal sale, offering for sale, purchase, transportation, distribution, or use. The provisions of this paragraph shall not prevent the application of differential transportation charges which are based exclusively on the economic operation of the means of transport and not on the nationality of the product.

3. In applying the principles of paragraph 2 of this Article to internal quantitative regulations relating to the mixture, processing or use of products in specified amounts or proportions, the contracting parties shall observe the following provisions:

(a) no regulations shall be made which, formally or in effect, require that any specified amount or proportion of the product in respect of which such regulations are applied must be supplied from domestic sources;

(b) no contracting party shall, formally or in effect, restrict the mixing, processing or use of a product of which there is no substantial domestic production with a view to affording protection to the domestic production of a directly competitive or substitutable product.

4. The provisions of paragraph 3 of this Article shall not apply to:

(a) any measure of internal quantitative control in force in the territory of any contracting party on July 1, 1939 or April 10, 1947, at the option of that contracting party; Provided that any such measure which would be in conflict with the provisions of paragraph 3 of this Article shall not be modified to the detriment of imports and shall be subject to negotiation for its limitation, liberalization or elimination;

(b) any internal quantitative regulation relating to exposed cinematograph films and meeting the requirements of Article IV.

5. The provisions of this Article shall not apply to the procurement by governmental agencies of products purchased for governmental purposes and not for resale or use in the production of goods for sale, nor shall they prevent the payment to domestic producers only of subsidies provided for under Article XVI, including payments to domestic producers derived from the proceeds of internal taxes or charges and subsidies effected through governmental purchases of domestic products.

Article IV

Special Provisions relating to Cinematograph Films

If any contracting party establishes or maintains internal quantitative regulations relating to exposed cinematograph films, such regulations shall take the form of screen quotas which shall conform to the following requirements:

(a) screen quotas may require the exhibition of cinematograph films of national origin during a specified minimum proportion of the total screen time actually utilized, over a specified period of not less than one year, in the commercial exhibition of all films of whatever origin, and shall be computed on the basis of screen time per theatre per year or the equivalent thereof;

(b) with the exception of screen time reserved for films of national origin under a screen quota, screen time including that released by administrative action from screen time reserved for films of national origin, shall not be allocated formally or in effect among sources of supply;

(c) notwithstanding the provisions of sub-paragraph (b) of this Article, any contracting party may maintain screen quotas conforming to the requirements of sub-paragraph (a) of this Article which reserve a minimum proportion of screen time for films of a specified origin other than that of the contracting party imposing such screen quotas; Provided that no such minimum proportion of screen time shall be increased above the level in effect on April 10, 1947;

(d) screen quotas shall be subject to negotiation for their limitation, liberalization or elimination.

Article V

Freedom of Transit

1. Goods (including baggage), and also vessels and other means of transport, shall be deemed to be in transit across the territory of a contracting party when the passage across such territory, with or without trans-shipment, warehousing, breaking bulk, or change in the mode of transport, is only a portion of a complete journey beginning and terminating beyond the frontier of the contracting party across whose territory the traffic passes. Traffic of this nature is termed in this Article "traffic in transit".

2. There shall be freedom of transit through the territory of each contracting party, via the routes most convenient for international transit, for traffic in transit to or from the territory of other contracting parties. No distinction shall be made which is based on the flag of vessels, the place of origin, departure, entry, exit or destination, or on any circumstances relating to the ownership of goods, of vessels or of other means of transport.

3. Any contracting party may require that traffic in transit through its territory be entered at the proper custom house, but, except in cases of failure to comply with applicable customs laws and regulations, such traffic coming from or going to the territory of other contracting parties shall not be subject to any unnecessary delays or restrictions and shall be exempt from customs duties and from all transit duties or other charges imposed in respect of transit, except charges for transportation or those commensurate with administrative expenses entailed by transit or with the cost of services rendered.

4. All charges and regulations imposed by contracting parties on traffic in transit to or from the territories of other contracting parties shall be reasonable, having regard to the conditions of the traffic.

5. With respect to all charges, regulations and formalities in connection with transit, each contracting party shall accord to traffic in transit to or from the territory of any other contracting party treatment no less favourable than the treatment accorded to traffic in transit to or from any third country. [1]

6. Each contracting party shall accord to products which have been in transit through the territory of any other contracting party treatment no less favourable than that which would have been accorded to such products had they been transported from their place of origin to their destination without going through the territory of such other contracting party. Any contracting party shall, however, be free to maintain its requirements of direct consignment existing on the date of this Agreement, in respect of any goods in regard to which such direct consignment is a requisite condition of eligibility for entry of the goods at preferential rates of duty or has relation to the contracting party's prescribed method of valuation for duty purposes.

7. The provisions of this Article shall not apply to the operation of aircraft in transit, but shall apply to air transit of goods (including baggage).

[1] [*Post*, p. A86.]

Article VI

Anti-Dumping and Countervailing Duties

1. No anti-dumping duty shall be levied on any product of the territory of any contracting party imported into the territory of any other contracting party in excess of an amount equal to the margin of dumping under which such product is being imported. For the purposes of this Article, the margin of dumping shall be understood to mean the amount by which the price of the product exported from one country to another

(a) is less than the comparable price, in the ordinary course of trade, for the like product when destined for consumption in the exporting country; or,

(b) in the absence of such domestic price, is less than either

(i) the highest comparable price for the like product for export to any third country in the ordinary course of trade, or

(ii) the cost of production of the product in the country of origin plus a reasonable addition for selling cost and profit.

Due allowance shall be made in each case for differences in conditions and terms of sale, for differences in taxation, and for other differences affecting price comparability. [1]

2. No countervailing duty shall be levied on any product of the territory of any contracting party imported into the territory of another contracting party in excess of an amount equal to the estimated bounty or subsidy determined to have been granted, directly or indirectly, on the manufacture, production or export of such product in the country of origin or exportation, including any special subsidy to the transportation of

[1] [*Post*, p. A86.]

a particular product. The term "countervailing duty" shall be understood to mean a special duty levied for the purpose of offsetting any bounty or subsidy bestowed, directly or indirectly, upon the manufacture, production or exportation of any merchandise. [1]

3. No product of the territory of any contracting party imported into the territory of any other contracting party shall be subject to anti-dumping or countervailing duty by reason of the exemption of such product from duties or taxes borne by the like product when destined for consumption in the country of origin or exportation, or by reason of the refund of such duties or taxes.

4. No product of the territory of any contracting party imported into the territory of any other contracting party shall be subject to both anti-dumping and countervailing duties to compensate for the same situation of dumping or export subsidization.

5. No contracting party shall levy any anti-dumping or countervailing duty on the importation of any product of the territory of another contracting party unless it determines that the effect of the dumping or subsidization, as the case may be, is such as to cause or threaten material injury to an established domestic industry, or is such as to prevent or materially retard the establishment of a domestic industry. The CONTRACTING PARTIES may waive the requirements of this paragraph so as to permit a contracting party to levy an anti-dumping or countervailing duty on the importation of any product for the purpose of offsetting dumping or subsidization which causes or threatens material injury to an industry in the territory of another contracting party exporting the product concerned to the territory of the importing contracting party.

[1] [*Post*, p. A86.]

6. A system for the stabilization of the domestic price or of the return to domestic producers of a primary commodity, independently of the movements of export prices, which results at times in the sale of the product for export at a price lower than the comparable price charged for the like product to buyers in the domestic market, shall be considered not to result in material injury within the meaning of paragraph 5 of this Article, if it is determined by consultation among the contracting parties substantially interested in the product concerned:

(a) that the system has also resulted in the sale of the product for export at a price higher than the comparable price charged for the like product to buyers in the domestic market, and

(b) that the system is so operated, either because of the effective regulation of production or otherwise, as not to stimulate exports unduly or otherwise seriously prejudice the interests of other contracting parties.

7. No measures other than anti-dumping or countervailing duties shall be applied by any contracting party in respect of any product of the territory of any other contracting party for the purpose of offsetting dumping or subsidization. [1]

Article VII

Valuation for Customs Purposes

1. The contracting parties recognize the validity of the general principles of valuation set forth in the following paragraphs of this Article, and they undertake to give effect to such principles, in respect of all products subject to duties or other charges or restrictions on importation and exportation based upon or

[1] [*Post*, p. A86.]

regulated in any manner by value, at the earliest practicable date. [1] Moreover, they shall, upon a request by another contracting party, review the operation of any of their laws or regulations relating to value for customs purposes in the light of these principles. The CONTRACTING PARTIES may request from contracting parties reports on steps taken by them in pursuance of the provisions of this Article.

2. (a) The value for customs purposes of imported merchandise should be based on the actual value of the imported merchandise on which duty is assessed, or of like merchandise, and should not be based on the value of merchandise of national origin or on arbitrary or fictitious values.

(b) "Actual value" should be the price at which, at a time and place determined by the legislation of the country of importation, and in the ordinary course of trade, such or like merchandise is sold or offered for sale under fully competitive conditions. To the extent to which the price of such or like merchandise is governed by the quantity in a particular transaction, the price to be considered should uniformly be related to either (i) comparable quantities, or (ii) quantities not less favourable to importers than those in which the greater volume of the merchandise is sold in the trade between the countries of exportation and importation. [2]

(c) When the actual value is not ascertainable in accordance with sub-paragraph (b) of this paragraph, the value for customs purposes should be based on the nearest ascertainable equivalent of such value.

3. The value for customs purposes of any imported product should not include the amount of any internal tax, applicable within the

[1] [*Post*, p. A86.]
[2] [*Post*, p. A87.]

country of origin or export, from which the imported product has been exempted or has been or will be relieved by means of refund.

4. (a) Except as otherwise provided for in this paragraph, where it is necessary for the purposes of paragraph 2 of this Article for a contracting party to convert into its own currency a price expressed in the currency of another country, the conversion rate of exchange to be used shall be based on the par values of the currencies involved as established pursuant to the Articles of Agreement of the International Monetary Fund [1] or by special exchange agreements entered into pursuant to Article XV of this Agreement.

(b) Where no such par value has been established, the conversion rate shall reflect effectively the current value of such currency in commercial transactions.

(c) The CONTRACTING PARTIES, in agreement with the International Monetary Fund, shall formulate rules governing the conversion by contracting parties of any foreign currency in respect of which multiple rates of exchange are maintained consistently with the Articles of Agreement of the International Monetary Fund. Any contracting party may apply such rules in respect of such foreign currencies for the purposes of paragraph 2 of this Article as an alternative to the use of par values. Until such rules are adopted by the CONTRACTING PARTIES, any contracting party may employ, in respect of any such foreign currency, rules of conversion for the purposes of paragraph 2 of this Article which are designed to reflect effectively the value of such foreign currency in commercial transactions.

[1] [60 Stat. 1401.]

(d) Nothing in this paragraph shall be construed to require any contracting party to alter the method of converting currencies for customs purposes which is applicable in its territory on the date of this Agreement, if such alteration would have the effect of increasing generally the amounts of duty payable.

5. The bases and methods for determining the value of products subject to duties or other charges or restrictions based upon or regulated in any manner by value should be stable and should be given sufficient publicity to enable traders to estimate, with a reasonable degree of certainty, the value for customs purposes.

Article VIII

Formalities connected with Importation and Exportation

1. The contracting parties recognise that fees and charges, other than duties, imposed by governmental authorities on or in connection with importation or exportation, should be limited in amount to the approximate cost of services rendered and should not represent an indirect protection to domestic products or a taxation of imports or exports for fiscal purposes. The contracting parties also recognize the need for reducing the number and diversity of such fees and charges, for minimizing the incidence and complexity of import and export formalities, and for decreasing and simplifying import and export documentation requirements.

2. The contracting parties shall take action in accordance with the principles and objectives of paragraph 1 of this Article at the earliest practicable date. Moreover, they shall, upon request by another contracting party,

review the operation of any of their laws and regulations in the light of these principles.

3. No contracting party shall impose substantial penalties for minor breaches of customs regulations or procedural requirements. In particular, no penalty in respect of any omission or mistake in customs documentation which is easily rectifiable and obviously made without fraudulent intent or gross negligence shall be greater than necessary to serve merely as a warning.

4. The provisions of this Article shall extend to fees, charges, formalities and requirements imposed by governmental authorities in connection with importation and exportation, including those relating to:

(a) consular transactions, such as consular invoices and certificates;

(b) quantitative restrictions;

(c) licensing;

(d) exchange control;

(e) statistical services;

(f) documents, documentation and certification;

(g) analysis and inspection; and

(h) quarantine, sanitation and fumigation. [1]

Article IX

Marks of Origin

1. Each contracting party shall accord to the products of the territories of other contracting parties treatment with regard to marking requirements no less favourable than the treatment accorded to like products of any third country.

2. Whenever it is administratively practicable to do so, contracting parties should permit required marks of origin to be affixed at the time of importation.

[1] [*Post*, p. A87.]

3. The laws and regulations of contracting parties relating to the marking of imported products shall be such as to permit compliance without seriously damaging the products, or materially reducing their value, or unreasonably increasing their cost.

4. As a general rule no special duty or penalty should be imposed by any contracting party for failure to comply with marking requirements prior to importation unless corrective marking is unreasonably delayed or deceptive marks have been affixed or the required marking has been intentionally omitted.

5. The contracting parties shall co-operate with each other with a view to preventing the use of trade names in such manner as to misrepresent the true origin of a product, to the detriment of such distinctive regional or geographical names of products of the territory of a contracting party as are protected by its legislation. Each contracting party shall accord full and sympathetic consideration to such requests or representations as may be made by any other contracting party regarding the application of the undertaking set forth in the preceding sentence to names of products which have been communicated to it by the other contracting party.

Article X

Publication and Administration of Trade Regulations

1. Laws, regulations, judicial decisions and administrative rulings of general application, made effective by any contracting party, pertaining to the classification or the valuation of products for customs purposes, or to rates of duty, taxes or other charges, or to requirements, restrictions or prohibitions on imports or exports or on the transfer of payments therefor, or affecting their sale, distribution, transportation,

insurance, warehousing, inspection, exhibition, processing, mixing or other use, shall be published promptly in such a manner as to enable governments and traders to become acquainted with them. Agreements affecting international trade policy which are in force between the government or a governmental agency of any contracting party and the government or governmental agency of any other contracting party shall also be published. The provisions of this paragraph shall not require any contracting party to disclose confidential information which would impede law enforcement or otherwise be contrary to the public interest or would prejudice the legitimate commercial interests of particular enterprises, public or private.

2. No measure of general application taken by any contracting party effecting an advance in a rate of duty or other charge on imports under an established and uniform practice, or imposing a new or more burdensome requirement, restriction or prohibition on imports, or on the transfer of payments therefor, shall be enforced before such measure has been officially published.

3. (a) Each contracting party shall administer in a uniform, impartial and reasonable manner all its laws, regulations, decisions and rulings of the kind described in paragraph 1 of this Article.

(b) Each contracting party shall maintain, or institute as soon as practicable, judicial, arbitral or administrative tribunals or procedures for the purpose, inter alia, of the prompt review and correction of administrative action relating to customs matters. Such tribunals

or procedures shall be independent of the agencies entrusted with administrative enforcement and their decisions shall be implemented by, and shall govern the practice of, such agencies unless an appeal is lodged with a court or tribunal of superior jurisdiction within the time prescribed for appeals to be lodged by importers; Provided that the central administration of such agency may take steps to obtain a review of the matter in another proceeding if there is good cause to believe that the decision is inconsistent with established principles of law or the actual facts.

(c) The provisions of sub-paragraph (b) of this paragraph shall not require the elimination or substitution of procedures in force in the territory of a contracting party on the date of this Agreement which in fact provide for an objective and impartial review of administrative action even though such procedures are not fully or formally independent of the agencies entrusted with administrative enforcement. Any contracting party employing such procedures shall, upon request, furnish the CONTRACTING PARTIES with full information thereon in order that they may determine whether such procedures conform to the requirements of this sub-paragraph.

Article XI

General Elimination of Quantitative Restrictions

1. No prohibitions or restrictions other than duties, taxes or other charges, whether made effective through quotas, import or export licenses or other measures, shall be instituted or maintained by any contracting party on the importation of any product of the territory of any other contracting party or on

the exportation or sale for export of any product destined for the territory of any other contracting party.

2. The provisions of paragraph 1 of this Article shall not extend to the following:

(a) export prohibitions or restrictions temporarily applied to prevent or relieve critical shortages of foodstuffs or other products essential to the exporting contracting party;

(b) import and export prohibitions or restrictions necessary to the application of standards or regulations for the classification, grading or marketing of commodities in international trade;

(c) import restrictions on any agricultural or fisheries product, imported in any form, [1] necessary to the enforcement of governmental measures which operate:

(i) to restrict the quantities of the like domestic product permitted to be marketed or produced, or, if there is no substantial domestic production of the like product, of a domestic product for which the imported product can be directly substituted; or

(ii) to remove a temporary surplus of the like domestic product, or, if there is no substantial domestic production of the like product, of a domestic product for which the imported product can be directly substituted, by making the surplus available to certain groups of domestic consumers free of charge or at prices below the current market level; or

(iii) to restrict the quantities permitted to be produced of any animal product the production of which is directly dependent, wholly or mainly, on the imported commodity, if the domestic production of that commodity is relatively negligible.

[1] [*Post*, p. A87.]

Any contracting party applying restrictions on the importation of any product pursuant to sub-paragraph (c) of this paragraph shall give public notice of the total quantity or value of the product permitted to be imported during a specified future period and of any change in such quantity or value. Moreover, any restrictions applied under (i) above shall not be such as will reduce the total of imports relative to the total of domestic production, as compared with the proportion which might reasonably be expected to rule between the two in the absence of restrictions. In determining this proportion, the contracting party shall pay due regard to the proportion prevailing during a previous representative period and to any special factors [1] which may have affected or may be affecting the trade in the product concerned.

3. Throughout Articles XI, XII, XIII and XIV the terms "import restrictions" or "export restrictions" include restrictions made effective through state-trading operations.

Article XII

Restrictions to Safeguard the Balance of Payments

1. Notwithstanding the provisions of paragraph 1 of Article XI, any contracting party, in order to safeguard its external financial position and balance of payments, may restrict the quantity or value of merchandise permitted to be imported, subject to the provisions of the following paragraphs of this Article.

2. (a) No contracting party shall institute, maintain or intensify import restrictions under this Article except to the extent necessary

(i) to forestall the imminent threat of, or to stop, a serious decline in its monetary reserves, or

[1] [*Post*, p. A87.]

(ii) in the case of a contracting party with very low monetary reserves, to achieve a reasonable rate of increase in its reserves.

Due regard shall be paid in either case to any special factors which may be affecting the contracting party's reserves or need for reserves, including, where special external credits or other resources are available to it, the need to provide for the appropriate use of such credits or resources.

(b) Contracting parties applying restrictions under sub-paragraph (a) of this paragraph shall progressively relax them as such conditions improve, maintaining them only to the extent that the conditions specified in that sub-paragraph still justify their application. They shall eliminate the restrictions when conditions would no longer justify their institution or maintenance under that sub-paragraph.

3. (a) The contracting parties recognize that during the next few years all of them will be confronted in varying degrees with problems of economic adjustment resulting from the war. During this period the CONTRACTING PARTIES shall, when required to take decisions under this Article or under Article XIV, take full account of the difficulties of post-war adjustment and of the need which a contracting party may have to use import restrictions as a step towards the restoration of equilibrium in its balance of payments on a sound and lasting basis.

(b) The contracting parties recognize that, as a result of domestic policies directed toward the achievement and maintenance of full and productive employment and large and steadily growing demand or toward the reconstruction or

development of industrial and other economic resources and the raising of standards of productivity, such a contracting party may experience a high level of demand for imports. Accordingly,

(i) notwithstanding the provisions of paragraph 2 of this Article, no contracting party shall be required to withdraw or modify restrictions on the ground that a change in the policies referred to above would render unnecessary the restrictions which it is applying under this Article; [1]

(ii) any contracting party applying import restrictions under this Article may determine the incidence of the restrictions on imports of different products or classes of products in such a way as to give priority to the importation of those products which are more essential in the light of such policies.

(c) Contracting parties undertake, in carrying out their domestic policies:

(i) to pay due regard to the need for restoring equilibrium in their balance of payments on a sound and lasting basis and to the desirability of assuring an economic employment of productive resources;

(ii) not to apply restrictions so as to prevent unreasonably the importation of any description of goods in minimum commercial quantities, the exclusion of which would impair regular

[1] [*Post*, p. A87.]

channels of trade, or restrictions which would prevent the importation of commercial samples, or prevent compliance with patent, trademark, copyright, or similar procedures; and

(iii) to apply restrictions under this Article in such a way as to avoid unnecessary damage to the commercial or economic interests of any other contracting party.

4. (a) Any contracting party which is not applying restrictions under this Article, but is considering the need to do so, shall, before instituting such restrictions (or, in circumstances in which prior consultation is impracticable, immediately after doing so), consult with the CONTRACTING PARTIES as to the nature of its balance-of-payments difficulties, alternative corrective measures which may be available, and the possible effect of such measures on the economies of other contracting parties. No contracting party shall be required in the course of consultations under this sub-paragraph to indicate in advance the choice or timing of any particular measures which it may ultimately determine to adopt.

(b) The CONTRACTING PARTIES may at any time invite any contracting party which is applying import restrictions under this Article to enter into such consultations with them, and shall invite any contracting party substantially intensifying such restrictions to consult within thirty days. A contracting party thus invited shall participate in such discussions. The CONTRACTING PARTIES may invite any other contracting party to take part in these discussions. Not later than January 1, 1951,

The CONTRACTING PARTIES shall review all restrictions existing on that day and still applied under this Article at the time of the review.

(c) Any contracting party may consult with the CONTRACTING PARTIES with a view to obtaining their prior approval for restrictions which the contracting party proposes, under this Article, to maintain, intensify or institute, or for the maintenance, intensification or institution of restrictions under specified future conditions. As a result of such consultations, the CONTRACTING PARTIES may approve in advance the maintenance, intensification or institution of restrictions by the contracting party in question insofar as the general extent, degree of intensity and duration of the restrictions are concerned. To the extent to which such approval has been given, the requirements of sub-paragraph (a) of this paragraph shall be deemed to have been fulfilled, and the action of the contracting party applying the restrictions shall not be open to challenge under sub-paragraph (d) of this paragraph on the ground that such action is inconsistent with the provisions of paragraph 2 of this Article.

(d) Any contracting party which considers that another contracting party is applying restrictions under this Article inconsistently with the provisions of paragraphs 2 or 3 of this Article or with those of Article XIII (subject to the provisions of Article XIV) may bring the matter for discussion to the CONTRACTING PARTIES; and the contracting party applying the restrictions shall participate in the discussion. The CONTRACTING PARTIES, if they are satisfied that there is a prima facie case

that the trade of the contracting party initiating the procedure is adversely affected, shall submit their views to the parties with the aim of achieving a settlement of the matter in question which is satisfactory to the parties and to the CONTRACTING PARTIES. If no such settlement is reached and if the CONTRACTING PARTIES determine that the restrictions are being applied inconsistently with the provisions of paragraphs 2 or 3 of this Article or with those of Article XIII (subject to the provisions of Article XIV), they shall recommend the withdrawal or modification of the restrictions. If the restrictions are not withdrawn or modified in accordance with the recommendation of the CONTRACTING PARTIES within sixty days, they may release any contracting party from specified obligations under this Agreement towards the contracting party applying the restrictions.

(e) It is recognized that premature disclosure of the prospective application, withdrawal or modification of any restriction under this Article might stimulate speculative trade and financial movements which would tend to defeat the purposes of this Article. Accordingly, the CONTRACTING PARTIES shall make provision for the observance of the utmost secrecy in the conduct of any consultation.

5. If there is a persistent and widespread application of import restrictions under this Article, indicating the existence of a general disequilibrium which is restricting international trade, the CONTRACTING PARTIES shall initiate discussions to consider whether other measures might be taken, either by those contracting parties whose balances of payments are under pressure

or by those whose balances of payments are tending to be exceptionally favourable, or by any appropriate inter-governmental organization, to remove the underlying causes of the disequilibrium. On the invitation of the CONTRACTING PARTIES, contracting parties shall participate in such discussions.

Article XIII

Non-discriminatory Administration of Quantitative Restrictions

1. No prohibition or restriction shall be applied by any contracting party on the importation of any product of the territory of any other contracting party or on the exportation of any product destined for the territory of any other contracting party, unless the importation of the like product of all third countries or the exportation of the like product to all third countries is similarly prohibited or restricted.

2. In applying import restrictions to any product, contracting parties shall aim at a distribution of trade in such product approaching as closely as possible to the shares which the various contracting parties might be expected to obtain in the absence of such restrictions, and to this end shall observe the following provisions:

(a) wherever practicable, quotas representing the total amount of permitted imports (whether allocated among supplying countries or not) shall be fixed, and notice given of their amount in accordance with paragraph 3(b) of this Article;

(b) in cases in which quotas are not practicable, the restrictions may be applied by means of import licences or permits without a quota;

(c) contracting parties shall not, except for purposes of operating quotas allocated in accordance with sub-paragraph (d) of this paragraph, require that import licences or permits be utilized for the importation of the product concerned from a particular country or source;

(d) in cases in which a quota is allocated among supplying countries, the contracting party applying the restrictions may seek agreement with respect to the allocation of shares in the quota with all other contracting parties having a substantial interest in supplying the product concerned. In cases in which this method is not reasonably practicable, the contracting party concerned shall allot to contracting parties having a substantial interest in supplying the product shares based upon the proportions, supplied by such contracting parties during a previous representative period, of the total quantity or value of imports of the product, due account being taken of any special factors which may have affected or may be affecting the trade in the product. No conditions or formalities shall be imposed which would prevent any contracting party from utilizing fully the share of any such total quantity or value which has been allotted to it, subject to importation being made within any prescribed period to which the quota may relate. [1]

3. (a) In cases in which import licences are issued in connection with import restrictions, the contracting party applying the restrictions shall provide, upon the request of any contracting party having an interest in the trade in the product concerned, all relevant information concerning the administration of the restrictions, the import licences

[1] [*Post*, p. A88.]

granted over a recent period and the distribution of such licences among supplying countries; Provided that there shall be no obligation to supply information as to the names of importing or supplying enterprises.

(b) In the case of import restrictions involving the fixing of quotas, the contracting party applying the restrictions shall give public notice of the total quantity or value of the product or products which will be permitted to be imported during a specified future period and of any change in such quantity or value. Any supplies of the product in question which were en route at the time at which public notice was given shall not be excluded from entry; Provided that they may be counted so far as practicable, against the quantity permitted to be imported in the period in question, and also, where necessary, against the quantities permitted to be imported in the next following period or periods; and Provided further that if any contracting party customarily exempts from such restrictions products entered for consumption or withdrawn from warehouse for consumption during a period of thirty days after the day of such public notice, such practice shall be considered full compliance with this sub-paragraph.

(c) In the case of quotas allocated among supplying countries, the contracting party applying the restrictions shall promptly inform all other contracting parties having an interest in supplying the product concerned of the shares in the quota currently allocated, by quantity or value, to the various supplying countries and shall give public notice thereof.

4. With regard to restrictions applied in accordance with paragraph 2(d) of this Article or under paragraph 2 (c) of Article XI, the selection of a representative period for any product and the appraisal of any special factors affecting the trade in the product shall be made initially by the contracting party applying the restriction; Provided that such contracting party shall upon the request of any other contracting party having a substantial interest in supplying that product or upon the request of the CONTRACTING PARTIES, consult promptly with the other contracting party or the CONTRACTING PARTIES regarding the need for an adjustment of the proportion determined or of the base period selected, or for the reappraisal of the special factors involved, or for the elimination of conditions, formalities or any other provisions established unilaterally relating to the allocation of an adequate quota or its unrestricted utilization. [1]

5. The provisions of this Article shall apply to any tariff quota instituted or maintained by any contracting party, and, insofar as applicable, the principles of this Article shall also extend to export restrictions and to any internal regulation or requirement under paragraphs 3 and 4 of Article III.

Article XIV

Exceptions to the Rule of Non-discrimination

1. (a) The contracting parties recognize that when a substantial and widespread disequilibrium prevails in international trade and payments a contracting party applying restrictions under Article XII may be able to increase its imports from certain sources without unduly depleting its monetary reserves, if permitted to depart from the provisions of Article XIII. The contracting parties also recognise the need for close limitation of such departures so as not to handicap achievement of multilateral international trade.

[1] [*Post*, p. A88.]

(b) Accordingly, when a substantial and widespread disequilibrium prevails in international trade and payments, a contracting party applying import restrictions under Article XII may relax such restrictions in a manner which departs from the provisions of Article XIII to the extent necessary to obtain additional imports above the maximum total of imports which it could afford in the light of the requirements of paragraph 2 of Article XII if its restrictions were fully consistent with the provisions of Article XIII, provided that

(i) levels of delivered prices for products so imported are not established substantially higher than those ruling for comparable goods regularly available from other contracting parties, and that any excess of such price levels for products so imported is progressively reduced over a reasonable period;

(ii) the contracting party taking such action does not do so as part of any arrangement by which the gold or convertible currency which the contracting party currently receives directly or indirectly from its exports to other contracting parties not party to the arrangement is appreciably reduced below the level it could otherwise have been reasonably expected to attain;

(iii) such action does not cause unnecessary damage to the commercial or economic interests of any other contracting party.

(c) Any contracting party taking action under this paragraph shall observe the principles of sub-paragraph (b) of this paragraph. A contracting party shall desist from transactions

which prove to be inconsistent with that sub-paragraph, but the contracting party shall not be required to satisfy itself, when it is not practicable to do so, that the requirements of that sub-paragraph are fulfilled in respect of individual transactions.

(d) Contracting parties undertake, in framing and carrying out any programme for additional imports under this paragraph, to have due regard to the need to facilitate the termination of any exchange arrangements which deviate from the obligations of Sections 2, 3 and 4 of Article VIII of the Articles of Agreement of the International Monetary Fund [1] and to the need to restore equilibrium in their balances of payments on a sound and lasting basis.

2. Any contracting party taking action under paragraph 1 of this Article shall keep the CONTRACTING PARTIES regularly informed regarding such action and shall provide such available relevant information as they may request.

3. (a) Not later than March 1, 1952 (five years after the date on which the International Monetary Fund began operations) and in each year thereafter, any contracting party maintaining or proposing to institute action under paragraph 1 of this Article shall seek the approval of the CONTRACTING PARTIES which shall thereupon determine whether the circumstances of the contracting party justify the maintenance or institution of action by it under paragraph 1 of this Article. After March 1, 1952, no contracting party shall maintain or institute such action without determination by the CONTRACTING PARTIES that the contracting party's circumstances justify the maintenance or

[1] [60 Stat. 1411.]

institution of such action, as the case may be, and the subsequent maintenance or institution of such action by the contracting party shall be subject to any limitations which the CONTRACTING PARTIES may prescribe for the purpose of ensuring compliance with the provisions of paragraph 1 of this Article; Provided that the CONTRACTING PARTIES shall not require that prior approval be obtained for individual transactions.

(b) If at any time the CONTRACTING PARTIES find that import restrictions are being applied by a contracting party in a discriminatory manner inconsistent with the exceptions provided for under paragraph 1 of this Article, the contracting party shall, within sixty days, remove the discrimination or modify it as specified by the CONTRACTING PARTIES; Provided that any action under paragraph 1 of this Article, to the extent that it has been approved by the CONTRACTING PARTIES under sub-paragraph (a) of this paragraph or to the extent that it has been approved by them at the request of a contracting party under a procedure analogous to that of paragraph 4(c) of Article XII, shall not be open to challenge under this sub-paragraph or under paragraph 4(d) of Article XII on the ground that it is inconsistent with the provisions of Article XIII.

(c) Not later than March 1, 1950, and in each year thereafter so long as any contracting parties are taking action under paragraph 1 of this Article, the CONTRACTING PARTIES shall report on the action still taken by contracting parties under that paragraph. On or about March 1, 1952, and in each year thereafter so long as any contracting parties are taking action under paragraph 1 of this Article, and at such times thereafter as they may decide, the CONTRACTING PARTIES shall review the question whether there then exists such a substantial and widespread

disequilibrium in international trade and payments as to justify resort to paragraph 1 of this Article by contracting parties. If it appears at any date prior to March 1, 1952, that there has been a substantial and general improvement in international trade and payments, the CONTRACTING PARTIES may review the situation at that date. If, as a result of any such review, the CONTRACTING PARTIES determine that no such disequilibrium exists, the provisions of paragraph 1 of this Article shall be suspended, and all actions authorized thereunder shall cease six months after such determination. [1]

4. The provisions of Article XIII shall not preclude restrictions in accordance with Article XII which either

(a) are applied against imports from other countries, but not as among themselves, by a group of territories having a common quota in the International Monetary Fund, on condition that such restrictions are in all other respects consistent with the provisions of Article XIII, or

(b) assist, in the period up to December 31, 1951, by measures not involving substantial departure from the provisions of Article XIII, another country whose economy has been disrupted by war.

5. The provisions of this Agreement shall not preclude:

(a) restrictions with equivalent effect to exchange restrictions authorized under Section 3 (b) of Article VII of the Articles of Agreement of the International Monetary Fund; [2] or

(b) restrictions under the preferential arrangements provided for in Annex A [3] of this Agreement, subject to the conditions set forth therein.

[1] [*Post*, p. A88.]
[2] [60 Stat. 1410.]
[3] [*Post*, p. A76.]

6. (a) The provisions of Article XIII shall not enter into force in respect of import restrictions applied by any contracting party pursuant to Article XII in order to safeguard its external financial position and balance of payments, and the provisions of paragraph 1 of Article XI and Article XIII shall not enter into force in respect of export restrictions applied by any contracting party for the same reason, until January 1, 1949; Provided that this period may with the concurrence of the CONTRACTING PARTIES, be extended for such further periods as they may specify in respect of any contracting party whose supply of convertible currencies is inadequate to enable it to apply the above-mentioned provisions.

(b) If a measure taken by a contracting party in the circumstances referred to in sub-paragraph (a) of this paragraph affects the commerce of another contracting party to such an extent as to cause the latter to consider the need of having recourse to the provisions of Article XII, the contracting party having taken that measure shall, if the affected contracting party so requests, enter into immediate consultation with a view to arrangements enabling the affected contracting party to avoid having such recourse, and, if special circumstances are put forward to justify such action, shall temporarily suspend application of the measure for a period of fifteen days. [1]

[1] [*Post*, p. A88.]

Article XV

Exchange Arrangements

1. The CONTRACTING PARTIES shall seek co-operation with the International Monetary Fund to the end that the CONTRACTING PARTIES and the Fund may pursue a co-ordinated policy with regard to exchange questions within the jurisdiction of the Fund and questions of quantitative restrictions and other trade measures within the jurisdiction of the CONTRACTING PARTIES.

2. In all cases in which the CONTRACTING PARTIES are called upon to consider or deal with problems concerning monetary reserves, balances of payments or foreign exchange arrangements, they shall consult fully with the International Monetary Fund. In such consultation, the CONTRACTING PARTIES shall accept all findings of statistical and other facts presented by the Fund relating to foreign exchange, monetary reserves and balances of payments, and shall accept the determination of the Fund as to whether action by a contracting party in exchange matters is in accordance with the Articles of Agreement of the International Monetary Fund, [1] or with the terms of a special exchange agreement between that contracting party and the CONTRACTING PARTIES. The CONTRACTING PARTIES, in reaching their final decision in cases involving the criteria set forth in paragraph 2 (a) of Article XII, shall accept the determination of the Fund as to what constitutes a serious decline in the contracting party's monetary reserves, a very low level of its monetary reserves or a reasonable rate of increase in its monetary reserves, and as to the financial aspects of other matters covered in consultation in such cases.

[1] [60 Stat. 1401.]

3. The CONTRACTING PARTIES shall seek agreement with the Fund regarding procedures for consultation under paragraph 2 of this Article.

4. Contracting parties shall not, by exchange action, frustrate [1] the intent of the provisions of this Agreement, nor, by trade action, the intent of the provisions of the Articles of Agreement of the International Monetary Fund. [2]

5. If the CONTRACTING PARTIES consider, at any time, that exchange restrictions on payments and transfers in connection with imports are being applied by a contracting party in a manner inconsistent with the exceptions provided for in this Agreement for quantitative restrictions, they shall report thereon to the Fund.

6. Any contracting party which is not a member of the Fund shall, within a time to be determined by the CONTRACTING PARTIES after consultation with the Fund, become a member of the Fund, or, failing that, enter into a special exchange agreement with the CONTRACTING PARTIES. A contracting party which ceases to be a member of the Fund shall forthwith enter into a special exchange agreement with the CONTRACTING PARTIES. Any special exchange agreement entered into by a contracting party under this paragraph shall thereupon become part of its obligations under this Agreement.

7. (a) A special exchange agreement between a contracting party and the CONTRACTING PARTIES under paragraph 6 of this Article shall provide to the satisfaction of the CONTRACTING PARTIES that the objectives of this Agreement will not be frustrated as a result of action in exchange matters by the contracting party in question.

[1] [*Post*, p. A88.]
[2] [60 Stat. 1401.]

(b) The terms of any such agreement shall not impose obligations on the contracting party in exchange matters generally more restrictive than those imposed by the Articles of Agreement of the International Monetary Fund on members of the Fund.

8. A contracting party which is not a member of the Fund shall furnish such information within the general scope of Section 5 of Article VIII of the Articles of Agreement of the International Monetary Fund [1] as the CONTRACTING PARTIES may require in order to carry out their functions under this Agreement.

9. Subject to the provisions of paragraph 4 of this Article, nothing in this Agreement shall preclude:

(a) the use by a contracting party of exchange controls or exchange restrictions in accordance with the Articles of Agreement of the International Monetary Fund or with that contracting party's special exchange agreement with the CONTRACTING PARTIES, or

(b) the use by a contracting party of restrictions or controls on imports or exports, the sole effect of which, additional to the effects permitted under Articles XI, XII, XIII and XIV, is to make effective such exchange controls or exchange restrictions.

Article XVI

Subsidies

If any contracting party grants or maintains any subsidy, including any form of income or price support, which operates directly or indirectly to increase exports of any product from, or to reduce imports of any product into, its territory, it shall notify the CONTRACTING PARTIES in writing of the extent

[1] [60 Stat. 1412.]

and nature of the subsidization, of the estimated effect of the subsidization on the quantity of the affected product or products imported into or exported from its territory and of the circumstances making the subsidization necessary. In any case in which it is determined that serious prejudice to the interests of any other contracting party is caused or threatened by any such subsidization, the contracting party granting the subsidy shall, upon request, discuss with the other contracting party or parties concerned, or with the CONTRACTING PARTIES, the possibility of limiting the subsidization.

Article XVII

Non-discriminatory Treatment on the part of State-Trading Enterprises

1. (a) Each contracting party undertakes that if it establishes or maintains a state enterprise, wherever located, or grants to any enterprise, formally or in effect, exclusive or special privileges, [1] such enterprise shall, in its purchases or sales involving either imports or exports, act in a manner consistent with the general principles of non-discriminatory treatment prescribed in this Agreement for governmental measures affecting imports or exports by private traders.

(b) The provisions of sub-paragraph (a) of this paragraph shall be understood to require that such enterprises shall, having due regard to the other provisions of this Agreement, make any such purchases or sales solely in accordance with commercial considerations, [1] including price, quality, availability, marketability, transportation and other conditions of purchase or sale, and shall afford the enterprises of the other contracting

[1] [*Post*, p. A89.]

parties adequate opportunity, in accordance with customary business practice, to compete for participation in such purchases or sales.

(c) No contracting party shall prevent any enterprise (whether or not an enterprise described in sub-paragraph (a) of this paragraph) under its jurisdiction from acting in accordance with the principles of sub-paragraphs (a) and (b) of this paragraph. [1]

2. The provisions of paragraph 1 of this Article shall not apply to imports of products for immediate or ultimate consumption in governmental use and not otherwise for re-sale or for use in the production of goods for sale. With respect to such imports, each contracting party shall accord to the trade of the other contracting parties fair and equitable treatment. [1]

Article XVIII

Adjustments in Connection with Economic Development

1. The contracting parties recognize that special governmental assistance may be required to promote the establishment, development or reconstruction of particular industries or particular branches of agriculture, and that in appropriate circumstances the grant of such assistance in the form of protective measures is justified. At the same time they recognize that an unwise use of such measures would impose undue burdens on their own economies and unwarranted restrictions on international trade, and might increase unnecessarily the difficulties of adjustment for the economies of other countries.

2. (a) If a contracting party, in the interest of its programme of economic development or reconstruction, considers it desirable

[1] [*Post*, p. A89.]

to adopt any non-discriminatory measure which would conflict with any obligation which it has assumed under Article II, or with any other provision of this Agreement, such applicant contracting party shall so notify the CONTRACTING PARTIES and shall transmit to them a written statement of the considerations in support of the adoption of the proposed measure.

(b) The CONTRACTING PARTIES shall promptly transmit such statement to all other contracting parties, and any contracting party which considers that its trade would be substantially affected by the proposed measure shall transmit its views to the CONTRACTING PARTIES within such period as shall be prescribed by them.

(c) The CONTRACTING PARTIES shall then promptly examine the proposed measure to determine whether they concur in it, with or without modification, and shall in their examination have regard to the provisions of this Agreement, to the considerations presented by the applicant contracting party and its stage of economic development or reconstruction, to the views presented by contracting parties which may be substantially affected, and to the effect which the proposed measure, with or without modification, is likely to have on international trade.

3. (a) If, as a result of their examination pursuant to paragraph 2(c) of this Article, the CONTRACTING PARTIES concur in principle in any proposed measure, with or without modification, which would be inconsistent with any obligation that the applicant contracting party has assumed under Article II, or which would tend to nullify or impair the benefit to any other contracting party

or parties of any such obligation, the CONTRACTING PARTIES shall sponsor and assist in negotiations between the applicant contracting party and the other contracting party or parties which would be substantially affected with a view to obtaining substantial agreement. The CONTRACTING PARTIES shall establish and communicate to the contracting parties concerned a time schedule for such negotiations.

(b) Contracting parties shall commence the negotiations provided for in sub-paragraph (a) of this paragraph within such period as the CONTRACTING PARTIES may prescribe and shall thereafter, unless the CONTRACTING PARTIES decide otherwise, proceed continuously with such negotiations with a view to reaching substantial agreement in accordance with the time schedule laid down by the CONTRACTING PARTIES.

(c) Upon substantial agreement being reached, the CONTRACTING PARTIES may release the applicant contracting party from the obligation referred to in sub-paragraph (a) of this paragraph or from any other relevant obligation under this Agreement, subject to such limitations as may have been agreed upon in the negotiations between the contracting parties concerned.

4. (a) If, as a result of their examination pursuant to paragraph 2(c) of this Article, the CONTRACTING PARTIES concur in any proposed measure, with or without modification, other than a measure referred to in paragraph 3(a) of this Article, which would be inconsistent with any provision of this Agreement, the CONTRACTING PARTIES may release the applicant contracting party from any obligation under such provision, subject to such limitations as they may impose.

(b) If, having regard to the provisions of paragraph 2(c) of this Article, it is established in the course of such examination that such measure is unlikely to be more restrictive of international trade than any other practicable and reasonable measure permitted under this Agreement which could be imposed without undue difficulty and that it is the one most suitable for the purpose having regard to the economics of the industry or the branch of agriculture concerned and to the current economic condition of the applicant contracting party, the CONTRACTING PARTIES shall concur in such measure and grant such release as may be required to enable such measure to be made effective.

(c) If in anticipation of the concurrence of the CONTRACTING PARTIES in the adoption of a measure concerning which notice has been given under paragraph 2 of this Article, other than a measure referred to in paragraph 3(a) of this Article, there should be an increase or threatened increase in the importations of the product or products concerned, including products which can be directly substituted therefor, so substantial as to jeopardize the plans of the applicant contracting party for the establishment, development or reconstruction of the industry or industries or branches of agriculture concerned, and if no preventive measures consistent with this Agreement can be found which seem likely to prove effective, the applicant contracting party may, after informing, and when practicable consulting with, the CONTRACTING PARTIES, adopt such other measures as the situation may require pending a determination by the CONTRACTING PARTIES, provided that such measures do not reduce imports below the level obtaining in the most

recent representative period preceding the date on which the contracting party's original notification was made under paragraph 2 of this Article.

5. (a) In the case of measures referred to in paragraph 3 of this Article, the CONTRACTING PARTIES shall, at the earliest opportunity but ordinarily within fifteen days after receipt of the statement referred to in paragraph 2(a) of this Article, advise the applicant contracting party of the date by which they will notify it whether or not they concur in principle in the proposed measure, with or without modification.

(b) In the case of measures referred to in paragraph 4 of this Article, the CONTRACTING PARTIES shall, as in sub-paragraph (a) of this paragraph, advise the applicant contracting party of the date by which they will notify it whether or not it is released from such obligation or obligations as may be relevant; Provided that, if the applicant contracting party does not receive a final reply by the date fixed by the CONTRACTING PARTIES, it may, after communicating with the CONTRACTING PARTIES, institute the proposed measure upon the expiration of a further thirty days from such date.

6. Any contracting party may maintain any non-discriminatory measure, in force on September 1, 1947, which has been imposed for the establishment, development or reconstruction of particular industries or particular branches of agriculture and which is not otherwise permitted by this Agreement; Provided that any such contracting party shall have notified the other contracting parties, not later than October 10, 1947, of each product on which any such existing measure is to be maintained and of the nature and purpose of such measure. Any contracting party maintaining any such

measure shall, within sixty days of becoming a contracting party, notify the CONTRACTING PARTIES of the measure concerned, the considerations in support of its maintenance and the period for which it wishes to maintain the measure. The CONTRACTING PARTIES shall, as soon as possible but in any case within twelve months from the day on which such contracting party becomes a contracting party, examine and give a decision concerning the measure as if it had been submitted to the CONTRACTING PARTIES for their concurrence under the provisions of the preceding paragraphs of this Article. The CONTRACTING PARTIES, in making a decision under this paragraph specifying a date by which any modification in or withdrawal of the measure is to be made, shall have regard to the possible need of a contracting party for a suitable period of time in which to make such modification or withdrawal.

7. The provisions of paragraph 6 of this Article shall not apply, in respect of any contracting party, to any product described in the appropriate Schedule annexed to this Agreement.

Article XIX

Emergency Action on Imports of Particular Products

1. (a) If, as a result of unforeseen developments and of the effect of the obligations incurred by a contracting party under this Agreement, including tariff concessions, any product is being imported into the territory of that contracting party in such increased quantities and under such conditions as to cause or threaten serious injury to domestic producers in that territory of like or directly competitive products, the contracting party shall be free, in respect of such product, and to the extent and

for such time as may be necessary to prevent or remedy such injury, to suspend the obligation in whole or in part or to withdraw or modify the concession.

(b) If any product, which is the subject of a concession with respect to a preference, is being imported into the territory of a contracting party in the circumstances set forth in sub-paragraph (a) of this paragraph, so as to cause or threaten serious injury to domestic producers of like or directly competitive products in the territory of a contracting party which receives or received such preference, the importing contracting party shall be free, if that other contracting party so requests, to suspend the relevant obligation in whole or in part or to withdraw or modify the concession in respect of the product, to the extent and for such time as may be necessary to prevent or remedy such injury.

2. Before any contracting party shall take action pursuant to the provisions of paragraph 1 of this Article, it shall give notice in writing to the CONTRACTING PARTIES as far in advance as may be practicable and shall afford the CONTRACTING PARTIES and those contracting parties having a substantial interest as exporters of the product concerned an opportunity to consult with it in respect of the proposed action. When such notice is given in relation to a concession with respect to a preference, the notice shall name the contracting party which has requested the action. In critical circumstances, where delay would cause damage which it would be difficult to repair, action under paragraph 1 of this Article may be taken provisionally without prior consultation, on the condition that consultation shall be effected immediately after taking such action.

3. (a) If agreement among the interested contracting parties with respect to the action is not reached, the contracting party which proposes to take or continue the action shall, nevertheless, be free to do so, and if such action is taken or continued, the affected contracting parties shall then be free, not later than ninety days after such action is taken, to suspend, upon the expiration of thirty days from the day on which written notice of such suspension is received by the CONTRACTING PARTIES, the application to the trade of the contracting party taking such action, or, in the case envisaged in paragraph 1(b) of this Article, to the trade of the contracting party requesting such action, of such substantially equivalent obligations or concessions under this Agreement the suspension of which the CONTRACTING PARTIES do not disapprove.

(b) Notwithstanding the provisions of sub-paragraph (a) of this paragraph, where action is taken under paragraph 2 of this Article without prior consultation and causes or threatens serious injury in the territory of a contracting party to the domestic producers of products affected by the action, that contracting party shall, where delay would cause damage difficult to repair, be free to suspend, upon the taking of the action and throughout the period of consultation, such obligations or concessions as may be necessary to prevent or remedy the injury.

Article XX

General Exceptions

Subject to the requirement that such measures are not applied in a manner which would consitute a means of arbitrary or unjustifiable discrimination between countries where the same

conditions prevail, or a disguised restriction on international trade, nothing in this Agreement shall be construed to prevent the adoption or enforcement by any contracting party of measures:

I. (a) necessary to protect public morals;

(b) necessary to protect human, animal or plant life or health;

(c) relating to the importation or exportation of gold or silver;

(d) necessary to secure compliance with laws or regulations which are not inconsistent with the provisions of this Agreement, including those relating to customs enforcement, the enforcement of monopolies operated under paragraph 4 of Article II and Article XVII, the protection of patents, trade marks and copyrights, and the prevention of deceptive practices;

(e) relating to the products of prison labour;

(f) imposed for the protection of national treasures of artistic, historic or archaeological value;

(g) relating to the conservation of exhaustible natural resources if such measures are made effective in conjunction with restrictions on domestic production or consumption;

(h) undertaken in pursuance of obligations under intergovernmental commodity agreements, conforming to the principles approved by the Economic and Social Council of the United Nations in its Resolution of March 28, 1947, establishing an Interim Co-ordinating Committee for International Commodity Arrangements; [1] or

[1] [United Nations. *Resolutions adopted by the Economic and Social Council during its Fourth Session from 28 February to 29 March 1947*, p. 3. Lake Success.]

(i) involving restrictions on exports of domestic materials necessary to assure essential quantities of such materials to a domestic processing industry during periods when the domestic price of such materials is held below the world price as part of a governmental stabilization plan; Provided that such restrictions shall not operate to increase the exports of or the protection afforded to such domestic industry, and shall not depart from the provisions of this Agreement relating to non-discrimination;

II. (a) essential to the acquisition or distribution of products in general or local short supply; Provided that any such measures shall be consistent with any multilateral arrangements directed to an equitable international distribution of such products or, in the absence of such arrangements, with the principle that all contracting parties are entitled to an equitable share of the international supply of such products;

(b) essential to the control of prices by a contracting party undergoing shortages subsequent to the war; or

(c) essential to the orderly liquidation of temporary surpluses of stocks owned or controlled by the government of any contracting party or of industries developed in the territory of any contracting party owing to the exigencies of the war which it would be uneconomic to maintain in normal conditons; Provided that such measures shall not be instituted by any contracting party except after consultation with other interested contracting parties with a view to appropriate international action.

Measures instituted or maintained under part II of this Article which are inconsistent with the other provisions of this Agreement shall be removed as soon as the conditions giving rise to them have ceased, and in any event not later than January 1, 1951; Provided that this period may, with the concurrence of the CONTRACTING PARTIES, be extended in respect of the application of any particular measure to any particular product by any particular contracting party for such further periods as the CONTRACTING PARTIES may specify.

Article XXI

Security Exceptions

Nothing in this Agreement shall be construed

(a) to require any contracting party to furnish any information the disclosure of which it considers contrary to its essential security interests; or

(b) to prevent any contracting party from taking any action which it considers necessary for the protection of its essential security interests

(i) relating to fissionable materials or the materials from which they are derived;

(ii) relating to the traffic in arms, ammunition and implements of war and to such traffic in other goods and materials as is carried on directly or indirectly for the purpose of supplying a military establishment;

(iii) taken in time of war or other emergency in international relations; or

(c) to prevent any contracting party from taking any action in pursuance of its obligations under the United Nations Charter [1] for the maintenance of international peace and security.

[1] [59 Stat. 1031.]

Article XXII

Consultation

Each contracting party shall accord sympathetic consideration to, and shall afford adequate opportunity for consultation regarding, such representations as may be made by any other contracting party with respect to the operation of customs regulations and formalities, anti-dumping and countervailing duties, quantitative and exchange regulations, subsidies, state-trading operations, sanitary laws and regulations for the protection of human, animal or plant life or health, and generally all matters affecting the operation of this Agreement.

Article XXIII

Nullification or Impairment

1. If any contracting party should consider that any benefit accruing to it directly or indirectly under this Agreement is being nullified or impaired or that the attainment of any objective of the Agreement is being impeded as the result of (a) the failure of another contracting party to carry out its obligations under this Agreement, or (b) the application by another contracting party of any measure, whether or not it conflicts with the provisions of this Agreement, or (c) the existence of any other situation, the contracting party may, with a view to the satisfactory adjustment of the matter, make written representations or proposals to the other contracting party or parties which it considers to be concerned. Any contracting party thus approached shall give sympathetic consideration to the representations or proposals made to it.

2. If no satisfactory adjustment is effected between the contracting parties concerned within a reasonable time, or if the difficulty is of the type described in paragraph 1 (c) of this Article, the matter may be referred to the CONTRACTING PARTIES. The CONTRACTING

PARTIES shall promptly investigate any matter so referred to them and shall make appropriate recommendations to the contracting parties which they consider to be concerned, or give a ruling on the matter, as appropriate. The CONTRACTING PARTIES may consult with contracting parties, with the Economic and Social Council of the United Nations and with any appropriate inter-governmental organization in cases where they consider such consultation necessary. If the CONTRACTING PARTIES consider that the circumstances are serious enough to justify such action, they may authorize a contracting party or parties to suspend the application to any other contracting party or parties of such obligations or concessions under this Agreement as they determine to be appropriate in the circumstances. If the application to any contracting party of any obligation or concession is in fact suspended, that contracting party shall then be free, not later than sixty days after such action is taken, to advise the Secretary-General of the United Nations in writing of its intention to withdraw from this Agreement and such withdrawal shall take effect upon the expiration of sixty days from the day on which written notice of such withdrawal is received by him.

PART III

Article XXIV

Territorial Application - Frontier Traffic - Customs Unions

1. The rights and obligations arising under this Agreement shall be deemed to be in force between each and every territory which is a separate customs territory and in respect of which this Agreement has been accepted under Article XXVI or is being applied under the Protocol of Provisional Application. [1]

2. The provisions of this Agreement shall not be construed to prevent:

(a) advantages accorded by any contracting party to adjacent countries in order to facilitate frontier traffic;

(b) the formation of a customs union or the adoption of an interim agreement necessary for the attainment of a customs union; Provided that the duties and other regulations of commerce imposed by, or any margin of preference maintained by, any such union or agreement in respect of trade with other contracting parties shall not on the whole be higher or more stringent than the average level of the duties and regulations of commerce or margins of preference applicable in the constituent territories prior to the formation of such union or the adoption of such agreement; and Provided further that any such interim agreement shall include a definite plan and schedule for the attainment of such a customs union within a reasonable length of time.

3. (a) Any contracting party proposing to enter into a customs union shall consult with the CONTRACTING PARTIES and shall make available to them such information regarding the proposed union as will enable them to make such reports and recommendations to contracting parties as may be deemed appropriate.

[1] [61 Stat., Pt. 6, p. A2051.]

(b) No contracting party shall institute or maintain any interim agreement under the provisions of paragraph 2 (b) of this Article if, after a study of the plan and schedule proposed in such agreement, the CONTRACTING PARTIES find that such agreement is not likely to result in such a customs union within a reasonable length of time.

(c) The plan or schedule shall not be substantially altered without consultation with the CONTRACTING PARTIES.

4. For the purposes of this Article a customs territory shall be understood to mean any territory with respect to which separate tariffs or other regulations of commerce are maintained for a substantial part of the trade of such territory with other territories. A customs union shall be understood to mean the substitution of a single customs territory for two or more customs territories, so that all tariffs and other restrictive regulations of commerce as between the territories of members of the union are substantially eliminated and substantially the same tariffs and other regulations of commerce are applied by each of the members of the union to the trade of territories not included in the union.

5. Taking into account the exceptional circumstances arising out of the establishment of India and Pakistan as independent states and recognizing the fact that they have long constituted an economic unit, the contracting parties agree that the provisions of this Agreement shall not prevent the two countries from entering into special arrangements with respect to the trade between them, pending the establishment of their mutual trade relations on a definitive basis. [1]

6. Each contracting party shall take such reasonable measures

[1] [*Post*, p. A89.]

as may be available to it to assure observance of the provisions of this Agreement by the regional and local governments and authorities within its territory.

Article XXV

Joint Action by the Contracting Parties

1. Representatives of the contracting parties shall meet from time to time for the purpose of giving effect to those provisions of this Agreement which involve joint action and, generally, with a view to facilitating the operation and furthering the objectives of this Agreement. Wherever reference is made in this Agreement to the contracting parties acting jointly they are designated as the CONTRACTING PARTIES.

2. The Secretary-General of the United Nations is requested to convene the first meeting of the CONTRACTING PARTIES which shall take place not later than March 1, 1948.

3. Each contracting party shall be entitled to have one vote at all meetings of the CONTRACTING PARTIES.

4. Except as otherwise provided for in this Agreement, decisions of the CONTRACTING PARTIES shall be taken by a majority of the votes cast.

5. In exceptional circumstances not elsewhere provided for in this Agreement, the CONTRACTING PARTIES may waive an obligation imposed upon a contracting party by this Agreement; Provided that any such decision shall be approved by a two-thirds majority of the votes cast and that such majority shall comprise more than half of the contracting parties. The CONTRACTING PARTIES may also by such a vote

(a) define certain categories of exceptional circumstances to which other voting requirements shall apply for the waiver of obligations, and

(b) prescribe such criteria as may be necessary for the application of this paragraph.

Article XXVI

Acceptance, Entry into Force and Registration

1. The present Agreement shall bear the date of the signature of the Final Act adopted at the conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment [1] and shall be open to acceptance by any government signatory to the Final Act.

2. This Agreement, done in a single English original and in a single French original, both texts authentic, shall be deposited with the Secretary-General of the United Nations, who shall furnish certified copies thereof to all interested governments.

3. Each government accepting this Agreement shall deposit an instrument of acceptance with the Secretary-General of the United Nations, who will inform all interested governments of the date of deposit of each instrument of acceptance and of the day on which this Agreement enters into force under paragraph 5 of this Article.

4. Each government accepting this Agreement does so in respect of its metropolitan territory and of the other territories for which it has international responsibility; Provided that it may at the time of acceptance declare that any separate customs territory for which it has international responsibility possesses full autonomy in the conduct of its external commercial relations and of the other matters provided for in this Agreement, and that its acceptance does not relate to such territory; and Provided further that if any of the customs territories on behalf of which a contracting party has accepted this Agreement possesses or acquires full autonomy in the conduct of its external commercial relations and of the other matters provided for in this Agreement,

[1] [*Ante*, p. A7.]

such territory shall, upon sponsorship through a declaration by the responsible contracting party establishing the above-mentioned fact, be deemed to be a contracting party. [1]

5. (a) This Agreement shall enter into force, as among the governments which have accepted it, on the thirtieth day following the day on which instruments of acceptance have been deposited with the Secretary-General of the United Nations on behalf of governments signatory to the Final Act the territories of which account for eighty-five per centum of the total external trade of the territories of the signatories to the Final Act adopted at the conclusion of the Second Session of the Preparatory Committee of the United Nations Conference on Trade and Employment. Such percentage shall be determined in accordance with the table set forth in Annex H. [2] The instrument of acceptance of each other government signatory to the Final Act shall take effect on the thirtieth day following the day on which such instrument is deposited.

(b) Notwithstanding the provisions of sub-paragraph (a) of this paragraph, this Agreement shall not enter into force under this paragraph until any agreement necessary under the provisions of paragraph 2 (a) of Article XXIX has been reached.

6. The United Nations is authorized to effect registration of this Agreement as soon as it enters into force.

Article XXVII

Withholding or Withdrawal of Concessions

Any contracting party shall at any time be free to withhold or to withdraw in whole or in part any concession, provided for in the appropriate Schedule annexed to this Agreement, in respect of which such contracting party determines that it was initially

[1] [*Post*, p. A90.]
[2] [*Post*, p. A84.]

negotiated with a government which has not become, or has ceased to be, a contracting party. The contracting party taking such action shall give notice to all other contracting parties and, upon request, consult with the contracting parties which have a substantial interest in the product concerned.

Article XXVIII

Modification of Schedules

1. On or after January 1, 1951, any contracting party may, by negotiation and agreement with any other contracting party with which such treatment was initially negotiated, and subject to consultation with such other contracting parties as the CONTRACTING PARTIES determine to have a substantial interest in such treatment, modify, or cease to apply, the treatment which it has agreed to accord under Article II to any product described in the appropriate Schedule annexed to this Agreement. In such negotiations and agreement, which may include provision for compensatory adjustment with respect to other products, the contracting parties concerned shall endeavour to maintain a general level of reciprocal and mutually advantageous concessions not less favourable to trade than that provided for in the present Agreement.

2. (a) If agreement between the contracting parties primarily concerned cannot be reached, the contracting party which proposes to modify or cease to apply such treatment shall, nevertheless, be free to do so, and if such action is taken the contracting party with which such treatment was initially negotiated, and the other contracting parties determined under paragraph 1 of this Article to have a substantial interest, shall then be free, not later than six months after such action is taken, to withdraw, upon the expiration of thirty days from the day on which written notice of such withdrawal is received by the CONTRACTING PARTIES,

substantially equivalent concessions initially negotiated with the contracting party taking such action.

(b) If agreement between the contracting parties primarily concerned is reached but any other contracting party determined under paragraph 1 of this Article to have a substantial interest is not satisfied, such other contracting party shall be free, not later than six months after action under such agreement is taken, to withdraw, upon the expiration of thirty days from the day on which written notice of such withdrawal is received by the CONTRACTING PARTIES, substantially equivalent concessions initially negotiated with a contracting party taking action under such agreement.

Article XXIX

Relation of this Agreement to the Charter for an International Trade Organization

1. The contracting parties, recognizing that the objectives set forth in the preamble of this Agreement can best be attained through the adoption, by the United Nations Conference on Trade and Employment, of a Charter leading to the creation of an International Trade Organization, undertake, pending their acceptance of such a Charter in accordance with their constitutional procedures, to observe to the fullest extent of their executive authority the general principles of the Draft Charter submitted to the Conference by the Preparatory Committee.

2. (a) On the day on which the Charter of the International Trade Organization enters into force, Article I and Part II of this Agreement shall be suspended and superseded by the corresponding provisions of the Charter; Provided that within sixty days of the closing of the United Nations Conference on Trade and Employment any contracting party may lodge with the other contracting parties an objection to any provision or

provisions of this Agreement being so suspended and superseded; in such case the contracting parties shall, within sixty days after the final date for the lodging of objections, confer to consider the objection in order to agree whether the provisions of the Charter to which objection has been lodged, or the corresponding provisions of this Agreement in its existing form or any amended form, shall apply.

(b) The contracting parties will also agree concerning the transfer to the International Trade Organization of their functions under Article XXV.

3. If any contracting party has not accepted the Charter when it has entered into force, the contracting parties shall confer to agree whether, and if so in what way, this Agreement, insofar as it affects relations between the contracting party which has not accepted the Charter and other contracting parties, shall be supplemented or amended.

4. During the month of January 1949, should the Charter not have entered into force, or at such earlier time as may be agreed if it is known that the Charter will not enter into force, or at such later time as may be agreed if the Charter ceases to be in force, the contracting parties shall meet to agree whether this Agreement shall be amended, supplemented or maintained.

5. The signatories of the Final Act which are not at the time contracting parties shall be informed of any objection lodged by a contracting party under the provisions of paragraph 2 of this Article and also of any agreement which may be reached between the contracting parties under paragraphs 2, 3 or 4 of this Article.

Article XXX

Amendments

1. Except where provision for modification is made elsewhere in this Agreement, amendments to the provisions of Part I of this Agreement or to the provisions of Article XXIX or of this Article shall become effective upon acceptance by all the contracting parties, and other amendments to this Agreement shall become effective, in respect of those contracting parties which accept them, upon acceptance by two-thirds of the contracting parties and thereafter for each other contracting party upon acceptance by it.

2. Any contracting party accepting an amendment to this Agreement shall deposit an instrument of acceptance with the Secretary-General of the United Nations within such period as the CONTRACTING PARTIES may specify. The CONTRACTING PARTIES may decide that any amendment made effective under this Article is of such a nature that any contracting party which has not accepted it within a period specified by the CONTRACTING PARTIES shall be free to withdraw from this Agreement, or to remain a contracting party with the consent of the CONTRACTING PARTIES.

Article XXXI

Withdrawal

Without prejudice to the provisions of Article XXIII or of paragraph 2 of Article XXX, any contracting party may, on or after January 1, 1951, withdraw from this Agreement, or may separately withdraw on behalf of any of the separate customs territories for which it has international responsibility and which at the time possesses full autonomy in the conduct of its external commercial relations and of the other matters provided for in this Agreement,

The withdrawal shall take effect on or after January 1, 1951, upon the expiration of six months from the day on which written notice of withdrawal is received by the Secretary-General of the United Nations.

Article XXXII

Contracting Parties

1. The contracting parties to this Agreement shall be understood to mean those governments which are applying the provisions of this Agreement under Article XXVI or pursuant to the Protocol of Provisional Application. [1]

2. At any time after the entry into force of this Agreement pursuant to paragraph 5 of Article XXVI, those contracting parties which have accepted this Agreement pursuant to paragraph 3 of Article XXVI may decide that any contracting party which has not so accepted it shall cease to be a contracting party.

Article XXXIII

Accession

A government not party to this Agreement, or a government acting on behalf of a separate customs territory possessing full autonomy in the conduct of its external commercial relations and of the other matters provided for in this Agreement, may accede to this Agreement, on its own behalf or on behalf of that territory, on terms to be agreed between such government and the contracting parties.

Article XXXIV

Annexes

The annexes to this Agreement are hereby made an integral part of this Agreement.

ANNEX A

LIST OF TERRITORIES REFERRED TO IN PARAGRAPH 2 (a) OF ARTICLE I

United Kingdom of Great Britain and Northern Ireland

Dependent territories of the United Kingdom of Great Britain and Northern Ireland

Canada

Commonwealth of Australia

Dependent territories of the Commonwealth of Australia

New Zealand

Dependent territories of New Zealand

Union of South Africa including South West Africa

Ireland

India (as on April 10, 1947)

Newfoundland

Southern Rhodesia

Burma

Ceylon

Certain of the territories listed above have two or more preferential rates in force for certain products. Any such territory may, by agreement with the other contracting parties which are principal suppliers of such products at the most-favoured-nation rate, substitute for such preferential rates a single preferential rate which shall not on the whole be less favourable to suppliers at the most-favoured-nation rate than the preferences in force prior to such substitution.

The imposition of an equivalent margin of tariff preference to replace a margin of preference in an internal tax existing on April 10, 1947, exclusively between two or more of the territories listed in this Annex or to replace the preferential quantitative arrangements described in the following paragraph, shall not be deemed to constitute an increase in a margin of tariff preference.

The preferential arrangements referred to in paragraph 5 (b) of Article XIV are those existing in the United Kingdom on April 10, 1947, under contractual agreements with the Governments of Canada, Australia and New Zealand, in respect of chilled and frozen beef and veal, frozen mutton and lamb, chilled and frozen pork, and bacon. It is the intention, without prejudice to any action taken under part I (h) of Article XX, that these arrangements shall be eliminated or replaced by tariff preferences, and that negotiations to this end shall take place as soon as practicable among the countries substantially concerned or involved.

The film hire tax in force in New Zealand on April 10, 1947, shall, for the purposes of this Agreement, be treated as a customs duty under Article I. The renters' film quota in force in New Zealand on April 10, 1947, shall, for the purposes of this Agreement, be treated as a screen quota under Article IV.

ANNEX I

INTERPRETATIVE NOTES

ad Article I

Paragraph 1

The obligations incorporated in paragraph 1 of Article I by reference to paragraphs 1 and 2 of Article III and those incorporated in paragraph 2 (b) of Article II by reference to Article VI shall be considered as falling within Part II for the purposes of the Protocol of Provisional Application. [1]

Paragraph 3

The term "margin of preference" means the absolute difference between the most-favoured-nation rate of duty and the preferential rate of duty for the like product, and not the proportionate relation between those rates. As examples:

1.) If the most-favoured-nation rate were 36 per cent ad valorem and the preferential rate were 24 per cent ad valorem, the margin of preference would be 12 per cent ad valorem, and not one-third of the most-favoured-nation rate;

2.) If the most-favoured-nation rate were 36 per cent ad valorem and the preferential rate were expressed as two-thirds of the most-favoured-nation rate, the margin of preference would be 12 per cent ad valorem;

3.) If the most-favoured-nation rate were 2 francs per kilogram and the preferential rate were 1.50 francs per kilogram, the margin of preference would be 0.50 francs per kilogram.

The following kinds of customs action, taken in accordance with established uniform procedures, would not be contrary to a general binding of margins of preference:

(i) the re-application to an imported product of a tariff classification or rate of duty, properly applicable to such product, in cases in which the application of such classification or rate to such product was temporarily suspended or inoperative on April 10, 1947; and

(ii) the classification of a particular product under a tariff item other than that under which importations of that product were classified on April 10, 1947, in cases in which the tariff law clearly contemplates that such product may be classified under more than one tariff item.

ad Article II

Paragraph 2 (b)

See the note relating to paragraph 1 of Article I.

Paragraph 4

Except where otherwise specifically agreed between the contracting parties which initially negotiated the concession, the provisions of this paragraph will be applied in the light of the provisions of Article 31 of the Draft Charter referred to in Article XXIX of this Agreement.

ad Article V

Paragraph 5

With regard to transportation charges, the principle laid down in paragraph 5 refers to like products being transported on the same route under like conditions.

ad Article VI

Paragraph 1

Hidden dumping by associated houses (that is, a sale by an importer at a price below that corresponding to the price invoiced by an exporter with whom the importer is associated, and also below the price in the exporting country) constitutes a form of price dumping.

Paragraph 2

Multiple currency practices can in certain circumstances constitute a subsidy to exports which may be met by countervailing duties under paragraph 2 or can constitute a form of dumping by means of a partial depreciation of a country's currency which may be met by action under paragraph 1 of this Article. By "multiple currency practices" is meant practices by governments or sanctioned by governments.

Paragraph 7

The obligations set forth in paragraph 7, as in the case of other obligations under this Agreement, are subject to the provisions of Article XIX.

ad Article VII

Paragraph 1

Consideration was given to the desirability of replacing the words "at the earliest practicable date" by a definite date or, alternatively, by a provision for a specified limited period to be fixed later. It was appreciated that it would not be possible for all contracting parties to give effect to these principles by a fixed time, but it was nevertheless understood that a majority of the contracting parties would give effect to them at the time the Agreement enters into force.

Paragraph 2

It would be in conformity with Article VII to presume that "actual value" may be represented by the invoice price, plus any non-included charges for legitimate costs which are proper elements of "actual value" and plus any abnormal discount or other reduction from the ordinary competitive price.

It would be in conformity with Article VII, paragraph 2 (b), for a contracting party to construe the phrase "in the ordinary course of trade", read in conjunction with "under fully competitive conditions", as excluding any transaction wherein the buyer and seller are not independent of each other and price is not the sole consideration.

The prescribed standard of "fully competitive conditions" permits contracting parties to exclude from consideration distributors' prices which involve special discounts limited to exclusive agents.

The wording of sub-paragraphs (a) and (b) permits a contracting party to assess duty uniformly either (1) on the basis of a particular exporter's prices of the imported merchandise, or (2) on the basis of the general price level of like merchandise.

ad Article VIII

While Article VIII does not cover the use of multiple rates of exchange as such, paragraphs 1 and 4 condemn the use of exchange taxes or fees as a device for implementing multiple currency practices; if, however, a contracting party is using multiple currency exchange fees for balance-of-payments reasons with the approval of the International Monetary Fund, the provisions of paragraph 2 fully safeguard its position since that paragraph merely requires that the fees be eliminated at the earliest practicable date.

ad Article XI

Paragraph 2 (c)

The term "in any form" in this paragraph covers the same products when in an early stage of processing and still perishable, which compete directly with the fresh product and if freely imported would tend to make the restriction on the fresh product ineffective.

Paragraph 2, last sub-paragraph

The term "special factors" includes changes in relative productive efficiency as between domestic and foreign producers, or as between different foreign producers, but not changes artificially brought about by means not permitted under the Agreement.

ad Article XII

Paragraph 3 (b) (i)

The phrase "notwithstanding the provisions of paragraph 2 of

this Article" has been included in the text to make it quite clear that a contracting party's import restrictions otherwise "necessary" within the meaning of paragraph 2 (a) shall not be considered unnecessary on the ground that a change in domestic policies as referred to in the text could improve a contracting party's monetary reserve position. The phrase is not intended to suggest that the provisions of paragraph 2 are affected in any other way.

Consideration was given to the special problems that might be created for contracting parties which, as a result of their programmes of full employment, maintenance of high and rising levels of demand and economic development, find themselves faced with a high level of demand for imports, and in consequence maintain quantitative regulation of their foreign trade. It was considered that the present text of Article XII together with the provision for export controls in certain parts of the Agreement, e.g. in Article XX, fully meet the position of these economies.

ad Article XIII

Paragraph 2 (d)

No mention was made of "commercial considerations" as a rule for the allocation of quotas because it was considered that its application by governmental authorities might not always be practicable. Moreover, in cases where it is practicable, a contracting party could apply these considerations in the process of seeking agreement, consistently with the general rule laid down in the opening sentence of paragraph 2.

Paragraph 4

See note relating to "special factors" in connection with the last sub-paragraph of paragraph 2 of Article XI.

ad Article XIV

Paragraph 3

It was not considered necessary to make express reference in paragraph 3 to the need for the CONTRACTING PARTIES to consult with the International Monetary Fund, since such consultation in all appropriate cases was already required by virtue of the provisions of paragraph 2 of Article XV.

Paragraph 6 (b)

Suspension of any measure for a period of fifteen days would be for the purpose of making the consultation effective, and among the special circumstances which would justify such suspension would be the immediate damage caused to producers of perishable commodities ready for shipment or to consumers of essential goods of which the importing country had no stocks.

ad Article XV

Paragraph 4

The word "frustrate" is intended to indicate, for example, that infringements of the letter of any Article of this Agreement

by exchange action shall not be regarded as a violation of that Article if, in practice, there is no appreciable departure from the intent of the Article. Thus, a contracting party which, as part of its exchange control operated in accordance with the Articles of Agreement of the International Monetary Fund, [1] requires payment to be received for its exports in its own currency or in the currency of one or more members of the International Monetary Fund will not thereby be deemed to contravene Article XI or Article XIII. Another example would be that of a contracting party which specifies on an import licence the country from which the goods may be imported, for the purpose not of introducing any additional element of discrimination in its import licensing system but of enforcing permissible exchange controls.

ad ARTICLE XVII

Paragraph 1

The operations of Marketing Boards, which are established by contracting parties and are engaged in purchasing or selling, are subject to the provisions of sub-paragraphs (a) and (b).

The activities of Marketing Boards which are established by contracting parties and which do not purchase or sell but lay down regulations covering private trade are governed by the relevant Articles of this Agreement.

The charging by a state enterprise of different prices for its sales of a product in different markets is not precluded by the provisions of this Article, provided that such different prices are charged for commercial reasons, to meet conditions of supply and demand in export markets.

Paragraph 1 (a)

Governmental measures imposed to ensure standards of quality and efficiency in the operation of external trade, or privileges granted for the exploitation of national natural resources but which do not empower the government to exercise control over the trading activities of the enterprise in question, do not constitute "exclusive or special privileges".

Paragraph 1 (b)

A country receiving a "tied loan" is free to take this loan into account as a "commercial consideration" when purchasing requirements abroad.

Paragraph 2

The term "goods" is limited to products as understood in commercial practice, and is not intended to include the purchase or sale of services.

ad ARTICLE XXIV

Paragraph 5

Measures adopted by India and Pakistan in order to carry out definitive trade arrangements between them, once they have been

[1] [60 Stat. 1401.]

agreed upon, might depart from particular provisions of this Agreement, but these measures would in general be consistent with the objectives of the Agreement.

ad ARTICLE XXVI

Territories for which the contracting parties have international responsibility do not include areas under military occupation.

FINAL NOTE

The applicability of the General Agreement on Tariffs and Trade to the trade of contracting parties with the areas under military occupation has not been dealt with and is reserved for further study at an early date. Meanwhile, nothing in this Agreement shall be taken to prejudge the issues involved. This, of course, does not affect the applicability of the provisions of Articles XXII and XXIII to matters arising from such trade.

Free, subject to the provisions of paragraph 3 of Article I of this Agreement, in the event that the most-favored-nation rate on any such product is modified.

GENERAL NOTES

1 - Products described in Part II of this Schedule shall upon importation into the Republic of Cuba be exempt from payment of the 20 percent surtax of duty established by Fiscal Emergency Law No. 28, of September 8, 1941, with the exception of products classified under Sub-items 10-D, 11-C, 82-A, 260-B and 321-B. There shall also be exempt from payment of this surtax the products classified under Sub-items 102-C and 216-A, and under Items 254 and 299, which are not included in Part II of this Schedule.

SCHEDULE IX - CUBA

General Notes (concluded)

II - The rate of the Public Works surtax established by Decree 2296, of August 30, 1934, shall not exceed 3% in respect of products described in Part II of this Schedule, which are classified under Tariff Items Nos. 34-B, 143-B, 143-C, 207-H, 207-I, 211-D, 302-B, 302-C and 323.

III - The customs tariff tare system established under Provision Third of the Arancel de Aduanas de la Republica de Cuba, in its Rules First to Fourteenth, applicable to the Items included in this Schedule, shall remain in force as set forth in said Provision, except as expressly modified in Part I and Part II of this Schedule.

IV - Except as otherwise provided in Part II of this Schedule, the "notes" relating to the products therein described (except for the "not negotiated" items) which now appear in the Arancel de Aduanas de la Republica de Cuba, shall be considered an integral part of Part II of this Schedule.

V - Whenever the term "not negotiated" appears in the "rate of duty" column of Part I or of Part II of this Schedule, it is to be understood that the Item or Sub-item in question has been inserted only because of the necessity of making certain changes in its structure or nomenclature, as a result of tariff negotiations. Therefore, in regard to such Items or Sub-items, the Government of the Republic of Cuba reserves its right to change the text, as well as to maintain or modify the present rates of duty set forth in the Cuban Customs Tariff for the products comprised in such "not negotiated" Items and Sub-items.

NOTES TO SPECIFIC ITEMS

(1) Wine berries and grapes, dried, when packaged for retail sale, shall also be subject to the agreed rate of Kčs 180.- per 100 kilograms.

(2) The fees for phytopathological inspection of pears and apples, the products of the contracting parties, packed in cases, crates, and barrels, shall not be higher than Kčs 10.- per 100 kilograms.

(3) The period of three months prior to importation within which apples have to be picked in order to be eligible for the application of the conventional rate of 75.- Kčs per 100 kilograms dates back from the day of customs clearance in Czechoslovakia. The consignments of apples are to be accompanied by a certificate indicating the time of picking. The Government of the exporting country will agree with the Czechoslovak Government upon a list of names of authorities of the exporting country which will be charged with issuing the certificates.

(4) Plums, dried, when packaged for retail sale, shall also be subject to the agreed rate of Kčs 60.- per 100 kilograms.

(5) Apples and pears, both dried and unpeeled, whether whole or cut up, when packaged for retail sale, shall also be subject to the agreed rate of Kčs 50.- per 100 kilograms.

Fruit not specially provided for, dried, when packaged for retail sale, shall also be subject to the agreed rate of Kčs 100.- per 100 kilograms.

(6) Dried fruit, the products of the contracting parties, containing up to 2000 miligrams of sulphur dioxide in 1 kilogram of dried fruit, shall not be withheld from trade as harmful to health, provided it complies with other principles and regulations of the Czechoslovak Codex alimentarius, especially with regard to marking.

(7) At such time as the Food and Agriculture Organization of the United Nations finds that the situation in respect to supplies of edible fats and oils in Europe, in relation to the demand thereof, has been restored to a condition approximating that in the years immediately prior to 1938, the Government of Czechoslovakia will, upon the request of any contracting party having a substantial interest in the exportation of lard to Czechoslovakia, enter into negotiations with such contracting party with a view to reaching a mutually satisfactory agreement with respect to the treatment accorded by Czechoslovakia to imported lard.

Meanwhile, the ratio between the tariff rates on raw lard and rendered lard shall not exceed 3 to 4.

SCHEDULE X - CZECHOSLOVAKIA

PART I (Continued)

(8) Unthickened citrus fruit juices dutiable under Tariff Item 109 a) and other unthickened fruit and berry juices (except apple, raspberry and grape juices) dutiable under Tariff Item 109 b) 2. shall also be subject to the agreed rates of Kčs 200.- or Kčs 400.- respectively per 100 kilograms even when packed in hermetically sealed containers.

(9) In addition to the certificate of officially controlled appellation of origin or, as the case may be, of the certificate of origin, all wine imported into Czechoslovakia shall also be accompanied by a certificate of analysis issued by official laboratories, the list of which will be fixed of common accord between the competent authorities of both the exporting country and of Czechoslovakia.

The certificates of analysis will contain:

specific weight,
alcohol content in degrees,
content of all acids,
content of volatile acids,
content of extract,
sugar content,
content of extract without sugar,
content of ashes (mineral matters),
a declaration showing that it is a natural wine without any ingredients.

In respect of wine, subject to control of origin, it will be possible to replace the certificate of officially controlled appellation of origin by a special certificate showing the origin and quality of the product and conforming to the form mutually agreed upon by the competent authorities of the exporting country and of Czechoslovakia. This document will equally replace the certificate of analysis mentioned above.

(10) Vegetable sauces, except tomato sauce, are dutiable at the same rate as "preserved vegetables,other,except preserved tomatoes", i.e. Kčs 700.- per 100 kilograms.

(11) Boards for the manufacture of skis shall be dutiable under this Tariff Number even when sealed at both ends with paraffin etc.

(12) Under "other" essential oils are also dutiable cinnamon oil and citronella oil.

(13) Linters, freed from grease, bleached, but not shaped, shall be dutiable under T.No.180.

(14) It is agreed that the term "hemp" also covers New Zealand flax (Phormium tenax).

SCHEDULE X - CZECHOSLOVAKIA

PART I (Continued)

(15) Cuttings and other waste of leather classified under Tariff Numbers 329, 330, 333-337, shall not be considered as sorted even when they are of the same kind or of the same colour.

(16) Ferro-silicon with Si content form 40% up to 50% shall also be classified under Tar.Item 428 c) and exempt from duty.

(17) Record keeping equipment, whether insulated or not, and with or without locks, shall be subject to the agreed rate of Kčs 1300.- per 100 kilograms.

(18) Completely assembled mechanical refrigerators, even with very fine finish, on importation into Czechoslovakia, shall be classified under Tariff Number 476, at the rate of Kčs 1700.- per 100 kilograms.

(19) Electric refrigerating units are composed of an electric motor joined with a compressor fitted with a condenser. The complete unit may be equipped with an automatic electric cut-in and cut-out and with a fan and is regularly mounted on a base.

(20) The concession in respect of replacement parts of passenger automobile chassis or truck chassis is limited to single replacement parts only for the repair of passenger automobile chassis or truck chassis already imported into Czechoslovakia.

(21) Should the maintenance of the rate of duty of Kčs 40.- per kilogram on typewriters seriously affect the Czechoslovak typewriter manufacturing industry, the Government of the Czechoslovak Republic may find it necessary to invoke Article XIX of this Agreement with a view to seeking an appropriate adjustment of the rate of duty of Kčs 40.- per kilogram as provided for in that Article.

(22) Under "sound recording and reproducing devices" are understood phonographs, gramophones, dictating machines, transcribing machines and the like.

(23) It is understood that the "special permit of the Ministry of Foreign Trade" has the sole object to certify to the Czechoslovak customs authorities that the imported saltpeter, subject to the specific quota, shall be admitted duty free, and further to guarantee the necessary control and distribution by the said Ministry.

SCHEDULE X - CZECHOSLOVAKIA

PART I (Concluded)

GENERAL NOTES
